GENERAL INFORMATION (continued)

Entity registration number: 362108

Please note that no notification for the distribution of shares according to section 310 of the German Capital Investment Code (Kapitalanlagegesetzbuch) has been made for the following Funds: BlackRock Euro Government Bond Fund and BlackRock Tailored Market Advantage Fund. Therefore, shares of these Funds may not be distributed in the Federal Republic of Germany.

The Entity is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 1503.

BACKGROUND

BlackRock Institutional Pooled Funds plc (the "Entity") is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 1 October 2002 with limited liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

The term "Fund" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Investment Management LLC as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

Changes to the Entity during the financial year

On 4 October 2019, Teresa O'Flynn was appointed as a non-executive Director.

On 24 April 2020, a credit agreement was entered into by the Entity, on behalf of all of the Funds in operation, with JPMorgan Chase Bank, N.A ("JPMorgan"). as administrative agent for the banks providing the loans; J.P. Morgan Europe Limited as foreign administrative agent for the banks; and HSBC Bank plc as syndication agent. The proceeds of the credit facility may be used for temporary purposes including, without limitation, the funding of shareholder redemptions.

On 11 May 2020, PNC Financial Services Group, Inc. ("PNC"), announced its intent to sell its investment in BlackRock, Inc. through a registered offering and related buyback by BlackRock, Inc.

Fund details

The Entity had 6 Funds in operation as at 30 September 2020.

United Kingdom exit from European Union

On 31 January 2020, the United Kingdom (the "UK") formally withdrew and ceased being a member of the European Union (the "EU"). Following this, the UK entered into a transition period which lasted for the remainder of 2020, during which period the UK was subject to applicable EU laws and regulations. The transition period expired on 31 December 2020, and EU law no longer applies in the UK.

On 30 December 2020, the UK and the EU signed an EU-UK Trade and Cooperation Agreement ("UK/EU Trade Agreement"), which applies from 1 January 2021 and sets out the foundation of the economic and legal framework for trade between the UK and the EU. As the UK/EU Trade Agreement is a new legal framework, the implementation of the Agreement may result in uncertainty in its application and periods of volatility in both the UK and wider European markets throughout 2021 and beyond. The UK's exit from the EU is expected to result in additional trade costs and disruptions in this trading relationship. While the UK/EU Trade Agreement provides for the free trade of goods, it provides only general commitments on market access in services together with a "most favoured nation" provision which is subject to many exceptions. Furthermore, there is the possibility that either party may impose tariffs on trade in the future in the event that regulatory standards between the EU and the UK diverge. The terms of the future relationship may cause continued uncertainty in the global financial markets, and adversely affect the performance of the Funds.

Volatility resulting from this uncertainty may mean that the returns of the Funds' investments are affected by market movements, the potential decline in the value of Sterling or Euro, and the potential downgrading of sovereign credit ratings of the UK or an EU member state.

Outbreak of COVID-19

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now developed into a global pandemic. The impact of this significant event on the Funds' financial risk exposure is disclosed in Note 3.2.3.

The Directors have assessed the impact of market conditions arising from the COVID-19 outbreak on the Funds' ability to meet their investment objectives. Based on the latest available information, the Funds continue to be managed in line with their investment objectives, with no disruption to the operations of the Funds and the publication of the Net Asset Values ("NAV").

Stock exchange listings

BlackRock Euro Core Bond Fund, BlackRock Euro Government Bond Fund and BlackRock Global Enhanced Index Fund have share classes which are listed on the Euronext Dublin.

INVESTMENT MANAGER'S REPORT

Investment objective

BlackRock Euro Core Bond Fund

The investment objective of the BlackRock Euro Core Bond Fund seeks to realise total return by investing primarily in fixed and floating rate government, agency, corporate, collateralised and other debt securities (such as mortgage–backed and asset–backed securities) denominated in Euro.

BlackRock Euro Government Bond Fund

The investment objective of the BlackRock Euro Government Bond Fund is to seek to outperform the Bloomberg Barclays Euro Treasury Index by investing primarily in investment grade government, agency, supranational and corporate fixed income securities such as bills, notes (fixed-rate, floating-rate and medium term notes), gilts, bonds and inflation-protected securities.

BlackRock Europe Equity 1 Fund

The investment objective of the BlackRock Europe Equity 1 Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the European equity market.

BlackRock Global Enhanced Index Fund

The investment objective of the BlackRock Global Enhanced Index Fund is to seek to outperform a broadly diversified index based on the world equity markets.

BlackRock Japan Equity 1 Fund

The investment objective of the BlackRock Japan Equity 1 Fund is to provide a total return, taking into account both capital and income returns, which reflects the total return of the equity market in Japan.

BlackRock Tailored Market Advantage Fund

The investment objective of the BlackRock Tailored Market Advantage Fund is to provide a total return, taking into account both capital and income returns over the long term. This objective will be effected through strategic exposure to multiple asset classes which, through diversification, is expected to generate growth with comparatively lower risk than exposure to worldwide equities alone.

