## Report of the Manager to the Unitholders

#### 30 September 2023 Annual Report

#### Introduction

BlackRock Premier Funds (the "Trust") is an umbrella unit trust established under the laws of Hong Kong, by a trust deed dated 19 July 2013 between BlackRock Asset Management North Asia Limited (the "Manager") as manager and Cititrust Limited (the "Trustee") as trustee, as amended and restated pursuant to an amended and restated trust deed dated 16 December 2019, and may be amended and/or supplemented from time to time.

The following is a listing of the sub-funds established under the Trust. Each is a separate sub-fund of the Trust and referred to individually or collectively as the "Sub-Funds".

Name of sub-fund	Date of commencement of operations
iShares Hong Kong Equity Index Fund	1 August 2013
iShares Asia ex-Japan Equity Index Fund	8 October 2014
iShares World Equity Index Fund	23 March 2017
iShares World Government Bond Index Fund	23 March 2017
BlackRock China A-Shares Unconstrained Total Return Fund	28 June 2019
China US Dollar Bond Fund	20 August 2019
BlackRock China Multi-Asset Aggressive Fund	15 April 2020
BlackRock China Multi-Asset Private Fund (formerly known as BlackRock China Multi-Asset Conservative Fund)	15 April 2020
BlackRock China Multi-Asset Moderate Fund	15 April 2020
Global Megatrend Allocation Fund	19 November 2021
Dynamic High Income Fund	13 April 2022
Systematic Global Equity High Income Fund	13 April 2022

All of the above Sub-Funds except for BlackRock China A-Shares Unconstrained Total Return Fund, BlackRock China Multi-Asset Aggressive Fund, BlackRock China Multi-Asset Private Fund (formerly known as BlackRock China Multi-Asset Conservative Fund) and BlackRock China Multi-Asset Moderate Fund have been authorised by the Securities and Futures Commission of Hong Kong (the "SFC") pursuant to section 104(1) of the Securities and Futures Ordinance.

The condensed financial statements of BlackRock China A-Shares Unconstrained Total Return Fund, BlackRock China Multi-Asset Aggressive Fund, BlackRock China Multi-Asset Private Fund (formerly known as BlackRock China Multi-Asset Conservative Fund) and BlackRock China Multi-Asset Moderate Fund were not authorized in Hong Kong and not available to the public in Hong Kong. Hence, separate financial statements are prepared for the Sub-Funds.

The annual financial statements present the financial position and performance of the following Sub-Funds for the year ended 30 September 2023: iShares Hong Kong Equity Index Fund, iShares World Equity Index Fund, iShares World Government Bond Index Fund, China US Dollar Bond Fund and Global Megatrend Allocation Fund.

The annual financial statements present the financial position and performance of the following Sub-Funds for the period from 13 April 2022 (date of commencement of operations) to 30 September 2023: Dynamic High Income Fund and Systematic Global Equity High Income Fund.

The annual financial statements present the financial position and performance of the following Sub-Fund for the period from 1 October 2022 to 19 September 2023 (date of termination): iShares Asia ex-Japan Equity Index Fund.

#### **Objectives**

#### iShares Hong Kong Equity Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF Hong Kong Index (HKD unhedged total return), the Sub-Fund's underlying index.

# <u>iShares Asia ex-Japan Equity Index Fund (This Sub-Fund has been terminated on 19 September 2023)</u>

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the FTSE MPF Asia Pacific ex-Japan, Australia & New Zealand Index (HKD hedged total return), the Sub-Fund's underlying index.

Pursuant to Clause 34.7(A) of the Trust Deed, the Manager has proposed to terminate iShares Asia ex-Japan Equity Index Fund as it believes the Sub-Fund no longer aligns with the wider investment platform and is in best interest of the investors. On 14 June 2023, the Manager issued a notice informing relevant unitholders of the termination of iShares Asia ex-Japan Equity Index Fund with effect from 19 September 2023.

#### iShares World Equity Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF All-World Index (HKD unhedged total return), the Sub-Fund's underlying index.

#### iShares World Government Bond Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF World Government Bond Index (HKD hedged total return), the Sub-Fund's underlying index.

## Report of the Manager to the Unitholders (continued)

#### 30 September 2023 Annual Report

#### China US Dollar Bond Fund

The investment objective of the Sub-Fund is to maximize total return. The Sub-Fund seeks to achieve the investment objective by investing more than 70% of its Net Asset Value in fixed income securities denominated and settled in USD, of governments and agencies of Mainland China or Chinese companies exercising the predominant part of their economic activity in Mainland China ("China USD Bonds"). The China USD Bonds are issued outside Mainland China.

#### Global Megatrend Allocation Fund

The investment objective of the Sub-Fund is to deliver a total return, which is a combination of capital growth and income, commensurate with a moderate level of risk (as measured by the Sub-Fund's annualised volatility over a 5-year period). The Sub-Fund seeks to achieve its investment objective by allocating strategically to and investing at least 70% of its Net Asset Value in equities and fixed income securities which provide exposure to long-term investment themes relevant to global Megatrends identified by the Manager (and, where applicable, the Investment Adviser).

#### Dynamic High Income Fund

The investment objective of the Sub-Fund is to follow a flexible asset allocation policy that seeks to provide a high level of income, through investing in the Dynamic High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

#### Systematic Global Equity High Income Fund

The investment objective of the Sub-Fund is to generate a high level of income, through investing in the Systematic Global Equity High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

<sup>(1)</sup> Past performance figures shown are not indicative of the future performance of the Sub-Funds.
(2) Total return represents the rate that an investor would have earned (or lost) on an investment, assuming reinvestment of all dividends and distributions. Calculated as at 30 September/19 September 2023 (date of termination). Units in the Sub-Fund are issued and redeemed at NAV. Therefore, the Sub-Fund does not publish a bid price and the Sub-Fund's returns have been calculated from NAV.

