# BLACKROCK INDEX SELECTION FUND

## BACKGROUND

BlackRock Index Selection Fund (the “Entity”) is an open-ended unit trust established on 27 February 1996 as an umbrella fund under the laws of Ireland. The Entity was constituted by the Trust Deed dated 27 February 1996 between BlackRock Asset Management Ireland Limited (the “Manager”) and J.P. Morgan SE - Dublin Branch (the “Trustee”) and is governed by an amended and restated Trust Deed dated 4 December 2009 and any deeds supplemental thereto. The Entity is authorised as a unit trust with segregated liability between the funds pursuant to the Unit Trusts Act, 1990 (the “Act”). The Entity is authorised and supervised by the Central Bank of Ireland (“CBI”) pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Entity is constituted as an umbrella fund and comprises of separate funds (“Fund”) of the Entity. The units of each Fund may be grouped into different classes of units (each a “unit class”). Each Fund will represent a separate portfolio of assets and may consist of one or more unit classes. Each unit class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of units will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus and supplement. The assets of each Fund shall belong exclusively to that Fund, shall be segregated from the assets of other Funds, shall not be used to discharge directly or indirectly the liabilities of or claims against any other Fund and shall not be available for any such purpose.

The term “Fund” or “Financial Product” shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term “BlackRock” and “Investment Manager” are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to “redeemable units” shall be deemed to mean redeemable participating units when Fund units are classified as financial liabilities. The term “Directors” means the directors of the Manager.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity’s prospectus and supplement.

### Fund details

The Entity had 14 Funds in operation as at 31 May 2024.

### Changes to the Entity during the financial year

On 18 September 2023, Maria Ging was appointed as an executive Director of the Manager.

On 1 November 2023, the Swiss Franc (Hedged) Flexible Accumulating Class was launched for iShares Developed Real Estate Index Fund (IE) and iShares Developed World ESG Screened Index Fund (IE).

On 19 December 2023, an updated prospectus was issued for the Entity to incorporate the following changes:

- Updates to note the closure of iShares Edge EM Fundamental Weighted Index Fund (IE).
- Updates to Director of the Manager information.
- Updates to investment in financial derivative instruments (“FDIs”).
- Change in the anticipated tracking error for iShares Emerging Market Screened Equity Index Fund (IE), iShares Emerging Markets Index Fund (IE) and iShares Pacific Index Fund (IE).
- Updates to risk notes.

On 19 December 2023, an updated supplement was issued for the BlackRock Market Advantage Strategy Fund to incorporate the updates to investment in FDIs.

On 2 February 2024, the Sterling Flexible Accumulating Class was launched for iShares North America Index Fund (IE).

On 28 March 2024, the US Dollar D Accumulating Class and the Sterling D Institutional Accumulating Class was launched for iShares Developed Real Estate Index Fund (IE).

On 29 March 2024, Graham Bamping resigned as a non-executive Director of the Manager.

On 19 April 2024, a renewed credit facility was issued by JPMorgan Chase Bank and other syndicated lenders.

## INVESTMENT MANAGER'S REPORT

### Investment objective

#### **BlackRock Market Advantage Strategy Fund**

The investment objective of the Fund is to seek to provide a total return, taking into account both capital and income returns over the long-term. This objective will be effected through strategic exposure to multiple asset classes which, through diversification, is expected to generate growth with comparatively lower risk than exposure to worldwide equities alone.

#### **iShares Developed Real Estate Index Fund (IE)**

The investment objective of the Fund is to provide unitholders with a total return, taking into account both capital and income returns, which reflects the total return of the FTSE EPRA/NAREIT Developed Index, the Fund's Benchmark Index.

#### **iShares Developed World ESG Screened Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the developed world equity markets excluding companies that are involved in or generate a majority of their revenue and income from activities that may have a detrimental impact from the environmental, social and governance ("ESG") perspective.

#### **iShares Developed World Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the developed world equity markets.

#### **iShares Emerging Market Screened Equity Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the global emerging equity markets excluding companies that are involved in or generate a majority of their revenue and income from activities that may have a detrimental impact from the ESG perspective.

#### **iShares Emerging Markets Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the global emerging equity market.

#### **iShares EMU Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in the European Economic and Monetary Union (the "EMU").

#### **iShares Europe ex-UK Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in Europe apart from the UK.

#### **iShares Europe Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the European equity market.

#### **iShares Japan Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in Japan.

#### **iShares North America Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in the United States and Canada.

#### **iShares Pacific Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in the Pacific Rim, excluding Japan.

#### **iShares UK Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in the UK.

#### **iShares US Index Fund (IE)**

The investment objective of the Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in the United States.

### Investment management approach and ESG policy

The following table outlines the investment management approach adopted for each Fund. It also identifies which Funds promote environmental or social characteristics ("Article 8 Funds") or have sustainable investments as an objective ("Article 9 Funds"), under the EU Sustainable Finance Disclosure Regulation ("SFDR"). Further detail around how Article 8 and Article 9 Funds have achieved these characteristics and objectives is included in the SFDR disclosures supplementary section to the Annual Report.

## INVESTMENT MANAGER'S REPORT (continued)

### Investment management approach and ESG policy (continued)

For any other Funds that do not meet the SFDR criteria for Article 8 or 9 Funds, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator ("PAI") data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all portfolios and these risks may coincide with environmental or social themes associated with the PAIs, unless stated otherwise in the prospectus, each Fund does not commit to considering PAIs in driving the selection of its investments.

<sup>1</sup>No performance measure is calculated for this Fund.

Further information on the index investment strategies used is detailed below:

- For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.
- For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

### Performance summary, tracking difference and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index/performance measure during the financial year ended 31 May 2024. It also discloses the anticipated tracking error of the index tracking Funds (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Fund as at 31 May 2024.

# BLACKROCK INDEX SELECTION FUND

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary, tracking difference and tracking error (continued)

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary unit class for each Fund, net of fees, which has been selected as a representative unit class. The primary unit class represents the class of unit invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary unit class, unless otherwise stated. The return of the primary unit class disclosed may differ to the aggregate Fund performance for all unit classes as reported in the financial statements primarily due to the impact of foreign currency translation and unit class specific expenses. Performance returns for any other unit class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial year, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and the total expense ratio ("TER") is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- Fund returns are based on the net asset value ("NAV") calculated in accordance with the prospectus for the financial year under review with any dividends reinvested. Due to Financial Reporting Standard 102 ("FRS 102") requirements which apply to the financial statements, there may be differences between the NAV per unit as recorded in the financial statements and the NAV per unit calculated in accordance with the prospectus.
- Tracking difference measures the difference in returns between a fund and its benchmark index.
- Each Fund's TER is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking error in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period of the Fund and can be greater than the headline TER in a positive market and lower than the TER in a negative market. The TER expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs, charged to each Fund's assets as a percentage of the average Fund assets based on a twelve-month period ended 31 May 2024.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

# BLACKROCK INDEX SELECTION FUND

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary, tracking difference and tracking error (continued)

The table and the relevant footnotes also indicate the primary drivers impacting tracking difference gross of the TER, and where the realised tracking error is greater than the anticipated tracking error. Primary drivers impacting tracking difference include securities lending and investment techniques. Investment techniques include cash management, trading costs from rebalancing, currency hedging, futures held and sampling techniques. Net income difference and tax may also impact tracking difference and tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking difference/tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

<sup>2</sup>Comprising of cash management, trading costs, currency hedging, futures held and sampling techniques.

<sup>a</sup>The tracking difference was also driven by the compounding impact of the daily accrued TER on the Fund's assets under management.

<sup>b</sup>The tracking difference was also driven by capital gains tax.

<sup>c</sup>The realised tracking error was driven by pricing differences between the benchmark index and the Fund as a result of timing differences related to the fair valuation of Russian securities.

<sup>d</sup>The realised tracking error was driven by a combination of the differing tax rates applied to dividends received in the Fund versus the tax rates assumed in the total return calculation of the index alongside the receipt of historical reclaims.

<sup>e</sup>The realised tracking error was driven by a difference in performance between the benchmark index and index futures held for efficient portfolio management. Structural differences in tax rates applied to dividends received in the Fund versus the tax rates assumed in the total return calculation of the benchmark index was another contributing factor.

