Copies are available at the registered office of the BlackRock Global Index Funds (the “Company”) from the Local Investor Servicing team, the Transfer Agent, the Management Company or any of the Distributors. See General Information section for further details.

General Information

Board of Directors

Denise Voss, Chairwoman
Paul Freeman
Ursula Marchioni (resigned effective 13 May 2022)
Bettina Mazzocchi (appointed effective 6 October 2022)
Barry O'Dwyer (resigned effective 31 July 2022)
Geoffrey D. Radcliffe
Davina Saint (appointed effective 13 May 2022)
Keith Saldanha

All Directors are non-executive.

Ursula Marchioni, Bettina Mazzocchi, Geoffrey D. Radcliffe and Keith Saldanha are employees of the BlackRock Group (BlackRock, Inc. is the ultimate holding company of this group, which the Management Company, Investment Advisers and Principal Distributor are part of).

Paul Freeman and Barry O'Dwyer are former employees of the BlackRock Group.

Denise Voss and Davina Saint are independent Directors.

Management Company

Current Prospectus

The Company's Prospectus and the relevant KIID along with copies of the Application Form may be obtained from the Investor Service Centre, the Management Company or any of the Representatives or Distributors. Copies of the Company's Articles of Incorporation, the Annual report and audited financial statements and Interim report and unaudited financial statements may also be obtained free of charge from any of these offices and from the Paying Agents. All these documents are also available from www.blackrockinternational.com.

Representatives

The representative in Denmark is BlackRock Copenhagen Branch, subsidiary of BlackRock Investment Management (UK) Limited, United Kingdom, Harbour House, Sundkrogsgade 21, Copenhagen, DK 2100, Denmark.

The representative in South Africa is BlackRock Investment Management (UK) Limited (South African Branch), Regus Convention Towers, Crn. Of Heerengracht and Coen Steyter Street, Cape Town 8001, South Africa.

The representative in Switzerland is BlackRock Asset Management Schweiz AG, Bahnhofstrasse 39, 8001 Zürich, Switzerland.

Portfolio of Investments

Equities are primarily classified by the country of incorporation of the entity in which the Fund (each a "Fund", together the "Funds") hold shares.

Corporate and government fixed and variable income securities are primarily classified by the country of incorporation of the issuer.

Collective Investment Schemes ("CIS") and Exchange Traded Funds ("ETF") are primarily classified by the country of domicile of the CIS or ETF.

Purchases and Sales

A detailed list of investments purchased and sold for any Fund from 1 April 2022 to 30 September 2022 is available upon request, free of charge, from the Registered Office, or the offices of the Representatives as mentioned above.

Authorised Status

The Company is an undertaking for collective investment in transferable securities ("UCITS") under the Part I of Luxembourg Law of 17 December 2010, as amended. Regulatory consents have been obtained or appropriate notifications have been made for the distribution of shares of all the Company's Funds in the umbrella in the following countries:

Austria, Chile, Denmark, Estonia, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Norway, Singapore, South Africa, Spain, Sweden, Switzerland and United Kingdom.

The Company is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 1239.

Chairwoman's Letter to Shareholders

September 2022

Dear Shareholder,

I am writing to update you on the activities of BlackRock Global Index Funds (the "Company" or "BGIF") over the financial period ended 30 September 2022. The BGIF range comprised 10 funds (each a "Fund", together the "Funds") as at 30 September 2022. The Funds' performance is covered in more detail in the separate Investment Adviser's Report.

The impact of the coronavirus outbreak was profound across all aspects of society. In developed economies, it is clear that the worst of the impact is now over. However, there is an expectation that seasonal peaks and new variants could give rise to renewed travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery and supply chain disruptions which will create ongoing challenges. Widescale and comprehensive vaccination programmes have been put in place in many countries which have had a positive effect. Nevertheless, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this in turn may continue to impact investments held by the Funds. The optimism felt towards the end of 2021, as vaccine rollouts accelerated across major developed markets and COVID-19 restrictions were lifted, has been replaced in 2022 by concerns about inflation, tightening monetary policy and the threat of a new global downturn.

The fallout from Russia's invasion of Ukraine at the end of February 2022, has continued to exacerbate the inflationary pressures and supply chain challenges that accompanied the later stages of the COVID-19 pandemic. Aside from the humanitarian costs, the sanctions imposed by Western nations on Russia at the start of the conflict have led to serious issues around energy supplies, to Europe in particular, and more widespread disruption of global trade. Both Russia and Ukraine are important commodities producers: Russia is among the world's largest exporters of oil, gas and coal, while Ukraine is a significant agricultural exporter, particularly for wheat. The war in Ukraine has severely curtailed the country's ability to export produce.

