iSHARES VII PLC

BACKGROUND

iShares VII public limited company (the "Entity") is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 9 April 2009 with limited liability and segregated liability between its Funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term "Fund" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

Fund details

The Entity had 32 Funds in operation as at 31 January 2022.

These Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund, can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

Changes to the Entity during the financial period

On 24 August 2021, the benchmark index names were changed for the below Funds:

Fund name	Previous benchmark index name	Updated benchmark index name
iShares € Govt Bond 1-3yr UCITS ETF EUR (Acc)	Bloomberg Barclays Euro Government Bond 1-3 Year Term Index	Bloomberg Euro Government Bond 1-3 Year Term Index

BACKGROUND (continued)

Outbreak of COVID-19

The infectious respiratory illness caused by a novel coronavirus known as COVID-19 has had a profound impact on all aspects of society in recent years. The impact of this significant event on the Funds' financial risk exposure is disclosed in Note 3.1.

The Manager has assessed the impact of market conditions arising from the COVID-19 outbreak on the Funds' ability to meet their investment objectives. Based on the latest available information, the Funds continue to be managed in line with their investment objectives, with no disruption to the operations of the Funds and the publication of net asset values ("NAV").

Stock exchange listings

The shares of each Fund are listed and admitted for trading on the main market of the London Stock Exchange ("LSE"). Shares of each Fund may also be listed and admitted for trading on the Frankfurt Stock Exchange, the SIX Swiss Exchange, the NYSE Euronext Amsterdam, the Borsa Italiana, the Bolsa Mexicana de Valores and the Chicago Board Options Exchange.

INVESTMENT MANAGER'S REPORT (continued)

Investment management approach (continued)

Fund name	Benchmark index	Investment management approach
iShares Nikkei 225 UCITS ETF	Nikkei 225 Index	Index tracking - replicating
iShares S&P 500 Paris-Aligned Climate UCITS ETF	S&P 500 Paris-Aligned Climate Sustainability Screened Index	Index tracking - replicating

Further information on the index investment strategies used is detailed below:

For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.

For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

Performance summary and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index measure during the financial period ended 31 January 2022. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Fund as at 31 January 2022.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading during the financial period, returns are shown from the date the Fund commenced trading, and the total expense ratio ("TER") is the effective TER from the date the Fund commenced trading.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial period under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure(s), a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Tax may also impact tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview

Global equities, as represented by the MSCI All Country World Index ("ACWI"), posted a return of (0.32%) (in US Dollar terms) for the six months ended 31 January 2022. The six-month period began as mass COVID-19 vaccination programmes were well underway around the globe. However, concerns surrounding the COVID-19 Delta and Omicron variants, higher inflation, and rising commodity and energy prices weighed on markets. Furthermore, moves by global central banks towards less accommodative monetary policy pressured both bonds and equities, as some central banks raised interest rates while others indicated that increases were likely in the near future.

Economic growth slowed in most countries, turning negative in some areas while others continued growing. The US economy was a significant driver of global growth, rebounding in the fourth quarter of 2021 from a slowdown in the third quarter of 2021. The Japanese economy contracted in the third quarter amid weaker consumer spending and a slowdown in exports. Growth in the UK economy remained healthy but slowed notably in the third and fourth quarters of 2021, as tepid consumer spending and continued supply chain disruptions constrained growth. The Eurozone continued to post modest growth, driven primarily by household consumption as unemployment fell.

Growth faltered in many emerging markets, and the economies of Brazil and Russia contracted in the third quarter of 2021, while Mexico's economy contracted slightly in both the third and fourth quarters of 2021. The Chinese economy slowed amid regulatory shifts, concerns about the heavily indebted property sector and restrictions on industrial power usage.

As global inflation continued to rise, the world's largest central banks began to implement different measures aimed at monetary tightening. The US Federal Reserve ("the Fed") kept interest rates near zero and maintained major bond buying programmes to stabilise US Treasury and government agency debt markets. However, the Fed began reducing asset purchases in late 2021, and indicated that a series of interest rate increases were likely in 2022.

The Bank of England ("BoE") raised interest rates for the first time since the onset of the pandemic, as inflation reached a ten-year high. Inflation pressure also affected the Eurozone, and the European Central Bank ("ECB") began to slow the pace of its own bond buying programme, although it maintained record low interest rates.

Global equity performance varied significantly by region, with the largest gains concentrated in the US. High savings and the resumption of some leisure activities led to increased consumer spending as pent-up demand was released, while strong demand amid stock shortages led to a widespread resurgence in manufacturing activity and global trade. However, European, and Asia/Pacific equities declined during the six-month period amid higher inflation, rising bond yields, and the prospect of interest rate increases by global central banks.

