The Fund is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 1742.

BLACKROCK FUNDS I ICAV

BACKGROUND

BlackRock Funds I ICAV (the “Entity”) is an Irish collective asset-management vehicle. The Entity was incorporated in Ireland on 8 March 2018 with segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland (“CBI”) pursuant to the Irish Collective Asset-Management Vehicles Act 2015 (the “ICAV Act 2015”) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Entity is structured as an umbrella fund and comprises of separate funds (“Fund”) of the Entity. The shares of each Fund may be grouped into different classes of shares (each a “share class”). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another. However, the Entity is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation of liability.

The term “Fund” or “Financial Product” shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term “BlackRock” and “Investment Manager” are used to represent BlackRock Investment Management (UK) Limited as appropriate. All references to “redeemable shares” shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term “Directors” means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity’s prospectus.

Fund details

The Entity had 17 Funds in operation as at 30 April 2023.

The following Funds have terminated operations in prior years and are pending revocation by the CBI. Termination audited financial statements continue to be prepared for the BlackRock Emerging Markets ESG Screened Fund as the Fund still holds investments at the balance sheet date. No audited financial statements have been prepared for the other terminated Funds as no investments are held by such Funds and final termination audited financial statements have been prepared in prior years.

Investment management approach and environmental, social and governance (“ESG”) policy

The following table outlines the investment management approach adopted for each Fund. It also identifies which Funds promote environmental or social characteristics (“Article 8 Funds”) or have sustainable investments as an objective (“Article 9 Funds”), under the EU Sustainable Finance Disclosure Regulation (“SFDR”). Further detail around how Article 8 and Article 9 Funds have achieved these characteristics and objectives is included in the SFDR disclosures supplementary section to the Annual Report.

For any other Funds that do not meet the SFDR criteria for Article 8 or 9 Funds, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator (“PAI”) data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all portfolios and these risks may coincide with environmental or social themes associated with the PAIs, unless stated otherwise in the prospectus, each Fund does not commit to considering PAIs in driving the selection of their investments.

Performance summary

The following table compares the realised Fund performance against the performance of the relevant performance measure during the financial year ended 30 April 2023.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial year under review with any dividends reinvested. Due to Financial Reporting Standard 102 ("FRS 102") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.

Global economic overview

Global equities, as represented by the MSCI All Country World Index ("ACWI"), returned 2.06% (in US dollar terms) for the twelve months ended 30 April 2023. Despite persistently high inflation (rate of increase in the prices of goods and services) and higher interest rates, equities began to recover amid investor optimism that monetary policy tightening from the world's largest central banks was slowing. While investors remained focused on the possibility of a global economic downturn, some indicators of continued resilience, such as consumer spending and the labour market, tempered their concerns.

The US economy showed resilient but slowing growth, as both consumer and public spending continued to rise. The US job market showed continued strength and unemployment declined to the lowest level in over 50 years. In Japan, the economy slowed, constrained by weak levels of private consumption and business investment. The UK economy faltered amid weakness in the services and manufacturing sectors. Growth also slowed in the Eurozone as consumer demand was tempered by high inflation and increased borrowing costs.

Most emerging market economies continued to expand, although fluctuating commodity prices and higher interest rates presented significant economic challenges. The Chinese economy continued to grow at a slow pace relative to the country's historical growth rate, but a relaxation of strict COVID-19 protocols in the second half of the reporting period drove investor optimism for an economic rebound. The Indian economy slowed in the second half of 2022, on an annual basis, as private spending and investment growth stalled. Nevertheless, growth expectations for India remained elevated for 2023 despite higher interest rates and lower global demand, as domestic demand and infrastructure improvements supported economic growth.

To counteract persistently elevated inflation, the world's largest central banks continued to implement various measures aimed at monetary policy tightening. The US Federal Reserve ("the Fed") raised interest rates eight times during the twelve-month period, including four consecutive 75 basis point increases, before slowing the pace of its interest rate increases later in the period. The Fed also ended its bond buying programmes and began reducing some of its accumulated bond holdings in June 2022.

The Bank of England ("BoE") also raised interest rates eight times during the twelve-month period, as inflation reached a 41-year high. Inflation was also elevated in the Eurozone, and the European Central Bank ("ECB") raised interest rates six times. Furthermore, the ECB signalled that it would take action to prevent significant divergence between bond yields (which move inversely to prices) of Eurozone states as interest rates rise.

Global equity performance was positive during the twelve-month period overall, as investors assessed the impact of rapidly changing economic and credit conditions. Decelerating inflation and the slower pace of the Fed's interest rate increases drove hopes that the current cycle of monetary tightening was nearing an end. Globally, bonds and equities that factor in companies' environmental, social and governance ("ESG") characteristics continued to attract investment flows, although the pace of investment slowed significantly in 2022 and rebounded somewhat in the first quarter of 2023. New bonds for ESG-related projects declined in 2022 relative to the prior year, but issuance rebounded in the first quarter of 2023.

Yields on the 10-year US Treasury, a benchmark lending rate for the global bond market, rose during the reporting period as central banks tightened monetary policy. The yield curve, which measures the difference between yields at different maturity levels, inverted, a signal that markets were increasingly concerned about slowing economic growth. Yields on UK gilts rose substantially, and a tax cut proposal raised the likelihood of increased government borrowing, leading to BoE intervention to stabilise the UK bond market. The government subsequently dropped its proposal, further easing the pressure on gilts. Government bonds in the Eurozone also declined notably for the twelve-month period, while Japanese government bonds generally declined more slowly. However, in December 2022, the Japanese government raised its yield cap for 10-year government bond yields, leading to a sharp increase in the yields for those bonds, and substantial purchases from the Bank of Japan led to fluctuating prices.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview (continued)

Global corporate bond returns varied, as yields rose substantially but investors reassessed credit in light of changing economic conditions. Amid growing inflation concerns, most of the largest central banks raised interest rates, reducing the value of existing bonds. However, continued resilience in the global economy drove gains in high-yield corporate bonds, while investment-grade bonds were nearly flat.

Equities in emerging markets posted a decline as interest rates rose and global growth softened. Central banks in several emerging markets, such as India, Brazil, and Mexico raised interest rates multiple times in response to heightened inflation concerns, pressuring growth. Emerging market bond prices were nearly flat.

The commodities market was volatile, with prices beginning the period at high levels in the aftermath of the Russian invasion of Ukraine before moderating on growth concerns and market adaptation. Brent crude oil prices were elevated at the beginning of the period, but declined as markets stabilised, ending the period significantly lower. Natural gas prices in the Eurozone fluctuated sharply, but ended the period notably lower as a warm winter and success in securing alternate gas suppliers drove prices down. Gold prices rose notably amid recession concerns and the slowing pace of Fed interest rate increases.

On the foreign exchange markets, the US dollar was mixed against other global currencies. The US dollar showed strength early in the reporting period but declined as the pace of the Fed's monetary tightening began to slacken. The Japanese yen and the Chinese yuan fell against the US dollar, while the euro gained, and sterling was flat.

Fund performance review and activity

BlackRock Advantage Asia ex Japan Equity Fund

Over the financial year to 30 April 2023, the Fund's active return was 5.10%, outperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

Equities globally saw a volatile year during 2022 but showed signs of recovery in 2023. The broad strength and buoyancy in Asian markets towards the end of the financial year was supported by the reopening in China. Market sentiment insights looking at the behaviour of a wide range of market participants such as sell-side analysts, company management, employees and others in the investment community delivered the majority of the Fund's gains. Picking stocks based on traditional fundamental measures such as earnings quality and valuation measures was also an effective technique. Alongside this, top-down macro thematic insights measuring policy expectations and economic trends across industries and countries were additive to performance.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Taiwan [#]	1.75%	Singapore [#]	(0.09%)
India ^o	1.13%	Malaysia [#]	(0.03%)
China [#]	1.09%	Philippines ^o	(0.02%)
Korea ^o	0.69%		
Hong Kong ^o	0.65%		

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

An overweight position in Taiwan and an underweight position in India were the main contributors to positive performance. The information technology sector in Taiwan achieved strong returns, while the positioning in India was additive in light of recent events surrounding the Adani group within the utilities sector. On the other hand, an underweight position in financials and overweight position in real estate and consumer staples in Singapore detracted from performance.

The following table details the significant active positions, where the Fund is overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Largest overweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
China	1.06%	Singapore	1.05%
Philippines	0.57%	Taiwan	0.76%
Malaysia	0.49%	China	0.36%

Largest underweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
Thailand	(0.99%)	Hong Kong	(1.63%)
Singapore	(0.93%)	Korea	(0.94%)
Korea	(0.80%)	Philippines	(0.45%)

BlackRock Advantage Asia ex Japan Equity Fund (continued)

Where the Fund was underweight to a country, the return from such country will have an opposite effect on the Fund's active return. This may result in a country being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

The positioning in Singapore has changed from a large overweight to an underweight position across all sectors with the exception of industrials sector. A larger underweight position was built in Thailand that was supported by a deteriorating outlook across consumer discretionary and consumer staples sectors in the country.

BlackRock Advantage Emerging Markets Equity Fund

Over the financial year to 30 April 2023, the Fund's active return was 0.50%, outperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

Equities globally saw a volatile year during 2022 but showed signs of recovery towards the end of the financial year. Emerging markets were generally insulated from the banking crisis that impacted developed regions such as the U.S. and Europe year-to-date. Insights designed to capture a forward-looking view of company fundamentals such as earnings quality and valuation metrics delivered the majority of gains. Market sentiment insights looking at the behaviour of a wide range of market participants such as sell-side analysts, company management, employees and others in the investment community were also key contributors to performance, along with the environmentally aligned insights.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Taiwan #	0.70%	South Africa #	(0.42%)
Indonesia #	0.42%	China #	(0.28%)
Brazil #	0.29%	Saudi Arabia ^o	(0.20%)
Mexico ^o	0.24%	Chile ^o	(0.12%)
Turkey ^o	0.23%	Poland ^o	(0.12%)

Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

An underweight position in India and overweight in Taiwan were the main contributors to positive performance. The information technology sector in Taiwan along with financials in Indonesia achieved strong returns. On the other hand, an overweight positioning in South Africa and China detracted from performance.