The rising demand and loss of supplies from Russia sent oil and gas prices soaring in the spring and summer of 2022. In June, the price of a barrel of Brent crude oil exceeded USD 120, while natural gas prices in major European markets have reached all-time highs. As energy prices have risen, so too have production and transportation costs around the world, intensifying the inflationary pressures which were seen towards the end of 2021. The annual inflation rate in the US hit 9.1% in June, its highest level in more than 40 years, before falling back in August and September. In the Eurozone, annual price rises reached a record high of 10% in September while in the UK, prices were 10.1% higher in July 2022 than a year earlier.

Central banks responded to rising inflation by withdrawing the stimulus measures introduced at the start of the COVID-19 pandemic and increasing interest rates. The Federal Reserve in the United States raised rates in March, May, June, July and again in September this year. The European Central Bank increased interest rates for the first time in more than a decade in July this year and followed this with a 75 basis-points hike in September. The Bank of England, meanwhile, continued the rate-raising programme it had begun in late 2021. Increases were also seen in a number of other developed and emerging markets.

These were not the only headwinds facing the global economy: China's 'zero-COVID' policy resulted in further lockdowns in major cities, including Beijing, Shanghai and Chengdu, in the spring and summer months of this year. These measures resulted in a drop in production in China and also served to create further problems for international trade.

Rising prices and interest rates, as well as ongoing supply chain issues, have raised fears that the world could be facing another recession. Indeed, the US economy contracted in both the first and second quarters of 2022. In its World Economic Outlook Update, published in July, the International Monetary Fund ("IMF") revised its forecast for global growth, lower, to 3.2% in 2022 compared with 6.1% in 2021. The IMF added that the risks to this outlook were "overwhelmingly tilted to the downside" due to the conflict in Ukraine, the possibility of debt distress being induced in emerging market economies, and the possibility of further COVID-19 outbreaks, among other factors.

The increasingly challenging economic conditions were reflected in a highly volatile stock-market performance throughout the period, with several major indices entering bear-market territory – defined as a fall of 20% or more from recent peaks – over the course of the first half of the year. Positive data from the US job market and strong company earnings performance in July this year helped markets recover some of their losses, but volatility returned in August and September due to concerns about further interest rate hikes and slowing growth rates.

Fixed-income assets offered little in the way of a safe haven for investors, with the 10-year US treasury yield rising from around 1.6% at the end of 2021 to a peak of almost 4% in September – although this spike was partly as a result of an adverse reaction in global bond markets to UK government plans to fund a tax-cutting programme through increased borrowing.

As yields have risen in 2022, bond prices (which move inversely to yields) have dropped, and investors have seen significant capital losses. Higher-quality corporate bonds have similarly been weak, with prices falling more sharply in comparison with government bonds.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairwoman's Letter to Shareholders

September 2022 continued

The performance of the Funds is covered in more detail in the Investment Adviser's Report, which also sets out some views regarding the investment outlook. Overall, assets in the Fund range fell 24.7% to USD 6,923.8 million.

Each of the ten Funds saw a decrease in assets under management ("AUM") over the period.

The lowest level of outflow was in the iShares Europe Equity Index Fund (LU), which saw an outflow of 16.8% in Euro terms, falling to EUR 169 million. Assets in the iShares Euro Government Bond Index Fund (LU), meanwhile, finished 18.9% lower at EUR 73.2 million. Assets in the iShares Emerging Markets Government Bond Index Fund (LU) fell 21.2% in USD terms to USD 3,349.4 million. Assets in the iShares World Equity Index Fund (LU) fell 22.3% to USD 1,670.1 million over the period, while assets in the iShares Pacific ex Japan Equity Index Fund (LU) dropped by 22.5% to USD 187.1 million. Assets in the iShares Japan Equity Index Fund (LU) fell 22.7% to USD 89.5 million. Assets in the iShares Global Government Bond Index Fund (LU) ended the period 28% lower at USD 533.4 million.

The heaviest outflows were seen in the iShares Emerging Markets Equity Index Fund (LU), which fell 32% to USD 325.2 million, the iShares Euro Aggregate Bond Index Fund (LU), which fell 36.3% to EUR 156 million and the iShares North America Equity Index Fund (LU) which fell 38.8% to end the period at USD 380 million.

