Notes to the Financial Statements

1. Organisation

The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010 as amended from time to time and is regulated pursuant to such law.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such compartment.

As at 31 August 2024, the Company offered shares in 108 sub-funds (each a 'Fund'), together the 'Funds'. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The Share Classes have equivalent rights in the Company but carry different features and charging structures, which are described in more detail in the Company's Prospectus.

Significant events

On 1 March 2022, due to the significant investment exposure of the Emerging Europe Fund (for the purposes of the remainder of this paragraph, the "Fund") to Russia, the Board of Directors considered that, in the interests of the Fund and its investors, subscriptions, redemptions and conversions of all share classes of the Fund and the determination of net asset values should be temporarily suspended, until further notice, pursuant to the Fund's discretion under the prospectus. On 3 March 2022, the Board of Directors took the decision to further significantly write down the value of the Russian securities held by the Fund. On 9 March 2022, the Board of Directors of the Management Company took the additional exceptional decision to waive its management fees and the Annual Service Charge related to the Fund (effective 1 March 2022) while valuation, subscriptions and redemptions in the Fund are suspended until further notice via the BlackRock website. Since January 2023, month-end indicative Net Asset Values are being published on the BlackRock website. The Net Asset Value disclosed within the annual report is the indicative Net Asset Value of the Fund as at 31 August 2024. Effective 18 March 2024, the directors notified the shareholders of the Emerging Europe Fund of their decision to transfer the liquid and tradeable portion of assets of the Fund to a newly created sub-fund within the Company. The Fund will remain suspended and will be put into liquidation as soon as practicable. Effective 13 May 2024, the Emerging Europe II Fund was launched. On the same date, the liquid and tradeable portion of assets of the Emerging Europe Fund transferred to the Emerging Europe II Fund. The shareholders received the same number of shares in the equivalent share class in the newly created Fund.

Effective 28 September 2023, the Swiss Small & MidCap Opportunities Fund was re-opened to subscriptions.

Effective 26 October 2023, an updated Prospectus of the Company was issued.

Effective 26 October 2023, the Natural Resources Growth & Income Fund changed its name to the Natural Resources Fund.

Effective 7 November 2023, the China Flexible Equity Fund terminated.

Effective 6 February 2024, the Global Listed Infrastructure Fund, denominated in USD, was launched.

Effective 23 February 2024, the ESG Systematic Multi Allocation Credit Fund changed its name to the Systematic ESG Multi Allocation Credit Fund and the Global Dynamic Equity Fund changed its name to the Sustainable Global Dynamic Equity Fund.

Effective 23 February 2024, an updated Prospectus of the Company was issued.

Effective 7 March 2024, the Global Unconstrained Equity Fund, denominated in USD, was launched.

Effective 23 March 2024, an addendum to the Prospectus was issued.

Effective 31 March 2024, Paul Freeman resigned from the Board of Directors of the Company.

Effective 4 April 2024, the Euro Investment Grade Fixed Maturity Bond Fund 2027 (1), denominated in EUR, was launched.

Effective 17 June 2024, the Emerging Europe II Fund changed its investment objective, policy and name to the Emerging Markets Ex-China Fund, denominated in USD.

Effective 19 June 2024, Benjamin Gregson was appointed to the Board of Directors of the Company.

2. Summary of Significant Accounting Policies

The financial statements for the Company have been prepared on a going concern basis, with the exception of the China Flexible Equity Fund, Emerging Europe Fund, Future Consumer Fund and China Impact Fund, which have been prepared on a non-going concern basis, following the directors' decision to terminate the Funds referred to in note 1 and 19. For these Funds, the significant accounting policies set out below have been applied consistently with the exception that the carrying values of the remaining assets as at 31 August 2024 are presented at their estimated net realisable values and all liabilities are presented at their estimated settlement amounts. The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies and include the following significant accounting policies:

Notes to the Financial Statements continued

(a) Valuation of Investments and Other Assets

The Company's investments and other assets are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the net asset value of certain funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Directors have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered. The Board of Directors of the Company delegate the valuation of investments to the senior management of the Management Company;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Directors on the basis of their expected disposal or acquisition prices;
- ▶ fixed income securities that are not listed on stock exchanges or traded on other regulated markets are valued at the last available mid price or yield equivalents obtained from one or more dealers or pricing services. Securities traded in the OTC market are valued at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated by or under the direction of the Board of Directors of the Management Company as the primary market. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market;
- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolio of the Fund;
- ▶ money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value;

- ▶ money market instruments held on the Euro Reserve Fund and the US Dollar Reserve Fund are valued on a mark-to-market basis. Where this is not possible, the assets are valued conservatively by using the mark-to model basis;
- ▶ time deposits are valued at amortised cost which approximates their fair market value;
- ▶ cash, deposits, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- ▶ assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- ▶ liabilities, which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for fund shares redeemed are valued at their nominal value.