The following table details the significant active positions, where the Fund is overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Largest overweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
Brazil	1.12%	Taiwan	2.01%
Indonesia	0.94%	South Africa	1.79%
China	0.68%	China	0.93%

Largest underweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
Mexico	(1.20%)	Qatar	(1.06%)

Where the Fund was underweight to a country, the return from such country will have an opposite effect on the Fund's active return. This may result in a country being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

Leadership across the country positions has changed over the financial year. The key changes were a new overweight position in Brazil, Indonesia and China. The positioning in the latter was driven by the reopening of trade in China. The Fund has also taken an underweight positioning in Mexico, Korea and United Arab Emirates over the past financial year.

European equities like their global counterparts experienced volatility over the financial year on the back of the ongoing war in Ukraine, increasing energy prices and rising interest rates. However, they recovered ground and delivered gains at the end of the financial year on the back of a more positive economic outlook supported by falling energy prices, a mild winter in the region, and the reopening of China. Turmoil in the U.S. banking sector spilled over to Europe, but the contagion was limited. The Fund had little active exposure to financials, and the effect on performance was minimal. The principal area that contributed to performance was within sentiment insights that look at the behaviour of market participants such as sell-side analysts, companies' management and employees. More traditional fundamental insights that look at companies' financial strength and stability delivered mixed results. A preference for stocks with high gross margins helped as inflation concerns resurfaced and traditional valuation measures also contributed. Elsewhere, top-down macro thematic insights measuring interest rate risk and economic trends across industries and countries were additive to performance.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
France #	1.50%	Norway #	(0.29%)
Germany ^o	0.63%	Netherlands #	(0.23%)
Italy #	0.16%	Ireland ^o	(0.10%)
Switzerland #	0.16%	Sweden ^o	(0.03%)
Denmark #	0.07%	Belgium #	(0.02%)

Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

An aggregate overweight positioning in consumer discretionary and utilities in France were the main contributors to the returns. An overweight positioning in energy in Norway detracted from the performance.

The following table details the significant active positions, where the Fund is overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Largest overweight position			
30 April 2023		30 April 2022

Germany	(1.33%)	United Kingdom	(2.47%)
Ireland	(1.16%)	Germany	(1.89%)

Where the Fund was underweight to a country, the return from such country will have an opposite effect on the Fund's active return. This may result in a country being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

Leadership across countries changed as the Fund built a large overweight position in Italy by increasing the weight in the consumer discretionary sector and reducing an overweight in France in the energy sector. A larger underweight in Ireland was supported by a more negative outlook on the consumer discretionary and materials sectors.

Where the Fund was underweight to a country, the return from such country will have an opposite effect on the Fund's active return. This may result in a country being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

The Fund built a large overweight position in Italy by increasing the weight on consumer discretionary sector, reduced an overweight in Belgium as well as increasing its underweight in Germany on a negative view across the Financials sector in both countries.

BlackRock Global Corporate Sustainable Credit Screened Fund

Over the financial year to 30 April 2023, the Fund's active return was (0.64%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

The second and third quarters of 2022 were dominated by rising concerns over slowing growth and stubbornly high inflation. The fourth quarter of 2022 started with a softer US CPI inflation print, but later investors continued to estimate the damage from the tightening. Global bond markets rallied in January 2023, while February 2023 saw a reversal in sentiment. In March 2023, markets were shaken by the banking sector. In April 2023, bond market volatility receded from the levels seen in March as banking crisis fears subsided.

The Fund was defensively positioned with underweights (screens) in selected communication sub-sectors, particularly wirelines and cable and satellite as well as in selected consumer cyclical sub-sectors, such as automotive, retailers, and restaurants. The Fund also avoided selected consumer non-cyclical sub-sectors, namely tobacco and healthcare as well as selected aerospace and defense issuers within capital goods. Within financial institutions, the Fund held underweights in selected banking, financial other, life insurance names and REITs. Within utilities, the Fund screened selected electricity providers.

∅ Underweight position - held less exposure than the benchmark.

There are no active overweight positions in the Fund. The Fund uses a credit screening approach that only seeks to remove issuers at the highest risk of credit deterioration. Once these issuers have been removed, the Fund will seek to match the beta of the underlying investment universe, and thus, the Fund aims to avoid any active overweights.

BlackRock Global Impact Fund

Over the financial year to 30 April 2023, the Fund's active return was (11.37%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

Over the financial year, underperformance was largely driven by macro factors and structural differences born out of the nature of what the impact team seeks to accomplish. Continued rising inflation expectations, which fueled the preference for value-oriented stocks relative to growth, led investors to flee smaller cap names and long duration assets to pursue larger cap companies with a value orientation.

Stock selection in the utilities sector was the top detractor from active performance during the financial year, mainly driven by positions in the electric utilities industry. In contrast, stock selection in consumer discretionary boosted relative returns the most, mainly through positions in the internet and direct marketing retail industry.

The following table details the significant active positions, where the Fund was overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Where the Fund was underweight to a sector, the return from such sector will have an opposite effect on the Fund's active return. This may result in a sector being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

Over the financial year, we have decreased our overweight to the health care sector. Conversely, we have also decreased our underweight allocation to consumer staples and shifted to an overweight exposure to industrials.

BlackRock Global Target Return: Conservative Fund

Over the financial year to 30 April 2023, the Fund's active return was (4.82%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

The Fund invests tactically across asset classes and countries with wide universe and asset allocation range. 2022 was a difficult year for global markets as both stocks and bonds experienced unprecedented selloff due to multiple risk events – monetary policy normalisation, geopolitical tension, and recession fears. Despite major asset classes rebounding over the first few months of 2023, the Fund produced negative return over the financial year.

During the financial year, the following were the largest contributors to and detractors from the Fund's return:

Largest contributors		Largest detractors	
Asset class	Effect on Fund return	Asset class	Effect on Fund return

EUR fixed income	0.17%	Emerging markets equities	(0.16%)
USD fixed income	0.12%

North American equities	0.07%		

While broad markets corrected, our allocation to cash equivalents and low duration positions helped cushion some of the downside. As a result of elevated level of volatility, we reduced our allocation in risk assets that helped limit the losses as market betas returned negative. Our currency exposure detracted as US dollar depreciated in the recent six months, while the portfolio hedged non-US fixed income currency exposure back to base (USD).

Over the financial year to 30 April 2023, the Fund's active return was 7.89%, outperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

Global equity markets displayed significant month-on-month volatility during the financial year. Inflationary pressures led central banks to raise interest rates, economic uncertainty persisted, and forward-looking earnings estimates in the market continued to be revised down. Despite the uncertain economic backdrop, we continued to focus on the long-term sustainability of earnings in our analysis and avoided trading for cyclical reasons. The Fund performed well in the second half of the financial year as business fundamentals for the portfolio companies continued to show resilience, leading to a strong outperformance of the comparator benchmark over the financial year.

Luxury goods holding, LVMH, continued to show strong operational momentum during the financial year with little evidence that the wider economic slowdown is impacting demand. More recently, the company has been a beneficiary of the resumption of tourism from China, which had been instead a headwind on margins during 2022. A position in Novo Nordisk also performed well as it rolls out its obesity treatment Wegovy, which we believe could be among the largest drugs in history, creating a material runway of growth for the company over the next decade.

S&P Global underperformed over the financial year as bond issuance fell sharply in light of higher interest rates, while other key areas of the businesses (market intelligence and index) continue to perform well. A position in Costco also underperformed due to inflationary pressures, although key indicators such as membership renewal rates remain strong. We view both as cyclical issues, and we expect issuance/refinancing to come back in time for S&P Global, and for Costco to benefit from the easing of input cost inflation.

The following table details the significant active positions, where the Fund was overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Portfolio changes are driven by stock-specific investment decisions. Typically, trades are made where the structural investment case changes or when competition for capital forces action. Environmental, governance and social factors risks are integrated into our investment research process at the stock level.

We opened a position in Thermo Fisher using the proceeds from the sale of Edwards Lifesciences. Thermo Fisher is a life science instruments and solutions business, utilising its scale and wide product portfolio to deepen relationships with customers. We added a new position in Visa, funded by trimming Mastercard: recent efforts to shift the strategic focus of Visa internally, combined with targeted bolt-on acquisitions, have driven a change in the outlook for the business. Finally, we increased our positions in Novo Nordisk and Microsoft, funded from the sale of CME and AutoTrader.

BlackRock Sustainable Advantage US Equity Fund

Over the financial year to 30 April 2023, the Fund's active return was (0.16%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

US equities like their global counterparts were challenged for most of 2022 but recovered some ground in first two month of 2023 as investors began to consider that policy tightening was reaching its peak. However, the turmoil in the country's regional banks sector reignited concerns about macroeconomic conditions, which contributed to the overall negative return. The Fund had no meaningful exposure to Silicon Valley Bank and other small U.S. banks. Sentiment signals that look at the information supplied by analysts, companies' management and employees contributed. Traditional fundamental measures looking at earnings quality and valuation also contributed. Elsewhere, environmentally aligned insights that employ alternative data in looking at both sustainability aspects and future profitability delivered muted results. Measures that stem from human capital and social impact themes such as employee satisfaction and employment of foreign skilled employees provided an early read on the quality of earnings, however environmental impact measures looking at how companies utilise energy resources detracted. Top-down macro thematic insights measuring economic trends across industries and countries were the biggest detractors over the financial year.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Financials ^o	0.39%	Consumer discretionary ^o	(0.38%)

Energy ^o	0.16%	Real estate [#]	(0.09%)
Utilities ^o	0.15%	Communication services ^o	(0.08%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

An aggregate underweight position in financials sector delivered the majority of gains. The Fund had an underweight position in local regional banks including SVB Financial.

