iSHARES III PLC

BACKGROUND

iShares III public limited company (the "Entity") is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 22 January 2008 with limited liability and segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term "Fund" or "Financial Product" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

Fund details

The Entity had 50 Funds in operation as at 31 December 2022.

These Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund, can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

Changes to the Entity during the financial period

On 1 July 2022, an updated prospectus was issued by the Entity to include iShares \$ Corp Bond ESG Paris-Aligned Climate UCITS ETF, iShares S&P 500 Equal Weight UCITS ETF and iShares S&P 500 ESG UCITS ETF.

On 25 July 2022, an updated prospectus was issued to facilitate changes to the EU Sustainable Finance Disclosure Regulation ("SFDR") policies.

On 27 July 2022, Paul McNaughton, Paul McGowan and Barry O'Dwyer resigned as non-executive Directors. Pdraig Kenny was appointed as a non-executive Director. Paul McNaughton resigned as Chair of the Board and William McKechnie was appointed as new Chair. Paul McGowan resigned as Chair of the Audit Committee and Deirdre Somers was appointed as new Chair. Paul McNaughton resigned as Chair of the Nominations Committee and William McKechnie was appointed as new Chair.

On 18 August 2022, updated prospectus was issued to include iShares Blockchain Technology UCITS ETF.

On 1 September 2022, updated prospectus was issued to update environmental, social and governance ("ESG") integration, current and launched share classes, SFDR sections and Primary market initial dealing timetable.

On 21 November 2022, Peter Vivian was appointed as a non-executive Director.

COVID-19

The impact of the coronavirus outbreak was profound across all aspects of society. In developed economies, it is clear that the worst of the impact is now over. However, there is an expectation that seasonal peaks and new variants could give rise to renewed travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery and supply chain disruptions which will create ongoing challenges. Widescale and comprehensive vaccination programmes have been put in place in many countries which have had a positive effect. Nevertheless, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this in turn may continue to impact investments held by each Fund.

BACKGROUND (continued)

Russia-Ukraine conflict

Certain financial markets have fallen due primarily to geo-political tensions arising from Russia's invasion of Ukraine and the impact of the subsequent range of sanctions, regulations and other measures which impaired normal trading in Russian securities. The Board and the Investment Manager continue to monitor investment performance in line with the Funds' investment objectives, and the operations of the Funds and the publication of net asset values ("NAV") are continuing.

Stock exchange listings

The shares of each Fund will be listed and admitted for trading on a number of stock exchanges. For details of where shares are listed or admitted for trading, please refer to the official iShares website (www.ishares.com).

¹ No performance benchmark is calculated for this Fund.

² The Fund launched on 26 September 2022.

³ The Fund launched on 2 August 2022.

Further information on the index investment strategies used is detailed below:

For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.

For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

Enhanced index strategies differ from pure-index tracking strategies in that they invest in a similar universe of instruments but aim to take overweight and/or underweight positions relative to the benchmark in order to generate some out-performance.

Performance summary and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index during the financial period ended 31 December 2022. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Funds as at 31 December 2022.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial period, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and the TER is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial period under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure's, a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.

iSHARES III PLC

INVESTMENT MANAGER'S REPORT (continued)

Performance summary and tracking error (continued)

- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Tax may also impact tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview

Global equities, as represented by the MSCI All Country World Index ("ACWI"), returned 2.28% (in US dollar terms) for the six months ended 31 December 2022. Stocks recovered modestly from pessimism induced by high inflation (rate of increase in the prices of goods and services) and rising interest rates, particularly in the second half of the reporting period. While investors remained focused on the possibility of a global economic downturn, some indicators of continued resilience tempered their concerns.

After a contracting in the first half of 2022, the US economy returned to growth in the third quarter as the balance of trade improved and unemployment remained low. The US job market showed continued strength, as unemployment declined to match its pre-pandemic rate. The Japanese economy contracted in third quarter, constrained by weak levels of private consumption and business investment. The UK economy faltered amid weakness in the services sector and manufacturing. Growth also slowed in the Eurozone as an initial increase in tourist activity amid easing COVID-19 restrictions began to fade.

Economic growth was generally slow among emerging market nations as the global economy cooled. The Indian economy slowed in the third quarter, as lower private spending offset an increase in government expenditures, and investment growth stalled. However, the Chinese economy continued to grow despite significant regulatory shifts, concerns about the heavily indebted property sector, and renewed lockdowns on account of COVID-19.

Amid elevated inflation globally, the world's largest central banks implemented different measures aimed at monetary tightening. In an effort to reduce inflation, the US Federal Reserve ("the Fed") raised interest rates by 275 basis points rates over the course of four meetings during the reporting period, a notably rapid rate of increase by historical standards. The Fed also continued to reduce some of the accumulated bond holdings on its balance sheet.

The Bank of England ("BoE") also raised interest rates four times, as inflation reached a forty-one year high. Inflation accelerated in the Eurozone, and the European Central Bank ("ECB") raised interest rates four times in an effort to control rising prices. Furthermore, the ECB stated that additional interest rate increases were likely and announced plans to begin reducing its balance sheet in March 2023.

