TER describes the sum of all periodic costs and commissions that are charged to the sub-fund's assets. It is expressed retroactively as a percentage of average sub-fund assets and has been calculated in accordance with the Asset Management Association Switzerland ("AMAS") guidelines on the calculation and disclosure of the TER of collective investment schemes. Any reimbursements/commissions for client unit holdings from target funds have been credited to the sub-fund and thus reduce the TER.

Tracking error

Realised tracking error is the annualised standard deviation of the difference in monthly returns between a sub-fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time.

Cash management, efficient portfolio management techniques including securities lending and transaction costs from rebalancing can have an impact on tracking error as well as the return differential between a sub-fund and its benchmark index. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

In addition to the above, the sub-funds may also have a tracking error due to withholding tax suffered by the sub-funds on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the sub-funds with various tax authorities, any benefits obtained by the sub-funds under a tax treaty or any securities lending, activities carried out by the sub-funds.

The following table shows the actual realised tracking error of the sub-funds as at 31 May 2021. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period.

NOTES TO THE ANNUAL REPORT

For the financial year ended 31 May 2021

1. SALES RESTRICTIONS UNITED STATES OF AMERICA (USA)

Units of the sub-funds may not be offered, sold or delivered within the United States. Units of this collective investment scheme may not be offered, sold or delivered to citizens and/or residents of the United States of America and/or persons or entities whose income and/or revenue, irrespective of source, is subject to US income tax, including those deemed to be US persons under Regulation S of the US Securities Act of 1933 and/or the US Commodity Exchange Act, as amended.

2. INFORMATION RELATING TO THE AMAS TRANSPARENCY GUIDELINE

The Fund Management Company and its agents do not pay any retrocessions to third parties as remuneration for distribution activity in respect of sub-fund shares in Switzerland or from Switzerland. In respect of distribution in Switzerland or from Switzerland, the Fund Management Company and its agents do not pay any rebates to reduce the fees or costs incurred by the investor and charged to the sub-fund.

3. SOFT COMMISSIONS

The Fund Management Company has not entered into any commission sharing agreements or agreements in respect of "soft commissions".

4. VALUATION OF THE FUND'S ASSETS AND ITS UNITS

a) The NAV of each sub-fund is calculated in Swiss francs at the market value as of the end of the financial period and for each day on which units are issued or redeemed. The sub-fund's assets will not be calculated on days when the stock exchanges/markets in the main investment countries of the sub-fund concerned are closed (e.g. bank and stock exchange holidays).

b) Securities traded on a stock exchange or another regulated market open to the public shall be valued at the closing prices of the main market on the order day. Other investments or investments for which no current market value is available shall be valued at the price which would probably be obtained in a diligent sale at the time of the valuation. In such cases, the Fund Management Company shall use appropriate and recognised valuation models and principles to determine the market value.

c) The NAV of a unit of a sub-fund is determined by the market value of that sub-fund's assets, minus all that sub-fund's liabilities, divided by the number of units of that sub-fund in issue. It will be rounded to four places after the decimal point of the unit of account.

In accordance with Article 84 paragraph 2 The Swiss Financial Market Supervisory Authority ("FINMA") Collective Investment Schemes Ordinance, the investments of the sub-funds are to be summarised in a table according to the following three valuation categories:

Level 1 – trading of investments listed in a stock exchange or in another regulated market open to the public and valued according to the prices in the primary market;

Level 2 – investments that are not priced according to level 1 whose value is based on market-observed parameters;

Level 3 – investments whose value cannot be based on market-observed parameters and are valued with suitable valuation models taking account of the current market circumstances.

The determination of what constitutes market-observed parameters requires significant judgement by the Fund Management Company taking into consideration factors specific to the asset or liability.

The Fund Management Company considers prices in the primary market to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

6. OFF-BALANCE-SHEET BUSINESS

a) Securities Lending

The security lending agent appointed pursuant to the securities lending agreement is BlackRock Advisors (UK) Limited. The sub-funds benefit from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities loaned. During the year the sub-funds engaged in securities lending. The sub-fund receives either cash collateral or securities as collateral, as determined, for a value in excess of the market value of the securities loaned.

Securities lending income is split between the sub-fund and the securities lending agent in a ratio of 62.5:37.5 in favor of the sub-fund, with all operational costs borne out of the securities lending agents share.

The securities lending borrowers that received securities on loan during the year included: Citigroup Global Market Limited, Goldman Sachs International, HSBC Bank plc, Macquarie Bank Limited, Société Générale S.A., Barclays Capital Securities Limited, BNP Paribas Arbitrage, Credit Suisse AG Dublin Branch, Credit Suisse International, JP Morgan Securities plc, UBS AG. Outbreak of COVID-19

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has developed into a global pandemic and has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue to extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

9. SUBSEQUENT EVENTS

There have been no events subsequent to the year end, which, in the opinion of the Fund Management Company, may have had an impact on the financial statements for the year ended 31 May 2021.

The Alternative Investment Fund Managers Directive (the “Directive”) imposes detailed and prescriptive obligations on fund managers established in the European Union (the “EU”). These do not currently apply to managers established outside of the EU, such as BlackRock Asset Management Schweiz AG (the “Company”). Rather, non-EU managers are only required to comply with certain disclosure, reporting and transparency obligations of the Directive if such managers market a fund to EU investors.

The Company has registered the iShares ETF (CH) (the “Fund”) to be marketed to EU investors in Liechtenstein.

13. REPORT ON REMUNERATION (UNAUDITED)

The Company is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock’s interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Company; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock’s remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals’ services attributable to the Fund is included in the aggregate figures disclosed.

BlackRock has a clear and well-defined pay-for-performance philosophy, and compensation programmes which support that philosophy.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme. Although all employees are eligible to receive a discretionary bonus, there is no contractual obligation to make a discretionary bonus award to any employees. For senior management, a significant percentage of variable remuneration is deferred over time. All employees are subject to a claw-back policy.

Remuneration decisions for employees are made once annually in January following the end of the performance year, based on BlackRock’s full-year financial results and other non-financial goals and objectives. Alongside financial performance, individual total compensation is also based on strategic and operating results and other considerations such as management and leadership capabilities. No set formulas are established and no fixed benchmarks are used in determining annual incentive awards.

NOTES TO THE ANNUAL REPORT (continued)

For the financial year ended 31 May 2021

13. REPORT ON REMUNERATION (UNAUDITED) (continued)

Annual incentive awards are paid from a bonus pool which is reviewed throughout the year by BlackRock's independent compensation committee, taking into account both actual and projected financial information together with information provided by the Enterprise Risk and Regulatory Compliance departments in relation to any activities, incidents or events that warrant consideration in making compensation decisions. Individuals are not involved in setting their own remuneration.

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) each have their own organisational structures which are independent of the business units. Functional bonus pools for those control functions are determined with reference to the performance of each individual function and the remuneration of the senior members of control functions is directly overseen by BlackRock's independent remuneration committee.

Members of staff and senior management of the Company typically provide both AIFMD and non-AIFMD related services in respect of multiple funds, clients and functions of the Company and across the broader BlackRock group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Fund according to an objective apportionment methodology which acknowledges the multiple-service nature of the Company. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Company to its staff which has been attributed to the Fund in respect of the Company's financial year ending 31 December 2020 is CHF 11.74m. This figure is comprised of fixed remuneration of CHF 5.81m and variable remuneration of CHF 5.94m. There were a total of 112 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Company, which has been attributed to the Fund in respect of the Company's financial year ending 31 December 2020, to its senior management was CHF 0.29m, and to members of its staff whose actions have a material impact on the risk profile of the Fund was CHF 0.09m.
