#### IMPORTANT:

- The Fund may invest in debt securities that are subject to actual or perceived ratings downgrade. The Fund invests in certain emerging markets and may be subject to political, tax, economic, social and foreign exchange risks. The Fund may invest in non-investment grade and unrated bonds that may be subject to higher default, volatility and liquidity risks. The Fund invests in bonds issued or guaranteed by governments or authorities, which may involve political, economic, default or other risks.
- The Fund is subject to currency risk, foreign investments restrictions risk, interest rate risk, liquidity risk, securities lending counterparty risk and contingent convertible bonds risk.
- **Class 6 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion. **Class 8 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion and include interest rate differentials arising from share class currency hedging. Negative interest rate differentials may decrease the dividends paid. Paying dividends gross of expenses may result in more income being available for distribution; however these shares may effectively pay dividends from capital – may amount to a partial return or withdrawal of an investor's original investment or capital gains. All declared dividends result in an immediate reduction in the NAV price of the share class on the ex-dividend date.
- The Fund may use derivatives for hedging and extensively for investment purposes. Risks associated with derivatives include counterparty/credit, liquidity, valuation, volatility and market risks. The Fund's volatility may increase or decrease from its derivative usage, and may suffer losses.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

#### INVESTMENT OBJECTIVE

The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund's assets. The Fund invests at least 70% of its total assets in fixed income securities denominated in local currencies of developing market countries. These include bonds and money market instruments.