Global bond prices generally declined, as heightened inflation expectations put pressure on returns. Corporate bonds fell globally amid high rates of issuance, as companies moved to secure financing in advance of anticipated interest rate increases. US Treasuries also declined amid concerns that the Fed could raise interest rates earlier than expected due to rising inflation. Similarly, UK, European, and Japanese government bonds declined for the six-month period.

Equities in emerging markets posted a decline amid concerns that the fast-spreading COVID-19 Delta and Omicron variants would interrupt growth. Central banks in many emerging markets, such as Brazil, Russia, and Mexico raised interest rates in response to heightened inflation. In China, an abrupt regulatory shift targeting companies in the technology, education, and gaming industries further weighed on equities. Emerging market bond prices declined, as the prospect of tighter monetary policy at the Fed sapped investor optimism.

In the commodities market, supply and demand shifts induced by the pandemic and subsequent recovery led to notable volatility in many commodity prices. The price of Brent crude oil rose as demand recovered while supply remained constrained. Strong demand for batteries to power electric vehicles drove lithium prices to all-time highs. Gold prices declined slightly, as investors weighed the value of gold as a store of value in inflationary times against the potential impact of future interest rate increases.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview (continued)

On the foreign exchanges, the US Dollar rose notably against most other global currencies, as investors anticipated monetary tightening by the Fed early in 2022. The relatively accommodative stances of the ECB and the Bank of Japan meant that the Euro and the Japanese Yen both declined relative to the US Dollar, while the Sterling's decline was smaller. The Chinese Yuan was one of the few currencies that gained against the US Dollar, supported by increasing exports and capital inflows.

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Entity are prepared in accordance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the United Kingdom and Republic of Ireland. The principal accounting policies and estimation techniques are consistent with those applied to the previous annual financial statements.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The risks are substantially consistent with those disclosed in the previous annual financial statements with the exception of those outlined below.

3.1 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

The coronavirus outbreak has had a profound impact on all aspects of society in recent years. While there is a growing consensus in developed economies that the worst of the impact is now over, there is an expectation that travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, cancellations, supply chain disruptions, and lower consumer demand will create ongoing challenges. While widespread vaccination programmes are now in place in many countries and are having a positive effect, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this impact may be greater where vaccination rates are lower, such as in certain emerging markets. Although it is difficult to make timing predictions, it is expected that the economic effects of COVID-19 will continue to be felt for a period after the virus itself has moved from being pandemic to endemic in nature, and this in turn may continue to impact investments held by each Fund.

A key metric used by the BlackRock Risk and Quantitative Analysis Group to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The one-day VaRs based on 99% confidence level are outlined in the table below:

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the Entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

iSHARES VII PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Fair value hierarchy (continued)

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iii) for defaulted debt instruments, the use of recent transactions and/or defaulted equity instruments for which market data is unavailable;
- (iv) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (v) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference asset/s or index at the condensed balance sheet date;
- (vi) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the condensed balance sheet date;
- (vii) for SPAC PIPE commitments, the use of underlying quoted market prices and application of discounts for lack of marketability, volatility and deal probabilities;
- (viii) for foreign currency options, option pricing models; and
- (ix) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 31 January 2022 and 31 July 2021:

NOTES TO THE FINANCIAL STATEMENTS (continued)

5. Operating expenses

The Entity employs an “all in one” fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the European Securities and Markets Authority (“ESMA”) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at www.ishares.com.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund's costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

Management fees (inclusive of investment management fees)

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 January 2022:

¹ Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

² This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

NOTES TO THE FINANCIAL STATEMENTS (continued)

7. Taxation (continued)

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 104, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

iSHARES VII PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)

8. Share capital

Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of EUR1.00 each and 1,000,000,000,000 participating shares of no par value.

Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager and nominees of the Manager at 31 January 2022 and 31 July 2021. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

Holdings in other funds managed by BlackRock/BlackRock affiliates (continued)

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

Investments	Fee paid by Fund
Investment Company – UCITS authorised in Ireland by CBI	
BlackRock ICS Euro Liquid Environmentally Aware Fund	Annual expense capped at 0.03% of NAV ¹
BlackRock ICS Euro Liquidity Fund	Annual expense capped at 0.03% of NAV ¹
BlackRock ICS Sterling Liquidity Fund	Annual expense capped at 0.03% of NAV ¹
BlackRock ICS US Dollar Liquid Environmentally Aware Fund	Annual expense capped at 0.03% of NAV ¹
BlackRock ICS US Dollar Liquidity Fund	Annual expense capped at 0.03% of NAV ¹
Investment Company – UCITS authorised in Ireland by CBI	
iShares MSCI China A UCITS ETF	Annual expense capped at 0.40% ¹

¹The Manager of these will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

All related party transactions were carried out at arm's length in the ordinary course of business. The terms and returns received by the related parties in making the investments were no more favourable than those received by other investors investing into the same share classes.