(3) An investor cannot invest directly in an index and the index performance returns do not reflect management fees, transaction costs or other expenses, which would reduce

performance returns of the Sub-Fund.

<sup>\*</sup> This is the annualised return since fund inception. Please see note 1 for inception dates.

## Report of the Trustee to the Unitholders

# Statement of Responsibilities of the Manager and the Trustee

30 September 2023 Annual Report

BlackRock Premier Funds (the "Trust") is an umbrella unit trust governed by its Trust Deed. As at 30 September 2023, the Trust has established twelve sub-funds, namely iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund, iShares World Government Bond Index Fund, China US Dollar Bond Fund, Global Megatrend Allocation Fund, Dynamic High Income Fund, Systematic Global Equity High Income Fund (Collectively the "Sub-Funds"), BlackRock China A-Shares Unconstrained Total Return Fund, BlackRock China Multi-Asset Aggressive Fund, BlackRock China Multi-Asset Private Fund (formerly known as BlackRock China Multi-Asset Conservative Fund) and BlackRock China Multi-Asset Moderate Fund. The annual report presents the financial position and performance of the Sub-Funds (other than iShares Asia ex-Japan Equity Index Fund) for the year/period ended 30 September 2023. The annual report presents the financial position and performance of iShares Asia ex-Japan Equity Index Fund for the period ended 19 September 2023 (date of termination).

#### Manager's Responsibilities

The Manager of the Sub-Funds is required by the Code on Unit Trusts and Mutual Funds issued by the Securities & Futures Commission of Hong Kong (the "SFC Code") and the Trust Deed dated 19 July 2013, as amended and restated pursuant to an amended and restated trust deed dated 16 December 2019, and may be amended and/or supplemented from time to time, (the "Trust Deed") to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Sub-Funds at the end of that period and of the transactions for the period then ended. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Sub-Funds will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Sub-Funds in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Pursuant to Clause 34.7(A) of the Trust Deed, the Manager has proposed to terminate iShares Asia ex-Japan Equity Index Fund as it believes the Sub-Fund no longer aligns with the wider investment platform and is in best interest of the investors. On 14 June 2023, the Manager issued a notice informing relevant unitholders of the termination of iShares Asia ex-Japan Equity Index Fund with effect from 19 September 2023.

#### Trustee's Responsibilities

The Trustee of the Sub-Funds is required to:

- ensure that the Sub-Funds are managed by the Manager in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- assist the Manager to ensure the Trust maintains proper books of account;
- safeguard the property of the Sub-Funds and rights attaching thereto; and
- report to the unitholders for each annual accounting period on the conduct of the Manager in the management of the Sub-Funds.

# Independent Auditor's Report To The Unitholders of BlackRock Premier Funds

30 September 2023 Annual Report

#### **Report on the Audit of the Financial Statements**

#### **Opinion**

What we have audited

The financial statements of iShares Hong Kong Equity Index Fund, iShares World Equity Index Fund, iShares World Government Bond Index Fund, China US Dollar Bond Fund and Global Megatrend Allocation Fund for the year ended 30 September 2023, iShares Asia ex-Japan Equity Index Fund for the period from 1st October 2022 to 19 September 2023 (date of termination), Dynamic High Income Fund and Systematic Global Equity High Income Fund for the period from 13 April 2022 (date of commencement of operations) to 30 September 2023 ("relevant periods") (each a separate sub-fund of BlackRock Premier Funds and referred to individually or collectively as the "Sub-Funds"), which are set out on pages 10 to 75, comprise:

- the statements of financial position as at 19 September 2023 (date of termination)/ 30 September 2023;
- the statements of comprehensive income for the relevant periods then ended;
- the statements of changes in net assets attributable to unitholders for the relevant periods then ended;
- the statements of cash flows for the relevant periods then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

#### Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of each of the Sub-Funds as at 19 September 2023 (date of termination)/ 30 September 2023, and of each of their financial transactions and each of their cash flows for the year/period then ended in accordance with International Financial Reporting Standards ("IFRSs").

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Sub-Funds in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

#### Other Information

The Trustee and the Manager (the "Management") of the Sub-Funds are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements of the Sub-Funds does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Management for the Financial Statements

The Management of the Sub-Funds is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

# Independent Auditor's Report To The Unitholders of BlackRock Premier Funds (continued)

30 September 2023 Annual Report

In preparing the financial statements, the Management of the Sub-Funds is responsible for assessing the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Funds or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Funds is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 19 July 2013, as amended ("Trust Deed") and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Funds have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements of the Sub-Funds have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Separate financial statements are prepared for these Sub-Funds.

#### **Objectives**

#### iShares Hong Kong Equity Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF Hong Kong Index (HKD unhedged total return), the Sub-Fund's underlying index.

# iShares Asia ex-Japan Equity Index Fund (This Sub-Fund has been terminated on 19 September 2023)

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the FTSE MPF Asia Pacific ex-Japan, Australia & New Zealand Index (HKD hedged total return), the Sub-Fund's underlying index.

Pursuant to Clause 34.7(A) of the Trust Deed, the Manager has proposed to terminate iShares Asia ex-Japan Equity Index Fund as it believes the Sub-Fund no longer aligns with the wider investment platform and is in best interest of the investors. On 14 June 2023, the Manager issued a notice informing relevant unitholders of the termination of iShares Asia ex-Japan Equity Index Fund with effect from 19 September 2023.