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview

Global equities, as represented by the MSCI All Country World Index, returned 23.56% (in USD terms) during the twelve months ended 31 May 2024. Equities gained significantly amid cooling inflation (the rate of increase in the prices of goods and services) and investor optimism about a shift in monetary policy from the world's largest central banks. However, rising geopolitical tensions, including the war in the Middle East and attacks on Red Sea shipping lanes, raised the prospect of disruptions to the global economy.

In the US, the economy was solid throughout the period, posting stronger growth than other developed economies as both consumer and public spending continued to rise. The US consumer was supported by strong wage growth and elevated asset prices, driving spending growth in excess of inflation. The US jobs market remained strong, and unemployment stayed low despite an uptick near the end of the twelve-month period. In Japan, the economy contracted sharply in the third quarter of 2023 before rebounding to zero growth in the fourth quarter, then contracting again in 2024's first quarter. Steadily declining private consumption weighed on Japanese growth, although inflation continued to decline. The UK economy contracted slightly in the last half of 2023 before rebounding to solid growth in the first quarter of 2024, as services and production output accelerated. Similarly, in the Eurozone, growth rebounded in the first quarter of 2024, helped by the strong performance of several of the Eurozone's smaller economies, including Ireland, Spain, Portugal, and the Baltic states.

Most emerging market economies continued to expand, although the high interest rate environment presented significant economic challenges. The Chinese economy continued to grow amid significant government stimulus, although investors remained concerned about China's real estate sector and overcapacity in manufacturing. The Indian economy grew at a robust pace, helped by strength in manufacturing and accelerating exports. Economic growth rebounded in Brazil in the first quarter of 2024 due in part to expansion in the agricultural sector.

The world's largest central banks shifted from monetary policy tightening to a more neutral stance during the 12-month period. The US Federal Reserve ("the Fed") raised interest rates once early in the period, but indicated that further rate hikes were unlikely, although it sounded caution about the possibility of near-term interest rate cuts. The Fed also continued to reduce some of the accumulated bond holdings on its balance sheet. The Bank of England ("BoE") raised interest rates twice during the twelve-month period, then held rates steady following its August 2023 meeting. Similarly, the European Central Bank ("ECB") declined to raise interest rates at its final five meetings of the period following three prior increases, although it indicated that rate cuts were likely in the near-term. In a notable shift, the Bank of Japan raised interest rates for the first time since 2007.

Global equity performance was significantly positive during the twelve-month period, as the continuing strength of the global economy averted concerns about a possible recession despite rapidly changing economic and credit conditions. Subsiding inflation and the halting of the Fed's interest rate increases drove hopes that monetary policy would begin to loosen. Globally, bonds and equities that factor in companies' environmental, social and governance ("ESG") characteristics faced regulatory concerns and shifting investor sentiment. ESG funds experienced positive but declining inflows overall, as European investment held up despite net withdrawals from the US. Global issuance of ESG-related bonds grew modestly in 2023, while remaining below their 2021 peak.

Yields (which move inversely to prices) rose on the 10-year US Treasury, a benchmark lending rate for the global bond market. The yield curve, which measures the difference between yields at different maturity levels, remained inverted, such that shorter-maturity yields were higher than longer-maturity yields, a signal that investors were concerned about slowing economic growth. In the UK, gilt prices rose slightly overall, driven by the BoE's shift to a more accommodative monetary stance. European government bonds also gained as the ECB's policy shift drove a second-half rally. The Japanese government adjusted its yield cap for the 10-year government bonds, leading to a sharp increase in the yields for those bonds, while substantial purchases from the Bank of Japan subsequently drove fluctuating prices.

Global corporate bonds posted solid gains overall, as investors reassessed credit in light of decelerating inflation. Higher bond yields attracted investors, and continued resilience in the global economy alleviated credit concerns, particularly for high-yield bonds.

Equities in emerging markets also gained, benefiting from the relatively stable global economic environment and the respite from tighter monetary policy. As concerns about a possible recession diminished, some investors rotated back into emerging market stocks, boosting prices. Emerging market bonds posted a positive return overall as investors reacted to less restrictive monetary policy in the developed economies that drove global growth.

The commodities markets continued to stabilise, although rising geopolitical tensions raised the prospect of further disruption. Brent crude oil prices rose slightly as instability in the Middle East raised concerns even as global oil production increased, particularly in the US and Canada. Natural gas prices were nearly flat, as demand remained high. Gold prices rose significantly amid elevated inflation, a stronger US dollar, and the end of Fed interest rate increases.

In the foreign exchange markets, the US dollar's performance was mixed against other major global currencies. The US dollar gained significantly against the Japanese yen and more modestly against the Chinese yuan, while declining against sterling and the euro.

### Fund performance review and activity

#### BlackRock Market Advantage Strategy Fund

Over the financial year to 31 May 2024, the Fund's return was 11.25%.

The Fund delivered a strong positive return over the financial year. The first half of the period saw the 2023 market rally take a pause over the late summer with a coordinated selloff across asset classes. Bonds suffered in response to the unexpected loosening of the Bank of Japan yield curve control program and resilient US economic data which led to a growing realisation that interest rates may remain higher for longer. Meanwhile, equities and other risk assets fell in tandem due to those rising bond yields, weakening growth in China and mixed activity data in Europe.

### Fund performance review and activity (continued)

#### BlackRock Market Advantage Strategy Fund (continued)

However, from November onwards, there has been a widespread rally across risk assets and safe haven assets alike. The late 2023 rally which continued through into the first half of 2024 was spurred on by a number of reasons, including peak rates being reached, inflation falling more than expectations across a number of regions, resilient economic data that shows little sign of a US recession, and strong corporate earnings announcements.

During the financial year, the following were the largest contributors to and detractors from the Fund's return:

| Largest contributors |                       | Largest detractors |                       |
|----------------------|-----------------------|--------------------|-----------------------|
| Factor               | Effect on Fund return | Factor             | Effect on Fund return |
| Economic growth      | 9.18%                 | Real rates         | (2.49%)               |
| Credit               | 2.48%                 |                    |                       |
| Emerging             | 1.00%                 |                    |                       |
| Liquidity            | 0.72%                 |                    |                       |
| Inflation            | 0.37%                 |                    |                       |

The Economic growth factor was the top contributor to returns overall, with gains predominantly driven by developed large cap equity allocations. Powered on by the outperformance of US large cap tech companies, developed equities continued to benefit from developments in artificial intelligence which sent stock prices much higher. There were further gains from a further four factors over the course of the year, as markets continued to normalise from the deep drawdown in 2022.

On the other hand, the Real rates factor was the sole factor to experience losses over the same period. While central banks have stopped hiking interest rates further, investors pared back the amount of rate cuts they previously thought central banks would deliver throughout 2024 which led to a rise in bond yields (causing losses for bonds).

The following table details the significant portfolio weightings at 31 May 2024 and 31 May 2023:

| 31-May-24                      |                | 31-May-23                      |                |
|--------------------------------|----------------|--------------------------------|----------------|
| Asset class                    | Gross exposure | Asset class                    | Gross exposure |
| Core Sovereign Debt            | 19.18%         | Core Sovereign Debt            | 30.96%         |
| Investment Grade Debt          | 15.87%         | Inflation Linked Debt          | 14.37%         |
| Inflation Linked Debt          | 13.89%         | Emerging Market Sovereign Debt | 11.97%         |
| Emerging Market Sovereign Debt | 13.57%         | Commodities                    | 9.61%          |
| Developed Equities             | 12.95%         | Developed Equities             | 9.11%          |

Over the course of the reporting period, the regime-driven insights steadily favoured the Credit factor which led to an increase in corporate bonds within the strategy, through both investment grade and high yield credit exposures. The other significant regime driven tilt was towards developed equities and away from emerging market and small cap equities.

## INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF BLACKROCK INDEX SELECTION FUND

### Report on the audit of the financial statements

#### Opinion on the financial statements of BlackRock Index Selection Fund (the 'Fund')

In our opinion the Fund's financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Fund as at 31 May 2024 and of the result for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework, the applicable Regulations and the provisions of the Trust Deed.

The financial statements we have audited comprise:

- the Income Statement;
- the Statement of Changes in Net Assets attributable to Redeemable Participating Unitholders;
- the Balance Sheet;
- the Statement of Cash Flows; and
- the related notes 1 to 19, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' issued by the Financial Reporting Council ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the Unit Trusts Act, 1990 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "*Auditor's responsibilities for the audit of the financial statements*" section of our report.

We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Manager with respect to going concern are described in the relevant sections of this report.

## INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF BLACKROCK INDEX SELECTION FUND

### **Other information**

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the financial statements and our auditor's report thereon. The Manager is responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

### **Responsibilities of the Manager for the financial statements**

The Manager is responsible for the preparation and fair presentation of the financial statements in accordance with the relevant financial reporting framework, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements>. This description forms part of our auditor's report.

### **Report on other legal and regulatory requirements**

#### **Opinion on other matters prescribed by the applicable Regulations**

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Fund were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

## NOTES TO THE FINANCIAL STATEMENTS

### 1. General information

The Entity is an open-ended unit trust domiciled and incorporated under the laws of Ireland as a unit trust. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations.

### 2. Significant accounting policies

#### 2.1 Basis of preparation

The financial statements are prepared in accordance with Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council.

The financial statements are prepared on a going concern basis under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. On 6 October 2022, the Directors made the decision to close the iShares Edge EM Fundamental Weighted Index Fund (IE) with effect from 6 December 2022. Therefore, the financial statements of the iShares Edge EM Fundamental Weighted Index Fund (IE) Fund have been prepared on a non-going concern basis. For the Fund prepared on a non-going concern basis, assets are recorded at recoverable amounts and liabilities are recorded at contractual settlement amounts, in addition liquidation costs are included. The Fund is included in this Annual Report and Audited Financial Statements for the financial year ended 31 May 2024. However, certain notes to the financial statements do not include the Fund as they are not relevant to the Fund for the full financial year ended 31 May 2024.

The Entity has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a statement of cash flows. As the investments held by iShares Edge EM Fundamental Weighted Index Fund (IE) were illiquid as at the year-end, a statement of cash flows has been presented in the financial statements.

The format and certain wordings of the financial statements have been adapted from those contained in Section 3 of FRS 102, so that, in the opinion of the Directors, they more appropriately reflect the nature of the Entity's business as an investment fund.

The principal accounting policies and notes are set out below, all of which are applied for the financial year ended 31 May 2024.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

#### 2.2 Financial instruments

The Entity has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102 as they relate to financial instruments.

##### 2.2.1 Classification

The Entity classifies its investments in debt instruments, equity instruments, liquidity instruments and derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors at fair value through profit or loss at inception. All the derivative investments are held for trading purposes. All other financial assets and financial liabilities including cash, cash equivalents, receivables and payables are classified at amortised cost using the effective interest method.

##### 2.2.2 Recognition and derecognition

The Entity recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognised on the day the trade takes place.

Realised gains and losses on disposals of financial instruments are calculated using the weighted average cost method. For instruments held long, they represent the difference between the initial carrying amount and disposal amount. For instruments held short, they represent the difference between the proceeds received and the opening value. For derivative contracts, they represent the cash payments or receipts made on derivative contracts (excluding those on collateral or margin accounts for such instruments).

Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the risks and rewards of ownership have all been substantially transferred. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

##### 2.2.3 Measurement

All financial instruments are initially recognised at fair value.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value. Transaction costs on purchases or sales of investments and gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented in the income statement within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Financial assets and financial liabilities, other than those classified as at fair value through profit or loss, are subsequently measured at amortised cost.

### 2. Significant accounting policies (continued)

#### 2.2 Financial instruments (continued)

##### 2.2.4 Fair value estimation

Fair value is the amount for which an asset could be exchanged, a liability settled or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. The estimation of fair value, after initial recognition, is determined as follows:

- Investments in debt instruments, equity instruments and exchange traded derivatives contracts which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the Entity's prospectus. Depending on the nature of the underlying investment, the value taken could be either at the closing price, closing mid-market price or bid price on the relevant market.
- Investments in exchange traded funds ("ETFs") which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices except where the Fund typically trades the units held at the latest NAV for that ETF. In such cases, the investment in the ETF is valued based on the latest NAV of the respective ETF.
- Investments in centrally cleared and over-the-counter ("OTC") derivatives and investee collective investment schemes ("CIS"), are valued using valuation techniques.
- Investments in liquidity instruments are valued at amortised cost, this method is deemed equivalent to the fair value, given the short-term nature of such investments.

In the case of an investment which is not quoted, listed or dealt on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Directors in consultation with the Investment Manager and approved for the purpose by the Trustee), and such fair value shall be determined using valuation techniques. The Entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives include those detailed in the fair value hierarchy note, and those used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

##### 2.2.5 Financial derivative and other specific instruments

###### 2.2.5.1 Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price.

Initial margin deposits are made to relevant brokers upon entering into futures contracts and are included in margin cash.

###### 2.2.5.2 Forward currency contracts

A forward currency contract is an agreement, in the OTC market, between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price.

###### 2.2.5.3 Swaps

A swap is an individually negotiated agreement, in the OTC market, between two parties to swap one stream of payments for another. They may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps").

Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash of an amount that varies depending on the size and risk profile of the underlying swap contract.

###### 2.2.5.4 Swaptions

Swaptions are financial instruments that grant or buy the right to enter into a previously agreed upon swap agreement at any time before the expiration of the option.

##### 2.2.6 Cash and cash equivalents

Cash in the balance sheet includes cash deposits held on call with banks. Cash equivalents include short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

Bank overdrafts are classified as liabilities in the balance sheet.

##### 2.2.7 Collateral and margin cash

Cash collateral provided by the Fund is identified as an asset on the balance sheet as 'Cash collateral' and is not included as a component of cash and cash equivalents. For collateral other than cash provided by the Fund, if the party to whom the collateral is provided has the right by contract to sell or re-pledge the collateral, the Fund classifies that asset on its balance sheet separately from other assets and identifies the asset as a pledged investment. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are identified on the balance sheet as 'Margin cash'.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.2 Financial instruments (continued)

##### 2.2.7 Collateral and margin cash (continued)

Cash collateral provided to the Fund by counterparties is identified on the balance sheet as 'Cash collateral payable'. The Fund may reinvest this cash collateral and the assets purchased are included as 'Cash equivalents' on the balance sheet.

##### 2.2.8 Redeemable units

Each Fund classifies redeemable units issued as financial liabilities or equity in accordance with the substance of the contractual terms of the instruments. Redeemable units are measured at the present value of redemption amounts.

The redeemable units are redeemable at the option of the holders and do not meet the conditions set out in Section 22.4 of FRS 102, to be classified as equity and as a result are classified as financial liabilities.

The redeemable units are accounted for on the day the trade transaction takes place. Subscriptions and redemptions of redeemable units are accounted for on the day the trade transaction takes place. Units are subscribed and redeemed based upon the NAV per unit as of the latest valuation point.

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of the issue of redeemable units or the redemption of redeemable units in the statement of changes in net assets attributable to redeemable unitholders. Any potential duties and charges are at the discretion of the Directors.

#### 2.3 Foreign currency

##### 2.3.1 Functional and presentation currency

Foreign currency items included in each Fund's financial statements are measured in each Fund's functional currency which is shown for each Fund in the headings of the financial statements.

The Directors consider that these currencies most accurately represent the economic effects of the underlying transactions, events and conditions of each Fund. Each Fund presentation currency is the same as the functional currency.

##### 2.3.2 Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the reporting date.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in the income statement.

#### 2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the Entity's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Entity's financial statements, therefore, present the Entity's financial position and its results fairly. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below.

##### 2.4.1 Assumptions and estimation uncertainties

###### 2.4.1.1 Fair value of OTC derivative financial instruments

OTC FDIs are valued using valuation techniques, as detailed in the fair value hierarchy note to the financial statements. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

###### 2.4.1.2 Fair value of financial instruments not quoted in an active market

The fair value of such instruments not quoted in an active market may be determined by the Fund using reputable pricing sources or indicative prices from bond/debt market makers. The Fund would exercise judgement and estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

###### 2.4.1.3 Fair value of financial instruments with significant unobservable inputs

The fair value of such instruments is determined using valuation techniques including inputs not based on market data and where significant entity determined adjustments or assumptions are applied, as detailed in the fair value hierarchy note to the financial statements.

Details of the valuation technique and the unobservable inputs used in the valuation of equities are set out in the fair value hierarchy note to the financial statements.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.4 Critical accounting estimates and judgements (continued)

##### 2.4.2 Judgements

##### 2.4.2.1 Assessment as investment entities

The Directors are of the opinion that the Entity meets the definition of an investment entity. The following conditions exist:

- a. the Entity has obtained funds for the purpose of providing investors with investment management services; and
- b. the investments held by the Entity are measured and evaluated on a fair value basis and information about those investments are provided to unitholders on a fair value basis through the Entity.