Regulatory change continued throughout Europe and a number of these changes could have implications for investors. Key changes include:

- ▶ The European Union's new Sustainable Finance Disclosure Regulation ("SFDR") came into effect in March 2021. It imposes new transparency and reporting obligations on investment management firms, both at a firm-wide level and at a product level. Certain parts of the framework were finalised in 2022 and will come into effect at the start of 2023. At the same time, the EU is working on an EU-wide classification system or 'framework'. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. There are also moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") currently in discussions. The Funds do not meet the criteria for Article 8 or 9 products under the EU SFDR and the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- ▶ From 1 January 2023, the extended PRIIPs regulation will bring significant changes for the fund industry, which had previously benefitted from an exemption. UCITS KIIDs will be replaced with the stricter PRIIPs KIDs requirements. Changes will include the way risks, performance scenarios, and transaction costs are calculated.

Should you have any questions on any of this material, please contact us via our website: www.blackrockinternational.com.

Yours faithfully,

Denise Voss
Chairwoman

October 2022

Investment Advisers' Report Performance Overview

1 April 2022 to 30 September 2022

Disclosed in the table below are the performance returns for the primary share class for each Fund, which has been selected as a representative share class. The primary share class for each Fund is the A class non-distributing share. Performance figures for any other share class can be made available upon request.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The Funds invest a large portion of assets which are denominated in other currencies; hence changes in the relevant exchange rates will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions can only be made on the basis of the current Prospectus, the KIID, supplemented by the most recent Annual report and audited financial statements and Interim report and unaudited financial statements, if published after such Annual report and audited financial statements. Copies are available from the Local Investor Servicing team¹, the Transfer Agent, the Management Company or any of the Representatives or Distributors and at the registered office of the Company. BGIF is only available for investment by non-US citizens who are not residents of the US. The Funds are not offered for sale or sold in the US, its territories or possessions.

Investment Advisers' Report Performance Overview

1 April 2022 to 30 September 2022 continued

Investment Objective

The investment objective of each Fund is to match the performance of the Benchmark Index of that Fund.

Fund	Benchmark Index	Investment Management Approach
iShares Emerging Markets Equity Index Fund (LU)	MSCI Emerging Markets Index	Optimising
iShares Emerging Markets Government Bond Index Fund (LU)	J.P. Morgan Emerging Markets Bond Index Global Diversified	Optimising
iShares Europe Equity Index Fund (LU)	MSCI Europe Index	Replicating
iShares Euro Aggregate Bond Index Fund (LU)	Bloomberg Euro Aggregate Bond Index	Optimising
iShares Euro Government Bond Index Fund (LU)	FTSE EMU Government Bond Index	Optimising
iShares Global Government Bond Index Fund (LU)	FTSE World Government Bond Index	Optimising
iShares Japan Equity Index Fund (LU)	MSCI Japan Index	Replicating
iShares North America Equity Index Fund (LU)	MSCI North America Index	Replicating
iShares Pacific ex Japan Equity Index Fund (LU)	MSCI Pacific ex Japan Index	Replicating
iShares World Equity Index Fund (LU)	MSCI World Index	Replicating

Market Review

Following sell-offs in January and February - caused by initial tightening of monetary policy and Russia's invasion of Ukraine respectively - markets have continued in a highly volatile fashion throughout 2022.

Energy and commodities were the stand-out performers during the first half of the year. As commodity prices rose, energy giants delivered huge profits to the extent that national governments started to consider windfall taxes. Although oil and metals prices dipped over the summer as recessionary fears emerged, by the end of September, the MSCI World Select Natural Resources index had nonetheless returned 3% for the year so far compared with a near 26% loss for the MSCI World Equity index.

As global central banks started to raise interest rates in response to soaring inflation, investors grew increasingly worried about the threat of recession: indeed, policymakers have argued that a downturn in growth is necessary in order to rein in spiralling prices.

The major weak spots this year have been technology and growth stocks, with January's sell-off followed by further sharp declines in April and June. After a long period during which strong earnings had continued to propel share prices in the technology sector higher, there was some weakness in reported first-quarter results. Adoption in areas such as E-commerce and streaming services slowed as life returned to normal following the COVID-19 pandemic and investors adjusted expectations. At the same time, inflation and rising bond yields reduced the present

value of the long-term cash flows offered by many high-growth technology companies. Solid second-quarter company results and a smattering of positive economic data in July helped markets recover some losses, but risk-off sentiment (risk sentiment characterised by investors reducing their exposure to risky investments such as equities and focusing on protecting their capital by investing into less risky investments such as bonds) returned in August and September as investors expected further interest-rate hikes and negative economic data relating to growth.

Commercial property and infrastructure assets in general performed relatively well, with their cash flows being able to better adjust to rising prices. It was a better period for defensive, dividend-based investment strategies as investors increasingly prioritised cash flows today over future revenues. Any remaining restrictions on bank dividends were lifted during the period and relatively strong corporate earnings allowed companies to return cash to investors once again.

