Performance (%)

As of 31/07/2024

Model	Last Month (%)	3 Month (%)	Year to Date (%)	1 Year (%)	3 Year (%)	5 Year (%)
*Conservative (15/85)	1.51	3.04	3.60	6.67	-	-

The inception date for the model portfolios is **3/08/2021**.

Performance figures represent past performance and are not indicative of future performance. Current performance may be higher or lower than that shown. Performance is estimated and net of underlying fund fees, but gross of platform fees and does not include brokerage and commissions that may be incurred in the trading of financial products within the model portfolios. Actual investment outcomes may vary. Unless otherwise stated, performance for periods greater than one year is annualised and performance calculated to the last business day of the month. The model performance shown is hypothetical and for illustrative purposes only. The performance does not represent the performance of an actual account or investment product and is not the result of any actual trading.

PERFORMANCE COMMENTARY

As of 31/07/2024

Market Commentary

Markets saw a partial reversal over the month: Global equities, as measured by the MSCI All Country World Index (unhedged), experienced intra-month volatility amid economic growth concerns and lacklustre quarterly tech earnings, but ended the month up 3.9%. Fixed income markets, as represented by the Bloomberg Barclays Global Aggregate Index (hedged), rose 1.9% as softer inflation data cemented hopes for a less restrictive monetary policy stance.

Developed markets outperformed Emerging markets: Equity performance diverged across geographies, with Developed markets broadly advancing and Emerging market equities posting positive but relatively softer returns as Chinese economic activity remained subdued. Japanese equities, as represented by the Nikkei 225 Index, underwent sharp swings in July and declined 1.2% (in local currency terms) after having rallied strongly across the first half of the month and year, driven by the Bank of Japan's (BoJ) decision to hike interest rates.

Fixed income markets surged higher in July: Global bonds rose strongly over the month as bond yields declined alongside weaker economic data and heightened expectations for central bank rate cuts. The Bloomberg Barclays Global Aggregate index (hedged) finished the month up 1.9%, while the Australian composite bond index gained 1.5% over July. Riskier parts of the fixed income market, namely corporate credit and emerging market debt indices also realised gains across the period.

Performance commentary

Total portfolio returns were positive in July, supported by the positive gains across asset classes. Australian equities and Developed market equities contributed positively to total returns, while fixed income also added value amid the broad decline in yields which pushed bond prices higher. Meanwhile, the bias towards the Information Technology sector relative to a standard market-capitalisation weighted portfolio weighed on returns after adding value in the first half of the year, given the market correction experienced by the tech sector in July. Over the past year, the strategy has still largely achieved above peer group median performance relative to the Morningstar multi-sector peer group and continues to attain higher ESG scores and a lower carbon footprint relative to a non-ESG standard market-capitalisation weighted benchmark.

Notes: Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Please refer to the ESG metrics tab for more details on the ESG uplift and carbon reduction obtained from investing in the portfolio. The peer group median refers to the Morningstar multi-sector peer group.

TRADE RATIONALE

As of 3/04/2024

We recently conducted our annual strategic asset allocation (SAA) review, where we re-assessed the latest capital market assumptions, investment universe and strategic holdings of the portfolio. These SAA changes were implemented on 3rd April 2024.

KEY TRADES

Modestly increase growth/defensive split: Ongoing resilience in economic fundamentals, upward revisions to forward earnings, and higher return expectations for equities over bonds lead us to increase the allocation to growth assets within the portfolio.

Increase Australian equities: Relatively more favourable capital market assumptions lead us to have an increased allocation to Australian equities.

Increase FX hedge ratio: We increase the hedge ratio within equities given the potential for the Australian dollar to strengthen following depreciation of the currency in 2023.

Reduce cash and international fixed income: Relatively more attractive capital market assumptions lead us to increase Australian fixed income over that of cash and international fixed income.

Notes: For more information on the SAA Changes, please refer to the SAA Note under “Additional Resources”.

This information should not be relied upon as investment advice, research, or a recommendation by BlackRock regarding (i) the funds, (ii) the use or suitability of the model portfolios or (iii) any security in particular. Only an investor and their financial professional know enough about their circumstances to make an investment decision.