Realised gains and losses on the disposal of investments are calculated using the average cost method and are reflected in the Statement of Operations and Changes in Net Assets.

(b) Income/Expense from Investments

The Company takes account for income from its investments on the following basis:

- ▶ interest income is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- ▶ Interest on cash and cash equivalents, fixed deposits, collective investment scheme income and money market deposit income are recognised on an accruals basis;
- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- ▶ securities lending income is recognised on an accruals basis;
- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from the relevant parties, the amount receivable is written off;
- ▶ withholding tax reclaims are accounted for on an accruals basis;
- ▶ the date included in the description of any perpetual bonds in the Portfolio of Investments is the next callable date of the bonds and the interest rate disclosed under the description in the Portfolio of Investments is the interest rate applicable at the year end and is for information only as these bonds are bearing variable interest rates.

Notes to the Financial Statements continued

Negative yield expense relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument.

(c) Financial Derivative Instruments

During the year, the Funds have entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the valuation date. Gains/losses arising from these unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The Funds can write covered call and put options and purchase call and put options. The Funds can also invest in spread options and synthetic cap options. A spread option is a type of option that derives its value from the difference between the prices of two or more assets. A synthetic cap option is an agreement between two parties providing the purchaser an interest rate ceiling or 'cap' on interest payment. The rate cap itself provides a periodic payment based upon the positive amount by which the reference index rate exceeds the strike rate. When the Funds write and/or purchase an option, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option and the asset for a purchased option are subsequently marked to market to reflect the current value of the option. The Directors have agreed to value exchange traded options based on mid prices or settlement prices rather than last traded prices as this methodology best reflects their estimated realisation value. Unlisted options are valued based upon daily prices obtained from third party pricing agents. When a security is sold through the exercise of an option, the premium received (or paid) is deducted from (or added to) the basis of the security sold. When an option expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

The Funds have entered into swap agreements to exchange the return generated by one instrument for the return generated by another investment. In the case of credit default swaps, a series of premiums is paid to the seller of the protection, in return for a payment contingent on a credit event (predefined in the agreement). Where possible, swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the actual market maker. Where such quotations are not available swaps are priced based upon daily quotations from the market maker. In both cases changes in quotations are recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the swaps and the interest earned or incurred in relation to the swaps are presented in the Statement of Operations and Changes in Net Assets.

During the year, the Funds have entered into swaption transactions. These give the purchaser the right, but not the obligation to enter into an interest rate swap at a pre-set interest rate within a specified period of time. The swaption buyer pays a

premium to the seller for this right. A written swaption gives the purchaser the right to receive fixed payments in return for paying a floating rate of interest. A purchased swaption gives the purchaser the right to pay a fixed rate of interest in return for receiving a floating rate payment stream. When the Fund writes/purchases a swaption, an amount equal to the premium received/paid by the Fund is recorded as a liability or an asset in the Statement of Net Assets.

During the year, the Dynamic High Income Fund, ESG Global Conservative Income Fund, ESG Global Multi-Asset Income Fund and the Global Multi-Asset Income Fund purchased a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

To Be Announced securities (TBAs) are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Portfolio of Investments.

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction. If two counterparties have offsetting trades for the same TBA contract, these trades will be netted out. On settlement day, the seller delivers the securities specified two days earlier and receives the cash specified on the trade date. In practice, most TBA trades do not ultimately lead to a transfer of physical MBS. The seller will either unwind or "roll" an outstanding trade before maturity, rather than physically settle it.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBAs as of 31 August 2024 which are included within receivable for investments sold and payable for investments purchased in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the realised appreciation or depreciation on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements continued

(d) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Funds has been translated at the rates of exchange ruling at the time of purchase.

Investments and other assets in currencies other than the currency of denomination of the respective Funds have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 31 August 2024.

(e) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds. For the Statement of Net Assets, the exchange rates prevailing at the Fund's valuation point in Luxembourg on 31 August 2024 are:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.9029	0.7607	145.56	0.8496	7.0794

For the Statement of Operations and Changes in Net Assets, the exchange rates are the average rate calculated over the year:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.9252	0.7929	150.5180	0.8867	7.2342

These figures are presented for information purposes only and are rounded to four decimal places. For financial statements purposes exchange rates to nine decimal places are applied.

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the year. The resulting Foreign exchange adjustment of USD 704,093,650 represents the movement in exchange rates between 31 August 2023 and 31 August 2024. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(f) Exchange rates

The Renminbi is subject to foreign exchange restrictions and is not a freely convertible currency. The exchange rate used for the China Bond Fund is in relation to the offshore Renminbi ("CNH"), not the onshore Renminbi ("CNY"). The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions applied by the Chinese government from time-to-time as well as other external market forces. Any divergence between CNH and CNY may adversely impact investors.