In general, regional differences were not as strong as sectoral differences and losses were spread evenly around global markets, in both developed and emerging economies. The UK market performed relatively well in the period, as a result of its large number of energy and mining companies as well as sustained weakness in the pound sterling, which increased the value of overseas earnings to British multinationals.

Environmental, social and governance ("ESG") continued to be an important consideration even if ESG-aware funds could not replicate their significant success in 2021. While many 'green' companies were beneficiaries of the drive from governments to put sustainability at the heart of their post-pandemic rebuilding plans, 2022 has been a far stronger period for conventional energy producers.

As monetary policy tightened, meanwhile, it was a dismal period for bond markets, which have traditionally been a safe haven during times of stock market turbulence. US 10-year Treasury yields, which move inversely to prices, rose from 1.6% at the start of the year to almost 4% in September.

Fund Performance

A table setting out the performance returns for the primary share class for each Fund versus any applicable benchmark may be found on page 6. A brief summary of fund performance follows.

Equity Fund Performance

The iShares Emerging Markets Equity Index Fund (LU) was the weakest performer, dropping 22%. The iShares Europe Equity Index Fund (LU) was the strongest performer in relative terms but fell 13.3% during the period. Other funds also suffered heavy losses, with the iShares North America Equity Index Fund (LU) down 21.1% and the iShares Japan Equity Fund (LU) ending 21.1% lower. The iShares Pacific ex Japan Equity Index Fund (LU) fell 21.3%, while the iShares World Equity Index Fund (LU) lost 21.5%.

Investment Advisers' Report Performance Overview

1 April 2022 to 30 September 2022 continued

Fixed Income Fund Performance

The iShares Euro Aggregate Bond Index Fund (LU) fell 11.2% while the iShares Euro Government Bond Index Fund (LU) fell 11.9%. The iShares Global Government Bond Index Fund (LU) declined 15.6% and the iShares Emerging Markets Government Bond Index Fund (LU) fell 15.6%.

Outlook

While the world economy's recovery from the COVID-19 crisis was not expected to be plain sailing, 2022 has delivered an array of challenges far beyond what had been forecast in 2021. The COVID-19 pandemic has left a difficult legacy of high government debt, supply-chain problems and rising inflation, and these problems have been compounded by the crisis in Ukraine, with high commodity and energy prices weighing on households and businesses across the world.

Developed markets have been forced to adjust to an evolving fiscal and monetary policy environment. Fiscal stimulus, low interest rates and quantitative easing provided considerable support through the COVID-19 pandemic, but support has now largely been withdrawn. Growth rates are already slowing and there are fears a number of major economies will tip into recession by 2023.

Central banks have made it clear that they see inflation as a greater risk to prosperity than low growth and have continued to pursue aggressive rate rises: these are expected to continue over the rest of the year, if not beyond. Taming inflation has seldom been achieved without consequences for the global economy and central banks are treading a precarious path: it is not yet clear that policymakers can achieve the 'soft landing' they desire.

This creates significant uncertainty in terms of the growth outlook. There are already signs that economic activity is under pressure and governments have started to revise their gross domestic product ("GDP") forecasts lower. A prolonged downturn has the power to destabilise markets in the year ahead and will certainly affect the type of sectors that do well.

Although markets have fallen substantially so far this year, the corporate sector has remained reasonably resilient. This has left equity valuations looking more attractive. Undoubtedly, there are companies that can weather this storm and do well in spite of any looming economic weakness. Equally, higher bond yields have left fixed income looking better value than it has done for some time. Ultimately, while there are undoubtedly challenges in the months ahead, so too will opportunities emerge.

Tracking Error

Realised tracking error is the annualised standard deviation of the difference in monthly returns between a Fund and its Benchmark Index. Tracking error shows the consistency of the returns relative to the Benchmark Index over a defined period of time. Tracking error is based on the net asset value ("NAV") calculated in accordance with the Prospectus.

Anticipated tracking error is based on the expected volatility of differences between the returns of a Fund and the returns of its Benchmark Index. For physically replicating funds, the investment management approach is to buy a portfolio of securities that, as far as practicable, consist of the securities that make up the Benchmark Index, in similar proportion to the weights represented in the Benchmark Index.

For optimising funds, the investment management approach aims to match the main risk characteristics of the Benchmark Index by investing in a portfolio that is primarily made up of securities that represent the Benchmark Index. The objective is to generate a total return as close as reasonably possible to that of the index, net of transaction costs and gross of fees.

Explanation of Divergence Between Anticipated and Realised Tracking Error

The Funds may have a tracking error due to a number of sources.

Cash management, efficient portfolio management techniques (including securities lending), transaction costs from rebalancing and currency hedging collectively can have an impact on tracking error, as well as the return differential between a Fund and its Benchmark Index. Importantly, these impacts can be either positive or negative, depending on the underlying circumstances.

