

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Sustainable Global Allocation Fund (the "Fund"), **Class I2 USD** (the "Share Class"), ISIN: **LU2488122149**, is authorised in Luxembourg and manufactured by BlackRock (Luxembourg) S.A. (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (the "CSSF") and the CSSF is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling **+44 (0) 20 7743 3300**. This document is dated 16 April 2024.

What is this product?

Type: The Fund is a sub-fund of BlackRock Global Funds, an umbrella company incorporated in Luxembourg, authorised by the Commission de Surveillance du Secteur Financier as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to maximise the return on your investment, in a sustainable way, through a combination of capital growth and income on the Fund's assets and invest in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- The Fund invests globally at least 70% of its total assets in equity securities (e.g. shares) and fixed income (FI) securities in normal market conditions. FI securities include bonds and money market instruments (i.e. debt securities with short term maturities). It may also hold deposits and cash. The asset classes and the extent to which the Fund is invested in these may vary without limit depending on market conditions.
- The FI securities may be issued by governments, government agencies, companies and supnationals (e.g. the International Bank for Reconstruction and Development) and may include securities with a relatively low credit rating or which are unrated.
- At least 90% of the issuers of securities the Fund invests in are environmental, social and governance (ESG) rated or have been analysed for ESG purposes.
- The Investment Adviser (IA) will also employ a proprietary methodology to assess investments based on the extent to which they are associated with positive or negative externalities, that is environmental and social benefits or costs as defined by the IA.
- The Fund's total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at www.blackrock.com/baselinescreens. The Fund may obtain indirect exposure (through, including but not limited to, financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities which may not satisfy these ESG criteria.
- The Fund is actively managed, and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to a composite benchmark comprising the MSCI All Country World Index (60%) and Bloomberg Global Aggregate Index (40%) (the "Index") when constructing the Fund's portfolio, and also for risk management purposes. The ESG policy reduces the investment universe of the Fund by 20%. For the purposes of measuring this reduction only, MSCI All Country World Index and Bloomberg Global Aggregate Index are used to define the investment universe and are reduced separately.
- The Fund may use FDIs for investment purposes and for the purposes of efficient portfolio management.
- The Fund invests in fixed income securities and equity securities and so the value of your investment may be affected by the factors which impact the value of those asset classes.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depositary of the Fund is The Bank of New York Mellon SA/NV, Luxembourg Branch.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Global Funds. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the BlackRock website at: www.blackrock.com or by calling the International Investor Servicing team on +44 (0) 20 7743 3300.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- Your shares will be denominated in US Dollar, the Fund's base currency.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US\$10,000,000 or other currency equivalent.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 3 years		Example Investment : USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	7,110 USD	5,780 USD
	Average return each year	-28.9%	-16.7%
Unfavourable**	What you might get back after costs	8,080 USD	9,420 USD
	Average return each year	-19.2%	-2.0%
Moderate***	What you might get back after costs	10,320 USD	11,400 USD
	Average return each year	3.2%	4.5%
Favourable****	What you might get back after costs	13,880 USD	14,860 USD
	Average return each year	38.8%	14.1%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between August 2021 - December 2023.

*** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between October 2017 - October 2020.

**** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between December 2018 - December 2021.

What happens if BlackRock (Luxembourg) S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, The Bank of New York Mellon SA / NV, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	105 USD	363 USD
Annual cost Impact (*)	1.0%	1.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6 % before costs and 4.5 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	-
Exit costs	We do not charge an exit fee.	-

Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.74% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	74 USD
Transaction costs	0.31% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	31 USD

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	-