#### 2.5 Dividend income

Dividend income is recognised in the income statement when the Fund's right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the unitholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the income statement. CIS income is recognised when the distributions are declared by the underlying CIS. ETF income is recognised on the ex-dividend date.

#### 2.6 Interest income and interest expense

Interest income and interest expense for all interest-bearing financial instruments are recognised in the income statement using the effective interest method.

#### 2.7 Securities lending income

Securities lending income is earned from lending securities owned by the Fund to third party borrowers. All securities lending income net of the Securities Lending Agent's fee is recognised in the income statement on an accruals method basis.

#### 2.8 Fees and expenses

Expenses are recognised in the income statement on an accruals basis except for transaction costs relating to the acquisition and realisation of investments which are charged for as incurred and presented within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Expenses directly attributable to a specific class of units are borne directly by such class solely.

#### 2.9 Distributions

Distributions are recognised in the income statement as finance costs where units in the Fund do not meet the conditions to be classified as equity and as a result are classified as financial liabilities.

The Directors may declare distributions on the units of the class in respect of each financial period. Distributions may be paid out of the Fund's net income.

The Directors have implemented income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of units during the financial year. As part of the distribution payment, the average amount of this equalisation is adjusted for unitholders who subscribed to or redeemed from the Fund during the year. The equalisation element of the distribution is treated as a repayment of capital.

Distributions will not be made to the unitholders of the accumulating unit classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these unitholders.

#### 2.10 Taxation

##### 2.10.1 Current tax

Current tax is recognised for the amount of income tax payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

##### 2.10.2 Deferred tax

A provision for deferred tax payable is recognised in respect of material timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Timing differences are differences between the Fund's overseas taxable profits and its results as stated in the financial statements that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

### 3. Financial risks

Each Fund's investment activities expose them to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Fund.

# BLACKROCK INDEX SELECTION FUND

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.1 Risk management framework

The Directors have delegated certain duties to the Manager with regard to the day-to-day management of the Entity. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. Investment Committee of the Manager reviews annual investment performance reports and receives quarterly presentations including any material developments on the Entity's performance and risk profile during the financial year. The Investment Manager is also responsible for ensuring that the Entity is managed within the terms of its investment guidelines and limits set out in the prospectus. The Manager is responsible for the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Entity. The Manager has appointed a risk manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors Investment risk including climate related risk. The RQA Group tracks the actual risk management practices being deployed by the Fund. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place by the Fund. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

#### 3.2 Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by currency, interest rate and price movements. It represents the potential loss each Fund may suffer through holding market positions in the face of market movements.

Each Fund is exposed to market risk by virtue of their investment in equity instruments and derivatives.

A key metric used by the RQA Group to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period each Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk. The one-day VaR has a multi-year year look back period which encompasses market volatility caused by political, social and economic events which feed into the model. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, or other events, may adversely affect the Fund's VaR.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that each Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaR based on 99% confidence level is outlined in the table below:

| Fund Name   | 2024<br>% | 2023<br>% |

#### 3.2.1 Market risk arising from foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

#### Exposure to foreign currency risk

Each Fund may invest in financial instruments denominated in currencies other than its functional currency. Consequently, each Fund is exposed, directly and/or indirectly, to risks that the exchange rate of its functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Fund's assets which are denominated in currencies other than its own currency.

The details of the open forward currency contracts in place to hedge foreign currency risk at the financial year end date are disclosed in the schedules of investments.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.2 Market risk (continued)

##### 3.2.1 Market risk arising from foreign currency risk (continued)

In addition, each Fund issued unit classes denominated in currencies other than the functional currency of each Fund.

##### Management of foreign currency risk

Each Fund may engage in foreign currency hedging to minimise the effect of currency movements between the currencies of the investments held by the Fund and the Fund's functional currency and the Fund's currency hedged unit classes.

The Investment Manager monitors foreign currency risk exposure against pre-determined tolerances and determines when a currency hedge should be reset and the gain or loss arising from such hedge reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency hedge.

##### 3.2.2 Market risk arising from interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

##### Exposure to interest rate risk

Each Fund is exposed to interest rate risk through its cash and cash equivalent holdings including margin cash held with brokers, use of credit facilities, and through its investments in interest bearing financial instruments which are disclosed in the schedules of investments.

Each Fund also has indirect exposure to interest rate risk through its investments into CIS, ETF and interest rate FDIs, whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

##### Management of interest rate risk

Interest rate risk exposure is managed by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

Cash and cash collateral is invested into money market funds to generate a return to help protect the Fund against unfavourable movements in interest rates.

##### 3.2.3 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, such as the COVID-19 pandemic, recessions, climate change or other events could have a significant impact on each Fund and market prices of its investments.

##### Management of price risk

By diversifying the portfolio, where this is appropriate and consistent with the Fund's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of the Fund is minimised.

There is a risk that the valuation of the Fund may not fairly reflect the value of the investments held at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for the Fund. To mitigate this risk the Directors may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be determined.

The price risk inherent in the CIS holdings is monitored by the Investment Manager by understanding the investment objectives of the underlying funds as well as their internal control policies and regular risk and performance reporting. The investments into other CIS include investments into related party funds. Such CIS are subject to the same control procedures the Investment Manager employs for the Fund.

### 3.3 Liquidity risk

Liquidity risk is the risk that each Fund will encounter difficulties in meeting obligations associated with financial liabilities.

##### Exposure to liquidity risk

Each Fund's principal liquidity risks arise from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Fund has invested in.

Each Fund's unitholders may redeem their units on the close of any daily dealing deadline for cash equal to a proportionate share of each Fund's NAV, excluding any duties and charges where applicable. Each Fund is therefore potentially exposed to the liquidity risk of meeting the unitholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Fund may invest in CIS which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Fund. Each Fund is also exposed to liquidity risk associated with daily margin calls on FDIs.

All of the Fund's financial liabilities, based on contractual maturities, fall due within three months. The expected settlement dates can be more than three months based on the analysis of the remaining period at the reporting date to the maturity date and are outlined in the schedules of investments.

### 3. Financial risks (continued)

#### 3.3 Liquidity risk (continued)

##### Exposure to liquidity risk (continued)

##### Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including trading volume and increased price volatility. As a result, each Fund may experience difficulties in disposing of assets to satisfy liquidity demands.

Each Fund's liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of units in a Fund exceed more than 10% of the NAV of each Fund on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess numbers of units in issue from each Fund. The units which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter.

None of the assets of the Fund are subject to special liquidity arrangements.

The Manager may temporarily suspend the determination of the NAV of any Fund and the issue and redemption of units of any Fund:

- (i) during the whole or any part of any period when any of the principal markets or stock exchanges on which any significant portion of the Investments of the relevant Fund from time to time are quoted, listed, traded or dealt in is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- (ii) during the whole or any part of any period when, as a result of political, economic, military or monetary events or any other circumstances outside the control, responsibility and power of the Manager, any disposal or valuation of Investments of the relevant Fund is not, in the opinion of the Manager, reasonably practicable without this being seriously detrimental to the interests of owners of units in general or the owners of units of the relevant Fund or if, in the opinion of the Manager, the Redemption Price cannot fairly be calculated or any such disposal would be materially prejudicial to the owners of units in general or the owner of units of the relevant Fund;
- (iii) during the whole or part of any period during which any breakdown occurs in the means of communication normally employed in determining the price of any of the Investments of the Fund or when for any other reason the value of any of the Investments or other assets of the relevant Fund cannot reasonably or fairly be ascertained;
- (iv) during the whole or any part of any period when the Manager is unable to repatriate funds required for the purpose of making redemption payments or when such payments cannot, in the opinion of the Manager, be effected at normal prices or normal rates of exchange or during which there are difficulties or it is envisaged that there will be difficulties, in the transfer of monies or assets required for subscriptions, redemptions or trading; or
- (v) during any period following service of a notice of a meeting of the unitholders at which a resolution is to be proposed to wind up the Fund or a resolution has been passed for the winding up of the Fund. The Manager may also postpone the payment of a redemption payment (or portion thereof) in circumstances where Investments of the relevant Fund cannot be liquidated in a timely fashion to meet redemption requirements without having a significant adverse effect on the relevant Fund, but only to the extent that the Fund has not received funds in respect of the liquidation of Investments. Any such postponement will terminate at the latest thirty days following the date of declaration of the postponement.