Funds may have a tracking error due to withholding tax suffered by the Funds on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors, such as any reclaims filed by the Funds with various tax authorities, any benefits obtained by the Funds under a tax treaty or any securities lending activities carried out by the Funds.

A Fund's tracking error may also be affected if the times at which a Fund and its Benchmark Index are priced are different. Where the Benchmark Index is valued at the time the relevant markets close for business and a Fund is valued at an earlier time, the tracking error of that Fund may appear to be higher than if the Fund and the Benchmark Index were priced at the same time. This is particularly relevant for the fixed income Funds, although, less so for the equity Funds for which the relevant index provider issues a price of the relevant Benchmark Index at the same time as the equity Fund's valuation point.

In addition, as the NAV of a Fund taken at its valuation point includes the effect of any swing pricing, the tracking error figures set out below may be impacted depending on the significance of any swing pricing adjustment in the NAV in order to reduce the effect of "dilution" on that Fund resulting from the sale or purchase of shares in the Fund.

A Fund's tracking error may also be affected by non-dealing days, which occur at times when the local stock exchanges or regulated markets in respect of a particular Fund are closed for trading and

Investment Advisers' Report Performance Overview

1 April 2022 to 30 September 2022 continued

settlement due to public holidays. During such times, the relevant Funds will not be able to obtain access to such market(s) directly and will, for example, either hold the cash received from any subscriptions until the relevant market(s) are open or will obtain exposure to the relevant market(s) indirectly using proxy instruments. Both approaches may increase a Fund's tracking error. Alternatively, the tracking error of a Fund may be affected if there is a public holiday in Luxembourg (when the Funds are not priced), as the NAV of the Funds will remain the same, despite movements in the underlying markets.

The table below compares the anticipated tracking error of the Funds (disclosed in the Prospectus on an ex ante basis) against the actual realised tracking error of the Funds as at 30 September 2022. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Fund	Anticipated tracking error	Realised tracking error of Fund	Explanation
iShares Emerging Markets Equity Index Fund (LU)	Up to 1.00%	1.33%	The realised tracking difference is primarily driven by securities lending income and impact of trading cashflows and Benchmark Index changes.
iShares Emerging Markets Government Bond Index Fund (LU)	Up to 1.20%	2.11%	The realised tracking difference is primarily driven by the removal of Russian securities from the Benchmark Index in March 2022. Following the removal, Russian securities left the Benchmark Index at zero value, while the Fund sold most of these securities at a market price (above zero) and the difference between the valuation point of the Fund and the Benchmark Index.
iShares Europe Equity Index Fund (LU)	Up to 0.60%	0.52%	The Fund tracked its Benchmark Index within its anticipated tracking error.
iShares Euro Aggregate Bond Index Fund (LU)	Up to 0.60%	0.61%	The realised tracking difference is primarily driven by the difference between the valuation point of the Fund and the Benchmark Index.
iShares Euro Government Bond Index Fund (LU)	Up to 0.25%	0.82%	The realised tracking difference is primarily driven by the difference between the valuation point of the Fund and the Benchmark Index.
iShares Global Government Bond Index Fund (LU)	Up to 0.45%	0.89%	The realised tracking difference is primarily driven by the difference between the valuation point of the Fund and the Benchmark Index.
iShares Japan Equity Index Fund (LU)	Up to 1.50%	1.64%	The realised tracking difference is primarily driven by the difference between the valuation point of the Fund and the Benchmark Index and the difference that is caused as the futures used for efficient portfolio management purposes, are not perfectly tracking the Benchmark Index.
iShares North America Equity Index Fund (LU)	Up to 0.45%	0.28%	The Fund tracked its Benchmark Index within its anticipated tracking error.
iShares Pacific ex Japan Equity Index Fund (LU)	Up to 2.00%	1.37%	The Fund tracked its Benchmark Index within its anticipated tracking error.
iShares World Equity Index Fund (LU)	Up to 0.45%	0.27%	The Fund tracked its Benchmark Index within its anticipated tracking error.

October 2022

⁽¹⁾ The combined figures have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (62,785,807) represents the movement in exchange rates between 1 April 2022 and 30 September 2022. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

Notes to the Financial Statements

1. Organisation

BlackRock Global Index Funds (the “Company”) is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d’investissement à capital variable*). The Company was established on 30 August 2012 and was authorised by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as an UCITS pursuant to the provisions of Part I of the law of 17 December 2010, as amended and is regulated pursuant to such law (the “2010 Law”).

The Company has appointed BlackRock (Luxembourg) S.A. as its Management Company.

As at 30 September 2022, the Company offered shares in 10 funds (each a “Fund”, together the “Funds”). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company’s Prospectus.