STRATEGIC ASSET CLASS VIEWS

Asset Class	View	Rationale
Growth/Defensive Split	Increase	Higher expected returns and ongoing resiliency in forward earnings lead us to slightly increase the allocation to growth assets. For example, the Balanced portfolio is now 51/49 compared to 50/50 last year. We also increased the growth/defensive split for the Aggressive portfolio from 85/15 to 91/9 to better align to investors' risk appetite within this category.
Growth Assets		
Australian Equities	Increase	Relatively attractive valuations and higher dividend yields leads us to increase Australian equities marginally.
Developed ex AU Equities	Neutral	We reduce unhedged equities in favour for hedged equities to increase the currency hedge ratio. A higher currency hedge ratio would better protect the value of the portfolio in the event of a stronger Australian dollar.
Defensive Assets		
Australian Fixed Income	Increase	Relatively higher expected returns for Australian fixed income sees us increasing the exposure to Australian bonds over that of international fixed income and cash.
International Fixed Income	Decrease	We reduce International fixed income in favour for Australian fixed income based on the relative attractiveness of capital market assumptions.
Cash	Decrease	Reduce cash in favour for fixed income given higher expected returns for the latter.

Changes to Holdings (%)

ESG METRICS

As of 31/07/2024

We quantify the ESG characteristics of the model portfolio by comparing its MSCI ESG Ratings and Carbon Emissions with a non-ESG Benchmark portfolio. The Non-ESG Benchmark portfolio refers to a portfolio that uses traditional non-ESG market indices as building blocks. The following charts show the ESG Uplift and Carbon Reduction obtained from investing in the model portfolio relative to a traditional non-ESG Benchmark.

ESG UPLIFT

 Higher ESG ratings relative to a non-ESG optimized benchmark

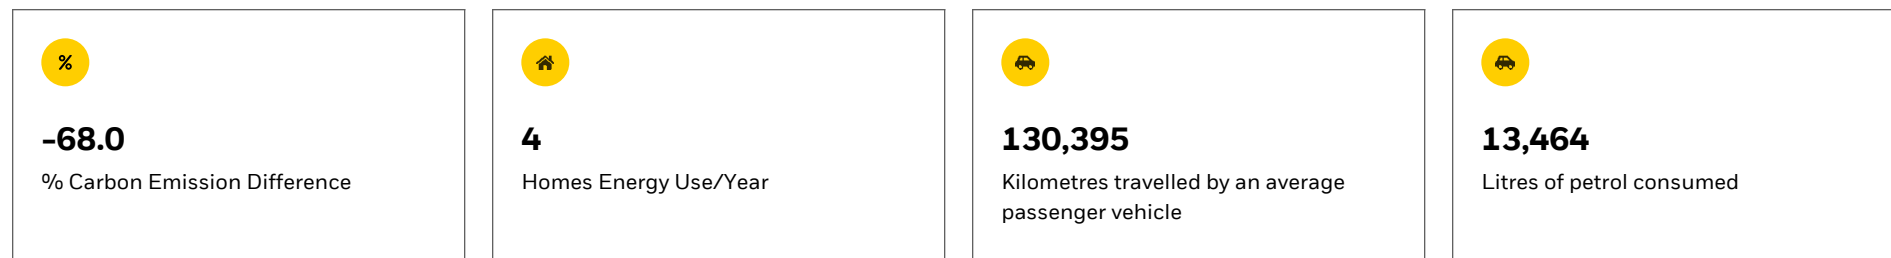

MSCI ESG RATING CCC(worst) to AAA(best)			ESG Category
CCC	B	→	Laggard
BB	A	→	Average
AA	AAA	→	Leader

LOWER CARBON FOOTPRINT

The following metrics illustrates the annual carbon emission reduction** obtained by investing one million USD in the ESG models relative to a non-ESG comparative benchmark (based on MSCI ESG Research analysis of portfolio companies' carbon emissions).

CARBON EMISSIONS REDUCTION EQUIVALENTS

Notes: Issuers of securities held by an Underlying Fund may meet or fail to meet BlackRock's or its index/data providers' sustainability criteria from time to time. In these circumstances, BlackRock will use reasonable efforts to invest, divest or otherwise respond to the change within a reasonable period (for example, at the following rebalance date) considering the materiality of the change, liquidity, and transaction costs. The methodology of index and data providers may differ.

Source: BlackRock, MSCI & Greenhouse Gas Equivalencies Calculator. For illustrative purposes only. This is not a recommendation to invest in any particular financial product. This material provides general information only. ESG scores and carbon emissions are only two factors to be considered when deciding whether to invest in a product.

*The non-ESG benchmark refers to a portfolio that uses standard (non-ESG) market-capitalisation weighted indices as building blocks. We use the following standard market-capitalisation weighted indices in the benchmark: Australian equity (S&P/ASX 300 Index), International equity (MSCI World ex Australia Index Unhedged & AUD Hedged), Australian fixed income (Bloomberg Ausbond Composite 0+ Yr Index), International fixed income (Bloomberg Global Aggregate AUD Hedged Index).

**Carbon emissions are measured in terms of scope 1 (direct) and scope 2 (indirect) emissions normalised by the most recently available enterprise value including cash (EVIC) in million USD. For more information around the definitions of scope 1+2 emissions, please refer to MSCI's website.