The following table details the significant active positions, where the Fund is overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

The positioning in United States was the biggest contributor, helped by an underweight position in financials and communication services. An underweight positioning in certain European countries such as Sweden and Italy detracted.

The following table details the significant active positions, where the Fund is overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Largest overweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
United States	1.62%	Netherlands	1.24%
Germany	1.16%	Canada	0.97%
Canada	1.04%	United States	0.94%

Largest underweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
United Kingdom	(2.11%)	United Kingdom	(1.75%)
Switzerland	(1.42%)	Switzerland	(1.74%)
Japan	(0.86%)	Japan	(0.93%)

Where the Fund is underweight to a country, the return from such country will have an opposite effect on the Fund's active return. This may result in a country being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

The Fund built a larger overweight position in Germany supported by positive views on the industrials and consumer discretionary sectors.

BlackRock Sustainable Equity Factor Plus Fund

Over the financial year to 30 April 2023, the Fund's active return was (2.24%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

In 2022, there were higher levels of inflation and higher interest rates which hurt interest rate sensitive assets. Towards the tail-end of 2022 signs that inflation was abating began to surface. Moving into 2023, markets reversed and kicked off the year with a strong growth rally as investors were optimistic for a pause in the rate hiking cycle. However, come mid-March signs of fragility in the US regional banking space saw defense become favourable against heightened recessionary risks.

The Fund's underperformance was a result of a pronounced drawdown in the size factor due to the regional banking crisis in the US in 2023. Minimum volatility dragged on performance further as it struggled during a number of short-lived relief rallies over the financial year. Momentum hurt performance as it suffered a strong reversal in January 2023. Momentum's performance was also weak over 2022. The gains from quality and value were insufficient to overcome the aforementioned detractors. Lastly, the diversifying alpha insights positively contributed over the financial year.

BlackRock Sustainable Equity Factor Plus Fund (continued)

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Energy #	0.74%	Health care ^o	(0.62%)
Consumer staples #	0.34%	Materials #	(0.59%)
Industrials #	0.29%	Consumer discretionary ^o	(0.49%)
Financials ^o	0.25%	Real estate #	(0.34%)
Information technology #	0.09%	Utilities #	(0.08%)

Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Overweight positioning in energy, consumer staples, industrials and information technology was beneficial over the financial year as energy prices remained elevated for much of 2022. Towards the end of the first quarter of 2023, defensive sectors outperformed and information technology experienced a strong rally as the banking crisis renewed an expectation that central banks may have to pause, or reduce, interest rate hikes. In terms of detractors, underweight positioning in healthcare hurt performance most significantly and an overweight position in materials was also detractive.

The following table details the significant active positions, where the Fund was overweight (held more exposure than the performance measure) and underweight (held less exposure than the performance measure), as at 30 April 2023 and 30 April 2022:

Largest overweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
Information technology	3.91%	Information technology	3.80%
Materials	3.06%	Utilities	3.09%
Consumer staples	1.86%	Energy	1.86%

Largest underweight position			
30 April 2023		30 April 2022	
Country	Weighting	Country	Weighting
Consumer discretionary	(1.84%)	Health care	(1.10%)
Financials	(2.79%)	Communication services	(3.47%)
Communication services	(3.76%)	Consumer discretionary	(3.98%)

Where the Fund was underweight to a sector, the return from such sector will have an opposite effect on the Fund's active return. This may result in a sector being listed as a contributor/detractor but not listed on the Fund's schedule of investments.

BlackRock Systematic ESG Equity Absolute Return Fund

Over the financial year to 30 April 2023, the Fund's active return was (3.20%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

Sentiment insights were well positioned for the weakness in the U.S. regional banks, but fundamental insights looking at qualitative measures such as employee benefits were less well positioned here, paring back the gains. The environmental signals were poorly positioned for weakness in the US real estate sector.

During the financial year, the following were the largest contributors to and detractors from the Fund's return:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Financials ^o	1.28%	Consumer discretionary #	(4.11%)
Utilities #	1.22%	Materials ^o	(0.92%)
Health care #	1.20%	Energy ^o	(0.33%)
Industrials ^o	0.95%	Communication services ^o	(0.09%)
Information technology #	0.92%		

Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Overweights in information technology stocks captured the rebound in the sector in 2023 and investor enthusiasm for firms that could benefit from widespread adoption of artificial intelligence. However, this was offset by some short positions in more growth and technology-oriented consumer cyclical firms and overweights in traditional retailers within consumer discretionary sector.

BlackRock Systematic Multi-Strategy ESG Screened Fund

Over the financial year to 30 April 2023, the Fund's active return was (2.64%), underperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

The second and third quarters of 2022 were dominated by rising concerns over slowing growth and stubbornly high inflation. The fourth quarter of 2023 started with a softer US CPI inflation print, but later investors continued to estimate the damage from the tightening. Global bond markets rallied in January 2023, while February 2023 saw a reversal in sentiment. In March 2023, markets were shaken by the banking sector. In April 2023, bond market volatility receded from the levels seen in March as banking crisis fears subsided.

The directional asset allocation strategy performed positively and in line with expectations by participating in market upside over the review financial year. The macro and defensive equity strategies detracted during the financial year, struggling in an environment of low dispersion over the financial year where the opportunity set was minimised. The defensive equity strategies remain positioned to take advantage of higher equity market volatility in 2023.

During the financial year, the following were the largest contributors to and detractors from the Fund's return:

Largest contributors		Largest detractors	
Strategy	Effect on Fund return	Strategy	Effect on Fund return
Directional asset allocation strategy	1.32%	Macro strategy	(0.32%)
		Defensive equity strategy	(0.15%)

The following table details the significant portfolio weightings at 30 April 2023 and 30 April 2022:

BlackRock Tactical Opportunities Fund

Over the financial year to 30 April 2023, the Fund's active return was 2.14%, outperforming its performance measure (active return is the difference between the Fund's return and the performance measure return).

The macroeconomic backdrop remained volatile over the past year as central banks globally pursued aggressive rate hikes to bring inflation to mandate consistent levels. Inflation has remained persistent in most developed markets, driven by tight labor markets globally and other dynamics. In the first quarter of 2023, concerns around financial stability emerged in the US and Europe, as the results of policy tightening began to impact the banking sector. Continued uncertainty around the trajectory of growth, the US debt ceiling and broader financial conditions tightening have us positioning the Fund for greater opportunities in cross-country and cross-industry bets and maintaining relatively muted directional positioning in stocks and bonds. The Fund remains focused on positioning in country stocks, bonds, and currencies based on macro fundamentals and pricing developments.

The Fund was positioned relatively flat to slightly long equities over the financial year while its net bond position remained short. Positive returns came primarily from a global relative value interest rate and from a macro thematic strategy. Meanwhile, equity and bond timing strategies were the primary detractors over the past year.

BlackRock Tactical Opportunities Fund (continued)

During the financial year, the following were the largest contributors to and detractors from the Fund's return:

Largest contributors		Largest detractors	
Strategy	Effect on Fund return	Strategy	Effect on Fund return
Global relative value interest rate strategy	3.28%	Bond timing strategy	(0.76%)
Macro thematic strategy	2.69%	Equity timing strategy	(0.61%)
Equity timing strategy	1.27%	Industry relative value strategy	(0.66%)
		Relative value equity strategy	(0.33%)

Within the relative value interest rate strategy, a long in Chinese bonds versus Polish and Mexican bonds was a key contributor as the Polish and Mexican central banks were decisively hawkish to combat rising inflation, while in China policy remains relatively accommodative to support a COVID-battered economy. The Fund's thematic strategy further boosted returns as it was positioned for monetary tightening in Europe and the US. Within the developed market relative value bond strategy, a long in treasuries versus bonds since the end of 2022 also added to performance. Equity and bond timing strategies detracted from performance, as the strategies struggled to adapt to the regime shift from accommodative policy and low inflation to high inflation and interest rates. The relative value equity strategy was challenged in the beginning of 2023 as the strategy positioned long US versus European equities, which detracted as Europe continued to outperform.

The following table details the significant portfolio weightings at 30 April 2023 and 30 April 2022:

30 April 2023		30 April 2022	
Equities (%)	Weighting	Equities (%)	Weighting
North America	8.57%	North America	(6.47%)
Europe	(6.46%)	Europe	5.70%
Japan	10.81%	Japan	0.59%
Asia (ex-Japan)	1.94%	Asia (ex-Japan)	15.03%
Emerging markets	(14.94%)	Emerging markets	(3.35%)
Bonds (years duration):		Bonds (years duration):	
North America	1.85	North America	(1.24)
Europe	(6.19)	Europe	4.78
Japan	(1.20)	Japan	(0.50)
Asia (ex-Japan)	0.91	Asia (ex-Japan)	(0.31)
Emerging markets	0.51	Emerging markets	0.43

The Fund dynamically shifted its equity exposure throughout the financial year and maintained a short duration as sticky inflation and a strong labor market should limit the ability of central banks to cut rates in the coming months. Within equities, the Fund prefers US against European equities, as tailwinds from China re-opening in Europe appear more muted than expected. The Fund is also held a short position in Korean equities on a similar view. Strong growth and attractive pricing motivate the Fund's long position in Japanese equities. Within developed market bonds, the Fund held a long in the US and a short in German bonds, and within emerging markets held a long in China and Poland and maintained a short position in Mexico and South Africa. The Fund was also held long in euro against the dollar at the end of the financial year.

DIRECTORS' REPORT

The Directors present their report and audited financial statements for the financial year ended 30 April 2023.

Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, and in compliance with the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

Under Irish law, the Directors shall not approve the audited financial statements unless they are satisfied that they give a true and fair view of the Entity's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Entity for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Entity will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the audited financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Entity;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Entity to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements and Directors' report comply with the ICAV Act and enable those financial statements to be audited.