Share Classes Launched

Share Classes launched during the period are disclosed in Appendix I.

Significant events during the period

- ▶ Effective 11 April 2022, the paying agent agreement in Austria was terminated.
- ▶ Effective 13 May 2022, Davina Saint was appointed to the Board of Directors of the Company.
- ▶ Effective 13 May 2022, Ursula Marchioni resigned from the Board of Directors of the Company.
- ▶ Effective 31 July 2022, Barry O’Dwyer resigned from the Board of Directors of the Company.
- ▶ Certain financial markets have fallen during the financial period due primarily to geo-political tensions arising from Russia’s invasion of Ukraine and the impact of the subsequent range of sanctions, regulations and other measures which impaired normal trading in Russian securities. The Board of Directors of the Company (the “Board”) and the Investment Advisers continue to monitor investment performance in line with the Funds’ investment objectives, and the operations of the Funds and the publication of net asset values are continuing.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

(a) Valuation of Investments, Other Assets and Other Liabilities

The Company’s investments, other assets and other liabilities are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board on the basis of their expected disposal or acquisition price;
- ▶ if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the in their absolute discretion decides. Discrepancies in value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in adjustment to the value of these securities to their fair

Notes to the Financial Statements continued

value by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges.

As at 30 September 2022, the adjusted fair value applied to certain securities and/or derivatives is disclosed in the table below:

Fund	Currency	Fair value	% of Net Assets
iShares Emerging Markets Equity Index Fund (LU)	USD	102,163	0.04

- ▶ investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;
- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;
- ▶ liquid assets such as money market instruments may be valued at nominal values plus any accrued interest or at amortised cost basis which approximated their fair value;
- ▶ cash at bank, bills payable on demand and other debts are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- ▶ cash collateral provided by the Company is identified on the Statement of Net Assets as pledged cash collateral and is not included as a component of cash and cash equivalents. Cash collateral provided to the Company by counterparties is identified on the Statement of Net Assets as cash collateral payable. The Company may reinvest this cash collateral and the assets purchased are included in the securities portfolio at market value in the Statement of Net Assets;
- ▶ assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- ▶ liabilities which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed, are valued at their nominal value.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments, Cash Accounts and financial derivatives instruments

The Company takes credit for income from its investments on the following basis:

- ▶ interest income/expense is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- ▶ bank interest income/expense is recognised on an accruals basis;

- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding taxes;
- ▶ securities lending income is recognised on an accruals basis;
- ▶ negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;
- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;
- ▶ the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the period end and is for information only as these bonds are bearing variable interest rates.

(d) Financial Derivative Instruments

During the period, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from these and unsettled contracts are taken to net unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

(e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Fund has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Fund have been translated at the exchange rate prevailing at the Fund's recent valuation point in Luxembourg on 30 September 2022.

The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Fund are presented in the Statement of Operations and Changes in Net Assets.

Income and expenses in currencies other than the currency of denomination of the respective Fund have been translated at the rates of exchange prevailing on the transaction date.

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies other than the base currency of the Fund at the last valuation point:

(f) Combined Financial Statements

The financial statements of each Fund are expressed in its base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the following exchange rate prevailing at the Funds' valuation point in Luxembourg as at 30 September 2022 for all Funds expressed in Euro, has been applied:

EUR	
USD	1.0231

For the translation of the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the period for all Funds expressed in Euro:

EUR	
USD	0.9667

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (62,785,807) represents the movement in exchange rates between 1 April 2022 and 30 September 2022. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting period.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

(h) Dilution

The Board may adjust the NAV per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Board may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Board for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of the NAV. Under exceptional circumstances the Board may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net inflows than for net outflows. In addition, the Board may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Board may decide that it is not appropriate to make such an adjustment. In accordance with the Prospectus, such dilution adjustment was not applied as at 30 September 2022 to any Funds.

During the financial period from 1 April 2022 to 30 September 2022, dilution adjustments were applied to iShares World Equity Index Fund (LU), iShares Japan Equity Index Fund (LU),

Notes to the Financial Statements continued

iShares Pacific ex Japan Equity Index Fund (LU), iShares North America Equity Index Fund (LU) and iShares Emerging Markets Government Bond Index Fund (LU).

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included within Depositary fees in the Statement of Operations and Changes in Net Assets of each Fund. Refer to Note 6 for further information.

(j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

3. Management Company

BlackRock (Luxembourg) S.A. (the "Management Company") has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

BlackRock (Luxembourg) S.A. is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management Fees

During the period, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.05% to 0.50% per annum of the NAV, with the exception of Class X shares, which do not pay

management fees. The level of management fee varies according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund and are paid monthly.