#### iShares World Equity Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF All-World Index (HKD unhedged total return), the Sub-Fund's underlying index.

#### iShares World Government Bond Index Fund

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely track the performance of the FTSE MPF World Government Bond Index (HKD hedged total return), the Sub-Fund's underlying index.

#### China US Dollar Bond Fund

The investment objective of the Sub-Fund is to maximize total return. The Sub-Fund seeks to achieve the investment objective by investing more than 70% of its Net Asset Value in fixed income securities denominated and settled in USD, of governments and agencies of Mainland China or Chinese companies exercising the predominant part of their economic activity in Mainland China ("China USD Bonds"). The China USD Bonds are issued outside Mainland China.

#### Global Megatrend Allocation Fund

The investment objective of the Sub-Fund is to deliver a total return, which is a combination of capital growth and income, commensurate with a moderate level of risk (as measured by the Sub-Fund's annualised volatility over a 5-year period). The Sub-Fund seeks to achieve its investment objective by allocating strategically to and investing at least 70% of its Net Asset Value in equities and fixed income securities which provide exposure to long-term investment themes relevant to global Megatrends identified by the Manager (and, where applicable, the Investment Adviser).

#### Dynamic High Income Fund

The investment objective of the Sub-Fund is to follow a flexible asset allocation policy that seeks to provide a high level of income, through investing in the Dynamic High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

#### Systematic Global Equity High Income Fund

The investment objective of the Sub-Fund is to generate a high level of income, through investing in the Systematic Global Equity High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

#### 2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (a) Basis of preparation

The financial statements of the Sub-Funds have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivative financial instruments) at fair value through profit or loss.

As referred to Note 1, the Manager has decided to terminate the iShares Asia ex-Japan Equity Index Fund. As a result, the financial statements of the iShares Asia ex-Japan Equity Index Fund for the period from 1 October 2022 to 19 September 2023 (date of termination) have not been prepared on a going concern basis. The Trustee and the Manager have assessed that the values of all assets and liabilities of the iShares Asia ex-Japan Equity Index Fund at the reporting date approximate their net realizable value, and therefore no changes to accounting policies or adjustments have been made in the financial statements of the iShares Asia ex-Japan Equity Index Fund in order to reflect the fact that it will be able to realize its assets or to extinguish its liabilities in the normal course of business.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Sub-Funds' accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

# <u>Standards and amendments to existing standards effective</u> <u>1 October 2022</u>

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 October 2022 that have a material effect on the financial statements of the Sub-Funds.

## New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

#### Comparatives

Certain prior year figures have now been aligned to correspond to current year presentation.

All other accounting policies applied are consistent with those of the annual financial statements for the year/period ended 30 September 2022, as described in the annual financial statements.

- (b) Foreign currency translation
- (i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Funds operate ("the functional currency").

iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund

The Management considers the Hong Kong Dollar ("HKD") as the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The HKD is the currency in which iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund measure their performance and report their results, as well as the currency in which they determine the net asset value (the "NAV") per unit at the time of issue or redemption. The financial statements of these four Sub-Funds are presented in HKD which is the Sub-Funds' functional and presentation currency.

China US Dollar Bond Fund, Global Megatrend Allocation Fund, Dynamic High Income Fund and Systematic Global Equity High Income Fund

The Management considers the United States Dollar ("USD") as the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The USD is the currency in which China US Dollar Bond Fund, Global Megatrend Allocation Fund, Dynamic High Income Fund and Systematic Global Equity High Income Fund measure their performance and report their results. The financial statements of these four Sub-Funds are presented in USD which is the Sub-Funds' functional and presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date. Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net exchange gain/(loss)".

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss".

- (c) Investments
- (i) Classification

#### Assets

The Sub-Funds classify their investments based on both the Sub-Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Sub-Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Sub-Funds' debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Sub-Funds' business model's objective.

Derivative contracts that have a positive fair value are presented as assets at fair value through profit or loss.

Consequently, all investments are measured at fair value through profit or loss.

#### Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Sub-Funds classify all of their investment portfolio as financial assets or liabilities as fair value through profit or loss.

(ii) Recognition, derecognition and measurement

Regular purchases and sales of investments are accounted for on a trade date basis — the date on which the Sub-Funds commit to purchase or sell the investments. Investments are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Funds have transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all investments are measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the investments are presented in the Statement of Comprehensive Income within "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss" in the period in which they arise.

#### (iii) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of investments traded in active markets (such as publicly traded equities and debt securities) are based on quoted market prices at the close of trading on the reporting date. The quoted market price used is the last traded market price where the last traded market price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Management will determine the point within the bid-ask spread that is more representative of fair value.

Investments which are not listed on an exchange or are thinly traded are valued by using quotes from brokers or based on the Manager's judgments and estimates. The fair value of debt securities, based on quoted market prices, includes accrued interests. The fair value of investments in investment funds that are not quoted in an active market is determined by reference to the latest available net asset value per share/unit for each investment fund, as determined by the administrator of such fund.

#### (iv) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the date of the event or change in circumstances that caused the transfer.

#### (d) Offsetting financial instruments

Financial assets and liabilities are reported on a net basis in the Statements of Financial Position where the Sub-Funds currently have a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

#### (e) Amounts due from/due to brokers

Amounts due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection. These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by the Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The amount of the provision is recognised in the Statement of Comprehensive Income. Amounts due from brokers in the Statement of Financial Position are stated net of such provisions.

#### (f) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks with original maturities of three months or less and bank overdrafts. Bank overdrafts are shown in current liabilities on the Statement of Financial Position.