#### 3.4 Counterparty credit risk

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

##### Exposure to counterparty credit risk

Each Fund is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund. The carrying value of financial assets together with cash held with counterparties best represents each Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of any International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement, and netting, which would reduce the overall counterparty credit risk exposure. Each Fund only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. Cash held as security by the counterparty to FDI contracts is subject to the credit risk of the counterparty.

All transactions in listed securities are settled/paid for upon delivery of securities, using approved brokers. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

##### Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.4 Counterparty credit risk (continued)

The BlackRock RQA Counterparty Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

There were no past due or impaired balances in relation to transactions with counterparties as at 31 May 2024 or 31 May 2023.

##### 3.4.1 FDIs

Each Fund's holdings in exchange traded, centrally cleared and OTC FDIs expose the Fund to counterparty credit risk.

##### 3.4.1.1 Exchange traded and centrally cleared FDIs

The exposure is limited by trading contracts through a clearing house. Each Fund's exposure to credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded contracts and centrally cleared swaps (variation margin). Each Fund's exposure to credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism.

A party to a cleared FDI transaction is subject to the credit risk of the clearing house through which it holds its cleared position, rather than the credit risk of its original counterparty to the FDI transaction. All funds received by a clearing broker are generally held in a clearing brokers' customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro-rata basis across all the clearing broker's customers, potentially resulting in losses to each Fund.

##### 3.4.1.2 OTC FDIs

The risk in relation to OTC FDIs arises from the failure of the counterparty to perform according to the terms of the contract as these FDI transactions are traded bilaterally and not through a central clearing counterparty.

All OTC FDI transactions are entered into by each Fund under an ISDA Master Agreement or similar agreement. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs OTC FDI transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore, any collateral disclosures provided are in respect of all OTC FDI transactions entered into by each Fund under the ISDA Master Agreement. All cash collateral received/posted by the Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, each Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment. When each Fund return securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to each Fund. Trading in OTC FDIs which have not been collateralised give rise to counterparty exposure.

Each Fund's maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency contract and any net unrealised gains as disclosed in the relevant Fund's schedule of investments.

Forward currency contracts do not require variation margins and the counterparty credit risk is monitored through the BlackRock RQA Counterparty Risk Team who monitor the creditworthiness of the counterparty.

Securities pledged as collateral have been annotated on the schedules of investments and separately disclosed on the balance sheets. Collateral received in the form of securities is not reflected on the balance sheets but is reflected in the notes to the financial statements.

Each Fund has the right to reinvest cash collateral received. Cash collateral pledged by each Fund is separately identified on the balance sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by each Fund is reflected on the balance sheets as cash collateral payable. Each Fund is also exposed to counterparty risk of rehypothecation of pledged collateral. The fair value of inbound cash collateral and cash collateral pledged is reflected on the balance sheets of each Fund. The fair value of inbound securities collateral and securities collateral pledged is reflected in the table below:

|  | Currency | Pledged Collateral |              | Inbound Collateral |              |

For total return swaps held by BlackRock Market Advantage Strategy Fund, the risk is further mitigated as cash movements take place on a monthly basis with the gain or loss being realised in the Fund.

##### 3.4.2 Trustee

The majority of the investments are held by the Trustee at the financial year end. Investments are segregated from the assets of the Trustee, with ownership rights remaining with each Fund. Bankruptcy or insolvency of the Trustee may cause the Funds' rights with respect to its investments held by the Trustee to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedules of investments, plus any unsettled trades.

Substantially all of the cash of each Fund is held with the Trustee's affiliate, JPMorgan Chase Bank NA (London branch) in its account together with its own cash balances and with those cash balances that are held on behalf of other clients.

In respect of the cash held by the Trustee's affiliate it appoints, each Fund will be exposed to counterparty credit risk of the Trustee's affiliate. In the event of the insolvency or bankruptcy of the Trustee's affiliate, each Fund will be treated as a general creditor of the Trustee's affiliate.

To mitigate each Fund's exposure to the Trustee, the Investment Manager employs specific procedures to ensure that the Trustee is a reputable institution and that the counterparty credit risk is acceptable to each Fund. Each Fund only transacts with Trustee's that are regulated entities subject to prudential supervision, or with "high credit ratings" assigned by international credit rating agencies.

The long-term credit rating of the parent company of the Trustee as at 31 May 2024 is A+ (31 May 2023: A+) (Standard & Poor's rating).

In order to further mitigate each Fund's counterparty credit risk exposure to the Trustee's affiliate, each Fund may enter into additional arrangements such as placing of residual cash in a money market fund.

##### 3.4.3 Securities lending

Each Fund's engagement in securities lending activities expose the Fund to counterparty credit risk. The maximum exposure of each Fund is equal to the value of the securities loaned.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.4 Counterparty credit risk (continued)

##### 3.4.3 Securities lending (continued)

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Trustee on behalf of the Fund. Collateral received is segregated from the assets belonging to the Fund's Trustee or the securities lending agent.

The collateral is registered and held in the name of Trustee on behalf of the Fund in any or all of the following central securities depositories; J.P. Morgan Chase, Euroclear or Bank of New York Mellon, depending on the type of collateral the counterparty has to give in order to cover the required value of exposure. The collateral provided by these counterparties consists of shares admitted to dealing on a regulated market.

The Fund outlined below engaged in securities lending activities during the financial year. The value of securities on loan and collateral held at the financial year end are shown below:

| Fund name   | Currency | Value of securities on loan | Value of collateral received | Value of securities on loan | Value of collateral received |

To mitigate this risk, each Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary.

As at 31 May 2024 and 31 May 2023, all collateral received consists of securities admitted to or dealt on a regulated market.

Each Fund also benefits from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

##### 3.4.4 Issuer credit risk relating to debt instruments

Issuer credit risk is the default risk of one of the issuers of any debt instruments held by each Fund. Debt instruments involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign debt and corporate debt which expose them to the default risk of the issuer with regards to interest or principal payments.

The following tables detail the credit rating profile of the debt instruments held by each Fund:

### 3. Financial risks (continued)

#### 3.4 Counterparty credit risk (continued)

##### 3.4.4 Issuer credit risk relating to debt instruments (continued)

To manage this risk, the Investment Manager, where appropriate and consistent with each Fund's objectives, invests in a wide range of debt instruments. The ratings of debt instruments are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for non-rated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to each Fund.

### 4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and/or level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a unit of participation in an investee collective investment scheme ("CIS") and investments in exchange traded funds ("ETFs") where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such units of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a unit of participation. The unaudited NAV of the underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference asset or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable;
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (ix) for SPAC PIPE commitments, the use of underlying quoted market prices and application of discounts for lack of marketability, volatility and deal probabilities;
- (x) for foreign currency options, option pricing models; and
- (xi) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 6. Operating expenses (continued)

#### Management fees (inclusive of investment management fees):

The Manager is entitled to charge a fee (the "Management Fee") calculated as a percentage per annum of the NAV of the relevant unit class as set out in the "Table of Fees and Expenses". The expenses of the Manager shall be included in this Management Fee. Different percentages may be charged to different unit classes of the same Fund and in this respect the Management Fees payable in respect of a particular unit class may be higher or lower than the fees charged to other unit classes. The fees payable to the Manager and Investment Manager are accrued on a daily basis and payable monthly in arrears.

#### Credit administration fees

JPMorgan, as administrative agent to the credit agreement, together with other syndicated lenders, made a portion of the USD 450,000,000 credit facility available to the Funds. A loan commitment fee is charged at the rate of 0.10% per annum, payable by all the Funds, on the daily outstanding balance. The fee is payable quarterly in arrears. There was no credit administration fee charged during the financial year. Further details on the credit facility agreement, are set out in note 16.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 10. Taxation (continued)

#### Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a 'chargeable event'. A chargeable event includes any distribution payments to unitholders or any encashment, redemption, cancellation or transfer of units and the holding of units at the end of each eight year period beginning with the acquisition of such units.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident unitholders who have provided the Entity with the necessary signed annual declarations.

#### Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable by the Entity or its unitholders.