The management fees attributable to each share class of each Fund are disclosed in detail in Appendix E of the Prospectus and KIID of the Company. Management fees payable at 30 September 2022 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

5. Annual Service Charge

The Company pays an Annual Service Charge to the Management Company.

The level of Annual Service Charge may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and share classes issued by the Company. However, it has been agreed between the Board and the Management Company that the Annual Service Charge currently paid shall not exceed 0.15% per annum. It is accrued daily, based on the NAV of the relevant share class and paid monthly.

The Board and the Management Company set the level of the Annual Service Charge at a rate which aims to ensure that the total expense ratio of each Fund remains competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The Annual Service Charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the depositary fees, plus any taxes thereon and any taxes at an investment or Company level.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the Annual Service Charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any year which exceed the amount of Annual Service Charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Notes to the Financial Statements continued

Annual Service Charge payable at 30 September 2022 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group receive a fee between EUR 30,000 to EUR 33,500 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to receive a Directors fee.

6. Depositary Fees

The Depositary receives a fee in respect of each Fund. These fees are to remunerate the Depositary for safekeeping and transaction costs applicable to each Fund. These fees will vary in respect of each Fund depending on the value of assets under management and the volume of trading in that Fund.

The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees. The annual depositary safekeeping fees range from 0.005% to 0.40% of the NAV per annum and the transaction fees range from USD 5 to USD 75 per transaction. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the depositary fees to each Fund will depend on its asset allocation at any time.

Depositary fees payable at 30 September 2022 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

7. Taxes

Realised and unrealised Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the period ended 30 September 2022, USD 1,464,600 was charged in relation to Taxes.

Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. The Funds are exempt from the subscription tax ("*taxe d'abonnement*") because the sole objective of each Fund is to match / replicate the performance of its Benchmark Index and all share classes of the Company are listed on the Euro Multilateral Trading Facility ("MTF") (since 25 August 2017). Therefore, in accordance with the 2010 Law, which provides an exemption from "*taxe d'abonnement*" to funds and classes structured in this manner, it is expected that the share classes should be exempt from this annual subscription tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at: <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Dividends, net of withholding taxes".

8. Investment Advisers and Sub-Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated some management and provision of investment advice to the Investment Advisers: BlackRock Investment Management (UK) Limited ("BIM UK"), BlackRock Institutional Trust Company N.A. and BlackRock (Singapore) Limited, as described in the Prospectus. The Investment Advisers provides advice and management in the areas of stock and sector selection and strategic allocation. BlackRock Investment Management (UK) Limited has sub-delegated some of its functions to BlackRock Asset Management North Asia Limited ("BAMNA"). Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

BlackRock Institutional Trust Company N.A. does not currently provide any investment advice on existing Funds.

9. Transactions with related parties

The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA.

During the period, there have been no significant transactions which were outside the ordinary course of business or which were not on normal commercial terms.

The Company has appointed BlackRock Advisors (UK) Limited (the "Securities Lending Agent"), a related party to the Company, as securities lending agent. The Securities Lending Agent bears all operational costs directly related to securities lending transactions. The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income.

The Funds benefit from a borrower default indemnity provided by BlackRock, Inc.. The indemnity allows for full replacement of securities on loan. BlackRock, Inc. bears the cost of indemnification against borrower default.

Notes to the Financial Statements continued

10. Dividends

Distributions will not be made to the shareholders of the Non-Distributing Classes. The investment income and other profits will be accumulated and reinvested on behalf of these shareholders.

For the Distributing Share Classes the policy is to distribute substantially all the investment income for the period after deduction of expenses. The Board may also determine if and to what extent dividends may include distribution, from both net realised and net unrealised capital gains. Where distributing share classes pay dividends that include net realised capital gains or net unrealised capital gains, dividends may include initially subscribed capital.

The Board intends to declare dividends on the distributing share classes out of the net revenue of the relevant Fund (i.e. all interest, dividends and other income less the Fund's accrued expenses) for that financial period.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

Dividends will normally be declared with a view to being paid semi-annually (March and September).

11. Securities Lending

The table below provides the value of securities on loan and the related collateral received as at 30 September 2022:

Fund	CCY	Value of securities on loan	Value of collateral received
iShares Emerging Markets Equity Index Fund (LU)	USD	19,504,051	22,479,247
iShares Emerging Markets Government Bond Index Fund (LU)	USD	687,860,599	749,633,170
iShares Europe Equity Index Fund (LU)	EUR	30,697,340	34,210,191
iShares Euro Aggregate Bond Index Fund (LU)	EUR	15,861,210	16,918,828
iShares Euro Government Bond Index Fund (LU)	EUR	12,200,469	13,278,027
iShares Global Government Bond Index Fund (LU)	USD	42,405,479	45,684,478
iShares Japan Equity Index Fund (LU)	USD	34,879,192	38,829,867
iShares North America Equity Index Fund (LU)	USD	18,750,320	21,350,727
iShares Pacific ex Japan Equity Index Fund (LU)	USD	39,386,241	43,696,926
iShares World Equity Index Fund (LU)	USD	175,806,334	197,713,519

Income earned during the period by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under the caption "Securities lending". Securities on loan are respectively flagged in the Portfolio on Investments.