(g) Dilution

The Directors may adjust the Net Asset Value ("NAV") per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such

Notes to the Financial Statements continued

as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of fixed income Funds, of the NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net subscriptions (inflows) than for net redemptions (outflows). In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment.

As at 31 August 2024, in accordance with the Prospectus Appendix B, 17.3, such a dilution adjustment was applied to the Asian Tiger Bond Fund, Emerging Markets Sustainable Equity Fund, Global Government Bond Fund, Sustainable Fixed Income Global Opportunities Fund and World Energy Fund. During the year ended 31 August 2024, such a dilution adjustment was applied to all Funds except for the China Innovation Fund, China Multi-Asset Fund, Climate Action Equity Fund, Climate Transition Multi-Asset Fund, Dynamic High Income Fund, Emerging Europe Fund, ESG Global Conservative Income Fund, Euro Reserve Fund, European Sustainable Equity Fund, Global Allocation Fund, Global Listed Infrastructure Fund, Global Multi-Asset Income Fund, Impact Bond Fund, US Dollar Reserve Fund and World Healthscience Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security.

When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised appreciation/(depreciation) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in depositary fees in the Statement of Operations and Changes in Net Assets of the Fund.

(i) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts.

(j) Fair valuation

The fair valued securities are evidenced by a “***” in the Portfolio of Investments.

As at 31 August 2024, such fair valuation adjustment was applied as per the table below:

Fund	Currency	Market Value of fair valued securities	% of Net Assets
Asian Dragon Fund	USD	-	0.00
Asian High Yield Bond Fund	USD	32,385,549	2.25

(3) Fund suspended, see Note 1, for further details.

(4) Fund name changed during the year, see Note 1, for further details.

(5) Fund name changed post year end, see Note 19, for further details.

If in any case a particular value is not ascertainable by the methods outlined above, or if the Board of Directors of the Company considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the Board of Directors of the Company in its absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. The Board of Directors of the Company may set specific thresholds, that, where exceeded, result in an adjustment to the NAV by applying a specific index adjustment. The Board of Directors of the Company delegate the valuation of investments to the senior management of the Management Company.

(k) Special Purpose Acquisition Companies Commitments

Special purpose acquisition companies ("SPACs") are companies with no commercial operations which go public with the intention of merging with or acquiring a company using the proceeds of the SPAC's initial public offering. The Funds may enter into a commitment with a SPAC for a private investment in a public equity ("PIPE") transaction and will satisfy the commitment if and when the SPAC completes its merger or acquisition. Securities purchased through PIPE transactions will be restricted from trading and considered illiquid until a registration statement for the shares is filed and declared effective.

Unfunded SPAC PIPE commitments are marked-to-market and any gains/ losses arising from these commitments are taken to "Unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Net Assets and within "Net change in unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Operations and Changes in Net Assets. There were no such commitments held as at 31 August 2024.

(l) Change in presentation – OTC derivatives: Contracts for difference ("CFDs")

Reason for change in presentation:

Investments in certain OTC derivatives, namely CFDs, by their nature and characteristics meet the key criteria of a swap and are more appropriately classified as swaps.

Impact of change in presentation:

The change had no impact on the NAV of the Fund. The unrealised value of these OTC derivatives have been included in the Statement of Net Assets, within the category "Market value / unrealised appreciation/depreciation of swaps". The change also means the realised and unrealised amounts, along with any associated income or expense, has now been classified under "Swaps transactions" within the Statement of Operations and Changes in Net Assets and the notes to the financial statements.

3. Management Company

BlackRock (Luxembourg) S.A. has been appointed by the Company to act as its Management Company. The Management Company, a Luxembourg société anonyme, is authorised as a fund management company in accordance with Chapter 15 of the 2010 Law. The Management Company is also authorised to act as an Alternative Investment Fund Manager in accordance with the Law of 12 July 2013.

The Company has signed a management company agreement, with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

BlackRock (Luxembourg) S.A. is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management Fees

During the year the Company paid management fees to the Management Company, BlackRock (Luxembourg) S.A.

The Company will pay the management fee at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.00% to 1.75% and will vary according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant

Notes to the Financial Statements continued

Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B of the Prospectus) and are paid monthly. Certain costs and fees are paid out of the management fee, including the fees of the Investment Advisers. There are no management fees charged on Class J and Class X Shares. In relation to the Class SR Shares, a single fee is charged (which comprises the management fee and the Annual Service Charge) which forms part of the ongoing charges figure.