For financial reporting purposes, and in accordance with FRS 102, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Organisation for Economic Co-operation and Development ("OECD") recently issued model rules for a new global minimum tax framework ("Pillar Two") which is effective for accounting periods beginning on or after 31 December 2023. As a result determining whether the Entity is in the scope of Pillar Two as well as the potential exposure, if any, to Pillar Two income taxes is currently not known or reasonably estimable.

| Catherine Woods  | No                              | No   |

The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

The Entity reimburses the Manager for the portion of fees paid to the Directors on its behalf.

#### Holdings in other funds managed by BlackRock/BlackRock affiliates

Investments in funds managed by BlackRock, Inc. and investments that are BlackRock affiliates are listed below and marked on the relevant Funds' schedule of investments. For underlying funds which are subject to investment management or performance fees, these have been rebated back to the Fund.

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

| Investments   | Fee paid by Fund                                   |

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 15. Related party transactions (continued)

#### Securities lending

All revenue generated from securities lending activities during the financial year net of the securities lending agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated, the securities lending agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the securities lending agent, the securities lending agent will discharge any excess amounts out of its own assets.

No provisions have been recognised by the Funds against amounts due from related parties at the financial year end date (31 May 2023: Nil).

No amounts have been written off during the financial year in respect of amounts due to or from related parties (31 May 2023: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial year (31 May 2023: Nil).

### 16. Credit facility

The Fund entered into a credit facility with JPMorgan whereby JPMorgan, together with other syndicated lenders, made a portion of a USD 450,000,000 credit facility available to the Fund. The portion of the USD 450,000,000 credit facility will be allocated to the Fund based on the credit facility agreement dated 19 April 2024. This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the Fund. Any new Fund will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Fund. During this year, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Fund will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Fund and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged on a daily basis in relation to this credit facility which is included in the income statement under caption "Credit administration fee". The loan commitment fee is charged at 0.10% on the outstanding balance.

The credit facility was not utilised during the financial year (31 March 2023: Nil).

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

### TRANSACTIONS WITH CONNECTED PERSONS (UNAUDITED)

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between the Fund and the Manager or Trustee to a Fund, the delegates or sub-delegates of the Manager or Trustee (excluding any non-group company sub-custodians appointed by a Trustee) and any associated or group company of the Manager, Trustee, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the unitholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial year complied with this obligation.

### TRANSACTION COSTS (UNAUDITED)

Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the financial year ended 31 May 2024. These include all brokers' commission, settlement fees, stamp duties and broker fees charges on equities, exchange traded futures contracts and certain debt instruments.

### SOFT COMMISSIONS (UNAUDITED)

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Fund during the financial year ended 31 May 2024.

### GLOBAL EXPOSURE (UNAUDITED)

The Directors are required by regulation to employ a risk management process, which enables it to monitor accurately and manage the global exposure from FDIs which each Fund gains as a result of its strategy ("global exposure").

The Directors uses one of two methodologies, the "commitment approach" or the "value-at-risk approach" ("VaR"), in order to measure the global exposure of each Fund and manage the potential loss to them due to market risk.

#### Commitment approach

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of each Fund to FDI.

Pursuant to the relevant regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

#### VaR approach

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

# BLACKROCK INDEX SELECTION FUND

## GLOBAL EXPOSURE (UNAUDITED) (continued)

### VaR approach (continued)

Please refer to the financial risks note to the financial statements for further details on the measure of VaR.

The Directors use Absolute VaR as set out below. For Absolute VaR, the monthly VaR will not exceed 20% of the Fund's NAV. Where a VaR calculation is performed using a horizon other than the one-month regulatory limit, this 20% limit shall be rescaled to reflect the appropriate risk horizon period as directed by the relevant regulatory guidelines. Utilisation refers to the level of risk taken in this context.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective Absolute VaR regulatory limit.

| <b>Fund</b>                              | <b>Global exposure approach</b> | <b>Reference portfolio</b> | <b>Highest utilisation of the VaR limit %</b> | <b>Lowest utilisation of the VaR limit %</b> | <b>Average utilisation of the VaR limit %</b> |
|--|---------------------------------|----------------------------|---|--|---|
| BlackRock Market Advantage Strategy Fund | Absolute VaR                    | N/A                        | 47.61   | 25.06  | 32.56   |

## LEVERAGE (UNAUDITED)

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities. Leveraged FDI positions can therefore increase a Fund's volatility.

Pursuant to its regulatory obligations, the Directors are required to express the level of leverage employed in a Fund where VaR is being used to measure global exposure. For the purposes of this disclosure, leverage is the investment exposure gained through the use of FDIs. It is calculated using the sum of the notional values of all the FDI held by the relevant Fund, without netting, and is expressed as a percentage of the NAV.

Disclosed in the table below is the level of leverage employed by each relevant Fund during the financial year ended 31 May 2024.

| <b>Fund</b>                              | <b>% Average leverage employed</b> |
|--|------------------------------------|
| BlackRock Market Advantage Strategy Fund | 264.54                             |

## REPORT ON REMUNERATION (UNAUDITED)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "ManCo"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock group authorised by the FCA as a manager of a UK UCITS fund.

The ManCo has adopted the UCITS Remuneration Policy, a summary of which is set out below.

### **Remuneration Governance**

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and (b) the ManCo's board of directors (the "ManCo's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies which includes reviewing the remuneration policy on a regular basis and being responsible for its implementation.

The implementation of the remuneration policy is annually subject to central and independent review for compliance with policies and procedures for remuneration adopted by the MDCC and by the ManCo's Board. The most recent review found no fundamental issues. The remuneration disclosure is produced and owned by the MDCC and the ManCo's Board.

No material changes were made to the remuneration policy in 2023.

#### **(a) MDCC**

The MDCC's purposes include:

- providing oversight of:
  - BlackRock's executive compensation programmes;
  - BlackRock's employee benefit plans; and
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the 'BlackRock, Inc. Board') as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 7 meetings during 2023. The MDCC charter is available on BlackRock, Inc.'s website ([www.blackrock.com](http://www.blackrock.com)).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

#### **(b) The ManCo's Board**

The ManCo's Board in its supervisory function has the task of supervising, approving and providing oversight of the UCITS Remuneration Policy as it applies to the ManCo and its Identified Staff (as defined below).

The responsibilities of the supervisory function include:

- approve, maintain and oversee the implementation of the UCITS Remuneration Policy;
- determine and oversee the remuneration of the members of the management body, provided that insofar the relevant ManCo does not have a separate supervisory function, the remuneration of the member of the management body is determined by the MDCC;
- approve any subsequent material exemptions or changes to the UCITS Remuneration Policy and carefully consider and monitor their effects;
- take into account the inputs provided by all competent corporate functions (i.e., risk management, compliance, human resources, strategic planning, etc.) in the design and oversight of the UCITS Remuneration Policy.

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

### Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, Finance, Human Resources and Internal Audit) has its own organisational structure which is independent of the business units and therefore staff members in control functions are remunerated independently of the businesses they oversee. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the ManCo.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

### Link between pay and performance

There is a clear and well-defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- promote sound and effective risk management across all risk categories, including sustainability risk;
- discourage excessive risk-taking (sustainability related or otherwise); and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Link between pay and performance (continued)

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. ManCos use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the ManCo, the funds managed by the ManCo and/or the relevant functional department;
- factors relevant to an employee individually (e.g., relevant working arrangements (including part-time status if applicable); relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence;
- criticality to business; and
- supporting the firm's approaches to environmental, social and governance factors and diversity, equity and inclusion.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin<sup>1</sup> and Organic Revenue Growth<sup>2</sup>. Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

<sup>1</sup>As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

<sup>2</sup>Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the ManCo, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the ManCo or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

BlackRock applies the proportionality principle in respect of staff identified as "Identified Staff". BlackRock bases its proportionality approach on a combination of factors that it is entitled to take into account based on relevant guidelines. The application of proportionality has been assessed based on the criteria set down in the ESMA Guidelines - i.e., criteria in terms of size, internal organisation and nature, scope and complexity of the activities; group of persons, who have only collectively a material impact on the risk profile of the ManCo; and structure of the remuneration of identified staff.

### Quantitative Remuneration Disclosure

The ManCo is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Remuneration information at an individual Fund level is not readily available. Disclosures are provided in relation to (a) the staff of the ManCo; (b) staff who are senior management; (c) staff who have the ability to materially affect the risk profile of the Fund; and (d) staff of companies to which portfolio management and risk management has been formally delegated.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the ManCo is included in the aggregate figures disclosed.