#### (g) Income and expenses

#### (i) Dividend income

Dividend income is recorded on an ex-dividend basis. Dividend income on equity securities where no ex-dividend date is quoted is accounted for when the Sub-Funds' right to receive payment is established.

#### (ii) Interest income

Interest income from bank balances is recognised in the Statement of Comprehensive Income on a time proportionate basis using the effective interest method. Interest income on investments is included in the "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss" in the Statement of Comprehensive Income.

#### (iii) Other income

Other income is recognised in the Statement of Comprehensive Income on an accrual basis, which relates to rebate income on management fees incurred by the Sub-Funds or Underlying Funds.

#### (iv) Expenses

Expenses are accounted for on an accrual basis.

#### (v) Interest expenses

Interest expenses are recognized in the Statement of Comprehensive income using the effective interest method.

(vi) Transaction costs on financial assets and financial liabilities at fair value through profit or loss

Transactions costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They may include all stamp and other duties, taxes, governmental charges, brokerage commissions, exchange costs and commissions, bank charges, transfer fees and expenses, registration fees and expenses, transaction fees of the Trustee, and any other costs, charges or expenses payable in respect of the acquisition, holding and realisation of any investment. Transactions costs on financial assets and financial liabilities at fair value through profit or loss, when incurred, are immediately recognised in the Statement of Comprehensive Income as an expense.

#### (h) Taxation

#### (i) Withholding tax

The Sub-Funds currently incur withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the Statement of Comprehensive Income. Withholding tax is included under "Taxation" in the Statement of Comprehensive Income.

#### (ii) Capital gains tax

The tax expense for capital gains tax for the period comprises current and deferred taxes. Tax is recognised in the Statement of Comprehensive Income under "Taxation", except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted by the end of the reporting period in the countries where the Sub-Funds operate and generate taxable income. Management periodically evaluates positions taken with respect to situations in which applicable tax regulation is subject to interpretation or judgment. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same tax authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### (i) Redeemable units

The Sub-Funds issue three classes of units, which are redeemable at the holder's option and do not have identical features. Such units are classified as financial liabilities.

Units are issued and redeemed at the holder's option at prices calculated by reference to the Sub-Funds' net asset value per unit at the time of issue or redemption.

#### (j) Distributions to unitholders

Distributions to unitholders are recognised in the Statement of Comprehensive Income when they are approved by the Manager.

#### (k) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Funds consider all of their investments in other funds (the "Underlying Funds") to be investments in unconsolidated structured entities. The Sub-Funds invest in the Underlying Funds whose objectives range from achieving medium to long term capital growth and whose investment strategy does not include the use of leverage. The Underlying Funds finance their operations by issuing redeemable units which are puttable at the holder's option and entitle the holder to a proportional stake in the respective fund's net assets. The Sub-Funds hold redeemable units in each of the Underlying Funds.

The change in fair value of each Underlying Fund of the Sub-Funds is included in the Statement of Comprehensive Income in "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss".

#### (I) Changes to presentation and comparative information

When the presentation or classification of items in the financial statements is amended, comparative amounts have been updated to confirm with the current period's presentation or classification.

#### 3. Critical Accounting Estimates and Judgments

The preparation of financial statements in conformity with IFRS requires Management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below.

#### (a) Functional currency

Note 2(b)(i) outlines the accounting policy adopted by the Management to determine the most appropriate functional currency for each Sub-Fund.

#### (b) Fair value of securities not quoted in an active market

The fair value of such securities not quoted in an active market may be determined by Management using reputable pricing sources (such as pricing agencies). Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Management would exercise judgment and estimates on the quantity and quality of pricing sources used. Where no market data is available, Management may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The inputs into these models are primarily earning multiples and discounted cash flows. The models used to determine fair values are validated and periodically reviewed by experienced personnel at the Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require Management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The determination of what constitutes "observable" requires significant judgment by Management. Management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

#### (c) Taxation

In preparing these financial statements, Management has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

#### 4. Net Assets Attributable to Unitholders

Each unit represents a right to an individual share in the Sub-Funds and does not extend to a right to the underlying assets of the Sub-Funds. All unit classes in a Sub-Fund have the same rights and restrictions. The differences between unit classes relate to distribution structures and the obligation to pay fees to the Manager.

# 6. Transactions with Related Parties Including the Trustee, The Manager and Connected Persons

The following is a summary of significant related party transactions/transactions entered into during the year/period between the Sub-Funds and the Trustee, the Manager and their Connected Persons.

<sup>\*</sup>This sub-fund was terminated on 19 September 2023. The figures represented above have been considered for the period from 01 October 2022 to the date of termination. "This sub-fund was launched on 19 November 2021. The figures represented above have been considered from the date of commencement of operations to 30 September 2022.

These sub-funds were launched on 13 April 2022. The figures represented above have been considered from the date of commencement of operations to 30 September 2023.

Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong (the "SFC Code"). All transactions entered into during the year/period between the Sub-Funds and the Manager and its Connected Persons were carried out in the normal course of business and on normal commercial terms. To the best of the Manager's knowledge, the Sub-Funds do not have any other transactions with Connected Persons except for those disclosed below and those disclosed in note 11(f) and note 13.

#### (a) Management fee

The Manager is entitled to receive a management fee. The fee is accrued daily and calculated as at each dealing day and payable monthly in arrears. The following table discloses the annual management fee rate for each unit class of each Sub-Fund:

	Management fee per annum		er annum
	Class A	Class I	Class X
iShares Hong Kong Equity Index Fund	0.55%	0.15%	Nil
iShares Asia ex-Japan Equity Index Fund	0.55%	0.15%	Nil

Systematic Global Equity High Income Fund	1.50%	N.A.	Nil

Included in "Other Income" in the Statement of Comprehensive Income is a rebate income on management fees incurred by the Sub-Funds or Underlying Funds.