To assist in achieving the investment objectives of the Reserve Funds (Euro Reserve Fund and US Dollar Reserve Fund), in certain circumstances, including where market conditions cause decreasing yields on the Fund's underlying investments, the Management Company may determine to waive its right to take the full amount of management fees to which it is entitled on any particular day or days. The Management Company may exercise its discretion to do this without prejudice to its entitlement to take the full amount of the management fee accruing on any future days.

The management fee waiver is disclosed separately from management fees in the Statement of Operations and Changes in Net Assets. During the year, the Euro Reserve Fund was subject to a management fee waiver.

Effective 9 March 2022, the Board of Directors of the Management Company waived its management fees in respect of the Emerging Europe Fund due to its suspension.

During the year, the following Funds were subject to management fee rebates linked to investments into target funds managed by BlackRock:

Asian High Yield Bond Fund, Asian Tiger Bond Fund, China Bond Fund, China Fund, China Multi-Asset Fund, Climate Transition Multi-Asset Fund, Dynamic High Income Fund, Emerging Markets Ex-China Fund, ESG Global Conservative Income Fund, ESG Global Multi-Asset Income Fund, ESG Multi-Asset Fund, Euro Corporate Bond Fund, Fixed Income Global Opportunities Fund, Global Allocation Fund, Global High Yield Bond Fund, Global Multi-Asset Income Fund, Multi-Theme Equity Fund, MyMap Cautious Fund, MyMap Growth Fund, MyMap Moderate Fund, Sustainable Fixed Income Global Opportunities Fund, Sustainable Global Bond Income Fund, Swiss Small & MidCap Opportunities Fund, Systematic ESG Multi Allocation Credit Fund and US Dollar High Yield Bond Fund.

Management fees payable at 31 August 2024 are included in the Statement of Net Assets as other liabilities.

5. Distribution Fees

The Company pays annual distribution fees as shown in Appendix E of the Prospectus. The level of distribution fee varies from 0.00% to 1.50%. Class A, D, I, J, S, X and Z Shares do not pay a distribution fee. Class C Shares do not pay a distribution fee for the Euro Reserve Fund and the US Dollar Reserve Fund. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B of the Prospectus) and are paid monthly.

The Company pays distribution fees as detailed in the Statement of Operations and Changes in Net Assets. Distribution fees payable at 31 August 2024 are included in the Statement of Net Assets as other liabilities.

6. Annual Service Charge

The Company pays an annual service charge to the Management Company.

The level of the annual service charge may vary at the Directors' discretion, as agreed with the Management Company and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Directors and the Management Company that the annual service charge currently paid shall not exceed 0.25% per annum. It is accrued daily, based on the NAV of the relevant Share Class (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B of the Prospectus) and paid monthly.

The Directors and the Management Company set the level of the annual service charge at a rate which aims to ensure that the ongoing charges of each Fund remain competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The ongoing charge is calculated based on the total expenses per share class (excluding interest on cash and cash equivalents, transaction costs and negative yield expense on financial assets, and including annual service charge subsidies) divided by the average net assets of the respective share class, expressed as a percentage.

The ongoing charge of the Asian Sustainable Equity Fund, Brown To Green Materials Fund, China Impact Fund, China Innovation Fund, China Multi-Asset Fund, China Onshore Bond Fund, Circular Economy Fund, Climate Action Equity Fund, Climate Transition Multi-Asset Fund, Developed Markets Sustainable Equity Fund, Emerging Europe Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Impact Bond Fund, Emerging Markets Local Currency Bond Fund, Emerging Markets Sustainable Equity Fund, ESG Global Multi-Asset Income Fund, Euro Investment Grade Fixed Maturity Bond Fund 2027 (1), Euro Reserve Fund, European Equity Transition Fund, European Sustainable Equity Fund, FinTech Fund, Future Consumer Fund, Future Of Transport Fund, Global Inflation Linked Bond Fund, Global Listed Infrastructure Fund, Global Unconstrained Equity Fund, Impact Bond Fund, Multi-Theme Equity Fund, MyMap Cautious Fund, MyMap Growth Fund, MyMap Moderate Fund, Natural Resources Fund, Next Generation Health Care Fund, Next Generation Technology Fund, Nutrition Fund, Sustainable Asian Bond Fund, Sustainable Emerging Markets Blended Bond Fund, Sustainable Emerging Markets Bond Fund, Sustainable Emerging Markets Corporate Bond Fund, Sustainable Emerging Markets Local Currency Bond Fund, Sustainable Fixed Income Global Opportunities Fund, Sustainable Global Allocation Fund, Sustainable Global Bond Income Fund, Sustainable Global Infrastructure Fund, Systematic China A-Share Opportunities Fund, Systematic China Environmental Tech Fund, Systematic

Notes to the Financial Statements continued

ESG Multi Allocation Credit Fund, Systematic Global Sustainable Income & Growth Fund, Systematic Sustainable Global Small Cap Fund, US Dollar Bond Fund, US Dollar High Yield Bond Fund, US Government Mortgage Impact Fund and US Sustainable Equity Fund is capped with the delta being offset against the annual service charge in the Statement of Operations and Changes in Net Assets.