Members of staff and senior management of the ManCo typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the ManCo and across the broader BlackRock group. Conversely, members of staff and senior management of the broader BlackRock group may provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the broader BlackRock group and of the ManCo. Therefore, the figures disclosed are a sum of individual's portion of remuneration attributable to the ManCo according to an objective apportionment methodology which acknowledges the multiple-service nature of the ManCo and the broader BlackRock group. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the ManCo's staff in respect of the ManCo's financial year ending 31 December 2023 is USD 224.73 million. This figure is comprised of fixed remuneration of USD 123.02 million and variable remuneration of USD 101.71 million. There were a total of 3,870 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the ManCo in respect of the ManCo's financial year ending 31 December 2023, to its senior management was USD 15.47 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the ManCo or its funds was USD 30.31 million.

## EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

### Efficient portfolio management techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI and the prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC FDIs provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDI and the identity of the counterparties to these FDIs at the financial year end are disclosed on the relevant Fund's schedule of investments.

### Securities lending

All securities lending transactions entered into by Each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Trustee on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Trustee or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets as a proportion of the Fund's NAV, as at 31 May 2024 and the income/returns earned for the period ended 31 May 2024. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

All securities on loan have an open maturity tenor as they are callable or terminable daily.

### Total return swaps

All OTC FDIs and total return swaps (including CFDs) are entered into by the and the Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps and CFDs) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps and CFDs.

All collateral received/posted by the Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by the under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Trustee on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund's Trustee. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 31 May 2024 and the income/returns earned for the year ended 31 May 2024. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

| Fund name                                | Currency | % of NAV | Total returns earned '000 |
|--|----------|----------|---------------------------|
| BlackRock Market Advantage Strategy Fund | EUR      | 54.14    | 6,025                     |

The total returns earned from total return swaps is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from total return swaps will accrue to the Fund and are not subject to any returns or costs sharing arrangement with the Fund's Manager or any other third parties.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

### Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions, reverse repurchase transactions and OTC FDIs, can be sold, re-invested or pledged.

As at 31 May 2024, all cash collateral received in respect of OTC derivative transactions by each Fund was re-invested in money market funds managed by the Manager or its affiliates, as disclosed in the Fund's schedule of investments. Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default.

The following table summarises the returns earned by BlackRock Market Advantage Strategy Fund during the financial year ended 31 May 2024 from the re-investment in money market funds of cash collateral received in respect of OTC derivative transactions. These returns represent the accumulative total return of the representative money market fund for the twelve month period ended 31 May 2024. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

### Glossary and key definitions

The periodic report disclosures set out below are presented for the year ended 31 May 2024, the “reference period”. Comparative information is presented for the financial year ended 31 May 2023, the “previous reference period”.

All data presented for the Fund’s investments and other quantitative measures disclosed has been calculated based on an average of the value of investments traded and held for actively managed funds, at each quarter end date within the reference period for which the Fund met the criteria of an Article 8 or 9 fund. For metrics that are presented with sustainability indicators, the relevant metric calculation relates to the investments for which the underlying ESG data is available, rather than all investments held by the Fund.

All such data presented is unaudited and was not subject to an assurance provided by the Fund auditors or a review by a third party.

The term “Assets” shall be deemed to mean the total value of investments held by the Fund throughout the reference period. The total value of investments shall include net short positions (including net short positions achieved through derivatives). BlackRock has taken a proportionate approach to the calculation of taxonomy alignment of its funds, by excluding any exposures achieved through derivatives (including both long and short positions) from the calculation of the degree to which investments made by a fund is in economic activities that qualify as environmentally sustainable under the EU Taxonomy.

Investments shall include cash and cash equivalents as set out by Article 53 of the regulatory technical standards under the Delegated Regulation (EU) 2022/1288. However, FRS 102 requires cash and cash equivalents to be treated separately. Therefore, there will be a difference in presentation for the purposes of the overall annual report. Cash and cash equivalents are presented on a settlement date basis.

Sustainable Investments: BlackRock defines Sustainable Investments as investments in issuers or securities that contribute to an environmental or social objective, do not significantly harm any of those objectives and where investee companies follow good governance practices. BlackRock refers to relevant sustainability frameworks to identify the alignment of the investment to environmental or social objectives.

Do no significant harm (“DNSH”): The assessment undertaken by BlackRock to determine whether an investment does no significant harm to any environmental or social objective under SFDR. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an investment does significant harm, which considers both third party data points as well as fundamental insights. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments.

Sustainability Factors: Environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

### ISHARES DEVELOPED WORLD ESG SCREENED INDEX FUND (IE)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other Sustainable Investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria of the benchmark index at each index rebalance. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

| Adverse Sustainability Indicator   | Sustainability Indicators   |
|--|---|
| Exposure to companies active in the fossil fuel sector   | Exclusion of issuers based on certain environmental screens (listed above)            |
| Activities negatively affecting biodiversity-sensitive areas   | Exclusion of issuers based on an MSCI ESG controversy score                           |
| Emissions to water   | Exclusion of issuers based on an MSCI ESG controversy score                           |

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

### ISHARES DEVELOPED WORLD ESG SCREENED INDEX FUND (IE)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund’s investment alignment with EU Taxonomy is shown in the graphs below.

#### • Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

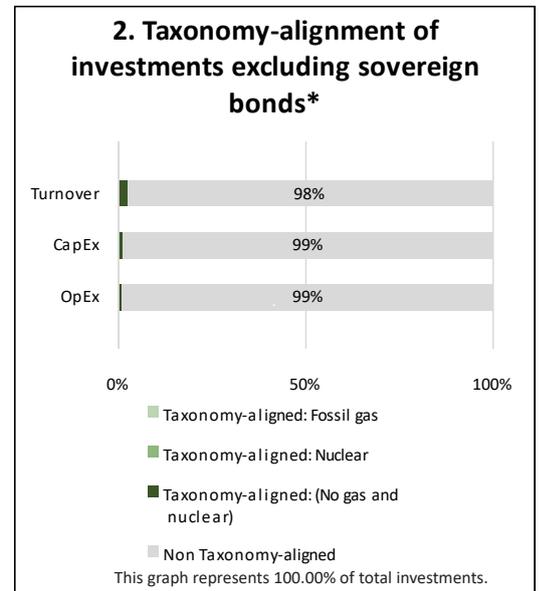

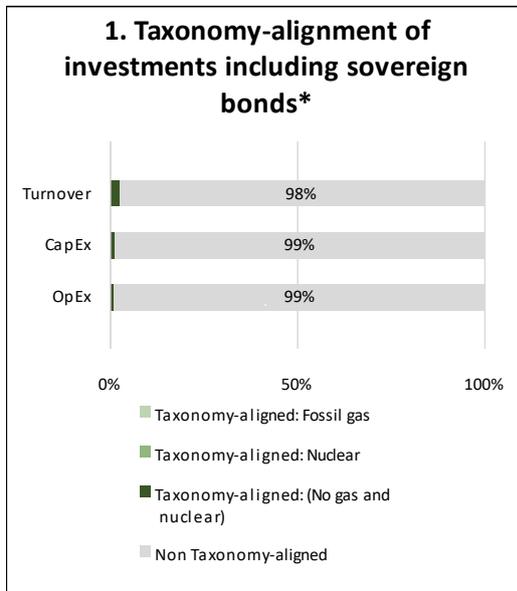

- Yes**
- In fossil gas     In nuclear energy
- No**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

For the reference period, 0.00% of the Fund’s total investments were held in sovereign exposures.

| Taxonomy Alignment (including sovereign bonds) | Turnover | Capex  | Opex   |
|--|----------|--------|--------|
| Taxonomy-aligned: Fossil Gas                   | 0.00%    | 0.00%  | 0.00%  |

### iSHARES DEVELOPED WORLD ESG SCREENED INDEX FUND (IE)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives  | % of Investments |
|---------------------------|------------------|
| Climate Change Mitigation | 2.19%            |
| Climate Change Adaptation | 0.00%            |
| <b>Total Alignment %</b>  | <b>2.19%</b>     |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

|                          | % of Investments |
|--------------------------|------------------|
| Own Performance Activity | 0.52%            |
| Transition Activity      | 0.06%            |
| Enabling Activity        | 1.62%            |
| <b>Total Alignment %</b> | <b>2.20%</b>     |

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.00% of the Fund's investments were aligned with EU Taxonomy.