#### (b) Administration fee

The Manager is entitled to an administration fee which is used by the Manager to meet all fixed and variable operating and administrative costs and expenses incurred by the Sub-Funds as well as the registrar fee.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Sub-Funds from time to time, including but not limited to, Trustee's fees, custodian's fees, fund accounting fees, transfer agency fees (including subtransfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to unitholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the investor servicing teams and other global administration services provided by various Connected Persons of the Manager.

The administration fee is accrued daily and calculated as at each dealing day and payable monthly in arrears. The following table discloses the annual administration fee rate for each Sub-Fund:

	Administration fee per annum	
	From 1 May 2023	Prior to 1 May 2023
iShares Hong Kong Equity Index Fund	0.04%	0.06%
iShares Asia ex-Japan Equity Index Fund	0.10%	0.10%

#### 7. Taxation

#### **Hong Kong profits tax**

No provision for Hong Kong profits tax has been made for the Sub-Funds as they are authorised as collective investment schemes under Section 104 of the Hong Kong Securities and Futures Ordinance and are therefore exempt from profits tax under Section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

#### PRC capital gains tax

<u>iShares Hong Kong Equity Index Fund and iShares Asia ex-</u> <u>Japan Equity Index Fund</u>

The Sub-Funds may invest in Chinese securities (H-shares, Red Chips and P Chips) listed on the Stock Exchange of Hong Kong. Under the PRC Corporate Income Tax Law, the Sub-Funds may be liable to pay PRC tax on the capital gains realised from the trading of these securities. However, no provision was made for taxation from such gains in the financial statements as the Manager believes that the Sub-Funds can sustain a position for not filing a tax return based on the existing tax regulations and that the enforcement of such PRC tax on capital gains is not probable and/or not material.

<sup>\*</sup>This sub-fund was terminated on 19 September 2023. The figures represented above have been considered for the period from 01 October 2022 to the date of termination.

"This sub-fund was launched on 19 November 2021. The figures represented above have been considered from the date of commencement of operations to 30 September 2022.

These sub-funds were launched on 13 April 2022. The figures represented above have been considered from the date of commencement of operations to 30 September

On 14 November 2014, the Ministry of Finance, China Securities Regulatory Commission and the State Administration of Taxation, acting with State Council's approval, jointly released Circular 79, which temporarily exempts QFIIs and RQFIIs from tax on capital gains derived from the trading of shares and other equity interest investments on or after 17 November 2014. Subsequently, Circulars 81 and 127 were issued to temporarily exempt tax on capital gains derived from trading of A-Shares through the Stock Connects. The Sub-Funds no longer make provisions for capital gains derived from trading of A-shares on or after 17 November 2014.

#### 9. Soft Commission Arrangements

The Manager confirms that there has been no soft commission arrangement existing during the year/period ended 30 September 2023 and 2022 in relation to directing transactions of the Sub-Funds through a broker or dealer.

The Manager confirms that there has been no soft commission arrangement existing during the period ended 19 September 2023 (date of termination) and year ended 30 September 2022 in relation to directing transactions of the iShares Asia ex-Japan Equity Index Fund through a broker or dealer.

## 10.Investments requirements under the SFC Code and performance of Index Sub-Funds

Pursuant to the SFC Code, each of the iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund (the "Index Sub-Funds"), may invest more than 10% of its net asset value in constituent securities issued by a single issuer provided that:

- (i) It is limited to any constituent securities that each accounts for more than 10% of the weighting of the underlying index; and
- (ii) The Index Sub-Funds' holding of any such constituent securities may not exceed their respective weightings in the underlying index, except where weightings are exceeded as a result of changes in the composition of the underlying index and where the excess is only transitional and temporary in nature.

As at 30 September 2023 and 30 September 2022, in respect of the Index Sub-Funds, none of the constituent securities of the Index Sub-Funds', other than iShares Asia Ex-Japan Fund, respective underlying index accounted for more than 10% of the weighting of the relevant index.

As at 19 September 2023 (date of termination) and 30 September 2022, none of the constituent securities of iShares Asia ex-Japan Equity Index Fund's respective underlying index accounted for more than 10% of the weighting of the relevant index.

#### 11. Financial Risk Management

The investment objective of iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of their respective indices.

The investment objective of China US Dollar Bond Fund is to maximize total return. The Sub-Fund seeks to achieve the investment objective by investing more than 70% of its Net Asset Value in fixed income securities denominated and settled in USD, of governments and agencies of Mainland China or Chinese companies exercising the predominant part of their economic activity in Mainland China ("China USD Bonds"). The China USD Bonds are issued outside Mainland China.

<sup>&</sup>quot;These sub-funds were launched on 13 April 2022. The figures represented above have been considered from the date of commencement of operations to 30 September 2023

The investment objective of Global Megatrend Allocation Fund is to deliver a total return, which is a combination of capital growth and income, commensurate with a moderate level of risk (as measured by the Sub-Fund's annualised volatility over a 5-year period). The Sub-Fund seeks to achieve its investment objective by allocating strategically to and investing at least 70% of its Net Asset Value in equities and fixed income securities which provide exposure to long-term investment themes relevant to global Megatrends identified by the Manager (and, where applicable, the Investment Adviser).