The annual service charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the Depositary fees, Distribution fees, Securities Lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any costs relating to European Union ("EU") and non-EU withholding tax reclaims (plus any taxes or interest thereon) and any taxes at an investment or Company level.

The Company pays any professional costs relating to European Union withholding tax reclaims. Any costs relating to withholding tax reclaims will be allocated between the relevant sub-funds on a fair and equitable basis. As the Company has had a good degree of success with its EU withholding tax reclaims (which are paid by the Company) to date, any costs associated with non-EU withholding tax reclaims will no longer be paid out of the annual service charge and will now be paid by the Company and allocated between the relevant sub-funds on a fair and equitable basis.

The annual service charge is also used to meet fees paid to Ernst & Young S.A. for audit and services related to investor reporting and other tax compliance matters. The fees were EUR 883,375 for the year ended 31 August 2024.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's ongoing charges remain competitive. Accordingly the Management Company is entitled to retain any amount of the annual service charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of the annual service charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Directors of the Company who are not employees of the BlackRock Group receive a fee in the range of EUR 55,000 to EUR 60,000 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to Directors fees.

Taxation applicable in certain jurisdictions is also charged directly to the Funds (see Note 8).

The annual service charge is disclosed in the Statement of Operations and Changes in Net Assets.

The annual service charge payable at 31 August 2024 is included in the Statement of Net Assets as other liabilities.

7. Depositary Fees

Throughout the year the Depositary of the Company was the Bank of New York Mellon SA / NV, Luxembourg Branch. The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees which are further disclosed in the Prospectus. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the custody cost to each Fund will depend on its asset allocation at any time. During the year, fees charged on a number of funds are negative due to the write off of over accruals in prior years.

The depositary fees are charged directly to the Funds. Depositary fees payable at 31 August 2024 are included in the Statement of Net Assets as other liabilities.

8. Tax

Luxembourg

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income or capital gains tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax. However, the Company is liable to a tax in Luxembourg of 0.05% per annum or, in the case of the Reserve Funds, Class I, Class J and Class X Shares, 0.01% per annum of its NAV, payable quarterly on the basis of the value of the net assets of the respective Funds at the end of the relevant calendar quarter. No stamp or other tax is payable in Luxembourg on the issue of Shares. For the year ended 31 August 2024, USD 57,440,216 was charged in relation to Luxembourg tax.

Belgium

The Company is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the net asset value of units distributed in Belgium via Belgian intermediaries as at 31 December of the previous year. For the year ended 31 August 2024, USD 3,226,364 was charged in relation to Belgium tax.

Notes to the Financial Statements continued

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Fund's income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at <http://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Capital gains, dividends and interest received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax in European Union countries. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

9. Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated its investment management functions to the investment advisers (each an 'Investment Adviser'): BlackRock Financial Management, Inc. (US) (BFM), BlackRock Investment Management, LLC (US) (BIMLLC), BlackRock Investment Management (UK) Limited (BIMUK) and BlackRock (Singapore) Limited (BSL) as described in the Prospectus.

All Investment Advisers are appointed directly by BlackRock (Luxembourg) S.A.. All Sub-Investment Advisers are appointed by the relevant Investment Adviser. Some of which, as Investment Advisers, have in turn sub-delegated some functions to BlackRock Japan Co. Limited (BLKJap), BlackRock Asset Management North Asia Limited (BAMNA) and BlackRock Investment Management (Australia) Limited (BIMAL).

* The Fund is not authorised in Hong Kong and is not available to the public in Hong Kong as at 31 August 2024.
⁽¹⁾ Fund terminated during the year, see Note 1, for further details.
⁽²⁾ Fund launched during the year, see Note 1, for further details.
⁽³⁾ Fund suspended, see Note 1, for further details.
⁽⁴⁾ Fund name changed during the year, see Note 1, for further details.
⁽⁵⁾ Fund name changed post year end, see Note 19, for further details.

10. Transactions with Connected Persons

The ultimate holding company of the Management Company, the Principal Distributor, the Investment Advisers and the Sub-Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. During the year there were no transactions of the Company effected through a broker who is a connected person of the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company. The Company does not have any transactions with the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company or any of their connected persons as a principal during the year.

Where Funds invest in the units of other UCITS and/or other Undertakings for Collective Investment ("UCIs") that are managed, directly or by delegation, by the Investment Adviser or by any other company with which the Investment Adviser is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs. The Funds will invest, where possible, in Class J and Class X Shares, which are not subject to any management fees. These investments are evidenced by a "~" in the Portfolio of Investments of the Fund.