The measures taken by the Directors to secure compliance with the Entity's obligation to keep adequate accounting records are the appointment of J.P. Morgan Administration Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address on behalf of the Administrator:

J.P. Morgan Administration Services (Ireland) Limited
200 Capital Dock
79 Sir John Rogerson's Quay
Dublin 2
Ireland

The Directors are also responsible for safeguarding the assets of the Entity and for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors have entrusted the assets of the Entity to the Depositary for safekeeping in accordance with the Instrument of Incorporation of the Entity, in this regard the Directors have appointed J.P. Morgan Bank (Ireland) plc as Depositary pursuant to the terms of the Depositary Agreement. The address at which this business is conducted is as follows:

J.P. Morgan SE – Dublin Branch
200 Capital Dock
79 Sir John Rogerson's Quay
Dublin 2
Ireland

The audited financial statements are published on the BlackRock website. The Directors, together with the Manager and the Investment Manager are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Corporate governance statement

The Directors are committed to maintaining the highest standards of corporate governance and are accountable to the shareholders for the governance of the Entity's affairs. The Directors have put in place a framework for corporate governance which it believes is appropriate for a collective investment scheme and which will enable the Entity to comply with the relevant provisions of the Irish Funds Industry Association Corporate Governance Code for Collective Investment Schemes and Management Companies (the "Code") effective as of 1 January 2012 which is available at: <https://files.irishfunds.ie/1432820468-corporate-governance-code-for-collective-investment-schemesand-management-companies.pdf>

The Entity has voluntarily adopted the Code and will apply the Code to the Entity for all accounting periods beginning on or after the Entity's date of registration.

Results and dividends

The results and dividends for the financial year of the Entity are set out in the income statement.

BLACKROCK FUNDS I ICAV

DIRECTORS' REPORT (continued)

Review of business and future developments

The specific investment objectives and policies, as set out in the Investment Manager's report, of each Fund are formulated by Directors at the time of the creation of the Fund. Investors in a Fund are expected to be informed investors who have taken professional advice, are able to bear capital and income risk, and should view investment in a Fund as a medium to long term investment. A description of the Fund, its performance review and a market review can be found in the Background section and the Investment Manager's report.

Risk management objectives and policies

The financial instruments and risks facing the Entity are set out in the notes to the financial statements. The Entity's corporate governance statement is set out within the Governance section of the financial statements.

Subsequent events after the financial year end

The significant events which have occurred since the balance sheet date are set out in the notes to the audited financial statements.

Directors' and Company Secretary's interests and transactions

The Directors and Company Secretary had no interests in the shares of the Entity during or at the end of the financial year (2022: Nil).

Becky Tilston Hales and Tom McGrath are non-executive Directors and also employees of the BlackRock Group.

No Director had at any time during the financial year, a material interest in any contract of significance, in relation to the business of the Entity (2022: Nil).

Going concern

The financial statements of the Entity have been prepared on a going concern basis. The Entity is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Fund are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the Entity will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Entity.

Independent auditor

The auditors, Ernst & Young, will be re-appointed in accordance with section 125 of the ICAV Act 2015.

Statement of relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Entity's auditors are unaware. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Entity's auditors are aware of that information.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE FUNDS OF BLACKROCK FUNDS I ICAV

Report on financial statements

Opinion

We have audited the financial statements of each of the Funds of BlackRock Funds I ICAV ('the ICAV') for the year ended 30 April 2023, which comprise the financial statements of BlackRock Advantage Asia ex Japan Equity Fund, BlackRock Advantage Emerging Markets Equity Fund, BlackRock Advantage Europe Equity Fund, BlackRock Advantage Europe ex UK Equity Fund, BlackRock Asian Dragon ESG Screened Fund, BlackRock Emerging Markets ESG Screened Fund, BlackRock Euro-Markets ESG Screened Fund, BlackRock US Flexible Equity ESG Screened Fund, BlackRock Global Corporate Sustainable Credit Screened Fund, BlackRock Global High Yield Sustainable Credit Screened Fund, BlackRock Global Impact Fund, BlackRock Global Unconstrained Equity Fund, BlackRock Sustainable Advantage US Equity Fund, BlackRock Sustainable Advantage World Equity Fund, BlackRock Tactical Opportunities Fund, BlackRock Global Target Return: Conservative Fund, BlackRock Global Target Return: Growth Fund, BlackRock Global Target Return: Moderate Fund, BlackRock Sustainable Equity Factor Plus Fund, BlackRock Systematic ESG Equity Absolute Return Fund and BlackRock Systematic Multi-Strategy ESG Screened Fund (each a "Fund" and collectively, the "Funds").

The financial statements of the Funds comprise the Income Statement, Statement of Changes in Net Assets Attributable to Redeemable Shareholders, Balance Sheet, Schedule of Investments and Notes to the Financial Statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Funds as at 30 April 2023 and of their results for the year then ended;
- have been properly prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter – financial statements of certain funds prepared on a basis other than going concern

We draw attention to note 2.1 to the financial statements which explains that the Directors made the decision to close BlackRock Emerging Markets ESG Screened Fund on 27 January 2022. Accordingly, the financial statements for this Fund have been prepared on a basis other than going concern as described in note 2.1. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE FUNDS OF BLACKROCK FUNDS I ICAV (CONTINUED)

Conclusions relating to going concern

In auditing the financial statements, we have concluded that, other than those Funds identified in the preceding paragraph, the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Funds' ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Funds' ability to continue as a going concern.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Irish Collective Asset-management Vehicles Act 2015

In our opinion the information given in the directors' report is consistent with the financial statements.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the Statement of Directors' responsibilities set out on page 22, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE FUNDS OF BLACKROCK FUNDS I ICAV (CONTINUED)

This description forms part of our auditor's report.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Shareholders of the Funds, as a body, in accordance with section 120 of the Irish Collective Asset Management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the Shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the Shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is structured as an Irish collective asset-management vehicle and is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements are prepared in accordance with Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council.

The financial statements are prepared on a going concern basis under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. On 27 January 2022, the Directors made the decision to close BlackRock Emerging Markets ESG Screened Fund with effect from 30 March 2022. Therefore, the financial statements of BlackRock Emerging Markets ESG Screened Fund have been prepared on a non-going concern basis. For those Funds prepared on a non-going concern basis, assets are recorded at recoverable amounts and liabilities are recorded at contractual settlement amounts.

The Entity has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a statement of cash flows.

The format and certain wordings of the financial statements have been adapted from those contained in Section 3 of FRS 102, so that, in the opinion of the Directors, they more appropriately reflect the nature of the Entity's business as an investment fund.

The principal accounting policies and notes are set out below, all of which are applied for the financial year ended 30 April 2023.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

2.2 Financial instruments

The Entity has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102 as they relate to financial instruments.

2.2.1 Classification

The Entity classifies its investments in debt instruments, equity instruments and derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors at fair value through profit or loss at inception. All the derivative investments are held for trading purposes. All other financial assets and financial liabilities including cash, cash equivalents, receivables and payables are classified at amortised cost using the effective interest method.

2.2.2 Recognition and derecognition

The Entity recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognised on the day the trade takes place.

Realised gains and losses on disposals of financial instruments are calculated using the weighted average cost method. For instruments held long, they represent the difference between the initial carrying amount and disposal amount. For instruments held short, they represent the difference between the proceeds received and the opening value. For derivative contracts, they represent the cash payments or receipts made on derivative contracts (excluding those on collateral or margin accounts for such instruments).

Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the risks and rewards of ownership have all been substantially transferred. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

2.2.3 Measurement

All financial instruments are initially recognised at fair value.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value. Transaction costs on purchases or sales of investments and gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented in the income statement within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Financial assets and financial liabilities, other than those classified as at fair value through profit or loss, are subsequently measured at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.4 Fair value estimation

Fair value is the amount for which an asset could be exchanged, a liability settled or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. The estimation of fair value, after initial recognition, is determined as follows:

- Investments in debt instruments, equity instruments and exchange traded derivatives and To-Be-Announced ("TBA") contracts which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the Entity's prospectus. Depending on the nature of the underlying investment, the value taken could be either at the closing price, closing mid-market price or bid price on the relevant market.
- Investments in exchange traded funds ("ETFs") which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices.
- Investments in centrally cleared and over-the-counter ("OTC") derivatives and investee collective investment schemes ("CIS") are valued using valuation techniques.

In the case of an investment which is not quoted, listed or dealt on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Directors in consultation with the Investment Manager and approved for the purpose by the Depositary), and such fair value shall be determined using valuation techniques. The Entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives include those detailed in the fair value hierarchy note, and those used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

2.2.5 Financial derivative and other specific instruments

2.2.5.1 Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price.

Initial margin deposits are made to relevant brokers upon entering into futures contracts and are included in margin cash.

2.2.5.2 Forward currency contracts

A forward currency contract is an agreement, in the OTC market, between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price.

2.2.5.3 Swaps

A swap is an individually negotiated agreement, in the OTC market, between two parties to swap one stream of payments for another. They may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps").

Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash of an amount that varies depending on the size and risk profile of the underlying swap contract.

2.2.5.4 TBA contracts

TBA securities are purchased and sold on a forward commitment basis with an approximate principal amount and maturity date. With TBA transactions, the specific securities to be delivered are not identified at trade date, however, delivered securities must meet specified terms. The actual principal amount and maturity date will be determined upon settlement when the specific mortgage pools are assigned. During the time a TBA sale commitment is outstanding, the Fund holds equivalent deliverable securities or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), as cover for the transaction.

2.2.6 Cash and cash equivalents

Cash in the balance sheet includes cash deposits held on call with banks. Cash equivalents include short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

Bank overdrafts are classified as liabilities in the balance sheet.

2.2.7 Collateral and margin cash

Cash collateral provided by the Fund is identified as an asset on the balance sheet as 'Cash collateral' and is not included as a component of cash and cash equivalents. For collateral other than cash provided by the Fund, if the party to whom the collateral is provided has the right by contract to sell or re-pledge the collateral, the Fund classifies that asset on its balance sheet separately from other assets and identifies the asset as a pledged investment. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are identified on the balance sheet as 'Margin cash'.