The investment objective of Dynamic High Income Fund is to follow a flexible asset allocation policy that seeks to provide a high level of income, through investing in the Dynamic High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

The investment objective of Systematic Global Equity High Income Fund is to generate a high level of income, through investing in the Systematic Global Equity High Income Fund ("underlying scheme"), a sub-fund under BlackRock Global Funds, a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable) authorised by the Commission de Surveillance du Secteur Financier (CSSF). The underlying scheme is authorised by the SFC. The Sub-Fund is a feeder fund which, in seeking to achieve its investment objective, invests 90% or more of its total net asset value in the underlying scheme.

The Sub-Funds' activities may expose them to a variety of risks including but not limited to: market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Funds invest.

The following is a summary of the main risks and risk management policies.

(a) Market risk

(i) Market price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, such as the Covid-19 pandemic, recessions, or other events could have a significant impact on the Funds and its investments.

iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund are designated to track the performance of their respective indices, therefore the exposures to market risk in these Sub-Funds will be substantially the same as the tracked indices. The Manager manages the Sub-Funds' exposures to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, are closely aligned with the characteristics of the tracked indices.

As at 30 September 2023 and 2022, the Sub-Funds' investments were concentrated in the following industries and geographic region:

<sup>2022.</sup> These sub-funds were launched on 13 April 2022. The figures represented above have been considered from the date of commencement of operations to 30 September 2023.

<sup>^0.00%</sup> denotes the percentage less than 0.01%.

As at 30 September 2023 and 2022, iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund are exposed to substantially the same market price risk as their underlying indices. China US Dollar Bond Fund, Global Megatrend Allocation Fund, Dynamic High Income Fund and Systematic Global Equity High Income Fund are not managed with reference to any market index.

The summarized VaR Analysis in Note 11 (a)(ii) explains how the market risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

#### (ii) Summarised VaR Analysis

Value at Risk (VaR) is a risk model used to estimate the potential losses that could occur on the Sub-Funds' net asset value position due to movements in interest rates, currency and market prices over a given period and for a specified degree of confidence.

Management uses VaR analysis and/or tracking error estimates to measure and manage risk as these are commonly used and understood models and are consistent across different types, asset classes and types of funds. For the purpose of these financial statements VaR analysis has been presented. The objective in all cases is to estimate potential losses and manage the downside risk.

The following table summarises the outputs of the VaR model in relation to interest rate, currency and price risk exposures. The total VaR figures are not the sum of individual risk components as VaR takes into account the correlations between different risk factors.

Management calculates the VaR relative to the Sub-Fund's total value. The analysis implies that the Manager can be 99% confident that the value of the portfolio will not decrease by any more than the figures in the table below over the 20 days period from 30 September.

Detailed information about the models:

There are a number of different VaR models used within the Funds Management industry. Management uses one or more of ex-ante and ex-post estimates of portfolio risk and the Monte Carlo simulation model depending on the fund type. Models are calculated using historical data and a covariance matrix where applicable.

The models used by Management have the following features:

- VaR is calculated to a 99 per cent confidence level;
- VaR at a confidence level identifies the maximum expected loss under that confidence level;
- VaR is calculated for a 20 day holding period. The time horizon of twenty days is selected to coincide with the period used to analyse the portfolio positions. The risk data is examined in various daily, weekly and monthly forums: and
- The portfolio VaR is not the simple sum of individual asset stand alone VaRs; the correlations among assets in the portfolio are considered

Although VaR is a valuable risk management tool it should be interpreted, as with all predictive models, with consideration to its assumptions and limitations. The main assumptions and limitations are listed below:

 Some models assume certain financial variables are normally distributed: The normality assumption allows Management to scale portfolio risk estimates to the appropriate confidence levels. The normality assumption is derived from statistical analysis for examining sample populations of observations and the implications of not assuming normality would preclude the use of most statistical tools including mainstream commercial models for risk measurement.

<sup>&#</sup>x27;This sub-fund was terminated on 19 September 2023. The figures represented above have been considered for the period from 01 October 2022 to the date of termination.'' This sub-fund was launched on 19 November 2021. The figures represented above have been considered from the date of commencement of operations to 30 September

<sup>2022. &</sup>quot;These sub-funds were launched on 13 April 2022. The figures represented above have been considered from the date of commencement of operations to 30 September

As this sub-fund is terminated with no investments as on reporting date, VAR could not be determined.

- The use of historical returns and correlations between assets would not take into account future potential events: It is a commonly stated and well recognised limitation that past performance is not a reliable indicator of future performance.
- Model risk, in general terms, is a known limitation that includes: the quality or accuracy of the underlying data, where significant events occur within the data, the changing sensitivity of the Sub-Fund's assets to external market factors over time, and appreciating that using only one model may be limiting in itself to obtaining the best understanding of a Sub-Fund's risk position.

Management acknowledges these limitations and thus compares ex-ante and ex-post risk estimates to review expectations versus actual outcomes. Should ex-post values differ significantly from ex-ante returns, an assessment of the reasons for this will be made.

The Sub-Fund's risk is managed with constant review of both performance and risk numbers by the investment professionals within the business. These reviews consist of:

- Weekly meetings between the global members of Risk & Quantitative Analysis (RQA). These meetings include RQA Hong Kong.
- Monthly meetings between RQA and the Fund Managers.
- Monthly meetings between RQA and the Chief Investment Officer.
- Regular review of performance figures along with a comparison of ex-ante versus ex-post returns.
- RQA professionals sitting and working closely with the Fund Managers every day.

#### (iii) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flows.

As at 30 September 2023 and 2022, interest rate risk for all Sub-Funds except the iShares World Government Bond Index Fund and China US Dollar Bond Fund, arises only from bank balances which are reset monthly.