Where a Fund invests a substantial proportion of its net assets in other UCITS and/or other UCIs, the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 1.50% of the net asset value of the Fund.

During the year there have been no transactions which were outside the ordinary course of business or which were not on normal commercial terms entered into between the Company, the Management Company, the Investment Advisers, Sub-Investment Advisers, the Directors of the Company, the Depository or any entity in which these parties or their connected persons have a material interest.

Notes to the Financial Statements continued

During the year, the Board of Directors of the Company, in aggregate, entered into the following redemptions in the shares of the Company. These transactions were entered into in the ordinary course of business and on normal commercial terms:

Fund	Share class	Number of shares	Currency	Value	% of Net Assets
Emerging Markets Bond Fund	X Class non-distributing share	0.76	USD	19	0.00
European Fund	X Class non-distributing share	0.04	EUR	10	0.00
Global Allocation Fund	X Class non-distributing share	1.72	USD	191	0.00
Global High Yield Bond Fund	X Class non-distributing share	1.72	USD	41	0.00
Systematic China A-Share Opportunities Fund	X Class non-distributing share	1.42	USD	16	0.00
World Real Estate Securities Fund	X Class non-distributing share	1.28	USD	18	0.00

The securities lending agent appointed pursuant to the securities lending agreement is BlackRock Advisors (UK) Limited which is a connected party to the Company. BlackRock Advisors (UK) Limited bears all operational costs directly related to securities loan transactions.

The Funds benefit from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc bears the cost of indemnification against borrower default.

BlackRock Investment Management (UK) Limited has appointed BlackRock (Channel Islands) Limited to carry out certain administration services.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds of the umbrella structure.

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments.

The following Funds held cross umbrella investments as at 31 August 2024, evidenced by a "∞" in the Portfolio of Investments of the Fund, the market value of which represents 0.11% of the combined net assets.

Fund	Cross Umbrella Investment	Currency	Market Value	% of Net Assets
Asian High Yield Bond Fund	BlackRock Global Funds - China Onshore Bond Fund	USD	3,774,933	0.26

During the year ended 31 August 2024, The Bank of New York Mellon SA/NV, a connected person of the Depositary, acted in custody foreign exchange transactions and in Currency Administration/ Hedging programmes, for the Funds. Total commissions paid in relation to these transactions amounted to USD 12,794,884 with an average commission rate of 0.20 bps paid to the connected person. The total aggregate value of transactions with the connected person of the Depositary amounted to USD 633 billion, which represents 70% of the total value of such transaction entered into by the Funds. All transactions with the connected person of the Depositary were entered into in the ordinary course of business and on normal commercial terms.

Other reimbursements

During the financial year, certain Funds within the Company received reimbursements from a BlackRock Group affiliated entity for penalties charged to the Funds by Central Securities Depositories for delays in security settlements. Such reimbursements received during the financial year by the Funds are disclosed within 'other reimbursements' in the Statements of Operations and Changes in Net Assets.

Notes to the Financial Statements continued

11. Use of Commissions

Where permitted by applicable regulation (excluding, for the avoidance of doubt, any sub-funds which are in scope for MiFID II), certain BlackRock Group companies acting as investment adviser to the sub-funds may accept commissions generated when trading equities with certain brokers in certain jurisdictions. Commissions may be reallocated to purchase eligible research services. Such arrangements may benefit one sub-fund over another because research can be used for a broader range of clients than just those whose trading funded it. BlackRock Group has a Use of Commissions Policy designed to ensure only eligible services are purchased and excess commissions are reallocated to an eligible service provider where appropriate. There were no soft dollar arrangements entered into during the year.

12. Financial Derivative Instruments

The Funds may buy and sell financial derivative instruments which is further described in the Prospectus. Please refer to the Fund's Portfolio of Investments for financial derivative investments held as at 31 August 2024.

Underlying exposure, as disclosed in the Portfolio of Investments, has been calculated according to the guidelines issued by ESMA and represents the market value of an equivalent position in the assets underlying each financial instrument. The underlying exposure on the bond futures and contracts for difference are calculated off the market value of the bonds rather than the cheapest to deliver security.

13. Securities Pledged or Given in Guarantee and Received in Guarantee

Securities which are pledged as collateral or given in guarantee by the Funds are disclosed in the Portfolio of Investments of the Funds. As at 31 August 2024 the value of these securities, evidenced by a "+" in the Portfolio of Investments of the Fund, amounts to USD 373,288,174.

Securities which have been received in guarantee by the Funds are detailed in the table below. As at 31 August 2024 the value of these securities amounts to USD 2,070,737.