Cash collateral provided to the Fund by counterparties is identified on the balance sheet as 'Cash collateral payable'. The Fund may reinvest this cash collateral and the assets purchased are included as 'Cash equivalents' on the balance sheet.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.8 Redeemable shares

Each Fund classifies redeemable shares issued as financial liabilities or equity in accordance with the substance of the contractual terms of the instruments. Redeemable shares are measured at the present value of redemption amounts.

The redeemable shares are redeemable at the option of the holders and do not meet the conditions set out in Section 22.4 of FRS 102, to be classified as equity and as a result are classified as financial liabilities.

The redeemable shares are accounted for on the day the trade transaction takes place. Subscriptions and redemptions of redeemable shares are accounted for on the day the trade transaction takes place. Shares are subscribed and redeemed based upon the NAV per share as of the latest valuation point.

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of the issue of redeemable shares or the redemption of redeemable shares in the statement of changes in net assets attributable to redeemable shareholders. Any potential duties and charges are at the discretion of the Directors.

2.3 Foreign currency

2.3.1 Functional and presentation currency

Foreign currency items included in each Fund's financial statements are measured in each Fund's functional currency which is shown for each Fund in the headings of the financial statements.

The Directors consider that these currencies most accurately represent the economic effects of the underlying transactions, events and conditions of each Fund. Each Fund's presentation currency is the same as the functional currency.

2.3.2 Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the reporting date.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in the income statement.

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the Entity's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Entity's financial statements, therefore, present the Entity's financial position and its results fairly. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below.

2.4.1 Assumptions and estimation uncertainties

2.4.1.1 Fair value of OTC derivative financial instruments

OTC financial derivative instruments ("FDIs") are valued using valuation techniques, as detailed in the fair value hierarchy note to the financial statements. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

2.4.1.2 Fair value of financial instruments not quoted in an active market

The fair value of such instruments not quoted in an active market may be determined by the Fund using reputable pricing sources or indicative prices from bond/debt market makers. The Fund would exercise judgement and estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

2.4.1.3 Fair value of financial instruments with significant unobservable inputs

The fair value of such instruments is determined using valuation techniques including inputs not based on market data and where significant entity determined adjustments or assumptions are applied, as detailed in the fair value hierarchy note to the financial statements.

Details of the valuation technique and the unobservable inputs used in the valuation of equities are set out in the fair value hierarchy note to the financial statements.

2.4.2 Judgements

2.4.2.1 Assessment as investment entities

The Directors are of the opinion that the Entity meets the definition of an investment entity. The following conditions exist:

- a. the Entity has obtained funds for the purpose of providing investors with investment management services; and
- b. the investments held by the Entity are measures and evaluated on a fair value basis and information about those investments are provided to shareholders on a fair value basis through the Entity.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.5 Dividend income

Dividend income is recognised in the income statement when the Fund's right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the income statement. CIS income is recognised when the distributions are declared by the underlying CIS. ETF income is recognised on the ex-dividend date.

2.6 Interest income and interest expense

Interest income and interest expense for all interest-bearing financial instruments are recognised in the income statement using the effective interest method.

2.7 Securities lending income

Securities lending income is earned from lending securities owned by the Fund to third party borrowers. Securities lending income is recognised in the income statement on an accruals method basis.

2.8 Fees and expenses

Expenses are recognised in the income statement on an accruals basis except for transaction charges relating to the acquisition and realisation of investments which are charged for as incurred and presented within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Expenses directly attributable to a specific class of shares are borne directly by such class solely.

2.9 Distributions

Distributions are recognised in the income statement as finance costs where shares in the Fund do not meet the conditions to be classified as equity and as a result are classified as financial liabilities.

The Directors may declare distributions on the shares of the class in respect of each financial period. Distributions may be paid out of the Fund's net income.

The Directors have implemented income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the financial year. As part of the distribution payment, the average amount of this equalisation is returned to shareholders who subscribed to or redeemed from the Fund during the financial year. The equalisation element of the distribution is treated as a repayment of capital.

Distributions will not be made to the shareholders of the accumulating share classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these shareholders.

2.10 Taxation

2.10.1 Current tax

Current tax is recognised for the amount of income tax payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.10.2 Deferred tax

A provision for deferred tax payable is recognised in respect of material timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Timing differences are differences between the Fund's overseas taxable profits and its results as stated in the financial statements that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

3. Financial risks

Each Fund's investment activities expose them to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Fund.

3.1 Risk management framework

The Directors review quarterly investment performance reports and receive semi-annual presentations from the Investment Manager covering the Entity's performance and risk profile during the financial year. The Directors have delegated certain duties and responsibilities to the Manager with regard to the day-to-day management of the Entity. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Manager is also responsible for ensuring that the Entity is managed within the terms of its investment guidelines and limits set out in the prospectus. The Directors reserve to themselves the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Entity. The Directors have appointed a risk manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors investment risk, including climate-related risk. The RQA Group tracks the actual risk management practices being deployed across each Fund. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place across each Fund. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.2 Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by currency, interest rate and price movements. It represents the potential loss each Fund may suffer through holding market positions in the face of market movements.

Each Fund is exposed to market risk by virtue of their investment in debt instruments, equity instruments and derivatives.

A key metric used by the RQA Group to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period each Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk. The one-day VaR has a multi-year year look back period which encompasses market volatility caused by political, social and economic events which feed into the model. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, or other events, may adversely affect the Fund's VaR.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that each Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaR based on 99% confidence level is outlined in the table below:

3.2.1 Market risk arising from foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to foreign currency risk

Each Fund may invest in financial instruments denominated in currencies other than its functional currency. Consequently, each Fund is exposed, directly and/or indirectly, to risks that the exchange rate of its functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Fund's assets which are denominated in currencies other than its own currency.

The details of the open forward currency contracts in place to hedge foreign currency risk at the financial year end date are disclosed in the schedules of investments.

In addition, each Fund issued share classes denominated in currencies other than the functional currency of each Fund.

Management of foreign currency risk

Each Fund may engage in foreign currency hedging to minimise the effect of currency movements between the currencies of the investments held by the Fund and the Fund's functional currency and the Fund's currency hedged share classes.

The Investment Manager monitors foreign currency risk exposure against pre-determined tolerances and determines when a currency hedge should be reset and the gain or loss arising from such hedge reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency hedge.

3.2.2 Market risk arising from interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.2 Market risk (continued)

3.2.2 Market risk arising from interest rate risk (continued)

Exposure to interest rate risk

Each Fund is exposed to interest rate risk through its cash and cash equivalent holdings including margin cash held with brokers, use of credit facilities, and through its investments in interest bearing financial instruments which are disclosed in the schedules of investments.

Each Fund also has indirect exposure to interest rate risk through its investments into CIS and interest rate financial derivative instruments ("FDIs"), whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Management of interest rate risk

Interest rate risk exposure is managed by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

Cash is invested into money market funds to generate a return to protect the Fund against unfavourable movements in interest rates.

3.2.3 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, such as the COVID-19 pandemic, recessions, climate change or other events could have a significant impact on each Fund and market prices of its investments.

Exposure to price risk

Each Fund is exposed to price risk arising from its investments in financial instruments. The exposure of each Fund to price risk is the fair value of the investments held as shown in the schedules of investments of each Fund.

Management of price risk

By diversifying the portfolio, where this is appropriate and consistent with each Fund's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of each Fund is minimised.

There is a risk that the valuation of each Fund may not fairly reflect the value of the investments held at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for each Fund. To mitigate this risk the Directors may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be determined.

The price risk inherent in the CIS holdings is monitored by the Investment Manager by understanding the investment objectives of the underlying funds as well as their internal control policies and regular risk and performance reporting. The investments into other CIS are all investments into related party funds. Such CIS are subject to the same control procedures the Investment Manager employs for each Fund.

3.3 Liquidity risk

Liquidity risk is the risk that each Fund will encounter difficulties in meeting obligations associated with financial liabilities.

Exposure to liquidity risk

Each Fund's principal liquidity risks arise from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Fund has invested in.

Each Fund's shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of each Fund's NAV, excluding any duties and charges where applicable. Each Fund is therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Fund may invest in CIS which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Fund. Each Fund is also exposed to liquidity risk associated with daily margin calls on FDIs.

All of the Fund's financial liabilities, based on contractual maturities, fall due within three months. The expected settlement dates can be more than three months based on the analysis of the remaining period at the reporting date to the maturity date and are outlined in the schedules of investments.

Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including trading volume and increased price volatility. As a result, each Fund may experience difficulties in disposing of assets to satisfy liquidity demands.

Each Fund's liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of shares in a Fund exceed more than 10% of the NAV of each Fund on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess numbers of shares in issue from each Fund. The shares which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter.

None of the assets of the Funds are subject to special liquidity arrangements.

3.3 Liquidity risk (continued)

Management of liquidity risk (continued)

The Directors may, in consultation with the Depositary, temporarily suspend the determination of the Net Asset Value and the sale, issue, valuation, purchase, allotment, conversion and/or redemption or payments of redemption proceeds of shares of a Fund during:

(i) any period when any organised exchange on which a substantial portion of the investment for the time being comprised in the relevant Fund are quoted, listed, traded or dealt in is closed otherwise than for ordinary holiday, or during which dealings in any such organised exchange are restricted or suspended;

(ii) any period where, as a result of political, military, economic or monetary events, conditions of financial markets or other circumstances beyond the control, responsibility and power of the Directors, including the unavailability of relevant prices, the disposal or valuation of investments for the time being comprised in the relevant Fund cannot, in the opinion of the Directors, be effected or completed normally or without prejudicing the interest of Shareholders of that Fund;

(iii) any breakdown in the means of communication normally employed in determining the value of any investments for the time being comprised in the relevant Fund or during any period when for any other reason the value of investments for the time being comprised in the Fund cannot, in the opinion of the Directors, be promptly or accurately ascertained;

(iv) any period when the Fund is unable to repatriate funds for the purposes of making redemption payments or during which the realisation of investments for the time being comprised in the Fund, or the transfer or payment of the funds involved in connection therewith cannot, in the opinion of the Directors, be effected at normal prices;

(v) any period when, as a result of adverse market conditions, the payment of redemption proceeds may, in the opinion of the Directors, have an adverse impact on the Fund or the remaining Shareholders in the relevant Fund;

(vi) any period (other than ordinary holiday or customary weekend closings) when any market or exchange which is the main market or exchange for a significant part of the instruments or positions is closed, or in which trading thereon is restricted or suspended;

(vii) any period when proceeds of any sale or repurchase of the Shares cannot be transmitted to or from the account of the relevant Fund;

(viii) any period in which the repurchase of the Shares would, in the opinion of the Directors, result in a violation of applicable laws;

(ix) any period after a notice convening a meeting of Shareholders for the purpose of dissolving the Fund or terminating a Fund has been issued, up to and including the date of such meeting of Shareholders;

(x) any period during which dealings in a CIS in which the Fund has invested a significant portion of its assets are suspended; or

(xi) any period when the Directors determine that it is in the best interests of the Shareholders of a Fund to do so.