As these interest-bearing assets are short-term in nature, the Manager considers that changes in their fair value and future cash flows in the event of a change in market interest rates will not be material. Therefore, no sensitivity analysis has been disclosed for these bank balances.

The iShares World Government Bond Index Fund and China US Dollar Bond Fund invests primarily in fixed rate debt securities which are subject to interest rate fluctuations.

As interest rates rise, prices of fixed income securities may fall and vice versa. The rationale is that as interest rates increase, the opportunity cost of holding a fixed income security increases since investors are able to realise greater yields by switching to other investments that reflect the higher interest rates. The Manager regularly assesses the economic conditions, monitors changes in interest rate outlooks and takes appropriate measures accordingly by discussing with the index provider.

The summarised VaR analysis in Note 11(a)(ii) explains how the interest rate risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

The table below summarises the iShares World Government Bond Index Fund and China US Dollar Bond Fund's exposure to interest rate risk for financial assets and liabilities at fair values, categorised by contractual repricing or maturity dates.

#### (iv) Currency risk

iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund, iShares World Equity Index Fund and iShares World Government Bond Index Fund hold assets and liabilities denominated in currencies other than their functional currency, Hong Kong dollar ("HKD"), and are therefore exposed to currency risk with respect to these currencies.

China US Dollar Bond Fund, Global Megatrend Allocation Fund, Dynamic High Income Fund and Systematic Global Equity High Income Fund hold assets and liabilities denominated in currencies other than their functional currency, United States dollar ("USD"), and are therefore exposed to currency risk with respect to these currencies.

The Manager considers that there is no currency risk to the USD which is a linked currency with the HKD.

The summarized VaR Analysis in Note 11(a)(ii) explains how the currency risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

The table below summarises the Sub-Funds' net exposure in monetary and non-monetary assets with all other variables held constant.

#### (b) Credit and counterparty risk

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to pay amounts in full when due.

The Sub-Funds' financial assets that are subject to credit and counterparty risk are mainly debt securities, bank balances, margin accounts, foreign exchange contracts, amounts due from brokers and amounts receivable on subscription at 30 September 2023 and 2022. During the course of the year, the Sub-Funds have had buy or sell transactions with brokers. Receivables from brokers for investments are subject to credit and counterparty risk of the broker concerned. The Sub-Funds limit their exposure to credit and counterparty risk by transacting with well-established broker-dealers and banks with high credit ratings.

#### (i) Debt securities

As at 30 September 2023, iShares World Government Bond Index Fund and China US Dollar Bond Fund (2022: iShares World Government Bond Index Fund and China US Dollar Bond Fund) invests in debt securities which have credit ratings as rated by well-known rating agencies. An analysis of the Sub-Fund's investments in debt securities by credit rating sourced from Standard and Poor's, Moody's & Fitch Rating Services is set out in the following table. The highest rating is chosen among the aforementioned 3 rating services. The comparison table is as follows:

#### (ii) Derivatives

All exchange traded derivatives are executed through brokers and cleared through a clearing broker. Over-the-counter derivative transactions are conducted only with approved counterparties who meet the applicable specific requirements and where trading documentation is in place. To minimise credit and counterparty credit risk, the Sub-Funds only transact with counterparties of investment grade quality (BBB- or above as rated by Standard & Poor's & Fitch & Baa3 or above as rated by Moody's).

#### (iii) Settlement of securities transactions

All transactions in securities are settled or paid for upon delivery using approved and reputable brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

#### (iv) Other credit risk

The exposure to credit and counterparty risk for cash and cash equivalents, deposits with banks and other financial institutions is considered to be minimal due to the high credit rating of the relevant financial institution.

This sub-fund was terminated on 19 September 2023. The credit rating and rating agency represented above have been considered for the period 01 October 2022 to the date of termination.

Accordingly, the Sub-Funds have no significant credit or counterparty risk.

The maximum exposure to credit and counterparty risk at year end is the carrying amount of the financial assets as shown in the Statement of Financial Position.

The Sub-Funds measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 September 2023 and 30 September 2022, amounts due from brokers, amounts receivable on subscription, dividends receivable, other account receivables, margin deposits and bank balances are held with counterparties with a sound credit rating and are due to be settled within 3 months.

Management considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Sub-Funds.

Citibank N.A., Hong Kong Branch act as a custodian for all of the Sub-Funds' investments. It is expected that all investments deposited with a custodian will be clearly identified, and segregated, as being assets of the Sub-Funds; the Sub-Funds should not therefore be exposed to credit and counterparty risk with a custodian. However, it may not always be possible to achieve this segregation, so the Sub-Funds' investments may experience increased exposure to credit and counterparty risk associated with the applicable custodian.

As at 19 September 2023 (date of termination), iShares Asia ex-Japan Equity Index Fund did not hold investments with the exception of bank balance.

#### (c) Liquidity risk

Liquidity risk is the risk that the Sub-Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

As at 30 September 2023 and 2022, all of the Sub-Funds' financial liabilities are due within twelve months and therefore equal their carrying balances, as the impact of discounting is not significant. As at 30 September 2023 and 2022, each Sub-Fund held investments and other liquid assets as stated in the Statement of Financial Position that are expected to readily generate cash inflows, normally within one month, for managing liquidity risk.

As at 19 September 2023 (date of termination), iShares Asia ex-Japan Equity Index Fund did not hold any financial liabilities at fair value through profit and loss. As at 30 September 2022, iShares Asia ex-Japan Equity Index Fund's financial liabilities are due within twelve months and therefore equal their carrying balances, as the impact of discounting is not significant.