Global equity performance was mixed, varying by region. European stocks performed well as new energy supplies and warm weather late in the year allayed concerns surrounding the disruption of Russian gas supplies. US stocks also advanced overall, while Asian stocks were pressured by foreign outflows amid the Fed's rapid interest rate increases.

Global bond prices declined overall, as heightened inflation put pressure on returns. US treasuries fell amid concerns that the Fed would continue to raise interest rates due to high inflation. Yields on UK gilts rose substantially, and a tax cut proposal raised the likelihood of increased government borrowing, leading to BoE intervention to stabilize the UK bond market. The government subsequently dropped its proposal, further easing pressure on gilts. European government bond yields also rose for the six-month period, and the Japanese government raised its yield cap for 10-year government bond yields, leading to a sharp increase in the yields for those bonds. Corporate bonds' returns diverged based on credit quality, with high yield bonds posting a positive performance while investment grade bonds declined.

Equities in emerging markets posted a decline as rising US interest rates led some investors to move away from emerging markets. Central banks in several emerging markets, such as India, Mexico, and South Korea raised interest rates multiple times in response to heightened inflation concerns. However, emerging market bonds posted a positive return amid hopes for a slowdown in the Fed's tightening cycle.

The commodities market was volatile, as commodity buyers and sellers adapted to the impact of the ongoing war in Ukraine. Brent crude oil prices declined due to moderating demand amid a slowing economic environment. Gold prices were nearly flat, as higher interest rates made non-interest bearing investments relatively less attractive.

On the foreign currencies, the US dollar was mixed against other global currencies. The Japanese yen gained against the US dollar, as the Bank of Japan's decision to raise the cap on 10-year government bond yields prompted increased investor demand. The euro also gained relative to the US dollar, while the pound sterling was flat and the Chinese yuan weakened.

BlackRock ESG Multi-Asset Conservative Portfolio UCITS ETF BlackRock ESG Multi-Asset Growth Portfolio UCITS ETF BlackRock ESG Multi-Asset Moderate Portfolio UCITS ETF

Over the six-month period to 31 December 2022, the Funds' returns were (3.06%), (0.11%) and (1.06%) for the BlackRock ESG Multi-Asset Conservative Portfolio UCITS ETF, BlackRock ESG Multi-Asset Growth Portfolio UCITS ETF and BlackRock ESG Multi-Asset Moderate Portfolio UCITS ETF, respectively.

The second half of 2022 continued to be volatile for investors due to growing recession fears. Global equities generally treaded lower, but briefly rallied in October, due to signs of inflation cooling off. In fourth quarter, emerging market equities outperformed developed market equities. Particularly, Chinese equities recorded positive performance, as the government relaxed its zero-COVID policy and pledged support for the broader economy. The performance of the fixed income markets was generally challenged, as central banks remained hawkish. The Fed hiked interest rates thrice, in its fastest hiking cycle and while the ECB hiked rates twice during the reporting period.

iSHARES III PLC

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Entity are prepared in accordance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the United Kingdom and Republic of Ireland. The principal accounting policies and estimation techniques are consistent with those applied to the previous annual financial statements.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The risks are substantially consistent with those disclosed in the previous annual financial statements with the exception of those outlined below.

3.1 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the Entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a share of participation in an investee collective investment scheme ("CIS") are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such unit of participation as calculated by the administrator of the investee CIS and in accordance with the requirements of the scheme of which the relevant investment is a share of participation. The unaudited NAV of the underlying investee CIS is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS. The unaudited NAV of the underlying investee CIS may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;

iSHARES III PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Fair value hierarchy (continued)

- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and/or defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference assets or index at the balance sheet date;
- (vii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (viii) for foreign currency options, option pricing models; and
- (ix) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 31 December 2022 and 30 June 2022:

NOTES TO THE FINANCIAL STATEMENTS (continued)

5. Operating expenses

The Entity employs an “all in one” fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the European Securities and Markets Authority (“ESMA”) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at www.ishares.com.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund’s costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

Management fees (inclusive of investment management fees)

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 December 2022:

¹ Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

² This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

³ As this Fund/share class launched during the financial period, the fees, operating costs and expenses used to calculate the TER have been annualised.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

iSHARES III PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)

6. Distributions to redeemable shareholders

The Entity may declare and pay dividends on any distributing class of shares in the Entity. In accordance with the prospectus, any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Entity to investors and become the property of the relevant Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

7. Taxation (continued)

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 104, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

iSHARES III PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)

8. Share capital

Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of EUR1.00 each and 500,000,000,000 participating shares of no par value.

Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager or by nominees of the Manager at 31 December 2022 and 30 June 2022. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

Significant investors

As at 31 December 2022 and 30 June 2022, each Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositories ("ICSDs") in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depository to the ICSDs and onwards to the participants of the ICSDs.

Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share.

The table below details the securities lending income earned for the financial period ended:
