Chairwoman's Letter to Shareholders

March 2023

Dear Shareholder,

I am writing to update you on the activities of BlackRock Global Index Funds (the "Company" or "BGIF") over the 12 months to 31 March 2023. The BGIF range comprised 10 Funds (each a "Fund", together the "Funds") as of 31 March 2023. The Funds' performance is covered in more detail in the separate Investment Adviser's Report.

The past 12 months have been characterised by significant volatility in global stock markets, largely due to the impact of high inflation, tighter monetary policy and the ongoing consequences of Russia's invasion of Ukraine.

The unwinding of the pent-up demand as the COVID-19 pandemic receded in 2021 created high levels of price rises. These persisted into 2022 and have yet to be brought under control. Central banks around the world responded by withdrawing the stimulus measures introduced at the start of the COVID-19 pandemic and increasing interest rates on a regular basis during the financial year.

The fallout from Russia's invasion of Ukraine at the end of February 2022 exacerbated the inflationary pressures and supply chain challenges that accompanied the later stages of the COVID-19 pandemic. Aside from the humanitarian costs, the sanctions imposed by Western nations on Russia at the start of the conflict led to serious issues around energy supplies, to Europe in particular and also resulted in a more widespread disruption of global trade. Both Russia and Ukraine are important commodities producers: Russia is among the world's largest exporters of oil, gas and coal, while Ukraine is a significant agricultural exporter, particularly for wheat. However, a number of European nations responded to the crisis by improving energy-efficiency and seeking alternative sources of power.

After the steep increases in energy prices seen in the first half of 2022, energy prices started to ease over the second half of the year, reducing some of the inflationary pressures in the world's major economies. The inflation rate in the US peaked in June 2022 at 9.1%, a 40-year record. In the Eurozone, annual price rises hit 10.6% in October 2022 but had eased back to 8.5% by February 2023. The UK inflation rate rose to 11.1% in October 2022, which was also a 40-year record before similarly dropping back in the months that followed.

A series of COVID-19 related lockdowns in China continued to hamper industrial production and global supply chains into the autumn. However, following widespread protests in November 2022, Chinese authorities relaxed the country's pandemic-era restrictions, delivering a potential boost to international trade as well as domestic growth.

Persistently high inflation coupled with rising interest rates created recessionary fears in the second half of 2022. Resilient economic data in late 2022 and the early months of 2023 helped to ease these concerns: while activity in areas such as manufacturing and construction fell back, labour market performance remained largely robust and retail spending proved resilient. However, in its World Economic Outlook Update, published in April 2023, the International Monetary Fund ("IMF") forecast an expansion of the world economy of 2.8% in 2023 compared with 6.1% in 2021 and 3.4% in 2022. The IMF added that the risks to this outlook were tilted to the downside due to tightening financial conditions, the ongoing conflict in Ukraine, high inflation and the potential for a sharp rise in COVID-19 infections in China, among other factors.

Markets experienced renewed volatility in March 2023, as concerns emerged about the pressures placed on the global financial system by tightened monetary policy. The collapse of Silicon Valley Bank in the US was followed by a loss of confidence in Switzerland's Credit Suisse, although concerted action by regulators helped to restore some calm towards the end of the month.

There was also considerable volatility in fixed-income assets during the financial year, with the US 10-year Treasury yield rising as high as 4.2% in the autumn of 2022 before falling back to a small degree. When yields rise, bond prices drop and investors saw significant capital losses. Notably, the yield curve on US Treasuries was inverted from autumn 2022 until the end of the review period: this means that short-term interest rates are higher than long-term rates. Higher-quality corporate bonds were similarly weak, with spreads over government bonds widening.

The performance of the Funds is covered in more detail in the separate Investment Adviser's Report, which also sets out some views regarding the investment outlook. Overall, assets in the Company fell 18.41% in US dollar terms to USD 7,499.21 million.

Nine out of the ten Funds saw a decrease in assets under management ("AUM") over the period.

The iShares Europe Equity Index Fund (LU) was the only Fund to see an increase in AUM during the financial year. It recorded inflows of 18.82% in Euro terms, rising to EUR 241.26 million. Assets in the iShares Euro Government Bond Index Fund (LU), meanwhile, finished 5.83% lower in Euro terms at EUR 85.05 million, while the iShares Euro Aggregate Bond Index Fund (LU) lost 30.59% of its value in Euro terms to end the period at EUR 169.96 million.

Assets in the iShares Pacific ex Japan Equity Index Fund (LU) dropped by 9.59% in US dollar terms to USD 218.12 million, while assets in the iShares Japan Equity Index Fund (LU) fell 15.86% in US dollar terms to USD 97.38 million.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairwoman's Letter to Shareholders

March 2023 continued

Assets in the iShares Emerging Markets Government Bond Index Fund (LU) fell 14.44% in US dollar terms to USD 3,635.75 million, and assets in the iShares Global Government Bond Index Fund (LU) ended the period 18.28% lower at USD 605.27 million.

The heaviest outflows were seen in the iShares North America Equity Index Fund (LU) which fell 34.58% in US dollar terms to USD 405.97 million, the iShares Emerging Markets Equity Index Fund (LU), which decreased in size by 28.07% in US dollar terms to USD 343.88 million, and the iShares World Equity Index Fund (LU), which fell 23.12% in US dollar terms to USD 1,652.23 million over the period.

Regulatory change continued throughout Europe and a number of these changes could have implications for investors. Key changes include:

- ▶ As of 1 January 2023, the extended Packaged retail investment and insurance products ("PRIIPs") regulation has brought significant changes for the fund industry, which had previously benefitted from an exemption. UCITS KIIDs have been replaced with the revised PRIIPs KIDs requirements. Changes include the way risks, performance scenarios, and transaction costs are calculated.
- ▶ The European Union's Sustainable Finance Disclosure Regulation ("SFDR") came into effect in March 2021. It imposes new transparency and reporting obligations on investment management firms, both at a firm-wide level and at a product level. Certain parts of the framework were finalised in 2022 and came into force at the start of 2023, for example pre-contractual disclosures ("PCDs") were published as required under SFDR from 1 January 2023. At the same time, the EU is working on an EU-wide classification system or 'framework'. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. There are also moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") due to be implemented from 2024 onwards. Under the CSRD regulations, companies will be obliged to report on sustainability across their supply chains ("Scope 3"), and will also be required to incorporate double materiality into their reporting. Double materiality is the requirement to report not just on how sustainability-related issues affect the company, but how the company's activities affect the likes of the environment, climate change and social issues.

Market Review

Following the sell-offs at the start of 2022, which were caused by the initial tightening of monetary policy and the Russian invasion of Ukraine, markets continued in a highly volatile fashion throughout much of the year as fears grew that persistently high inflation and rising interest rates could lead to recession in many of the world's major economies. Towards the end of 2022 and in early 2023, however, equities rallied as inflation rates dropped back in the US and Europe, raising hopes that the pace of interest-rate increases may start to slow.

Technology and growth stocks, which had already declined at the start of 2022, suffered further sharp declines in April and June. After a long period during which strong earnings had continued to propel share prices in the technology sector higher, there was some weakness in reported results while inflation and rising bond yields reduced the present value of the long-term cash flows offered by many high-growth technology companies.

Equity markets as a whole suffered further losses in August and September as fears grew about the potentially recessionary impact of rising interest rates. However, the decision by the Chinese government to bring its pandemic-era 'zero-COVID' policy to an end in November provided a boost for global stock markets as well as commodities prices.

While there have been pockets of weakness in certain sectors over the period, company earnings statements were largely in line or ahead of expectations, another factor that underpinned share-price resilience. Financial companies, for example, benefited from higher interest rates and the strong labour market.

Equities were particularly strong in Europe towards the end of 2022 and in early 2023 thanks to receding fears about energy prices and the high levels of exposure of many European manufacturing and luxury-goods companies to the Chinese market. By contrast, US equities performed less well on concerns about continued monetary-policy tightening, with the American economy appearing to be somewhat immune to the impact of higher interest rates.

A liquidity crisis in parts of the banking sector in March 2023 highlighted the potential consequences of tight monetary policy and raised hopes that central banks' programmes of interest-rate increases could soon end. This prompted a rise in the share prices of technology and other high-growth companies.

The uncertain period for global bond markets continued. US 10-year treasury yields, which move inversely to prices, rose to a peak of 4.2% during October. This spike was caused in part by investors' strongly negative reaction to controversial tax-cutting plans set out by Liz Truss's government in the UK in late September. Yields on UK 10-year gilts rose to 4.5% before falling back towards 3% by the end of November. Index-linked bonds, which move in line with inflation expectations rather than actual price rises, also saw significant losses during much of the period.

Equity Fund Performance

The iShares North America Equity Index Fund (LU) was the weakest performer over the period, dropping 11.79%. The iShares Europe Equity Index Fund (LU), meanwhile, was the strongest performer in relative terms, gaining 3.14%.

Other Funds suffered losses, with the iShares Emerging Markets Equity Index Fund (LU) down 11.04% and iShares World Equity Index Fund (LU) losing 8.92%. The iShares Pacific ex Japan Equity Index Fund (LU) fell 7.63%, while the iShares Japan Equity Index Fund (LU) lost 5.70%.

Fixed Income Fund Performance

The iShares Euro Aggregate Bond Index Fund (LU) fell 10.96% while the iShares Euro Government Bond Index Fund (LU) fell 12.16%. The iShares Global Government Bond Index Fund (LU) declined 9.84% and the iShares Emerging Markets Government Bond Index Fund (LU) fell 7.37%.

Outlook

While the global economy's recovery from the COVID-19 crisis was not expected to be plain sailing, 2022 delivered an array of challenges far beyond any that had been forecast in 2021. The

The information stated in this report is historical and not necessarily indicative of future performance.

Investment Advisers' Report Performance Overview

1 April 2022 to 31 March 2023 continued

pandemic left a difficult legacy of high government debt, supply-chain problems and rising inflation, and these problems were compounded by the crisis in Ukraine, with high commodity and energy prices weighing on households and businesses across the world.

Central banks have been forced to rapidly tighten monetary policy with the result that growth rates have started to decelerate. There are fears a number of major economies will slow considerably in 2023, creating significant uncertainty in terms of the growth outlook. Even if inflation has reached a peak, business activity is under severe pressure and governments have revised their gross domestic product ("GDP") forecasts lower. A prolonged downturn has the power to destabilise markets in the year ahead and will certainly affect the type of sectors that do well. However, economic data from early 2023 suggests that inflation expectations are starting to recede, and it is hoped that central banks may soon be able to slow the pace of interest-rate rises.

Despite markets having fallen substantially during much of 2022, the corporate sector has remained reasonably resilient to date. This has left valuations looking more attractive. Undoubtedly, there are companies that can weather the current storm and do well in spite of any looming economic weakness. Equally, higher bond yields have left fixed income looking better value than it has done for some time. Ultimately, while there will undoubtedly be challenges in the months ahead, so too will opportunities emerge.

Tracking Difference

The investment objective of the Funds is to match the performance of the benchmark indices listed in the table below:

Tracking difference is defined as the difference in returns between a Fund and its Benchmark Index. For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consists of the securities that make up the Benchmark Index, in similar proportion to the weights represented in the Benchmark Index.

For optimising funds, the investment management approach aims to match the performance of a Benchmark Index by investing in a portfolio that is primarily made up of securities that represent the Benchmark Index. The objective is to generate the total return of the Benchmark Index as close as reasonably possible net of transaction costs and gross of fees.

Cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging can have an impact on tracking difference. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

In addition to the above, the Funds may also have a tracking difference due to withholding tax suffered by the Funds on any income received from its investments. The level and quantum of tracking difference arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Funds with various tax authorities, any benefits obtained by the Funds under a tax treaty or any securities lending activities carried out by the Funds.

Investment Advisers' Report Performance Overview

1 April 2022 to 31 March 2023 continued

Tracking Error

Realised tracking error is the annualised standard deviation of the difference in monthly returns between a Fund and its Benchmark Index. Tracking error shows the consistency of the returns relative to the Benchmark Index over a defined period of time. Tracking error is based on the net asset value ("NAV") calculated in accordance with the Prospectus.

Anticipated tracking error is based on the expected volatility of differences between the returns of a Fund and the returns of its Benchmark Index. For physically replicating funds, the investment management approach is to buy a portfolio of securities that, as far as practicable, consist of the securities that make up the Benchmark Index, in similar proportion to the weights represented in the Benchmark Index.

For optimising funds, the investment management approach aims to match the main risk characteristics of the Benchmark Index by investing in a portfolio that is primarily made up of securities that represent the Benchmark Index. The objective is to generate a total return as close as reasonably possible to that of the index, net of transaction costs and gross of fees.

Explanation of Divergence Between Anticipated and Realised Tracking Error

The Funds may have a tracking error due to a number of sources.

Cash management, efficient portfolio management techniques (including securities lending), transaction costs from rebalancing and currency hedging collectively can have an impact on tracking error, as well as the return differential between a Fund and its Benchmark Index. Importantly, these impacts can be either positive or negative, depending on the underlying circumstances.

Funds may have a tracking error due to withholding tax suffered by the Funds on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors, such as any reclaims filed by the Funds with various tax authorities, any benefits obtained by the Funds under a tax treaty or any securities lending activities carried out by the Funds.

A Fund's tracking error may also be affected if the times at which a Fund and its Benchmark Index are priced are different. Where the Benchmark Index is valued at the time the relevant markets close for business and a Fund is valued at an earlier time, the tracking error of that Fund may appear to be higher than if the Fund and the Benchmark Index were priced at the same time. This is particularly relevant for the fixed income Funds, although, less so for the equity Funds for which the relevant index provider issues a price of the relevant Benchmark Index at the same time as the equity Fund's valuation point.

In addition, as the NAV of a Fund taken at its valuation point includes the effect of any swing pricing, the tracking error figures set out below may be impacted depending on the significance of any swing pricing adjustment in the NAV in order to reduce the effect of "dilution" on that Fund resulting from the sale or purchase of shares in the Fund.

A Fund's tracking error may also be affected by non-dealing days, which occur at times when the local stock exchanges or regulated markets in respect of a particular Fund are closed for trading and settlement due to public holidays. During such times, the relevant Funds will not be able to obtain access to such market(s) directly and will, for example, either hold the cash received from any subscriptions until the relevant market(s) are open or will obtain exposure to the relevant market(s) indirectly using proxy instruments. Both approaches may increase a Fund's tracking error. Alternatively, the tracking error of a Fund may be affected if there is a public holiday in Luxembourg (when the Funds are not priced), as the NAV of the Funds will remain the same, despite movements in the underlying markets.

The table below compares the anticipated tracking error of the Funds (disclosed in the Prospectus on an ex ante basis) against the actual realised tracking error of the Funds as at 31 March 2023. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Performance summary, tracking difference and tracking error

The table and the relevant footnotes also indicate the primary drivers impacting tracking difference gross of the TER, where the realised tracking error is greater than the anticipated tracking error. Primary drivers impacting tracking difference include cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging and sampling techniques. Tax may also impact tracking difference and tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking difference arising due to withholding taxes depend on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

1. Comprising of withholding tax rate differential, tax reclaims and income timing differences between the Fund and the Benchmark Index.

2. Comprising of cash management, trading costs, currency hedging, futures held and sampling techniques.

a. The tracking error was due to the difference between the valuation point of the Fund and the Benchmark Index.

b. The tracking error was primarily driven by the removal of Russian securities from the Index in March 2022. Following the removal, Russian securities left the index at zero value, while the Fund sold most of these securities at a market price (above zero).

c. The tracking difference was also driven by the compounding impact of the daily accrued TER on the Fund's assets under management.

Environmental, social and governance (“ESG”) policy

The Funds do not meet the criteria for Article 8 or 9 products under the EU Sustainable Finance Disclosure Regulation (“SFDR”) and the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator (“PAI”) data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all Funds and these risks may coincide with environmental or social themes associated with the PAIs, unless stated otherwise in the prospectus, the Funds do not commit to considering PAIs in driving the selection of their investments.

Corporate Governance Statement

Introduction

BlackRock Global Index Funds SICAV (the "Company") is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010, as amended from time to time and is regulated pursuant to such law. The Company complies with the principles set out in the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct Revision 2022 (the "Code").

The Board of Directors of the Company (the "Board") is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Company's affairs. The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes is appropriate for adherence to the principals of the Code given the nature of its structure as an Investment Company. The Board considers that the Company has been in compliance with the principles of the Code for the year ended 31 March 2023.

This statement summarises the corporate governance structure and processes in place for the Company for the period under review from 1 April 2022 to 31 March 2023.

Board Composition

The Board currently consists of 6 non-executive Directors, (including 2 independent Directors). The Board is committed to maintaining an appropriate balance of skills, experience, independence, and knowledge amongst its members.

The Directors' biographies, on pages 13 and 14, collectively demonstrate a breadth of investment knowledge and experience, business and financial skills and legal and regulatory familiarity which enables them to provide effective strategic leadership, oversight, and proper governance of the Company. BlackRock considers the current composition to be a suitable and appropriate balance for the Board.

Article 13 of the Company's Articles of Incorporation in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected. Any Director who resigns his/her position is obliged to confirm to the Board and the CSSF that the resignation is not connected with any issues with or claims against the Company.

The Board supports a planned and progressive renewal of the Board. BlackRock is committed to ensuring that Directors put forward for election by the shareholders possess the skills needed to maintain this balance. The Board is committed to carrying out an annual review of its performance and activities.

The Directors have a continuing obligation to ensure they have sufficient time to discharge their duties. The details of each Director's (including the Chairperson), other appointments and commitments are made available to the Board and the BlackRock group for inspection.

Before a new Director is proposed to the shareholders for appointment, he or she will receive a full induction incorporating relevant information regarding the Company and his or her duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of BlackRock so that the new Director will become familiar with the various processes which are considered necessary for the proper performance of his or her duties and responsibilities to the Company.

The Company's policy is to encourage Directors to keep up to date with developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by BlackRock entities. The Directors also receive regular briefings from, amongst others, the auditors, investment strategists, risk specialists, depositary and legal advisers regarding any proposed product developments or changes in laws or regulations that could affect the Company.

Board's Responsibilities

The Board meets at least quarterly and also on an ad hoc basis as required. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The Board is responsible for the long-term success of the Company and recognises its responsibility to provide leadership, direction, and control to the Company within a framework of prudent and effective controls which enables risk to be assessed and managed. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, entering into any material contracts, any change in Board membership, any change of external auditor, the prosecution defence or settlement of litigation which is material or significant to the Company and any significant change in accounting policies or practices. The Board also approves the Prospectus and any addenda to it, circulars to shareholders, financial statements and other relevant legal documentation.

The Chairperson's main responsibility is to lead and manage the Board, encourage critical discussions and promote effective communication within the Board. In addition, they are responsible for promoting best practice corporate governance and effective communication with shareholders.

The Directors have access to the advice and services of external counsel, the resources of the BlackRock Group and BlackRock (Luxembourg) S.A. (the "Management Company") should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice. The Board has responsibility for ensuring that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and which enable it to ensure that the financial statements comply with relevant accounting standards.

Directors' Report continued

It is the Board's responsibility to present a balanced and understandable assessment of the Company's financial position, which extends to interim financial statements and other reports made available to shareholders and the public. The Board is responsible for taking reasonable steps for safeguarding the assets of the Company and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

Insurance

The Company maintains appropriate Directors' and Officers' liability insurance cover.

Delegation of Responsibilities

As an open-ended variable capital investment company most of the Company's day-to-day management and administration is delegated to BlackRock group companies such as the Management Company which employs dedicated compliance and risk professionals. The Management Company appoints the Investment Advisers and other third-party service providers. The Board has delegated the following areas of responsibility:

Management and Administration

The Board has delegated the investment management, administration, marketing & distribution of the Company and its Funds to the Management Company. The Company has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary of its assets, which has responsibility for safe-keeping of such assets, pursuant to the regulations. The Depositary is a subsidiary of State Street Bank & Trust Co.

The Management Company has delegated the management of the investment portfolio to the Investment Advisers. The Investment Advisers operate under guidelines determined by the Board and as detailed in the Company's Prospectus relating to the Company's Funds. The relevant Investment Advisers have direct responsibility for the decisions relating to the day-to-day running of the Company's Funds and are accountable to the Management Company for the investment performance of the Funds. The Board has also delegated the exercise of voting rights attaching to the securities held in the portfolio to the respective Investment Advisers who may in turn delegate to BlackRock Investment Management (U.K.) Limited ("BIM UK"). Voting on behalf of shareholders is done in a manner which is believed to be in the best economic interest of shareholders as long-term investors.

The Management Company has delegated its responsibilities for administrative services of the Company and its Funds to State Street Bank International GmbH, Luxembourg Branch ("the Administrator"). The Administrator has responsibility for the administration of the Company's affairs including the calculation of the net asset value and preparation of the financial statements of the Company, subject to the overall supervision of the Management Company. The Administrator is a subsidiary of State Street Bank & Trust Co. The Management Company has delegated transfer agent and share registration services to J.P. Morgan Bank Luxembourg S.A.

The Management Company has delegated distribution, promotion and marketing of the Shares and related ongoing administration and marketing to BIM UK as Principal Distributor. As Principal Distributor BIM UK have responsibility for the offer for sale of, promotion and marketing of shares in any fund. BIM UK is accountable to the Management Company for the distribution and marketing of the Shares.

The Management company is accountable to the Board for all activities delegated to it or by it, including, but not limited to those detailed above.

The Management Company reports to the Board on a quarterly basis and by exception where necessary. Reporting is in place to ensure that the Board can effectively oversee the actions of its delegates.

The Management Company is responsible for the risk management and internal controls of the Company and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable, and for regularly monitoring compliance with regulations governing the operation of the Company. The Management Company reviews the effectiveness of the internal control and risk management systems on an ongoing basis to identify, evaluate and manage the Company's significant risks. As part of that process, there are procedures designed to capture and evaluate any failings or weaknesses. Should a case be categorised by the Board as significant, procedures exist to ensure that necessary action is taken to remedy the failings.

The control processes over the risks identified, covering financial, operational, compliance and risk management, is embedded in the operations of the BlackRock Group and the Management Company. There is a monitoring and reporting process to review these controls, which has been in place throughout the period under review and up to the date of this report, carried out by BlackRock's corporate audit department.

BlackRock's internal audit and operational risk units report to the Board through the Management Company on a quarterly basis. The Management Company also receives a report from the Administrator and the Depositary on the internal controls of the administrative and custodial operations of the Company. The Board recognises that these control systems can only be designed to manage rather than eliminate the risk of failure to achieve fund objectives, and to provide reasonable, but not absolute, assurance against material misstatement or loss, and relies on the operating controls established by the service providers.

Financial Reporting

The Board is also responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial

Directors' Report continued

statements. These procedures include appointing the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Custodian. The financial statements are prepared in accordance with applicable law and Generally Accepted Accounting Principles ("GAAP") and are approved by the Board of Directors of the Company. The accounting information given in the annual report is required to be audited and the Audit report, including any qualifications, is reproduced in full in the annual report of the Company.

Remuneration

The Company is an investment company and has no employees or executive Directors. No Director (past or present) has any entitlement to a pension from the Company, and the Company has not awarded any share options or long-term performance incentives. No element of Directors' remuneration is performance related. Those Directors who are also employees of the BlackRock group are not entitled to receive a Director's fee. All other Directors are paid fees which are submitted for approval by the shareholders at the annual general meeting and are disclosed on page 150. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the responsibility of the Director and their time commitment. The Board believe the fees to be fair and appropriate given the size, complexity and the range of funds under management. The maximum amount of remuneration payable to the Directors is approved by the Board.

Communication with Shareholders

The Board is responsible for convening the annual general meeting and all other general meetings of the Company. Shareholders are encouraged to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Articles of Incorporation of the Company and notice of the annual general meeting is sent out at least 8 days in advance of the meeting. All substantive matters put before a general meeting are dealt with by way of separate resolution. Proxy voting figures are noted by the chairperson of the general meeting.

The next annual general meeting of Shareholders will be held on 22 September 2023 and shareholders will be asked to consider the usual matters presented at such meeting including:

- ▶ Approval of the financial statements & the payment of dividends
- ▶ The approval of Directors fees
- ▶ The election or re-election of Directors
- ▶ The election or re-election of the auditor
- ▶ The discharge of Directors duties – this resolution is required under Luxembourg law and the discharge is only valid where the financial statements contain no omission or false information concealing the real financial situation of the Company. The discharge is granted based on the facts disclosed and the information at the disposal of the shareholders at the time of the annual general meeting.

The proceedings of general meetings are governed by the Articles of Incorporation of the Company.

BIM UK as Principal Distributor is tasked with managing the relationship between the Company and its shareholders and the Board has controls in place such that it is advised of shareholder complaints.

Report on Remuneration (Unaudited)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock (Luxembourg) SA (the "ManCo"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock group authorised by the FCA as a manager of a UK UCITS fund.

The ManCo has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and (b) the ManCo's board of directors (the "ManCo's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies which includes reviewing the remuneration policy on a regular basis and being responsible for its implementation.

The implementation of the remuneration policy is annually subject to central and independent review for compliance with policies and procedures for remuneration adopted by the MDCC and by the ManCo's Board. The most recent review found no fundamental issues. The remuneration disclosure is produced and owned by MDCC and the Manager's Board.

No material changes were made to the remuneration policy in 2022.

(a) MDCC

The MDCC's purposes include:

- ▶ providing oversight of:
 - ▶ BlackRock's executive compensation programmes;
 - ▶ BlackRock's employee benefit plans; and
 - ▶ such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- ▶ reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;

- ▶ reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "BlackRock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- ▶ supporting the Boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 7 meetings during 2022. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The ManCo's Board

The ManCo's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the ManCo and its Identified Staff.

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

Report on Remuneration (Unaudited) continued

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of preincentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units and therefore staff members in control functions are remunerated independently of the businesses they oversee. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the ManCo.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- ▶ appropriately balance BlackRock's financial results between shareholders and employees;
- ▶ attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- ▶ align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- ▶ control fixed costs by ensuring that compensation expense varies with profitability;
- ▶ link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- ▶ promote sound and effective risk management across all risk categories, including sustainability risk;
- ▶ discourage excessive risk-taking (sustainability related or otherwise); and
- ▶ ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- ▶ the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- ▶ factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);

Report on Remuneration (Unaudited) continued

- ▶ the management of risk within the risk profiles appropriate for BlackRocks clients;
- ▶ strategic business needs, including intentions regarding retention;
- ▶ market intelligence;
- ▶ criticality to business; and
- ▶ supporting the firm's approaches to environmental, social and governance factors and diversity, equity and inclusion.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These

long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin⁽¹⁾ and Organic Revenue Growth⁽²⁾. Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the ManCo, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the ManCo or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- ▶ organisational changes;
- ▶ new business initiatives;
- ▶ changes in significant influence function lists;
- ▶ changes in role responsibilities; and
- ▶ revised regulatory direction.

⁽¹⁾ As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

⁽²⁾ Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

Report on Remuneration (Unaudited) continued

Quantitative Remuneration Disclosure

The ManCo is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the ManCo; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not employed by the ManCo, are assigned by their employer to carry out services for the ManCo.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the ManCo is included in the aggregate figures disclosed.

Members of staff and senior management of the ManCo typically provide both UCITS and non-UCITS related services in

respect of multiple funds, clients and functions of the ManCo and across the broader BlackRock group. Conversely, members of staff and senior management of the broader BlackRock group may provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the broader BlackRock group and of the ManCo. Therefore, the figures disclosed are a sum of individual's portion of remuneration attributable to the ManCo according to an objective apportionment methodology which acknowledges the multiple-service nature of the ManCo and the broader BlackRock group. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the ManCo's staff in respect of the ManCo's financial year ending 31 December 2022 is USD 257.2 million. This figure is comprised of fixed remuneration of USD 147.8 million and variable remuneration of USD 109.5 million. There were a total of 12,029 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the ManCo in respect of the ManCo's financial year ending 31 December 2022, to its senior management was USD 6.7 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the ManCo or its funds was USD 9.0 million. These figures relate to the entire ManCo and not to the Fund.

Notes to the Financial Statements

1. Organisation

BlackRock Global Index Funds (the “Company”) is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d’investissement à capital variable*). The Company was established on 30 August 2012 and was authorised by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as an UCITS pursuant to the provisions of Part I of the law of 17 December 2010, as amended and is regulated pursuant to such law (the “2010 Law”).

The Company has appointed BlackRock (Luxembourg) S.A. as its Management Company.

As at 31 March 2023, the Company offered shares in 10 Funds (each a “Fund”, together the “Funds”). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix II.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company’s Prospectus.

Share Classes Launched

Share Classes launched during the year are disclosed in Appendix II.

Significant events during the year

- ▶ Effective 11 April 2022, the paying agent agreement in Austria was terminated.
- ▶ Effective 13 May 2022, Davina Saint was appointed to the Board of Directors of the Company.
- ▶ Effective 13 May 2022, Ursula Marchioni resigned from the Board of Directors of the Company.
- ▶ Effective 31 July 2022, Barry O’Dwyer resigned from the Board of Directors of the Company.
- ▶ Effective 6 October 2022, Bettina Mazzocchi was appointed to Board of Directors of the Company.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

(a) Valuation of Investments, Other Assets and Other Liabilities

The Company’s investments, other assets and other liabilities are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board on the basis of their expected disposal or acquisition price;
- ▶ if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the in their absolute discretion decides. Discrepancies in value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in adjustment to the value of these securities to their fair value by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges.

Notes to the Financial Statements continued

As at 31 March 2023, the adjusted fair value applied to certain securities and/or derivatives is disclosed in the table below:

Fund	Currency	Fair value	% of Net Assets
iShares Emerging Markets Equity Index Fund (LU)	USD	71,161	0.02

- ▶ investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;
- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;
- ▶ liquid assets such as money market instruments may be valued at nominal values plus any accrued interest or at amortised cost basis which approximated their fair value;
- ▶ cash at bank, bills payable on demand and other debts are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- ▶ cash collateral provided by the Company is not included as a component of cash and cash equivalents;
- ▶ assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- ▶ liabilities which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed, are valued at their nominal value.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments, Cash Accounts and financial derivatives instruments

The Company takes credit for income from its investments on the following basis:

- ▶ interest income/expense, net of withholding tax, is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- ▶ bank interest income/expense is recognised on an accruals basis;
- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding taxes;
- ▶ securities lending income is recognised on an accruals basis;
- ▶ negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;

- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;

- ▶ the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the year end and is for information only as these bonds are bearing variable interest rates.

(d) Financial Derivative Instruments

During the year, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from these and unsettled contracts are taken to net unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

(e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Fund has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Fund have been translated at the exchange rate prevailing at the Fund's recent valuation point in Luxembourg on 31 March 2023.

The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Fund are presented in the Statement of Operations and Changes in Net Assets.

Income and expenses in currencies other than the currency of denomination of the respective Fund have been translated at the rates of exchange prevailing on the transaction date.

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies other than the base currency of the Fund at the last valuation point:

(f) Combined Financial Statements

The financial statements of each Fund are expressed in its base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the following exchange rate prevailing at the Funds' valuation point in Luxembourg as at 31 March 2023 for all Funds expressed in Euro, has been applied:

EUR	
USD	0.9180

For the translation of the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the year for all Funds expressed in Euro:

EUR	
USD	0.9602

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the year. The resulting Foreign exchange adjustment of USD (12,557,582) represents the movement in exchange rates between 1 April 2022 and 31 March 2023. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting year.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

(h) Dilution

The Board may adjust the NAV per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Board may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Board for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of the NAV. Under exceptional circumstances the Board may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net inflows than for net outflows. In addition, the Board may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Board may decide that it is not appropriate to make such an adjustment. In accordance with the Prospectus, such dilution adjustment was not applied as at 31 March 2023 to any Funds.

During the financial year from 1 April 2022 to 31 March 2023, dilution adjustments were applied to all Funds.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Notes to the Financial Statements continued

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/ (depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included within Depositary fees in the Statement of Operations and Changes in Net Assets of each Fund. Refer to Note 6 for further information.

(j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

3. Management Company

BlackRock (Luxembourg) S.A. (the "Management Company") has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

BlackRock (Luxembourg) S.A. is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management Fees

During the year, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.05% to 0.50% per annum of the NAV, with the exception of Class X shares, which do not pay management fees. The level of management fee varies according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund and are paid monthly.

The management fees attributable to each share class of each Fund are disclosed in detail in Appendix E of the Prospectus and KID of the Company. Management fees payable at 31 March 2023 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

5. Annual Service Charge

The Company pays an Annual Service Charge to the Management Company.

The level of Annual Service Charge may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and share classes issued by the Company. However, it has been agreed

between the Board and the Management Company that the Annual Service Charge currently paid shall not exceed 0.15% per annum. It is accrued daily, based on the NAV of the relevant share class and paid monthly.

The Board and the Management Company set the level of the Annual Service Charge at a rate which aims to ensure that the total expense ratio of each Fund remains competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The Annual Service Charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the depositary fees, plus any taxes thereon and any taxes at an investment or Company level.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the Annual Service Charge paid to it which is in excess of the actual expenses incurred by the Company during any year whereas any costs and expenses incurred by the Company in any year which exceed the amount of Annual Service Charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Annual Service Charge payable at 31 March 2023 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group receive a fee between EUR 30,000 to EUR 33,500 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to receive a Directors fee.

Detailed below are the fees paid to Deloitte Audit, S.à r.l. for the year ended 31 March 2023.

6. Depositary Fees

The Depositary receives a fee in respect of each Fund. These fees are to remunerate the Depositary for safekeeping and transaction costs applicable to each Fund. These fees will vary in respect of each Fund depending on the value of assets under management and the volume of trading in that Fund.

The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees. The annual depositary safekeeping fees range from 0.005% to 0.40% of the NAV per annum and the transaction fees range from USD 5 to USD 75 per transaction. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the depositary fees to each Fund will depend on its asset allocation at any time.

Depositary fees payable at 31 March 2023 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities" and "Bond interests, net of withholding taxes".

7. Taxes

Realised and unrealised Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the year ended 31 March 2023, USD 1,273,696 was charged in relation to Taxes.

Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. The Funds are exempt from the subscription tax ("*taxe d'abonnement*") because the sole objective of each Fund is to match / replicate the performance of its Benchmark Index and all share classes of the Company are listed on the Euro Multilateral Trading Facility ("MTF") (since 25 August 2017). Therefore, in accordance with the 2010 Law, which provides an exemption from "*taxe d'abonnement*" to funds and classes structured in this manner, it is expected that the share classes should be exempt from this annual subscription tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at: <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of,

and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the captions "Dividends, net of withholding taxes" and "Bond interests, net of withholding taxes".

8. Investment Advisers and Sub-Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated some management and provision of investment advice to the Investment Advisers: BlackRock Investment Management (UK) Limited ("BIM UK"), BlackRock Institutional Trust Company N.A. and BlackRock (Singapore) Limited, as described in the Prospectus. The Investment Advisers provide advice and management in the areas of stock and sector selection and strategic allocation. BlackRock Investment Management (UK) Limited has sub-delegated some of its functions to BlackRock Asset Management North Asia Limited ("BAMNA"). Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

BlackRock Institutional Trust Company N.A. does not currently provide any investment advice on existing Funds.

9. Transactions with related parties

The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA.

During the year, there have been no significant transactions which were outside the ordinary course of business or which were not on normal commercial terms.

The Company has appointed BlackRock Advisors (UK) Limited (the "Securities Lending Agent"), a related party to the Company, as securities lending agent. The Securities Lending Agent bears all operational costs directly related to securities lending transactions. The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income.

The Funds benefit from a borrower default indemnity provided by BlackRock, Inc.. The indemnity allows for full replacement of securities on loan. BlackRock, Inc. bears the cost of indemnification against borrower default.

Other reimbursements

During the financial year, the Funds received reimbursements from a BlackRock Group affiliated entity for penalties charged to the Fund by Central Securities Depositories for delays in security settlements. Such reimbursements received during the financial year by the Funds are disclosed within 'other income' in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements continued

10. Dividends

Distributions will not be made to the shareholders of the Non-Distributing Classes. The investment income and other profits will be accumulated and reinvested on behalf of these shareholders.

For the Distributing Share Classes the policy is to distribute substantially all the investment income for the year after deduction of expenses. The Board may also determine if and to what extent dividends may include distribution, from both net realised and net unrealised capital gains. Where distributing share classes pay dividends that include net realised capital gains or net unrealised capital gains, dividends may include initially subscribed capital.

The Board intends to declare dividends on the distributing share classes out of the net revenue of the relevant Fund (i.e. all interest, dividends and other income less the Fund's accrued expenses) for that financial year.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

Dividends will normally be declared with a view to being paid semi-annually (March and September).

11. Securities Lending

The table below provides the value of securities on loan and the related collateral received as at 31 March 2023:

Fund	CCY	Value of securities on loan	Value of collateral received
iShares Emerging Markets Equity Index Fund (LU)	USD	15,536,291	17,312,767
iShares Emerging Markets Government Bond Index Fund (LU)	USD	744,491,651	789,610,225

iShares World Equity Index Fund (LU)	USD	198,108,912	227,401,566

Income earned during the year by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under the caption "Securities lending". Securities on loan are respectively flagged in the Portfolio on Investments.

12. Transaction Costs

In order to achieve its investment objective, a Fund will incur transactions costs in relation to trading activity on its portfolio. Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the year ended 31 March 2023. These include commission costs, settlement fees and broker fees.

Fund	CCY	Transaction Costs
iShares Emerging Markets Equity Index Fund (LU)	USD	220,950
iShares Emerging Markets Government Bond Index Fund (LU)	USD	-
iShares Europe Equity Index Fund (LU)	EUR	112,829

iShares North America Equity Index Fund (LU)	USD	41,121
iShares Pacific ex Japan Equity Index Fund (LU)	USD	11,718
iShares World Equity Index Fund (LU)	USD	198,530

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange transactions and other derivative contracts, transaction costs are included in the purchase and sales price of the investment. While not separately identifiable, these transaction costs are captured within the performance of each Fund. Market impact costs are not separately identifiable and are therefore also not disclosed in the above table.

13. Credit Facility

The Company entered into a credit facility with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, will make a portion of a USD 1.23 billion credit facility available to the Luxembourg Funds.

This credit facility may be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this for the year ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to the same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the committed balance.

No portion of the credit facility was used during the year ended 31 March 2023.

14. Amounts due from/to broker

Due from/to broker on the Statement of Net Assets consists of margin received/paid from/to Funds' clearing brokers and various counterparties.

The TERs were calculated in accordance with the Asset Management Association Switzerland (“AMAS”) guidelines on the calculation and disclosure of the TER for collective investment schemes. The AMAS guidelines were last amended on 1 January 2022.

Certain Funds, as indicated above, invest a significant portion of their net assets in underlying target funds which do not publish a TER in accordance with the AMAS guidelines. Therefore, the prorated TER of the underlying target funds has not been included in the TER of the Funds disclosed above. This waiver provision complies with the AMAS guidelines.

16. Subsequent Events

On 5 May 2023, Arendt & Medernach SA have been appointed as the Legal Advisers of the Company.

Other than the above, there have been no subsequent events from the financial year end up to the date of the approval of the financial statements, which in the opinion of the Board may have had a material impact on the financial statements for the financial year ended 31 March 2023.

17. Approval date

The financial statements were approved by the Board on 29 June 2023.

INDEPENDENT AUDITORS' REPORT

Opinion

We have audited the financial statements of BlackRock Global Index Funds (the "Company") and of each of its sub-funds, which comprise the statement of net assets and the portfolio of investments as at 31 March 2023 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company and of each of its sub-funds as at 31 March 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier* (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the Independent Auditor for the Audit of the Financial Statements" section of our report. We are also independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the Independent Auditor thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Company for the Financial Statements

The Board of Directors of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the Independent Auditor for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the Independent Auditor that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Company.
- Conclude on the appropriateness of the Board of Directors of the Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the Independent Auditor to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the Independent Auditor. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The Funds invest a large portion of assets which are denominated in other currencies; hence changes in the relevant exchange rates will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares.

Levels and bases of taxation may change from time to time.

Subscriptions can only be made on the basis of the current Prospectus, the KID, supplemented by the most recent annual report and audited financial statements and interim report and unaudited financial statements, if published after such annual report and audited financial statements. Copies are available from the Local Investor Servicing team, the Transfer Agent, the Management Company or any of the Representatives or Distributors and at the registered office of the Company. BGIF is only available for investment by non-US citizens who are not residents of the US. The Funds are not offered for sale or sold in the US, its territories or possessions.

Appendix III – Global Market Risk Exposure (Unaudited)

The Management Company adopted the Commitment Approach as the global exposure methodology of the Funds.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund under the Commitment Approach must not exceed 100% of that Fund's NAV. As at 31 March 2023 the global exposure of each Fund did not exceed 100% of its NAV.

Efficient portfolio management techniques

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the prospectus, employ techniques and instruments relating to transferable securities provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

Securities lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository, State Street Bank International GmbH, Luxembourg Branch on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depository or the securities lending agent.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV as at 31 March 2023. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

iShares Pacific ex Japan Equity Index Fund (LU)	USD	17.20%	15.91%
iShares World Equity Index Fund (LU)	USD	12.83%	11.99%

Income earned during the year by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under the caption "Securities lending".

The total income earned from securities lending transactions is split between the relevant Fund and the securities lending agent. The Funds receive at least 62.5% while Securities Lending Agent receives up to 37.5% of such income with all operational costs borne out of the securities lending agent's share.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received analysed by counterparty, as at 31 March 2023.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

Efficient portfolio management and securities financing transactions (Unaudited) continued

The maturity tenor analysis for fixed income securities received as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.