3.4 Counterparty credit risk

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Exposure to counterparty credit risk

Each Fund is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund. The carrying value of financial assets together with cash held with counterparties best represents each Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of any International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement, and netting, which would reduce the overall counterparty credit risk exposure. Each Fund only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. Cash held as security by the counterparty to FDI contracts is subject to the credit risk of the counterparty.

All transactions in listed securities are settled/paid for upon delivery of securities, using approved brokers. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty & Concentration Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

The BlackRock RQA Counterparty & Concentration Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

There were no past due or impaired balances in relation to transactions with counterparties as at 30 April 2023 or 30 April 2022.

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.1 FDIs

The Fund's holdings in exchange traded, centrally cleared and OTC FDIs expose the Fund to counterparty credit risk.

3.4.1.1 Exchange traded and centrally cleared FDIs

The exposure is limited by trading contracts through a clearing house. Each Fund's exposure to credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded contracts and centrally cleared swaps (variation margin). Each Fund's exposure to credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism.

A party to a cleared FDI transaction is subject to the credit risk of the clearing house through which it holds its cleared position, rather than the credit risk of its original counterparty to the FDI transaction. All funds received by a clearing broker are generally held in a clearing brokers' customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro-rata basis across all the clearing broker's customers, potentially resulting in losses to each Fund.

3.4.1.2 OTC FDIs

The risk in relation to OTC FDIs arises from the failure of the counterparty to perform according to the terms of the contract as these FDI transactions are traded bilaterally and not through a central clearing counterparty.

All OTC FDI transactions are entered into by each Fund under an ISDA Master Agreement or similar agreement. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs OTC FDI transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore, any collateral disclosures provided are in respect of all OTC FDI transactions entered into by each Fund under the ISDA Master Agreement. All cash collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, each Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment. When each Fund return securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to each Fund. Trading in OTC FDIs which have not been collateralised give rise to counterparty exposure.

Each Fund's maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency contract and any net unrealised gains as disclosed in the relevant Fund's schedule of investments.

With the exception of non-deliverable forward currency contracts held on BlackRock Advantage Asia ex Japan Equity Fund, BlackRock Global Impact Fund and BlackRock Tactical Opportunities Fund, forward currency contracts do not require variation margins and the counterparty credit risk is monitored through the BlackRock RQA Counterparty & Concentration Risk Team who monitor the creditworthiness of the counterparty. Margin is paid or received on non-deliverable forward currency contracts to cover any exposure by the counterparty or the Fund to each other. The margin cash account on the balance sheets consists of margin receivable from the Fund's clearing brokers and the forward currency contracts counterparty.

Each Fund has the right to reinvest cash collateral received. Cash collateral pledged by each Fund is separately identified on the balance sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by each Fund is reflected on the balance sheets as cash collateral payable. Each Fund is also exposed to counterparty risk of rehypothecation of pledged collateral. The value of inbound cash collateral and cash collateral pledged is reflected on the balance sheets of each Fund.

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.2 Depository

The majority of the investments are held by the Depository at the financial year end. Investments are segregated from the assets of the Depository, with ownership rights remaining with each Fund. Bankruptcy or insolvency of the Depository may cause the Funds' rights with respect to its investments held by the Depository to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedule of investments, plus any unsettled trades.

Substantially all of the cash of each Fund is held with the Depository in its account together with its own cash balances and with those cash balances that are held on behalf of other clients. Each Fund's cash balances are separately identifiable within the records of the Sub-Custodian.

In respect of the cash held by the Sub-Custodian or other depositaries it appoints, each Fund will be exposed to counterparty credit risk of the Sub-Custodian or those depositaries. In the event of the insolvency or bankruptcy of the Sub-Custodian or other depositaries, each Fund will be treated as a general creditor of the Sub-Custodian or the depositaries.

To mitigate each Fund's exposure to the Depository, the Investment Manager employs specific procedures to ensure that the Depository is a reputable institution and that the counterparty credit risk is acceptable to each Fund. Each Fund only transacts with Depository's that are regulated entities subject to prudential supervision, or with "high credit ratings" assigned by international credit rating agencies.

The long-term credit rating of the parent company of the Depository as at 30 April 2023 is A+ (30 April 2022: A+) (Standard & Poor's rating).

In order to further mitigate each Fund's counterparty credit risk exposure to the Sub-Custodian or depository banks, each Fund may enter into additional arrangements such as the placing of residual cash in a money market fund.

3.4.3 Securities lending

Each Fund's engagement in securities lending activities expose the Fund to counterparty credit risk. The maximum exposure of each Fund is equal to the value of the securities loaned.

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depository or the securities lending agent.

The collateral is registered and held in the name of Depository on behalf of each Fund in any or all of the following central securities depositories; J.P. Morgan SE – Dublin Branch, depending on the type of collateral the counterparty has to give in order to cover the required value of exposure. The collateral provided by these counterparties consists of shares admitted to dealing on a regulated market.

The Funds outlined below engaged in securities lending activities during the financial year. The value of securities on loan and collateral held at the financial year end are shown below:

Fund name	Currency	Value of securities on loan	Value of collateral received	Value of securities on loan	Value of collateral received
		30 April 2023		30 April 2022	
		'000	'000	'000	'000
BlackRock Advantage Asia ex Japan Equity Fund	USD	797	907	522	585
BlackRock Advantage Emerging Markets Equity Fund	USD	2,572	2,964	669	737
BlackRock Advantage Europe Equity Fund	EUR	8,436	9,332	6,854	7,618

BlackRock Global High Yield Sustainable Credit Screened Fund	USD	22,989	26,302	15,295	16,582
BlackRock Global Unconstrained Equity Fund	USD	52,930	57,408	49,239	54,626
BlackRock Sustainable Advantage US Equity Fund	USD	15,925	17,939	38,330	45,797
BlackRock Sustainable Advantage World Equity Fund	USD	18,019	20,163	19,079	21,223
BlackRock Sustainable Equity Factor Plus Fund	USD	6,920	8,811	–	–
BlackRock Tactical Opportunities Fund	USD	4,748	5,418	3,465	3,834

To mitigate this risk, each Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary.

As at 30 April 2023 and 30 April 2022, all collateral received consists of securities admitted to or dealt on a regulated market.

Each Fund also benefits from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

3.4 Counterparty credit risk (continued)

3.4.4 Issuer credit risk relating to debt instruments

Issuer credit risk is the default risk of one of the issuers of any debt instruments held by each Fund. Debt instruments involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign debt and corporate debt which expose them to the default risk of the issuer with regards to interest or principal payments.

The following tables detail the credit rating profile of the debt instruments held by each Fund:

As at 30 April 2023	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments
BlackRock Advantage Asia ex Japan Equity Fund	USD	100.00	–	–	100.00
BlackRock Advantage Emerging Markets Equity Fund	USD	100.00	–	–	100.00
BlackRock Global Corporate Sustainable Credit Screened Fund	USD	99.00	1.00	–	100.00

BlackRock Systematic Multi-Strategy ESG Screened Fund	USD	75.19	8.80	16.01	100.00
BlackRock Tactical Opportunities Fund	USD	100.00	–	–	100.00

As at 30 April 2022	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments
BlackRock Global Corporate Sustainable Credit Screened Fund	USD	99.52	0.48	–	100.00
BlackRock Global High Yield Sustainable Credit Screened Fund	USD	1.03	98.97	–	100.00
BlackRock Systematic ESG Equity Absolute Return Fund	EUR	100.00	–	–	100.00
BlackRock Systematic Multi-Strategy ESG Screened Fund	USD	62.06	15.64	22.30	100.00
BlackRock Tactical Opportunities Fund	USD	100.00	–	–	100.00

To manage this risk, the Investment Manager, where appropriate and consistent with each Fund's objectives, invests in a wide range of debt instruments. The ratings of debt instruments are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for non-rated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to each Fund.

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Fair value hierarchy (continued)

Specific valuation techniques used to value financial instruments classified as level 2 and/or level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a unit of participation in an investee collective investment scheme ("CIS") and investments in exchange traded funds ("ETFs") where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such unit of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a unit of participation. The unaudited NAV of the underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference asset or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable.
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (ix) for SPAC PIPE commitments, the use of underlying quoted market prices and application of discounts for lack of marketability, volatility and deal probabilities;
- (x) for foreign currency options, option pricing models; and
- (xi) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 30 April 2023 and 30 April 2022:

6. Operating expenses

The Entity employs an “all in one” fee structure for the Funds (and share classes). Each Fund pays all of its fees, operating costs and expenses (and its due proportion of any costs and expenses of the Entity allocated to it) as a single flat fee (the “Ongoing Charge”). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Manager, Investment Manager, Depositary, Administrator and Transfer Agent from the amounts received by the Manager from the ongoing charge. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund’s costs and expenses in connection with the operation of the Fund exceed the stated ongoing charge, the Manager will discharge an excess amount out of its own assets.

