Results of Operations

The Fund's net asset value increased from \$961.5 million at December 31, 2023 to \$975.9 million at June 30, 2024. This change in net asset value represents a decrease of \$11.1 million due to net redemptions from the Fund and an increase of \$25.5 million due to investment operations less distributions paid.

The Fund was authorized to borrow an amount not exceeding 15% of its net asset value, which could be used by the Fund to purchase additional securities or for working capital purposes as long as the Loan Facility remained open. Advances bore interest at the prime rate or the lender's discount rate for bankers' acceptances, as applicable. The bankers' acceptance had a face value of \$50 million and acceptance rate of 0.85% per annum. The Fund paid a Commitment Fee rate of 0.17% per annum on the unused portion of the Loan Facility. Related Party Transactions

Trustee, Manager and Portfolio Advisor

BlackRock Canada, an indirect, wholly-owned subsidiary of BlackRock, Inc. ("BlackRock"), is the trustee, manager, and portfolio advisor of the Fund and is responsible for the operations of the Fund, including the management of the Fund's investment portfolio and the valuation of the Fund's assets. BlackRock Canada is entitled to an annual management fee for acting as trustee, manager and portfolio advisor of the Fund. In addition, BlackRock Canada and/or an affiliate, as applicable, acts as trustee or manager of any iShares ETF in which the Fund invests.

The Fund is permitted to purchase, sell and hold securities of certain issuers that are directly or indirectly related to BlackRock Canada (currently including, but not limited to, BlackRock). With respect to investment in related issuers, BlackRock Canada has relied on the approval that it has received from the Independent Review Committee ("IRC"). The approval requires BlackRock Canada to comply with its current policy and procedures regarding investments in related issuers and to report periodically to the IRC.

For the period ended June 30, 2024

The Fund may execute inter-fund trades. Inter-fund trading is the buying and selling of portfolio securities between funds for which BlackRock Canada serves as trustee and manager and managed accounts to which BlackRock Canada serves as manager. With respect to inter-fund trades, BlackRock Canada has relied on the approval that it has received from the IRC. The approval requires BlackRock Canada to comply with its current policy and procedures regarding inter-fund trading and to report periodically to the IRC.

The Fund will pay for all ordinary expenses incurred in connection with its operations and administration, other than the fees payable to Manulife Asset Management for acting as a data services provider. The Fund will also be responsible for any extraordinary expenses that it might incur from time to time.

Securities Lending Agents

The Fund has engaged BlackRock Institutional Trust Company, N.A. ("BTC") and BlackRock Advisors (UK) Limited ("BRAL"), affiliates of BlackRock Canada, as securities lending agents. To mitigate risks from securities lending, the Fund benefits from a borrower default indemnity provided by BlackRock, an affiliate of BlackRock Canada. BlackRock's indemnity allows for full replacement of securities lent in the event that the borrower defaults on its obligation to return the loaned securities and collateral received is insufficient to reconstitute the portfolio of loaned securities. BTC and/or BRAL bear all operational costs directly related to securities lending as well as the cost of borrower default indemnification. The Fund did not engage in securities lending activities during the six-month period ended June 30, 2024.

BlackRock Canada relies on a positive recommendation and standing instruction that it has received from the IRC with respect to the securities lending activities of the Fund, including the appointment of and payment to its affiliates as securities lending agents. The standing instruction requires BlackRock Canada to comply with its current policy and procedures regarding securities lending and to report periodically to the IRC.

^(a) This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements and is not a reconciliation of the beginning and ending net assets per unit. The net assets per unit presented in the financial statements is the same as the net asset value per unit calculated for Fund pricing purposes.

^(b) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the period.

^(c) Rounds to less than \$0.01.

^(d) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.

^(e) The tax characteristics of distributions are reported annually by the Fund to CDS Clearing and Depository Services Inc. ("CDS"). CDS makes this information available to brokers who provide it to unitholders through standard tax reporting.

^(f) This information is provided as at June 30, 2024 and December 31 of the years shown.

^(g) Management expense ratio ("MER") is based on total fees and expenses (excluding commissions and other portfolio transaction costs) for the stated period, including the Fund's proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of average daily net asset value during the period.

^(h) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily net asset value during the stated period. Where the Fund invests in any underlying fund, the TER includes the Fund's proportionate share of the commissions of any underlying fund in which the Fund has invested.

⁽ⁱ⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

^(j) Closing market price on the last trading day of the period or year, as applicable, as reported on the Exchange.

Management Fees

The management fees are calculated based on 0.65% per annum of the average daily net asset value of the Fund. The fees are accrued daily and are paid monthly in arrears. In addition, BlackRock Canada and/or an affiliate, as applicable, is entitled to receive management fees for acting as trustee or manager of any iShares ETF held by the Fund (“underlying product fee”). As the underlying product fees are embedded in the market value of any iShares ETF in which the Fund invests, the underlying product fees are paid indirectly by the Fund.

BlackRock Canada has adjusted the management fee payable by the Fund during the six-month period to ensure that total annual fees paid directly and indirectly by the Fund to BlackRock Canada and/or its affiliate, as applicable, did not exceed 0.65% per annum (excluding GST and HST) of the Fund’s net asset value.

For the six-month period ended June 30, 2024, the Fund accrued, directly and indirectly, \$3,167,978 (excluding GST and HST in the amount of \$263,503) in total annual fees (management fees and underlying product fees of \$2,654,508 and \$513,470, respectively).

The total annual fees were received by BlackRock Canada and/or its affiliate, as applicable, for managing the Fund’s portfolio and the portfolio of any iShares ETF in which the Fund invests, maintaining portfolio systems used to manage the Fund and any iShares ETF, maintaining the www.blackrock.com/ca website, and providing all other services including marketing and promotion.

Past Performance

The following charts show past performance for the Fund. The indicated rates of return (i) are the historical total returns including changes in net asset value per unit, and (ii) assume reinvestment of all distributions during the period in additional units at the net asset value per unit at the time of the distribution. The reinvestment of distributions increases returns. These returns do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. These returns do not indicate how the Fund will perform in the future.

Year-by-Year Returns

The bar chart below shows the Fund’s annual performance for each of the periods shown and illustrate how its performance has changed from year to year with the exception of 2024, which shows the actual six-month return for the period ended June 30, 2024. The chart shows, in percentage terms, how much an investment made in the Fund on the first day of each period would have grown or decreased by the last day of the period.