As at 19 September 2023 (date of termination) iShares Asia ex-Japan Equity Index Fund did not hold any financial assets at fair value through profit or loss. As at 30 September 2022, iShares Asia ex-Japan Equity Index Fund held financial assets at fair value through profit or loss and other liquid assets as stated in the Statement of Financial Position that are expected to readily generate cash inflows, normally within one month, for managing liquidity risk.

The Sub-Funds invest the majority of their assets in investments that are traded in active markets and/or can be readily disposed.

For iShares Hong Kong Equity Index Fund, there were two nominee companies (2022: two) that held more than 10% of the Sub-Fund's net assets. The two (2022: two) nominee companies' holdings were 11.87% and 83.25% respectively as at 30 September 2023 (2022: 12.96% and 81.35% respectively).

For Dynamic High Income Fund, there was one related entity of the Manager that held more than 10% of the Sub-Fund's net assets. The related entity holdings were 100% as at 30 September 2023.

For Systematic Global Equity High Income Fund, there was one related entity of the Manager that held more than 10% of the Sub-Fund's net assets. The related entity holdings were 100% as at 30 September 2023.

#### (d) Fair value estimation

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the year/period end date. The Sub-Funds used last traded market price as their fair valuation inputs for their investments.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Sub-Funds for similar financial instruments.

IFRS 13 requires the Sub-Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2).
- Inputs for the asset or liability that are unobservable inputs (level 3).

The determination of what constitutes "observable" requires significant judgment by the Manager. The Manager considers observable data to be the market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The following tables analyse within the fair value hierarchy the Sub-Funds' investments (by investment type) measured at fair value at 30 September 2023 and 2022:

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, listed funds, listed rights and futures contracts. The Sub-Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include over-the-counter ("OTC") derivatives and investment funds. As level 2 investments include positions that are not traded in active markets, valuations may be adjusted to reflect illiquidity which is generally based on available market information.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. As at 30 September 2023, the level 3 investments consisted of suspended equity securities and unquoted warrant that are held by iShares Hong Kong Equity Index Fund and iShares World Equity Index Fund. As at 19 September 2023 (date of termination), there are no level 3 investments held by iShares Asia ex-Japan Equity Index Fund.

As at 30 September 2022, the level 3 investments consisted of suspended equity securities that are held by iShares Hong Kong Equity Index Fund, iShares Asia ex-Japan Equity Index Fund and iShares World Equity Index Fund. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques including last traded price and relevant market news to derive the fair value of these securities. Level 3 valuations are reviewed monthly by the Manager's valuation committee who evaluates the appropriateness of the valuation of the investments.

No sensitivity analysis was presented for the level 3 investments held by the Sub-Funds as at 30 September 2023, 19 September 2023 (date of termination) and 2022 as the Manager considers the fair value of level 3 investments as immaterial.

#### (e) Capital risk management

The Sub-Funds' capital is represented by the redeemable units outstanding. The Sub-Funds' objectives are detailed in Note 1. The Manager may:

- Redeem and issue new units in accordance with the constitutive documents of the Sub-Funds;
- Exercise discretion when determining the amount of distributions of the Sub-Funds to the unitholders; and
- Suspend the subscription and redemption of units under certain circumstance stipulated in the prospectuses of the Sub-Funds.

#### 14. Sanctions Risk

The governments or the regulators from various countries may impose economic sanctions which may impact an Index Fund's ability to invest in companies from a certain country, sector and/or industry. Such sanctions may be introduced suddenly and may be subject to change. To the extent that any such change in regulations, rules or policies adversely impact an Index Fund and/or affect its ability to achieve its investment objective, investors may suffer accordingly. Further, the inability of an Index Fund to invest in constituent securities that are subject to sanctions may also result in a greater tracking error.

In particular, the United States government issued an Executive Order on 3 June 2021 titled "Addressing the Threat from Securities Investments that Finance Certain Companies of the People's Republic of China" (the "Executive Order") which imposes sanctions targeting certain Chinese companies deemed to be affiliated with or supporting the Chinese military (each a "sanctioned entity") and prohibits any transaction by any United States person in publicly traded securities, or any securities that are derivative of, or are designed to provide investment exposure to such securities, of sanctioned entities. The Underlying Index of an Index Fund may contain securities of entities that are identified by the United States government as sanctioned entities under the Executive Order.

Investors should note that the Manager has absolute discretion to manage each Index Fund in a manner in which it believes is appropriate to comply with any applicable sanctions regulations. The Manager will assess the impact and applicability of the relevant regulations and may take certain actions, including without limitation, ceasing any new investments in any sanctioned entity, selling its holding of any sanctioned entity, continuing investments in sanctioned entities (if the Manager considers that the relevant sanctions regulations is not applicable to the Index Fund) and/or imposing restrictions to ensure that the Index Fund is not held by any persons which would result in such holding being a breach of the law or requirements of any country or governmental authority in circumstances which, in the Manager's opinion, might result in the Index Fund being adversely affected, or which may result in the Index Fund suffering any pecuniary disadvantages, which the Index Fund might not otherwise have suffered. Investors should consider whether each Index Fund is an appropriate investment, in particular based on their interpretation and applicability of the Executive Order. If in doubt, please seek professional advice.

#### 15. Subsequent Events

Total liabilities, including balance of redemption payable amounting to HKD 208,723,544, of the Sub-Fund were fully paid and settled as of 25 September 2023. No other significant events have occurred since the year/ period end date which would impact the financial position of the Sub-Funds disclosed in the Statement of Financial Position as at 30 September 2023/ 19 September 2023 (date of termination) or on the results and cash flow of the Sub-Funds for the year/period ended on that date.

#### 16. Approval of Financial Statements

The financial statements were approved by the Trustee and the Manager on 22 January 2024.