Management fees (inclusive of investment management fees):

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 30 April 2023:

NOTES TO THE FINANCIAL STATEMENTS (continued)

6. Operating expenses (continued)

Whilst it is anticipated that the ongoing charges borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

Performance fees

The performance fees shall be calculated and shall accrue at each valuation point and the accrual will be reflected in the NAV of the relevant share class. The performance fees are paid annually in arrears as soon as practicable after the close of business on the business day following the end of the relevant performance period.

There are two methods of calculation of Performance fees and they are classified as Type A and Type B funds based on the method followed by the funds.

Type A Funds:

The following funds use Type A approach in calculating the performance fees:

1. BlackRock Systematic ESG Equity Absolute Return Fund
2. BlackRock Systematic Multi-Strategy ESG Screened Fund

The performance fee is equal to 20% of the amount if any, by which the NAV outperforms the "Reference NAV" on the last business day of the performance period. If there is a redemption from the Fund during a performance period, the performance fee crystallises with respect to those shares and will be deducted from the final redemption proceeds payable to the redeeming shareholder.

"Reference NAV", the Reference NAV will be the higher of (in each case as adjusted by the Benchmark Return):

- (a) the High Watermark; or
- (b) the Money Weighted Price -
 - (i) the Launch NAV; or
 - (ii) on the first day of a subsequent performance period, the higher of:
 - (a) the previous day's Money Weighted Price; and
 - (b) the previous day's NAV per Share if a Performance Fee has been paid out; or
 - (iii) in respect of any other Dealing Day, the previous day's Money Weighted Price adjusted by subscriptions or switches into the Share Class on that Valuation Day.

In each case as reduced by the rate of any distribution in respect of shares made during the relevant performance period.

Type B Funds:

The following funds use Type B approach in calculating the performance fees:

1. BlackRock Advantage Asia ex Japan Equity Fund
2. BlackRock Advantage Emerging Markets Equity Fund
3. BlackRock Advantage Europe Equity Fund
4. BlackRock Advantage Europe ex UK Equity Fund
5. BlackRock Global High Yield Sustainable Credit Screened Fund
7. BlackRock Sustainable Advantage US Equity Fund
8. BlackRock Sustainable Advantage World Equity Fund
9. BlackRock Sustainable Equity Factor Plus Fund

For Type B Funds a performance fee accrual is calculated where the NAV per share return of the relevant share class outperforms the relevant benchmark return.

NAV per share return is calculated on each dealing day as the difference between the current day NAV per share and that of the prior day NAV per share for that share class. Dividend distributions are added back in for the purposes of calculating the performance of that share class.

Benchmark return is the change in performance return of the Performance Fee Benchmark, calculated on each Dealing Day as the percentage difference between the value of the Performance Fee Benchmark on that day and that of the previous Dealing Day.

If the NAV per share return is above the benchmark return, then a performance fee accrual is calculated as the relevant percentage of the difference as multiplied by the outstanding number of Shares on the valuation day for that share class. When the NAV per share return underperforms the relevant benchmark return no performance fee will be accrued until such underperformance has been made good. The underperformance that the Manager is required to make good, prior to any payment of a performance fee, is carried forward to the next performance period in proportion to the shareholders remaining, in case of redemption, within the Fund at each valuation point.

6. Operating expenses (continued)

Performance fees (continued)

With respect to Type B funds, investors should note that where the NAV of the Fund has declined the Fund may still accrue a performance fee in circumstances where the performance of the Fund has exceeded the performance of the Benchmark Return.

The performance fee is calculated by the Administrator and verified by the Trustee.

Any underperformance by the share class relative to the Reference NAV during a performance period must be clawed back by that share class before any subsequent performance fee becomes payable.

The performance fee shall only be payable on the amount by which the share class outperforms the Reference NAV. In practical terms this will be achieved by introducing a high watermark principle or "Prior High NAV" (as defined below) for each share class. For each performance period, a performance fee will only be payable by a particular share class if the NAV of a share in that class at the end of a performance period is greater than the prevailing Prior High NAV for that class.

The "Prior High NAV" of each class is the NAV per share for that class at the end of the last performance period in respect of which a performance fee has been paid (or, if no performance fee has yet been paid with respect to any such performance period, the initial Dealing Price).

At the end of each performance period, where a performance fee has been paid, and only then, the Prior High NAV per share will be reset to the NAV per share of the relevant class at the end of such performance period. For the avoidance of doubt, where the relevant Share class has underperformed, (i.e. its NAV per Share at the end of a performance period is below the Prior High NAV per Share), no performance fee will be payable until the underperformance is clawed back.

Class A, Class D and Class DP share class has 20% fees payable out of the NAV of the Fund and Class Z share class use 10% fees payable out of the NAV of the Fund.

Investors should note that the Investment Manager may be paid a performance fee which will be based on realised and unrealised gains.

Therefore, it is an inherent risk in the Fund that performance fees may be paid on unrealised gains which may never ultimately be realised by the Fund.

Further details are set out in the Entity's prospectus.

The performance fee, as a percentage of the respective share class NAV, is calculated by dividing the accrued performance fee during the financial year by the daily average NAV of the respective share class.

There were no performance fees during the financial years ended 30 April 2023 and 30 April 2022 for Type B Funds.

There were no performance fees during the financial year ended 30 April 2023 for Type A Funds.

During the financial year ended 30 April 2022, performance fees charged to the/each Fund(s) was as follows:

Fund name	Share class	Currency	Performance fee charged '000	Performance fee (as a percentage of the net assets) (%)
BlackRock Systematic ESG Equity Absolute Return Fund	Class D EUR Accumulating	EUR	1	20.00
	Class D GBP Hedged Accumulating	EUR	1	20.00
	Class D USD Hedged Accumulating	EUR	3	20.00

Credit administration fees

JPMorgan, as administrative agent to the credit agreement, together with other syndicated lenders, made a credit facility of USD 450,000,000 available to the Funds. A loan commitment fee is charged at the rate of 0.10% per annum, payable by all the Funds, on the daily outstanding balance. The fee is payable quarterly in arrears. There was no credit administration fee charged during the financial year. Further details on the credit facility agreement are set out in note 17.

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. Taxation (continued)

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 102, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share. Income earned during the financial year by the Funds from securities lending transactions is disclosed in the operating income note.

No provisions have been recognised by the Funds against amounts due from related parties at the financial year end date (30 April 2022: Nil).

No amounts have been written off during the financial year in respect of amounts due to or from related parties (30 April 2022: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial year (30 April 2022: Nil).

17. Credit facility

The Fund entered into a credit facility with JPMorgan whereby JPMorgan, together with other syndicated lenders, made a portion of a USD 450,000,000 credit facility available to the Fund. The portion of the USD 450,000,000 credit facility will be allocated to the Fund based on the credit facility agreement dated 21 April 2023. This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the Fund. Any new Fund will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Fund. During this year, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Fund will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Fund and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged on a daily basis in relation to this credit facility which is included in the income statement under caption "Credit administration fee". The loan commitment fee is charged at 0.10% on the outstanding balance.

The credit facility was not used during the financial year.

18. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities as at 30 April 2023 and 30 April 2022.

19. Statutory information

The following fees were included within ongoing charge fees for the financial year:

	2023 EUR '000	2022 EUR '000
Directors' fees	65	20
Audit fee (including expenses) relating to the audit of the annual financial statements	210	186
Non-audit fees	-	-

Directors' fees will not exceed the sum of EUR 30,000 per annum per Director without the approval of the Board of Directors. There were no other assurance, tax, advisory or non-audit fees other than the audit fees disclosed above paid to Ernst & Young in Dublin, Ireland as the Statutory Auditor of the Entity as no other services were provided.

20. Terminated funds

At 30 April 2023, BlackRock Asian Dragon ESG Screened Fund, BlackRock Euro-Markets ESG Screened Fund and BlackRock US Flexible Equity ESG Screened Fund held balances in accounts with the Depository amounting to US\$1,294 (2022: US\$(3,660)), €(934) (2022: €(909)) and US\$(479) (2022: US\$(406,833)), respectively. These Funds terminated operations in prior years and have not been included in this report as the final termination audited financial statements have been prepared in prior years.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

GLOBAL EXPOSURE (UNAUDITED)

The Directors is required by regulation to employ a risk management process, which enables it to monitor accurately and manage the global exposure from FDIs which each Fund gains as a result of its strategy ("global exposure").

The Directors uses one of two methodologies, the "commitment approach" or the "value-at-risk approach" ("VaR"), in order to measure the global exposure of each Fund and manage the potential loss to them due to market risk.

Commitment approach

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of each Fund to FDI.

Pursuant to the relevant regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

VaR approach

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

Please refer to the financial risks note to the financial statements for further details on the measure of VaR.

The Directors use Absolute VaR as set out below. For Absolute VaR, the monthly VaR will not exceed 20% of the Fund's NAV. Where a VaR calculation is performed using a horizon other than the one-month regulatory limit, this 20% limit shall be rescaled to reflect the appropriate risk horizon period as directed by the relevant regulatory guidelines. Utilisation refers to the level of risk taken in this context.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective Absolute VaR regulatory limit.

Fund	Global exposure approach	Reference portfolio	Highest utilisation of the VaR limit %	Lowest utilisation of the VaR limit %	Average utilisation of the VaR limit %
BlackRock Global Target Return: Conservative Fund	Absolute VaR	N/A	28.00	17.00	21.00
BlackRock Global Target Return: Growth Fund	Absolute VaR	N/A	36.00	24.00	30.00
BlackRock Global Target Return: Moderate Fund	Absolute VaR	N/A	36.00	21.00	26.00
BlackRock Systematic Multi-Strategy ESG Screened Fund	Absolute VaR	N/A	21.00	16.00	18.00
BlackRock Tactical Opportunities Fund	Absolute VaR	N/A	46.00	20.00	35.00

LEVERAGE (UNAUDITED)

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities. Leveraged FDI positions can therefore increase a Fund's volatility.

