What is this product?

Type: The Fund is a sub-fund of BlackRock Strategic Funds, an umbrella company incorporated in Luxembourg, authorised by the Commission de Surveillance du Secteur Financier as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to achieve long-term capital growth on your investment and invest in a manner consistent with the principles of environmental, social and governance ("ESG") investing.
- The Fund seeks to gain at least 70% of its investment exposure to equity securities (e.g. shares) and equity-related securities in a concentrated portfolio (i.e. less diverse portfolio) of companies domiciled in, or the main business of which is in, Europe.
- The term Europe refers to all European countries including the United Kingdom, Eastern Europe and the former Soviet Union countries.
- In selecting the Fund's investments, the Investment Adviser (IA) will use fundamental analysis, focusing on a variety of different strategies.
- The Fund may also, when determined appropriate, invest in fixed income (FI) securities, money market instruments (MMIs) (i.e. debt securities with short-term maturities), deposits and cash.
- The equity-related securities include financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). The IA may use FDIs for investment purposes.
- The Fund will take into account environment, social and governance criteria when selecting investments as disclosed in the prospectus. For further details please refer to the prospectus and the BlackRock website at www.blackrock.com/baselinescreens.
- The FI securities and MMIs may be issued by governments, government agencies, companies and supranationals and will be investment grade (i.e. meet a specified level of credit worthiness), non-investment grade or unrated at the time of purchase.
- The Fund is actively managed and the IA has discretion to select the Fund's investments. In doing so, the IA may refer to the MSCI Europe Index (the "Index") for portfolio construction, and risk management. The IA is not bound by the components or weighting of the Index and may also use its discretion to invest in securities not included in the Index. The Fund's portfolio holdings are expected to deviate materially from the Index.
- The price of equity securities fluctuates daily and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The price of a derivative changes on a daily basis depending on the value of the underlying reference asset(s) which in turn may affect the value of your investment. A change in the value of underlying reference assets can have a greater impact on the value of derivatives than if the assets were held directly since derivatives can be more sensitive to changes in the value of underlying reference assets.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depository of the Fund is State Street Bank International GmbH, Luxembourg Branch.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Strategic Funds. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the BlackRock website at: www.blackrock.com or by calling the International Investor Servicing team on +44 (0) 20 7743 3300.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- Your shares will be denominated in Euro, the Fund's base currency.
- You can sell your shares daily. Shares, whilst available for purchase, can be bought daily. The minimum initial investment for this share class is US\$100,000 or other currency equivalent.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

What happens if BlackRock (Luxembourg) S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Bank International GmbH, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	631 EUR	1,473 EUR
Annual cost Impact (*)	6.3%	2.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0 % before costs and 3.6 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (5.0 % of amount invested/ 500 EUR). This person will inform you of the actual distribution fee.

Composition of Costs

		If you exit after 1 year
One-off costs upon entry or exit		
Entry costs	5.00% of the amount you pay.	500 EUR
Exit costs	We do not charge an exit fee.	-
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.21% of the value of your investment per year. This is based on estimated costs. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	121 EUR
Transaction costs	0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	10 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	-

How long should I hold it and can I take money out early? Recommended Holding Period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Please see the "What are the costs?" section for details of any exit fees.