Fund	Holdings	Description	Currency	Value (USD)
Global Allocation Fund	320,000	United States Treasury Note/Bond 0.625% 15/8/2030	USD	256,038
		United States Treasury Note/Bond 1.125% 28/2/2025

Fund	Holdings	Description	Currency	Value (USD)
Sustainable World Bond Fund	300,000	United States Treasury Note/Bond 4.625% 30/6/2025	USD	300,311

14. Cash Collateral

The Funds trade derivatives with a range of counterparties. The counterparties to the derivatives are shown in the Portfolio of Investments. Collateral/Margin is paid or received on swap contracts, futures contracts, options written (put and call), options purchased (put and call) and swaptions to cover any exposure by the counterparty to the Company or by the Company to the counterparty. "Due from brokers" consists of cash collateral paid to the Portfolio's clearing brokers and various counterparties. "Due to brokers" consists of cash collateral received from the Portfolio's clearing brokers and various counterparties. Futures Contracts Due from Broker forms part of Cash at Bank and Futures Contracts Due to Broker forms part of Cash owed to Bank in the Statement of Net Assets.

The table below provides the cash collateral balances due from/ (due to) the brokers in relation to the swap contracts and OTC Options as at 31 August 2024. Futures Contracts Cash balances relate to cash held at brokers and are in part used to satisfy margin requirements as at 31 August 2024.

Notes to the Financial Statements continued

15. Dividends

The Directors' current policy in relation to the payment of dividends depends on the Share Class. For Non-Distributing Share Classes the current policy is to retain and reinvest all net income. In this regard the income is retained in the NAV and reflected in the NAV per share of the relevant Class. For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the period after deduction of expenses for Share Classes which distribute net or all of the investment income for the period and potentially a portion of capital before deduction of expenses for Share Classes which distribute gross. Please refer to the "Calculation of Dividends" section in the Prospectus for further information regarding the distribution policies for each Distributing Share Class. The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Certain Funds and/or certain Share Classes (e.g. Distributing (S) Shares, Distributing (R) Shares and Distributing (Y) Shares) may make distributions from capital as well as from income and net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

For those Funds which offer distributing shares, the frequency at which the dividend payment is made is determined by the Fund type. Further information on the payment of dividends is set out in the Prospectus.

The declaration and payment of dividends and the reinvestment options available to shareholders are set out in the Prospectus.

16. Credit Facility

The Company entered into a credit facility (amended and restated version dated 19 April 2024) with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, will make a USD 1.225 billion credit facility available to the Luxembourg UCITS Funds.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this period, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds

participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the undrawn balance.

No portion of the credit facility was used during the year ended 31 August 2024.

17. Transaction Costs

In order to achieve its investment objective, a Fund will incur transactions costs in relation to trading activity on its portfolio. Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the year ended 31 August 2024. These include commission costs, settlement fees and broker fees. During the year, fees charged on a number of funds are negative due to the write off of over accruals in prior years.

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Fund. Market impact costs are not separately identifiable and are therefore also not disclosed in the above table.

18. Sub-Underwriting Income

The Company may, with the consent of the Depositary, enter into sub-underwriting agreements. Sub-underwriting agreements allow the Company to support a rights issue, prior to investment by other subscribers, in return for a fee. During the year, no Fund received income under sub-underwriting agreements.

19. Subsequent Events

Effective 10 September 2024, the Euro High Yield Fixed Maturity Bond Fund 2027, denominated in EUR, was launched.

Effective 10 October 2024, an addendum to the Prospectus was issued.

Effective 21 October 2024, the Euro Investment Grade Fixed Maturity Bond Fund 2028, denominated in EUR, was launched.

Effective 22 October 2024, the Future Consumer Fund terminated.

Effective 24 October 2024, the China Impact Fund terminated.

Notes to the Financial Statements continued

Effective 22 November 2024, an updated Prospectus of the Company was issued.

Independent auditor's report

To the Shareholders of
BlackRock Global Funds
2-4, rue Eugène Ruppert
L-2453 Luxembourg

Opinion

We have audited the financial statements of BlackRock Global Funds (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the portfolio of investments at 31 August 2024 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 August 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 1 in the financial statements which indicates that the subscriptions, redemptions and conversions of all share classes and the determination of net asset values of BlackRock Global Funds - Emerging Europe Fund (the "Sub-Fund") have been temporarily suspended with effect from 1 March 2022 until further notice due to the current trading conditions relating to the Sub-Fund's significant investment exposure to Russia, following the incursion of the Ukraine by Russia. As noted in Note 1, the Board of Directors intends to put the Sub-Fund into liquidation as soon as practicable and therefore the financial statements have been prepared on a non-going concern basis. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its subfunds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-funds where a decision or an intention to close exists) to cease to continue as a going concern.
- In respect of sub-funds where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Directors of the Fund's use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going concern basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Ernst & Young
Société anonyme
Cabinet de révision agréé

Kerry Nichol

Luxembourg, 4 December 2024

Appendix I – Share Classes (Unaudited)

Share Classes Launched and Reactivated

The Effective Date disclosed below corresponds to the date where shares had been in issue in the respective class of the Fund for the first time. The classes may have been available for subscription at an earlier date.