Pursuant to its regulatory obligations, the Directors are required to express the level of leverage employed in a Fund where VaR is being used to measure global exposure. For the purposes of this disclosure, leverage is the investment exposure gained through the use of FDIs. It is calculated using the sum of the notional values of all the FDI held by the relevant Fund, without netting, and is expressed as a percentage of the NAV.

REPORT ON REMUNERATION (UNAUDITED)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock group authorised by The financial conduct authority ("FCA") as a manager of a UK UCITS fund.

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and (b) the Manager's board of directors (the "Manager's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies which includes reviewing the remuneration policy on a regular basis and being responsible for its implementation.

The implementation of the remuneration policy is annually subject to central and independent review for compliance with policies and procedures for remuneration adopted by the MDCC and by the Manager's Board. The remuneration disclosure is produced and owned by MDCC and the Manager's Board.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
 - BlackRock's executive compensation programmes;
 - BlackRock's employee benefit plans; and
 - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the 'BlackRock, Inc. Board') as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 7 meetings during 2022. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

(b) The Manager's Board

The Manager's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED) (continued)

Decision-making process (continued)

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units and therefore staff members in control functions are remunerated independently of the businesses they oversee. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Manager.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- promote sound and effective risk management across all risk categories, including sustainability risk;
- discourage excessive risk-taking (sustainability related or otherwise); and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

REPORT ON REMUNERATION (UNAUDITED) (continued)

Link between pay and performance (continued)

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business;
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence;
- criticality to business; and
- supporting the firm's approaches to environmental, social and governance factors and diversity, equity and inclusion.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin¹ and Organic Revenue Growth². Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

¹As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

²Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED) (continued)

Identified Staff (continued)

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

Quantitative Remuneration Disclosure

The Manager is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly for the Manager.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Manager is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Therefore, the figures disclosed are a sum of individuals' portion of remuneration attributable to the Manager according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager and the broader BlackRock group. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the Manager's staff in respect of the Manager's financial year ending 31 December 2022 is USD 220.40 million. This figure is comprised of fixed remuneration of USD 118.00 million and variable remuneration of USD 102.40 million. There were a total of 3,940 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager in respect of the Manager's financial year ending 31 December 2022, to its senior management was USD 21.60 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the Manager or its funds was USD 30.80 million. These figures relate to the entire Manager and not to the Fund.

Efficient portfolio management techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI and the prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC FDIs provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDI and the identity of the counterparties to these FDIs at the financial year end are disclosed on the relevant Fund's schedule of investments.

Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depository or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and as a proportion of the Fund's NAV, as at 30 April 2023. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Income earned during the year by the Funds from securities lending transactions is disclosed in the Fund's notes to the financial statements.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. Each Fund receives at least 62.5% while securities lending agent receives up to 37.5% of such income with all operational costs borne out of the securities lending agent's share.

The following table details the value of securities on loan (individually identified in the relevant Fund's schedule of investments), analysed by counterparty as at 30 April 2023.

Total return swaps

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by each under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund's Depositary. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 30 April 2023 and the income/returns earned for the year ended 30 April 2023. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

The total returns earned from total return swaps is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from total return swaps will accrue to the Fund and are not subject to any returns or costs sharing arrangement with the Fund's Manager or any other third parties.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Glossary and key definitions

The periodic report disclosures set out below are presented for the year ended 30 April 2023, the “reference period”.

All data presented for the Fund’s investments and other quantitative measures disclosed has been calculated based on an average of the value of investments traded and held for actively managed fund, at each quarter end date within the reference period for which the relevant Funds met the criteria of an Article 8 or 9 Fund. For metrics that are presented with sustainability indicators, the relevant metric calculation relates to the investments for which the underlying ESG data is available, rather than all investments held by the Fund.

All such data presented is unaudited and was not subject to an assurance provided by the Fund auditors or a review by a third party.

The term “Assets” shall be deemed to mean the total value of investments held by the Fund throughout the reference period.

Investments shall include cash and cash equivalents as set out by Article 53 of the regulatory technical standards under the Delegated Regulation (EU) 2022/1288. However, FRS 102 requires cash and cash equivalents to be treated separately. Therefore, there will be a difference in presentation for the purposes of the overall annual report.

Sustainable Investments: BlackRock defines Sustainable Investments as investments in issuers or securities that contribute to an environmental or social objective, do not significantly harm any of those objectives and where investee companies follow good governance practices. BlackRock refers to relevant sustainability frameworks to identify the alignment of the investment to environmental or social objectives.

Do no significant harm (“DNSH”): The assessment undertaken by BlackRock to determine whether an investment does no significant harm to any environmental or social objective under SFDR. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an investment does significant harm, which considers both third party data points as well as fundamental insights. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments.

Sustainability Factors: Environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters.

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable investment

means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

BlackRock Advantage Asia ex Japan Equity Fund

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): coal and consumable fuels.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 *Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

- **How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance for the reference period
Exclusion of issuers based on exclusionary criteria as defined in table above "Environmental and social characteristics promoted by the Fund"	# of active breaches reported	No active breaches

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investments portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, oil and gas refining and marketing, or coal and consumable fuels.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 *Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website at: <https://www.blackrock.com/uk/professionals/solutions/shareholder-rights-directive>.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 *Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- **What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- **What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Sustainable investment

means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

*Effective 29 December 2022, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 29 December 2022 to 30 April 2023.

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 31.81% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's Sustainable Investments have been identified according to the sustainable investment framework developed by BlackRock and used during the reference period.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or (ii) the issuer's business practices contributed to an environmental and/or social objective; or

(ii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or

(iii) the fixed income securities were aligned with an environmental and/or social objective.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

The EU Taxonomy sets out a “do not significantly harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significantly harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund’s investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 26.99% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's Sustainable Investments have been identified according to the sustainable investment framework developed by BlackRock and used during the reference period.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or (ii) the issuer's business practices contributed to an environmental and/or social objective; or

(ii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or

(iii) the fixed income securities were aligned with an environmental and/or social objective.

BLACKROCK GLOBAL HIGH YIELD SUSTAINABLE CREDIT SCREENED FUND

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

The EU Taxonomy sets out a “do not significantly harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significantly harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 21.41% of the Fund's investments were classified as sustainable investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in sustainable investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

Sustainable investment

means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (PAIs). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 45.65% of the Fund's investments were classified as sustainable investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in sustainable investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the first reference period, 50.46% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable investment means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund’s prospectus. Please refer to the section below, “How did the sustainability indicators perform?”, which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund
The Fund uses BlackRock’s proprietary Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in “in transition” and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment.
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons).
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads.
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands).
Exclusion of issuers which produce tobacco products.
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products.
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians.
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use.
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption).

- **How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance for the reference period
Exclusion of issuers based on exclusionary criteria as defined in table above "Environmental and social characteristics promoted by the Fund"	# of active breaches reported	No active breaches

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investments portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas equipment services, oil and gas storage and transportation, oil and gas refining and marketing, or coal and consumable fuels.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website at: <https://www.blackrock.com/uk/professionals/solutions/shareholder-rights-directive>.

How did this financial product perform compared to the reference benchmark?

*Effective 29 December 2022, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 29 December 2022 to 30 April 2023.

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 51.60% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's Sustainable Investments have been identified according to the sustainable investment framework developed by BlackRock and used during the reference period.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or (ii) the issuer's business practices contributed to an environmental and/or social objective; or

(ii) the fixed income securities were aligned with an environmental and/or social objective.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

The EU Taxonomy sets out a “do not significantly harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significantly harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 *Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 41.79% of the Fund's investments were classified as sustainable investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in sustainable investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

- **What was the share of socially sustainable investments?**

For the reference period, 9.81% of the Fund's investments were classified as socially sustainable investments.

- **What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. Sustainable investment

means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

*Effective 29 December 2022, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 29 December 2022 to 30 April 2023.

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 46.23% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's Sustainable Investments have been identified according to the sustainable investment framework developed by BlackRock and used during the reference period.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or (ii) the issuer's business practices contributed to an environmental and/or social objective; or

(ii) the fixed income securities were aligned with an environmental and/or social objective.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

The EU Taxonomy sets out a “do not significantly harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significantly harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI World Index.	Carbon emissions intensity relative to the benchmark	61.59% lower than the benchmark
The Fund's holdings in Sustainable Investments	% Sustainable Investments held by the Fund	55.52%*

*Effective 29 December 2022, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 29 December 2022 to 30 April 2023.

- **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 55.52% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's Sustainable Investments have been identified according to the sustainable investment framework developed by BlackRock and used during the reference period.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or (ii) the issuer's business practices contributed to an environmental and/or social objective; or

(ii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or

(iii) the fixed income securities were aligned with an environmental and/or social objective.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all sustainable investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as sustainable investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. BlackRock makes use of fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers deemed to have violated these conventions are not considered as sustainable investments.

The EU Taxonomy sets out a “do not significantly harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significantly harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 *Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

- **What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 43.42% of the Fund's investments were classified as sustainable investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in sustainable investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

- **What was the share of socially sustainable investments?**

For the reference period, 12.10% of the Fund's investments were classified as socially Sustainable Investments.

- **What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 10%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website at: <https://www.blackrock.com/uk/professionals/solutions/shareholder-rights-directive>.

How did this financial product perform compared to the reference benchmark?

BLACKROCK SYSTEMATIC ESG EQUITY ABSOLUTE RETURN FUND

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund’s investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund’s investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives and cash, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**

Sustainable investment

means an investment in an economic activity that contributes to environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investments portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund’s investment alignment with EU Taxonomy is shown in the graphs below.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund’s investments are identified for the purposes of this report as being in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments* with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding sustainable investments during the reference period, however, certain sustainable investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" derivatives, cash and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Manager agrees with this external assessment, the Investment Manager is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Manager's direct engagement with the issuer. The Investment Manager may also decide to reduce exposure to such issuers.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website at: <https://www.blackrock.com/uk/professionals/solutions/shareholder-rights-directive>.