12. Credit Facility

A credit facility arranged by JPMorgan Chase Bank N.A. ("JPMorgan") will allow the Company to avail of a committed USD 1.23 billion tranche.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in

relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this for the period ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to the same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the outstanding balance.

No portion of the credit facility was used during the period ended 30 September 2022.

13. Amounts due from/to broker

Due from/to broker on the Statement of Net Assets consists of margin received/paid from/to Funds' clearing brokers and various counterparties.

14. Total Expense Ratio

Total Expense Ratio ("TER") is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets and including expense reimbursements), divided by the average net assets of the Share classes, expressed as a percentage. All data is annualised.

The Management Fee may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs for the period from 1 April 2022 to 30 September 2022 are as follows:

Fund Name	Share classes	TER
iShares Emerging Markets Equity Index Fund (LU)	A Class non-distributing share	0.635%
	D Class non-distributing share	0.334%
	D Class non-distributing share EUR	0.332%

⁽¹⁾ New Share Class launched, see Appendix I for further details.

The TERs were calculated in accordance with the Swiss Funds and Asset Management Association ("SFAMA") guidelines on the calculation and disclosure of the TER for collective investment schemes. The SFAMA guidelines were last amended on 1 January 2022.

Notes to the Financial Statements continued

15. Subsequent Events

Effective 6 October 2022, Bettina Mazzocchi was appointed to Board of Directors of the Company.

There have been no other subsequent events from the financial period end up to the date of the approval of the financial statements, which in the opinion of the Board may have had a material impact on the financial statements for the financial period ended 30 September 2022.

16. Approval date

The financial statements were approved by the Board on 29 November 2022.

Share Classes Launched

Effective date	Fund	Type
7 September 2022	iShares North America Equity Index Fund (LU)	A Class non-distributing share EUR
7 September 2022	iShares World Equity Index Fund (LU)	A Class non-distributing share EUR

Share Classes Closed

There were no share classes which closed during the period.

Appendix II – Global Market Risk Exposure

The Management Company adopted the Commitment Approach as the global exposure methodology of the Funds.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund under the Commitment Approach must not exceed 100% of that Fund's NAV. As at 30 September 2022 the global exposure of each Fund did not exceed 100% of its NAV.

Efficient portfolio management and securities financing transactions

Efficient portfolio management techniques

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the prospectus, employ techniques and instruments relating to transferable securities provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

Securities lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository, State Street Bank International GmbH, Luxembourg Branch on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depository or the securities lending agent.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV as at 30 September 2022. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Fund	Currency	Securities on loan	
		% of lendable assets	% of NAV
iShares Emerging Markets Equity Index Fund (LU)	USD	14.16%	6.00%
iShares Emerging Markets Government Bond Index Fund (LU)	USD	22.33%	20.54%
iShares Europe Equity Index Fund (LU)	EUR	19.43%	18.17%
iShares Euro Aggregate Bond Index Fund (LU)	EUR	10.83%	10.17%
iShares Euro Government Bond Index Fund (LU)	EUR	17.86%	16.66%
iShares Global Government Bond Index Fund (LU)	USD	8.87%	7.95%
iShares Japan Equity Index Fund (LU)	USD	42.29%	38.98%
iShares North America Equity Index Fund (LU)	USD	5.52%	4.93%
iShares Pacific ex Japan Equity Index Fund (LU)	USD	22.41%	21.05%
iShares World Equity Index Fund (LU)	USD	11.51%	10.53%

Income earned during the period by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under the caption "Securities lending".

The total income earned from securities lending transactions is split between the relevant Fund and the securities lending agent. The Funds receive at least 62.5% while Securities Lending Agent receives up to 37.5% of such income with all operational costs borne out of the securities lending agent's share.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received analysed by counterparty, as at 30 September 2022.

Counterparty	Counterparty's country of establishment	Securities Lending

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.

Safekeeping of collateral received

The following table provides an analysis of the amounts of non-cash collateral received by the Funds in respect of securities lending transactions and held by the Funds' Depository (or through its delegates) or through a securities settlement system, as at 30 September 2022.

Depository	Non-cash collateral received	Securities lending
