

**Performance, Portfolio Breakdowns and Characteristics, and Net Assets as at 31-Dec-2024.**

**IMPORTANT:**

- The Fund may invest in debt securities that are subject to actual or perceived ratings downgrade. An increase in interest rates may adversely affect the value of the bonds held by the Fund. The Fund may invest in non-investment grade and unrated bonds that may be subject to higher default, volatility and liquidity risks.
- The Fund is subject to currency risk, delayed delivery transactions risk, geographical concentration risk in the US, sovereign debt risk, securities lending counterparty risk and currency conversion risk including Renminbi denominated Classes, liquidity risk and contingent convertible bonds risk.
- Class 6 Shares** and **Class 10 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion. **Class 8 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion and include interest rate differentials arising from share class currency hedging. Negative interest rate differentials may decrease the dividends paid. Paying dividends gross of expenses may result in more income being available for distribution; however these shares may effectively pay dividends from capital – may amount to a partial return or withdrawal of an investor's original investment or capital gains. All declared dividends result in an immediate reduction in the NAV price of the share class on the ex-dividend date.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.