Effective date	Fund	Type
6 September 2023	Dynamic High Income Fund	A Class distributing (S) (M) (G) share CHF hedged

Appendix II – Global Exposure and Leverage (Unaudited)

Global Exposure

In accordance with current BlackRock policy, global exposure is measured using the “Commitment Approach” or the Value at Risk (“VaR”) approach which considers the full constituents of the portfolio.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund under the Commitment Approach must not exceed 100% of that Fund’s Net Asset Value.

Below is the list of Funds that follow the Commitment Approach:

- ▶ Asian Dragon Fund
- ▶ Asian Growth Leaders Fund
- ▶ Asian Sustainable Equity Fund
- ▶ Brown To Green Materials Fund
- ▶ China Flexible Equity Fund⁽⁵⁾⁽¹⁾
- ▶ China Fund
- ▶ China Impact Fund
- ▶ China Innovation Fund

Appendix II – Global Exposure and Leverage (Unaudited) continued

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one day period the Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

The VaR model used by BlackRock Risk & Quantitative Analysis (“RQA”) is an adjusted historical simulation model.

For Funds which use a relative VaR approach RQA determines a reference portfolio as the basis for the relative VaR calculation. The reference portfolio is typically the index benchmark also established as the reference point for performance data in respect of the relevant Fund. This is an index (or composite of indices) constructed by a recognised index provider(s) from relevant securities which are eligible for investment by the Funds. This process gives appropriate consideration to the availability of indices with construction rules which are themselves compliant with diversification rules.

Where a Fund is monitored using VaR, the Investment Adviser will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective absolute or relative VaR regulatory limit. For relative VaR, the VaR of the respective Fund’s portfolio will not exceed twice the VaR of the reference portfolio. Utilisation refers to the level of risk taken in this context.

Fund	Market Risk Approach	Reference Portfolio	Highest utilisation of the VaR limit %	Lowest utilisation of the VaR limit %	Average utilisation of the VaR limit %

Appendix II – Global Exposure and Leverage (Unaudited) continued

Leverage

The use of derivatives may expose Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase Funds volatility.

The leverage is calculated on a gross exposure basis, by taking the sum of the notional values of the derivatives used by the Fund, without netting, and is expressed as a percentage of the net asset value.

Disclosed in the table below is the level of leverage employed during the year.

Fund	Average Leverage employed during the year
Asian High Yield Bond Fund	55%
Asian Tiger Bond Fund	80%
China Bond Fund	157%
China Onshore Bond Fund	55%
Climate Transition Multi-Asset Fund ⁽⁴⁾	88%

⁽⁵⁾ Fund name changed post year end, see Note 19, for further details.

Appendix III – Eligibility for French “Plan d’Epargne en Actions” (“PEA”) (Unaudited)

A PEA is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. PEA eligible funds must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

Throughout the year ended 31 August 2024, the Fund listed below invested more than 75% of its total assets in PEA eligible securities.

As at 31 August 2024, the Fund had the following percentage of its total assets invested in eligible PEA securities:

Fund	% Invested in PEA eligible securities
Euro-Markets Fund	95.99

The PEA eligibility of this Fund results from, to the best knowledge of the Company, tax law and practices in force in France as at 31 August 2024.

Tax law and practices may change from time to time and, therefore, the Fund which may currently be held within the framework of a PEA could lose its PEA eligibility.

Further the Funds could lose their PEA eligibility due to changes impacting their investment universe or benchmark index.

If any Fund loses PEA eligibility, investors will be informed by the publication of a notice on the website of the Company. In such a case, the investors should seek professional tax and financial advice.

Appendix IV – Supplementary Information (Unaudited)

Efficient Portfolio Management Techniques

The Company may, on behalf of certain Funds and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments (“FDIs”) provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or investment purposes, where applicable.

In addition to the investments in FDIs, the Company may employ other techniques and instruments relating to transferable securities and money market instruments, subject to the conditions set out in the relevant CSSF Circular, as amended from time to time, and the relevant ESMA Guidelines, such as repurchase / reverse repurchase transactions, (“repo transactions”) and securities lending.

Securities Lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository, The Bank of New York Mellon SA / NV, Luxembourg Branch, on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds’ Depository or the Lending Agent.

The following table details the value of securities on loan as a proportion of the Funds’ total lendable assets and as a proportion of the Funds’ NAV as at 31 August 2024. Total lendable assets represents the aggregate value of assets forming part of the Funds’ securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.