\*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments\* with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

#### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**Reference benchmarks** are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI World Index Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.msci.com/index/methodology/latest/ESGScreened>.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

- **How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator  | Metric  | Fund   | Reference Benchmark |

- **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significantly harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significantly harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other Sustainable Investments must also not significantly harm any environmental or social objectives.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

### ISHARES EMERGING MARKET SCREENED EQUITY INDEX FUND (IE)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund’s investment alignment with EU Taxonomy is shown in the graphs below.

#### • Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

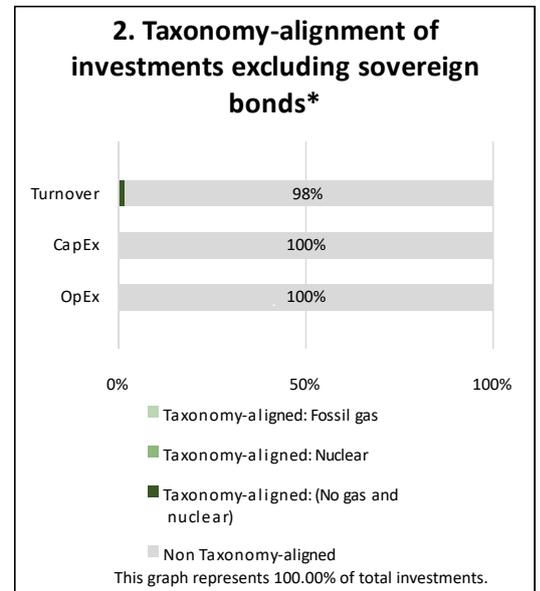

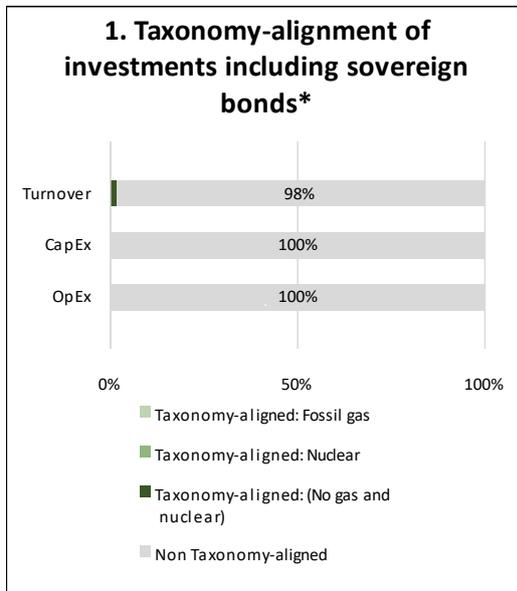

- Yes**
- In fossil gas     In nuclear energy
- No**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

For the reference period, 0.05% of the Fund’s total investments were held in sovereign exposures.

| Taxonomy Alignment (including sovereign bonds) | Turnover | Capex  | Opex   |
|--|----------|--------|--------|
| Taxonomy-aligned: Fossil Gas                   | 0.00%    | 0.00%  | 0.00%  |

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

### iSHARES EMERGING MARKET SCREENED EQUITY INDEX FUND (IE)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

| Environmental objectives  | % of Investments |
|---------------------------|------------------|
| Climate Change Mitigation | 1.51%            |
| <b>Total Alignment %</b>  | <b>1.51%</b>     |

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

- **What was the share of investments made in transitional and enabling activities?**

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

|                          | % of Investments |
|--------------------------|------------------|
| Own Performance Activity | 0.60%            |
| Transition Activity      | 0.10%            |
| Enabling Activity        | 0.82%            |
| <b>Total Alignment %</b> | <b>1.52%</b>     |

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0.00% of the Fund's investments were aligned with EU Taxonomy.

 \*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments\* with an environmental objective not aligned with the EU Taxonomy?**

 This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **What was the share of socially sustainable investments?**

 This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

 Investments included under "#2 Other" included cash, money market funds and derivatives. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

 The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

#### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**Reference benchmarks** are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI World Index Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.msci.com/index/methodology/latest/ESGScreened>.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

- **How did this financial product perform compared with the reference benchmark?**

| Sustainability Indicator  | Metric   | Fund  | Reference Benchmark |
|---|--|-------|---------------------|
| Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score  | % market value exposure to issuers with a zero MSCI controversy score or no MSCI controversy score                             | 0.00% | 0.00%               |

The Manager has no responsibility for each Website and is not involved in any way in sponsoring, endorsing or otherwise involved in the establishment or maintenance of each Website or the contents thereof. Furthermore, the Manager has no responsibility for the index provider's Benchmark Index nor for the quality, accuracy or completeness of data in respect of their Benchmark Indices nor that the published indices will be managed in line with their described index methodologies.

### S&P 500 Index

The units in the BlackRock Index Selection Fund ("Units") are not sponsored, endorsed, sold or promoted by Standard & Poor's, a division of The McGraw – Hill Companies, Inc. ("S&P"). S&P makes no representation or warranty, express or implied, to the owners of the Units or any member of the public regarding the advisability of investing in securities generally or in the Units particularly or the ability of the S&P 500 Index to track general stock market performance. S&P's only relationship to the Investment Manager is the licensing of certain trademarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to the Investment Manager or Units.

S&P has no obligation to take the needs of the Investment Manager or the investors in the Units into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in the determination of the prices and amount of the Units or the timing of the issuance or sale of the Units or in the determination or calculation of the equation by which the Units are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the Units.

S&P does not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included therein and S&P shall have no liability for any errors, omissions, or interruptions therein. S&P makes no warranty, express or implied, as to results to be obtained by the Investment Manager, investors in the Units or any other person or entity from the use of the S&P 500 Index or any data included therein. S&P makes no express or implied warranties, and expressly disclaims all warranties, of merchantability or fitness for a particular purpose or use with respect to the S&P Index or any data included therein. Without limiting any of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect, or consequential damages (including lost profits), even if notified of the possibility of such damages.

"Standard & Poor's®", "S&P®", "S&P 500®", "Standard & Poor's 500" and "500" are trademarks of The McGraw-Hill Companies, Inc. and have been licensed for use by the Investment Manager. The Units are not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the Units.

### MSCI Indices ("MSCI Indices")

The Sub-Funds that track Benchmark Indices which have "MSCI" in their names ("Funds") are not sponsored, endorsed, sold or promoted by MSCI, any of its affiliates, any of its information providers or any other third party involved in, or related to, compiling, computing or creating any MSCI Index (collectively the "MSCI Parties"). The MSCI Indexes are the exclusive property of MSCI. MSCI and the MSCI Index names are service mark(s) of MSCI or its affiliates and have been licensed for use for certain purposes by the Investment Manager. None of the MSCI parties makes any representation or warranty, express or implied, to the issuer or owners of the Funds or any other person or entity regarding the advisability of investing in the Funds generally or any of the Funds particularly or the ability of any MSCI Index to track corresponding stock market performance. MSCI or its affiliates are the licensors of certain trademarks, service marks and trade names and of the MSCI Indexes which are determined, composed and calculated by MSCI without regard to the Funds or the issuer or owners of the Funds or any other person or entity into consideration in determining, composing or calculating the MSCI Indexes. None of the MSCI parties is responsible for or has participated in the determination of the timing of, prices at, or quantities of this Funds to be issued or in the determination or calculation of the equation by or the consideration into which this Funds are redeemable. Further, none of the MSCI parties has any obligation or liability to the issuer or owners of the Funds or any other person or entity in connection with the administration, marketing or offering of this Funds.

Although MSCI shall obtain information for inclusion in or for use in the calculation of the MSCI Indexes from sources that MSCI considers reliable, none of the MSCI parties warrants or guarantees the originality, accuracy and/or the completeness of any MSCI Index or any data included therein. None of the MSCI parties make any warranty, express or implied, as to the results to be obtained by the issuer of the Funds, owners of the Funds, or any other person or entity, from the use of the MSCI Index or any data included therein. None of the MSCI parties shall have any liability for any errors, omissions or interruptions of or in connection with any MSCI Index or any data included therein. Further, none of the MSCI parties makes any express or implied warranties of any kind, and the MSCI parties hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to each MSCI Index and any data included therein. Without limiting any of the foregoing, in no event shall any of the MSCI parties have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

No purchaser, seller, owner or holder of this security, account, product or fund, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote this security, account product or fund without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.