The previous table details the maximum fee charges capped as per the prospectus of the underlying funds. The table below discloses the amount of the management fee rebate received during the period on the Funds in the Entity that have invested into funds which are also managed by the Manager or an affiliate of the Manager:

Fund name	Currency	Management fee rebate for the period ended 31 January 2022	Management fee rebate for the period ended 31 January 2021

Significant investors

As at 31 January 2022 and 31 July 2021, each Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositaries ("ICSDs") in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depositary to the ICSDs and onwards to the participants of the ICSDs.

Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share.

On 3 February 2022, the agreement with State Street Bank International GmbH, acting as Information Agent in Germany, was terminated.

Since the financial period ended 31 January 2022, financial markets have fallen significantly due primarily to geo-political tensions arising from Russia-Ukraine conflict and the impact of economic sanctions on certain Russian individuals and corporate entities. The Board and the Manager continue to monitor investment performance in line with the Funds' investment objectives, with no disruption to the operations of the Funds and the publication of net asset values, with the exception of the iShares MSCI Russia ADR/GDR UCITS ETF (the "Fund"). Due to the significant investment exposure to Russia normal market trading conditions have been impacted on the Fund.

The Board of Directors (the "Board") of the Entity has taken the decision to suspend the issue of the Shares of the Fund, effective 2 March 2022. Subsequently on 3 March 2022, the Board took the decision to suspend the valuation of the Fund and the redemption and switching of the shares of the Fund, with effect from and including 3 March 2022 until further notice. Having regard to the extraordinary market circumstances, the Fund's significant exposure to depositary receipts in respect of Russian securities which are affected by trading suspensions, and the suspension of valuation of the Fund, the board of BlackRock Asset Management Ireland Limited ("BAMIL"), the manager to the Fund, has taken the decision to waive the TER that BAMIL is entitled to be paid by the Fund with effect from 2 March 2022 until further notice. BlackRock will cover the ongoing operational costs of the Fund while the TER is waived.

Effective 4 March 2022, secondary market trading in the shares of the Fund was suspended by Deutsche Börse, Euronext and Borsa Italiana. Effective 7 March 2022, secondary market trading in the shares of the Fund was suspended on the London Stock Exchange and the Bolsa Mexicana de Valores. Effective 8 March 2022, secondary market trading in the shares of the Fund was suspended on the SIX Swiss Exchange.

Other than the above, there have been no events subsequent to the financial period end, which, in the opinion of the Directors of the Entity, may have had an impact on the financial statements for the financial period ended 31 January 2022.

14. Approval date

The financial statements were approved by the Directors on 30 March 2022.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

INFORMATION FOR INVESTORS IN FRANCE

The PEA (Plan d'Epargne en Actions) is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. Each PEA eligible Fund must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

As at 31 January 2022, each Fund below had the following percentage of its assets invested in eligible PEA securities:

Fund	% Invested in European PEA eligible shares
iShares Core EURO STOXX 50 UCITS ETF	92.37%
iShares Core MSCI EMU UCITS ETF	93.28%

TRANSACTIONS WITH CONNECTED PERSONS

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial period complied with this obligation.

SOFT COMMISSIONS

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Funds during the financial period ended 31 January 2022.

CROSS INVESTMENTS

As at 31 January 2022, there were no cross-umbrella investments held by any Fund within the Entity.

iSHARES VII PLC

EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS

Efficient portfolio management techniques

The Entity may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Entity and the Entity (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the CBI.

The underlying exposure obtained through FDI and at the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund's schedule of investments.

Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and NAV, as at 31 January 2022. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.

Safekeeping of collateral received

The following table provides an analysis of the amounts of non-cash collateral received by each Fund in respect of securities lending transactions and held through a securities settlement system, as at 31 January 2022.

Regulatory Information

In the UK and Non-European Economic Area (EEA) countries: this is Issued by BlackRock Advisors (UK) Limited, which is authorised and regulated by the Financial Conduct Authority. Registered office: 12 Throgmorton Avenue, London, EC2N 2DL, Tel: +44 (0)20 7743 3000. Registered in England and Wales No. 00796793. For your protection, calls are usually recorded. Please refer to the Financial Conduct Authority website for a list of authorised activities conducted by BlackRock.

iShares plc, iShares II plc, iShares III plc, iShares IV plc, iShares V plc, iShares VI plc and iShares VII plc (together 'the Companies') are open-ended investment companies with variable capital having segregated liability between their funds organised under the laws of Ireland and authorised by the Central Bank of Ireland.

Further information about the Fund and the Share Class, such as details of the key underlying investments of the Share Class and share prices, is available on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser. The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>. A UCITS ETF's units / shares that have been acquired on the secondary market cannot usually be sold directly back to the UCITS ETF itself. Investors who are not Authorised Participants must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees and additional taxes in doing so. In addition, as the market price at which the Shares are traded on the secondary market may differ from the Net Asset Value per Share, investors may pay more than the then current Net Asset Value per Share when buying shares and may receive less than the current Net Asset Value per Share when selling them.