IMPORTANT INFORMATION

The use of Advisor Centre is subject to BlackRock Terms of Use. The data collected through the Advisor Centre is treated pursuant to BlackRock Privacy Notices.

Information and materials available in the Adviser Centre are issued by BlackRock Investment Management (Australia) Limited ABN 13 006 165 975, AFSL 230 523 (**BIMAL**) for the exclusive use of registered financial advisers in Australia only, unless stated otherwise. These materials provide general advice only and do not take into account your client's individual objectives, financial situation, needs or circumstances. Before making any investment decision on your client's behalf, you should assess whether the material is appropriate for your client and provide financial advice tailored to your client having regard to your client's individual objectives, financial situation, needs and circumstances. Refer to BIMAL's Financial Services Guide on its website for more information. These materials are not a financial product recommendation or an offer or solicitation with respect to the purchase or sale of any financial product in any jurisdiction.

Information provided is for illustrative and informational purposes and is subject to change. It has not been approved by any regulator. These materials are not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. BIMAL is a part of the global BlackRock Group which comprises of financial product issuers and investment managers around the world. BIMAL is the issuer of financial products and acts as an investment manager in Australia.

BlackRock model portfolios themselves are not funds issued by BIMAL. They are offered through third party platform providers which are not affiliated with BIMAL. Any potential investor should consider the latest PDS issued by the third party platform provider before deciding whether to acquire, or continue to hold, an investment. BlackRock model portfolios included in these materials are provided for illustrative and educational purposes only. They do not constitute research, and they are not personal advice from BIMAL to any client of a registered financial adviser. They are intended for use only by a registered financial adviser with other information as a resource to help build a portfolio or as an input in the development of investment advice for a registered financial adviser's own clients. Such registered financial advisers are responsible for making their own independent judgment as to how to use BlackRock model portfolios included in these materials. BIMAL is not responsible for determining the appropriateness or suitability of any BlackRock model portfolios, or any of the securities included therein, for any client of a registered financial adviser. BlackRock model portfolios include investments in units of funds. Investors will indirectly bear fund expenses in respect of portfolio assets allocated to funds. Information concerning BlackRock model portfolios – including holdings, performance and other characteristics – may vary materially from any portfolios or accounts derived from BlackRock model portfolios included in these materials. There is no guarantee that any investment strategy or model portfolio will be successful or achieve any particular level of results.

For BIMAL Schemes: BIMAL is the responsible entity and issuer of units in the Australian domiciled managed investment schemes referred to in these materials, including the Australian domiciled iShares ETFs. Any potential investor should consider the latest PDS before deciding whether to acquire, or continue to hold, an investment in any BlackRock fund. BlackRock has also issued a target market determination (TMD) that describes the class of consumers that comprises the target market for each BlackRock fund and matters relevant to their distribution and review. The PDS and the TMD can be obtained by contacting the BIMAL Client Services Centre on 1300 366 100. In some instances the PDS and the TMD are also available on the BIMAL website at www.blackrock.com/au. An iShares ETF is not sponsored, endorsed, issued, sold or promoted by the provider of the index which a particular iShares ETF seeks to track. No index provider makes any representation regarding the advisability of investing in the iShares ETFs. Further information on the index providers can be found in the BIMAL website terms and conditions at www.blackrock.com/au.

For non-BlackRock Schemes: This material includes reference to non-BlackRock Australian domiciled managed investment schemes where the responsible entity is an unrelated third party. Please either refer to the relevant responsible entity's website or contact them directly for more details including for their latest FSG, Scheme PDS and TMD. Data presented in relation to a third party responsible entity and their Scheme(s) is collected from sources that are believed to be accurate but should not be relied upon.

BIMAL, its officers, employees and agents believe that the information in these materials and the sources on which it is based (which may be sourced from third parties) are correct as at the date of publication. While every care has been taken in the preparation of this material, no warranty of accuracy or reliability is given and no responsibility for the information is accepted by BIMAL, its officers, employees or agents. Except where contrary to law, BIMAL excludes all liability for this information.

Any investment is subject to investment risk, including delays on the payment of withdrawal proceeds and the loss of income or the principal invested. While any forecasts, estimates and opinions in this material are made on a reasonable basis, actual future results and operations may differ materially from the forecasts, estimates and opinions set out in this material. No guarantee as to the repayment of capital or the performance of any product or rate of return referred to in this material is made by BIMAL or any entity in the BlackRock group of companies. Investment comparisons are for illustrative purposes only. Material differences may exist between product, service or performance being compared, such as, investment objectives, fees and expenses, types of investments made, countries or markets covered. To better understand the similarities and differences between investments, including investment objectives, risk, fees and expenses, it is important to read of PDS.