Fund name	Benchmark index/Performance measure	Investment management approach ¹
	FTSE Euro Broad Investment-Grade Bond Index	
BlackRock Euro Core Bond Fund ²	(EuroBIG)	Active
BlackRock Euro Government Bond Fund ²	Bloomberg Barclays Euro Treasury Index	Active
BlackRock Europe Equity 1 Fund	MSCI Europe Index	Index Tracking - replicating
BlackRock Global Enhanced Index Fund ²	MSCI World Index	Active
BlackRock Japan Equity 1 Fund	MSCI Japan Index	Index Tracking - replicating
BlackRock Tailored Market Advantage Fund ³	N/A	Active

¹For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

Performance summary, tracking difference and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index/performance measure during the financial year ended 30 September 2020. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Fund as at 30 September 2020.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial year under review with any dividends reinvested. Due to Financial Reporting Standard 102 ("FRS 102") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.
- Tracking difference measures the difference in returns between a fund and its benchmark index.

²The performance measure included in the table above is for reference only. Please refer to the prospectus for more detail.

³No performance measure is calculated for this Fund.

INVESTMENT MANAGER'S REPORT (continued)

Performance summary, tracking difference and tracking error (continued)

- Each Fund's total expense ratio ("TER") is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking error in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period of the Fund and can be greater than the headline TER in a positive market and lower than the TER in a negative market. The TER expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs and performance fees charged to each Fund's assets as a percentage of the average Fund assets based on a twelve-month period ended 30 September 2020.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Fund name BlackRock Euro Core Bond Fund	Fund return %	Performance measure %	TER %
- Class A Shares	1.02	0.46	0.51
BlackRock Euro Government Bond Fund			
- Class A Shares	0.72	0.64	0.46
BlackRock Global Enhanced Index Fund			
- Class A Shares	3.01	2.64	0.43
BlackRock Tailored Market Advantage Fund			
- Class A Shares	(4.75)	n/a	0.54_

INVESTMENT MANAGER'S REPORT (continued)

Performance summary, tracking difference and tracking error (continued)

The table and the relevant footnotes also indicate the primary drivers impacting tracking difference gross of the TER, and where the realised tracking error is greater than the anticipated tracking error. Primary drivers impacting tracking difference include cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging and sampling techniques. Tax may also impact tracking difference and tracking error due to withholding tax suffered by the Fund on any income received from its investments. A Fund with a swing pricing mechanism can lead to tracking difference and tracking error as the NAV of the Fund swings as opposed to its relevant benchmark. The level and quantum of tracking difference/tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

						Primary drive	rs impacting tra	cking differen	се		
Fund name	Fund return %	Benchmark index %	TER %	Tracking difference gross of TER %	Tax	Securities Lending	Transaction costs	Sampling	Other significant drivers	Anticipated tracking error %	Realised tracking error %
BlackRock Europe Equity 1 Fund											
- Class J Shares	(7.64)	(7.76)	0.09	0.21	\checkmark	\checkmark	$\sqrt{}$	\checkmark		Up to 0.25	0.64 ⁱ
BlackRock Japan Equity 1 Fund											
- Class J Shares	4.59	4.40	0.07	0.26	$\sqrt{}$	$\sqrt{}$			а	Up to 0.10	0.68 ⁱⁱ

^aDue to swing pricing

Structural differences in tax rates applied to dividends received in the Fund, versus tax rates assumed in the total return calculation of the benchmark; the use of futures for efficient portfolio management; and the impact of swing pricing. In addition, there was a fund holiday on 31 August 2020, whereby the Fund was closed but the benchmark index continued to be calculated for that day. Although this impact reversed the following day, it led to tracking error noise.

ⁱⁱDue to the use of futures for efficient portfolio management; swing pricing; and the securities lending transactions. In addition, there was a fund holiday on 31 August 2020, whereby the Fund was closed but the benchmark index continued to be calculated for that day. Although this impact reversed the following day, it led to tracking error noise.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements as well as KIIDs form an integral part. Copies of which are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview

Global equities, as represented by the MSCI All Country World Index ("ACWI") (in US Dollar terms), posted a return of 10.44% for the twelve months ended 30 September 2020. World stock markets gained steadily for much of the reporting period's first five months, supported by solid, if slowing, economic growth and central bank easing from the US Federal Reserve (the "Fed") and several other central banks.

However, the spread of the COVID-19 in early 2020 injected uncertainty into global markets, leading to steep declines for all classes of equities. Countries around the globe instituted restrictions to slow the progress of COVID-19, resulting in a sharp economic downturn and a sudden rise in unemployment. Turbulence in energy markets also impacted equities, as a rapid fall in oil prices threatened the viability of parts of the energy sector. Beginning in late March 2020, however, equities regained a significant portion of their losses as aggressive policy responses from governments and central banks, the phased reopening of economies around the world, and new treatments of COVID-19 raised hopes for an economic recovery. Despite economic data that indicated substantial weakness, some indices touched all-time highs in early September 2020, reflecting investors' optimism that economic conditions would continue to improve as countries adapt to life with the COVID-19. Stocks gave back some of those gains in the period's final month, however, amid rising infections and the fading impact of stimulus programs.

The environment for global bond markets was positive for most of the reporting period prior to the COVID-19 pandemic, as low inflation, risk avoidance, and demand for yield led to higher bond prices despite yields near historic lows. However, as the outbreak worsened in March 2020 and the impact to the global economy became apparent, many bond prices fell, particularly for corporate and emerging market bonds, before recovering due to central bank interventions. The demand for less risky assets led to solid returns for US treasuries, and the yield on the 10-year US treasury, a benchmark lending rate for the bond market, touched an all-time low in March 2020.

Global government and corporate bonds posted solid returns, as bond prices recovered significantly in the second half of the reporting period. In the wake of the crisis, the Fed implemented an unprecedented corporate bond purchasing facility, which provided significant support to US corporate bond prices. Fed support led to record corporate bond issuance, as companies took advantage of the additional liquidity it provided.

Stocks in emerging markets posted a solid advance for the reporting period. These stocks were initially among the most affected by the COVID-19 pandemic, as lockdowns and factory closures in China weighed on Chinese markets. Many of the emerging Asian economies that have substantial trade with China also suffered significant supply and demand shocks. However, emerging market equities rebounded as infection rates slowed and economies reopened, and China reported economic data indicating a strong recovery. Emerging market bond prices, which fell sharply in March 2020, recovered due to optimism about the pace of economic recovery, performing roughly in line with other international bonds for the 12-month period.

In the commodities market, gold prices rose sharply, touching an all-time high in August 2020 as investors sought alternative stores of value amid a large increase in the money supply. Oil prices, already low throughout the first part of the reporting period, fell rapidly to a 21-year low in April 2020. The combination of weakened demand and increased supply following a dispute between Russia and Saudi Arabia (two of the world's leading oil producers) drove oil prices down sharply, although prices recovered somewhat throughout May and June 2020.

Looking at currencies, the US Dollar declined against most global currencies, particularly late in the reporting period, reflecting unprecedented monetary stimulus, record low interest rates, and the continued spread of COVID-19 infections. The Euro, the Sterling, the Japanese yen, and the Swiss franc all advanced against the US Dollar.

Prior to the spread of the COVID-19, global economic growth was slow but resilient, with the US growing faster than most other developed countries. However, the disruption caused by the pandemic led to a significant economic contraction, and the US economy shrank by an annualised 5% in the first quarter of 2020 and a record 33% in the second quarter of 2020. The economies of the Eurozone and Japan fell into recession, while the Chinese economy returned to growth in the second quarter of 2020, raising hopes for recovery in the region.

In an attempt to boost slowing growth, most central banks favoured more accommodative monetary policy in 2019, and the Fed, the European Central Bank, and the Bank of Japan all either lowered interest rates or increased monetary stimulus. After the COVID-19 outbreak, the Fed instituted two emergency rate cuts, and along with other influential central banks implemented major bond-buying programs to stabilise debt markets. The synchronised economic stimulus ultimately jumpstarted economic growth and supported risk taking in global markets.

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity

BlackRock Euro Core Bond Fund

Over the financial year to 30 September 2020, the Fund's return was 1.02%, overperforming its performance measure, which returned 0.46%.

The major theme dominating markets over the financial year was the outbreak of COVID-19. Risk assets plummeted and risk-free yields fell to historic lows, before central banks and governments globally stepped in with unprecedented support packages. Sovereign and investment grade credit spreads gradually recovered over the second half of the financial year, although dispersion remains between sectors, depending on the impact of economic shutdowns in business activity.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Government	0.88%	Cash	(0.06%)
Industrials	0.34%		
FX	0.11%		
Utility	0.08%		
Financials	0.08%		

The largest contributor to returns versus the comparator benchmark has been from investment grade credit spreads, particularly via overweights in consumer non-cyclicals, technology and communications which outperformed the broader market. Credit beta was managed tactically throughout the financial year, increased in April 2020 following extreme spread widening, and subsequently reduced as markets recovered. Sovereign spread strategies also contributed to returns. Overweights in peripheral countries such as Portugal and Spain were positive, while an underweight in France in the final quarter of the financial year also worked. Duration strategies also contributed via long positions in cross-market strategies such as the UK, Canada and New Zealand, where rates had more room to act as a hedge.

The following table details the significant portfolio weightings, as at 30 September 2020 and 30 September 2020:

30 September 2020		30 September 2019	
Sector	Weighting	Sector	Weighting
Government	41.94%	Government	39.58%
Financials	14.82%	Government Related	16.85%
Government Related	12.07%	Covered bonds	15.36%

Sovereign spread risk was reduced over the year, while corporate spread risk was increased. Within Sovereigns, exposure to semi-core European countries, such as Finland, France and Austria was reduced, given relative valuations. Within corporates, positioning was adjusted in favour of non-financials over financials, given a preference for assets eligible for purchase by the ECB.

BlackRock Euro Government Bond Fund

Over the financial year to 30 September 2020, the Fund's return was 0.72%, overperforming its performance measure, which returned 0.64%.

The major theme dominating markets over the financial year was the outbreak of COVID-19. Risk assets plummeted and risk-free yields fell to historic lows, before central banks and governments globally stepped in with unprecedented support packages. Sovereign spreads gradually recovered over the second half of the financial year.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Italy	0.43%	United States	(0.04%)
United Kingdom	0.28%	South Africa	(0.04%)
France	0.17%	Australia	(0.03%)
Germany	0.15%	Japan	(0.02%)
Spain	0.15%	Supranational	(0.02%)

The largest contributor to returns versus the comparator benchmark have been long positions in cross-market duration, such as UK and New Zealand, where rates had more room to act as a hedge during the risk-off period. Positions in peripheral European sovereign spreads, such as Italy and Spain, have also been a key contributor. Underweights in semi-core sovereign spreads such as France and Belgium have also been positive.

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Euro Government Bond Fund (continued)

The following table details the significant portfolio weightings, as at 30 September 2020 and 30 September 2020:

30 September 2020		30 September 2019	
Country	Weighting	Country	Weighting
France	20.64%	Italy	22.15%
Italy	18.01%	France	20.62%
Spain	16.31%	Spain	16.66%

Exposure to semi-core European countries, such as Finland, France and Austria was reduced, given relative valuations. The underweight in European duration was reduced via reducing the underweight to Germany. Positions in cross-markets were increased, via developed markets such as the UK, Australia and New Zealand, where rates offer more room to act as a hedge and central banks remain dovish.

BlackRock Global Enhanced Index Fund

Over the financial year to 30 September 2020, the Fund's return was 3.01%, overperforming its performance measure, which returned 2.64%.

The Fund's positioning proved overly conservative for the risk-on environment that developed towards the end of 2019. However, in 2020, during the COVID-19 pandemic, our alternative data insights proved to be effective in this challenging market environment. These data sources have captured how companies are navigating fast changing consumer habits

Stock selection was effective during the financial year. Our sentiment and macro related techniques were the best performers, whilst more fundamental oriented insights detracted. Industry positioning also added to relative returns with an underweight to energy and overweight to information technology notable drivers.

During the financial year, the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors		
Sector	Effect on Fund return	Sector	Effect on Fund return	
Information Technology#	1.01%	Real Estate Ø	(0.92%)	
Energy Ø	0.74%	Communication Services #	(0.49%)	
Health Care #	0.66%	Consumer Staples #	(0.27%)	
Consumer Discretionary #	0.20%	Utilities ^Ø	(0.11%)	
Industrials #	0.20%		,	

[#] Overweight position - holds more exposure than the benchmark.

Our overweight positioning in the Information Technology sector was rewarded, as digital and virtual businesses were favoured over more traditional ones during the pandemic. By the same token, some of our real estate positioning was hit hard, weighing on the Fund's return.

The following table details the significant active positions, where the Fund is overweight (holds more exposure than the performance measure) and underweight (holds less exposure than the performance measure), as at 30 September 2020 and 30 September 2019:

	Largest overweight positions				
30 September 2020 30 September 2019					
Region		Weighting	Region		Weighting
North America		1.08%	Japan		0.41%
Europe		0.41%	North America		0.37%

Largest underweight positions				
30 September 2020 30 September 2019				
Region	Weighting	Region	Weighting	
Pacific, excluding Japan	(1.12%)	Europe	(0.43%)	
Japan	(0.41%)	Pacific, excluding Japan	(0.39%)	

^Ø Underweight position - holds less exposure than the benchmark.

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Tailored Market Advantage Fund

Over the financial year, the Fund's return was (4.75%).

The Fund's managers invest strategically across a broad spectrum of assets (such as shares and bonds) using an approach designed to protect against risk – referred to as a 'risk factor' approach. This is based on their view that six macroeconomic (macro) factors drive risk and return in markets: economic growth (developed market stocks, real estate and commodities); real rates (inflation linked bonds); inflation ('break even' inflation rates – a measure of inflation expectations, reflecting the difference between the yields of inflation linked and nominal bonds of the same maturity); credit (high yield and investment grade bonds); emerging markets (emerging market stocks and bonds); and liquidity (small cap stocks).

The Fund's relative underperformance during the financial year was driven primarily by exposure to four of the six factors: economic growth, credit, liquidity and inflation. As shown by the table below, the real rates was the strongest performer at the overall portfolio level, while emerging markets exposures contributed modestly in the financial year.

During the financial year the following were the largest contributors to and detractors from the Fund's return:

Largest Contributors		Largest Detractors	
Factors	Effect on Fund return	Factors	Effect on Fund return
Real Rates	2.38%	Economic Growth	(2.95%)
Emerging Markets	0.74%	Credit	(1.99%)
		Liquidity	(1.52%)
		Inflation	(0.98%)

The financial year was an extraordinary one for financial markets. During the first quarter of 2020, markets experienced a massive sell-off to reflect the sudden stop in economic activity triggered by the initial COVID-19 shock. Risk appetites dropped sharply and the strategy delivered negative returns, with March 2020 being particularly challenged as traditional 'safe-havens' such as inflation-linked bonds fell alongside risk assets due to a spike in stock/bond correlations. However, as policymakers acted quickly to stabilise economies and markets, performance rebounded with real rates once again contributing positively alongside the more economically sensitive factors. This was followed by a risk rally in the spring and summer, as fiscal and monetary stimulus fed through to activity and business cautiously reopened. As markets found equilibrium, returns have steadily improved over the reporting period with positive performance across the real rates, economic growth, emerging market, credit and liquidity factors in the latter six months.

The following table details the significant portfolio weightings at 30 September 2020 and 30 September 2019. Note that these tables show notional exposure to each asset class, some of which may be achieved through derivatives, and accordingly do not sum to 100%:

30 September 202	0	30 September 2019		
Asset class	Weighting*	Asset Class	Weighting*

In line with our investment process, the steep drop in both the Risk Tolerance Indicator (our measure of investor sentiment) and Diversification Ratio prompted two formal investment committee meetings during March 2020. Following an assessment of fund performance, market environment, and the valuation of our macro factors, the investment team decided to reduce risk in the portfolio by 40% in a series of trades over the course of the month. As our risk indicators stabilised during the summer at levels closer to cycle averages, the team moved the portfolio back to full risk in June 2020.

We remain cautious and vigilant in monitoring the progression of COVID-19 case rates across regions in the context of reopening, weighing signs of resilience against concerns around geopolitical tensions and economic activity. We continue to closely monitor our risk indicators and broader market conditions regularly and will consider additional measures if conditions were to deteriorate.

BlackRock Investment Management LLC October 2020

CORPORATE GOVERNANCE STATEMENT

The Board of BlackRock Institutional Pooled Funds plc (the "Company") is committed to maintaining the highest standards of corporate governance and is accountable to its shareholders for the governance of the Company's affairs. The Board has put in place a framework for corporate governance which it believes is appropriate for a collective investment scheme and which will enable the Company to comply with the relevant provisions of the Irish Funds Industry Association Corporate Governance Code for Collective Investment Schemes and Management Companies ("the Code") effective as of 1 January 2012 which is available at:- http://files.irishfunds.ie/1432820468-corporate-governance-code-for-collective-investment-schemes-and-management-companies.pdf

The Company voluntarily adopted the Code and the Code applied to the Company for all accounting periods on or after 1 January 2012.

The Board considers that the Company has complied with each of the provisions contained within the IFIA Code throughout this accounting period.

The Company is also subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 may be obtained at http://www.irishstatutebook.ie/home.html;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company; and
- (iii) The Central Bank in their UCITS Notices and Guidance Notes which can be obtained from the Central Bank's website at:-

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Depositary. The annual and half-yearly financial statements of the Company are required to be approved by the Board of Directors of the Company and filed with the Central Bank. The financial statements are prepared in accordance with applicable Irish law and Generally Accepted Accounting Practice in Ireland. The accounting information given in the annual report is required to be audited. The Auditor's report, including any qualifications, is reproduced in full in the annual report of the Company.

Shareholders' meetings are governed by the Articles of Association of the Company and the Irish Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting. Not less than twenty one days notice of every AGM and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days notice must be given in the case of any other general meeting unless the Auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitute a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him. The chairman of a general meeting of the Company or at least five members present in person or by proxy or any holder or holders of shares present in person or by proxy representing at least one tenth of the total voting rights of all the shareholders having the right to vote at such meeting may demand a poll.

Mr Paul McNaughton, Mr Paul McGowan, Ms Ros O'Shea and Ms Deirdre Somers are deemed to be independent Directors of the Company in that they are deemed to be independent in character and judgement and free from relationships or circumstances which may affect, or could appear to affect, each Director's judgement. They are independent of the Manager, the Investment Manager and other third party service providers such as the Administrator and Depositary.

The business of the Company is managed by the Directors, who meet once a month. The Directors delegate certain functions to the Manager and the Depositary. In turn the Manager appoints the Administrator (to whom certain administration functions are delegated) and the Investment Manager (to whom principal distribution and investment management functions are delegated). A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two Directors.

The Board has a Nominations Committee comprising a majority of independent Directors and appointed Mr Paul McNaughton as the independent Chairman. This Committee is responsible for reviewing the composition of the Board and Board Committees to ensure they are properly constituted and balanced in terms of skills, experience and diversity. The Nominations Committee meeting took place on 25 September 2019 and 27 November 2019.

CORPORATE GOVERNANCE STATEMENT (continued)

Diversity Report

The Nominations Committee, together with the Board, acknowledges the importance of diversity to enhance its operation. During the selection process the Board and Nominations Committee are committed to selecting those with diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes. The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each director to contribute individually, and as part of the board team, to the effectiveness of the Board. Subject to that overriding principle, the Board believe that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst board members is of great value when considering overall board balance in making new appointments to the Board. The Boards' priority is to ensure that it continues to have strong leadership and the relevant skills to deliver the business strategy. The implementation of the Boards diversity policy is monitored by the Nomination Committee which reviews the balance of skills, knowledge, experience and diversity on the Board and leads succession planning for appointments to the Board. The Nominations Committee will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminatory. The Board's policy is to have women make up at least 30% of the Boards' membership and currently has seven Board members, four of which are female. The current Board composition reflects diverse age, gender, educational and professional backgrounds.

The Board has an Audit Committee comprising three independent Directors. The Audit Committee met twelve times during the period in order to discharge its duties and it reported directly to the Board. Any matters which came before the Audit Committee and which required the consideration or a decision of the Board are immediately escalated to the Board.

DIRECTORS' REPORT

The Directors present their report and audited financial statements for the financial year ended 30 September 2020.

Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, and in compliance with the Irish Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Listing Rules of the Euronext Dublin.

Under Irish law, the Directors shall not approve the audited financial statements unless they are satisfied that they give a true and fair view of the Entity's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Entity for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards
 in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial
 statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Entity will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the audited financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Entity;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Entity to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 (as amended) and enable those financial statements to be audited.

The measures taken by the Directors to secure compliance with the Entity's obligation to keep adequate accounting records are the appointment of J.P. Morgan Administration Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address on behalf of the Administrator:

200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

The Directors are also responsible for safeguarding the assets of the Entity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors have entrusted the assets of the Entity to the Depositary for safekeeping in accordance with the Memorandum and Articles of Association of the Entity. In this regard the Directors have appointed J.P. Morgan Bank (Ireland) plc as Depositary pursuant to the terms of the Depositary Agreement. The address at which this business is conducted is as follows:

200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

The audited financial statements are published on the BlackRock website. The Directors, together with the Manager and the Investment Manager are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Directors' Compliance Statement

In accordance with Section 225 of the Companies Act 2014 (as amended), the Directors acknowledge that they are responsible for securing the Entity's compliance with its relevant obligations and confirm that:

- 1. A compliance policy has been prepared setting out the Entity's procedures (that, in the Directors' opinion, are appropriate to the Entity) for ensuring compliance by the Entity with its relevant obligations;
- 2. An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Entity's relevant obligations; and
- 3. An annual review procedure has been put in place to review the Entity's relevant obligation and ensure a structure is in place to comply with these obligations.

DIRECTORS' REPORT (continued)

Results and dividends

The results and dividends for the financial year of the Entity are set out in the income statement.

The Manager has made a successful application of "Reporting Fund" status to apply to certain share classes under the Statutory Instrument 2009/3001 (The Offshore Funds (Tax) Regulations 2009) of the UK. A list of the share classes which currently have 'reporting fund' status is available at https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds.

Review of business and future developments

The specific investment objectives and policies, as set out in the Investment Manager's report, of each Fund are formulated by Directors at the time of the creation of the Fund. Investors in a Fund are expected to be informed investors who have taken professional advice, are able to bear capital and income risk, and should view investment in a Fund as a medium to long term investment. A description of the Fund, its performance review and a market review can be found in the Background section and the Investment Manager's report. The performance review encompasses tracking error and tracking difference disclosures which are key metrics as to how well the Fund has been managed against their benchmark indices.

A review of the potential implications of Brexit and the COVID-19 outbreak which could impact the Entity's business are included in the Background section and Note 3.

Risk management objectives and policies

The financial instruments and risks facing the Entity are set out in the notes to the financial statements. The Entity's corporate governance statement is set out within the Governance section of the financial statements.

Subsequent events after the financial year end

The significant events which have occurred since the balance sheet date are set out in the notes to the audited financial statements.

Directors' and Company Secretary's interests and transactions

The Directors and Company Secretary had no interests in the shares of the Entity during or at the end of the financial year (2019: Nil).

Barry O' Dwyer, Teresa O'Flynn and Jessica Irschick are non-executive Directors and also employees of the BlackRock Group. With effect from 04 October 2019 Teresa O'Flynn was re-appointed as non-executive Director.

No Director had at any time during the financial year, a material interest in any contract of significance, in relation to the business of the Entity (2019: Nil).

Going concern

The financial statements of the Entity have been prepared on a going concern basis. The Entity is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Fund are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the Entity will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Entity.

Independent auditor

The auditor, Ernst & Young, will be re-appointed in accordance with section 383 of the Companies Act 2014 (as amended).

Statement of relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Entity's auditors are unaware. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Entity's auditors are aware of that information.

On behalf of the Directors	
Deirdre Somers	Paul McGowan
27 January 2021	27 January 2021

DEPOSITARY'S REPORT TO THE SHAREHOLDERS

We, J.P. Morgan Bank (Ireland) plc, appointed Depositary to BlackRock Institutional Pooled Funds plc (the "Entity") provide this report solely in favour of the investors of the Entity as a body for the year ended 30 September 2020 (the "Accounting Period").

This report, including the opinion, has been provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ("the UCITS Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or to any other person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the Entity for the Accounting Period and we hereby report thereon to the shareholders of the Entity as follows;

We are of the opinion that the Entity has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Entity by the constitutional documents and the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the UCITS Regulations.

For and on behalf of

J.P. Morgan Bank (Ireland) plc 200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

27 January 2021

Opinion

We have audited the financial statements of Institutional Pooled Funds plc ('the Company') for the year ended 30 September 2020, which comprise the Income Statement, Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, Balance Sheet, Schedule of Investments and notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and Accounting Standards including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (Irish Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 30 September 2020 and of its results for the year then ended;
- have been properly prepared in accordance with Irish Generally Accepted Accounting Practice; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters, in relation to which ISAs (Ireland) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material
 uncertainties that may cast significant doubt about the Company's ability to continue to adopt
 the going concern basis of accounting for a period of at least twelve months from the date
 when the financial statements are authorised for issue.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk	Key observations communicated to the Audit Committee
Existence of financial assets and liabilities at fair value through profit or loss ("FVTPL") We have considered the existence of financial assets at FVTPL (with a fair value of €2,467m) and financial liabilities at FVTPL (with a fair value of €3m) as a key audit matter as it is a key driver of the Company's performance and net asset value. Please refer to Note 2 Accounting Policies and Note 3 Financial Risks.	We have obtained a Service Organisation Controls ("SOC1") report of J.P. Morgan Administration Services (Ireland) Limited, including the report of their independent accountants thereon, to gain an understanding and evaluate the design, implementation and operating effectiveness of controls over the reconciliation process for financials assets and financial liabilities at FVTPL. We agreed financial assets and financial liabilities at FVTPL held within the depositary network to an independently obtained depositary confirmation. For financial assets and financial liabilities at FVTPL held outside the depositary network, we agreed a sample to independent counterparty confirmations or to trade tickets and/or independent post year end cash statements, where these settled subsequent to the year-end. For material reconciling items, we considered whether that they are valid reconciling items, obtained supporting	No issues have been noted from the performance of our procedures over this key audit matter.
	documentation and checked whether they were resolved in an appropriate time.	
Valuation of financial assets and financial liabilities at fair value through profit or loss ("FVTPL") We have considered valuation of financial assets at FVTPL (with a fair value of €2,467m) and financial liabilities at FVTPL (with a fair value €3m) as a key audit matter as it is a significant balance of the Company's net asset value. Please refer to Note 2 Accounting Policies and Note 3 Financial Risks.	We obtained the SOC1 report of J.P. Morgan Administration Services (Ireland) Limited to gain an understanding and evaluate the design, implementation and operating effectiveness of controls over the valuation process for financial assets and financial liabilities at FVTPL. We tested the value of financial assets and financial liabilities at FVTPL using independent market vendors and compared the prices to the investment portfolio. On a sample basis, we recalculated the fair value of OTC derivative positions at year-end using industry standard models with independent market data inputs.	No issues have been noted from the performance of our procedures over this key audit matter.

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality to be 0.5% of Net Asset Value of each Fund of the Company. We believe Net Asset Value is an appropriate measurement basis since the main objective of each Fund is to maximise Net Asset Value and this basis is consistent with the expectations of the users of the financial statements.

During the course of our audit, we reassessed the initial materiality and made no changes to it.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 50% of our defined materiality. We have set performance materiality at this percentage due to our knowledge of the Company and its industry, the effectiveness of its control environment and our assessment of the risks associated with the engagement.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the board of directors ("the directors") that we would report to them all uncorrected audit differences in excess of 5% of our defined materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

An overview of the scope of our audit report

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Annual Report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to

the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2014

Based solely on the work undertaken in the course of the audit, we report that:

- in our opinion, the information given in the directors' report is consistent with the financial statements; and
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

In addition we report, in relation to information given in the Corporate Governance Statement on pages 12 to 13, that:

- based on knowledge and understanding of the company and its environment obtained in the course of our audit, no material misstatements in the information identified above have come to our attention;
- based on the work undertaken in the course of our audit, in our opinion:
- the description of the main features of the internal control and risk management systems in relation to the process for preparing the financial statements, and information relating to voting rights and other matters required by the European Communities (Takeover Bids (Directive 2004/25/EC)) Regulations 2006 and specified by the Companies Act 2014 for our consideration, are consistent with the financial statements and have been prepared in accordance with the Companies Act 2014; and
- the Corporate Governance Statement contains the information required by the Companies Act 2014

Matters on which we are required to report by exception

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the Statement of Directors' responsibilities set out on page 13, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the parent Company's ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The objectives of our audit, in respect to fraud, are; to identify and assess the risks of material misstatement of the financial statements due to fraud; to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud, through designing and implementing appropriate responses; and to respond appropriately to fraud or suspected fraud identified during the audit. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant is the Companies Act 2014.
- We understood how the Company is complying with those frameworks by updating our
 understanding of the adequate system of internal control in place. We also considered the
 existence of independence service providers, proper segregation of duties and the regulated
 environment in which the Company operates, which may reduce opportunities for fraud to
 take place.

- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by management override of controls.
- Based on this understanding we designed our audit procedures to identify non-compliance
 with such laws and regulations. Our procedures involved inquiries to those charged with
 governance into possible instances of non-compliance with laws and regulations, review of
 board meeting minutes during the year and obtaining representation from the management.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf. This description forms part of our auditor's report.

Other matters which we are required to address

We were appointed by the directors on 15 March 2019 to audit the financial statements for the year ending 30 September 2019 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is two years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting our audit.

Our audit opinion is consistent with the additional report to the directors.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

The accompanying notes form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements are prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council.

The financial statements are prepared on a going concern basis under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The Entity has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a statement of cash flows.

The format and certain wordings of the financial statements have been adapted from those contained in Section 3 of FRS 102, so that, in the opinion of the Directors, they more appropriately reflect the nature of the Entity's business as an investment fund.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

2.2 Financial instruments

The Entity has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102 as they relate to financial instruments.

2.2.1 Classification

The Entity classifies its investments in debt instruments, equity instruments and derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors at fair value through profit or loss at inception. All the derivative investments are held for trading purposes. All other financial assets and financial liabilities including cash, cash equivalents, receivables and payables are classified at amortised cost using the effective interest method.

2.2.2 Recognition and derecognition

The Entity recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognised on the day the trade takes place.

Realised gains and losses on disposals of financial instruments are calculated using the average cost method. For instruments held long, they represent the difference between the initial carrying amount and disposal amount. For instruments held short, they represent the difference between the proceeds received and the opening value. For derivative contracts, they represent the cash payments or receipts made on derivative contracts (excluding those on collateral or margin accounts for such instruments).

Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the risks and rewards of ownership have all been substantially transferred. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

2.2.3 Measurement

All financial instruments are initially recognised at fair value.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value. Transaction costs on purchases or sales of investments and gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented in the income statement within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Financial assets and financial liabilities, other than those classified as at fair value through profit or loss, are subsequently measured at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.4 Fair value estimation

Fair value is the amount for which an asset could be exchanged, a liability settled or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. The estimation of fair value, after initial recognition, is determined as follows:

- Investments in debt, equity instruments and exchange traded derivatives which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the Entity's prospectus. Depending on the nature of the underlying investment, the value taken could be either at the closing price, closing mid-market price or bid price on the relevant market..
- Investments in centrally cleared and over-the-counter ("OTC") derivatives are valued using valuation techniques.

In the case of an investment which is not quoted, listed or dealt on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Directors in consultation with the Investment Manager and approved for the purpose by the Depositary), and such fair value shall be determined using valuation techniques. The Entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives include those detailed in the fair value hierarchy note, and those used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

2.2.5 Financial derivative and other specific instruments

2.2.5.1 Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price.

Initial margin deposits are made to relevant brokers upon entering into futures contracts and are included in margin cash.

2.2.5.2 Forward currency contracts

A forward currency contract is an agreement, in the OTC market, between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price.

2.2.5.3 Swaps

A swap is an individually negotiated agreement, in the OTC market, between two parties to swap one stream of payments for another. They may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps").

Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash of an amount that varies depending on the size and risk profile of the underlying swap contract.

2.2.5.4 Options and Swaptions

Options are financial instruments that convey the right, but not the obligation, to engage in a future transaction on an underlying security, or in a futures contract. Swaptions are financial instruments that grant or buy the right to enter into a previously agreed upon swap agreement at any time before the expiration of the option.

When the Fund purchases an option, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current fair value of the option purchased. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the underlying securities or foreign currency purchased.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current fair value of the option written, based on the bid/ask price in the case of exchange traded-options or, in the case of options traded in the OTC market, the last ask price. The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is subtracted from the cost of the securities or foreign currencies purchased.

2.2.6 Cash and cash equivalents

Cash in the balance sheet includes cash deposits held on call with banks. Cash equivalents include short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are classified as liabilities in the balance sheet.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.7 Collateral and margin cash

Cash collateral provided by the Fund is identified as an asset on the balance sheet as 'Cash collateral' and is not included as a component of cash and cash equivalents. For collateral other than cash provided by the Fund, if the party to whom the collateral is provided has the right by contract to sell or re-pledge the collateral, the Fund classifies that asset on its balance sheet separately from other assets and identifies the asset as a pledged investment. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are identified on the balance sheet as margin cash.

Cash collateral provided to the Fund by counterparties is identified on the balance sheet as 'Cash collateral payable'. The Fund may reinvest this cash collateral and the assets purchased are included as 'Cash equivalents' on the balance sheet.

2.2.8 Redeemable shares

Each Fund classifies redeemable shares issued as financial liabilities or equity in accordance with the substance of the contractual terms of the instruments. Redeemable shares are measured at the present value of redemption amounts.

The redeemable shares are redeemable at the option of the holders and do not meet the conditions set out in Section 22.4 of FRS 102, to be classified as equity and as a result are classified as financial liabilities.

The redeemable shares are accounted for on the day the trade takes place. Subscriptions and redemptions of redeemable shares are accounted for on the day the trade transaction takes place. Shares are subscribed and redeemed based upon the NAV per share as of the latest valuation point.

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of the issue of redeemable shares or the redemption of redeemable shares in the statement of changes in net assets attributable to redeemable shareholders. Any potential duties and charges are at the discretion of the Directors.

2.3 Foreign currency

2.3.1 Functional and presentation currency

Foreign currency items included in each Fund's financial statements are measured in each Fund's functional currency which is shown for each Fund in the headings of the financial statements.

The Directors consider that these currencies most accurately represent the economic effects of the underlying transactions, events and conditions of each Fund. Each Fund's presentation currency is the same as the functional currency.

The presentation currency of the Entity's financial statements is EUR.

2.3.2 Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the reporting date.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in the income statement.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the Entity's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Entity's financial statements, therefore, present the Entity's financial position and its results fairly. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below.

2.4.1 Assumptions and estimation uncertainties

2.4.1.1 Fair value of OTC derivative financial instruments

OTC financial derivative instruments are valued using valuation techniques, as detailed in the fair value hierarchy note to the financial statements. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

2.4.1.2 Fair value of financial instruments not quoted in an active market

The fair value of such instruments not quoted in an active market may be determined by the Fund using reputable pricing sources or indicative prices from bond/debt market makers. The Fund would exercise judgement and estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

2.4.2 Judgements

2.4.2.1 Assessment as investment entities

The Directors are of the opinion that the Entity meets the definition of an investment entity. The following conditions exist:

- a) the Entity has obtained funds for the purpose of providing investors with investment management services; and
- b) the investments held by the Entity are measured and evaluated on a fair value basis and information about those investments are provided to shareholders on a fair value basis through the Entity.

2.5 Dividend income

Dividend income is recognised in the income statement when the Fund's right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the income statement.

2.6 Interest income and interest expense

Interest income and interest expense for all interest-bearing financial instruments are recognised in the income statement using the effective interest method.

2.7 Securities lending income

Securities lending income is earned from lending securities owned by the Fund to third party borrowers. Securities lending income is recognised in the income statement on an accruals method basis.

2.8 Fees and expenses

Expenses are recognised in the income statement on an accruals basis except for transaction charges relating to the acquisition and realisation of investments which are charged for as incurred.

Expenses directly attributable to a specific class of shares are borne directly by such class solely.

2.9 Distributions

Distributions are recognised in the income statement as finance costs where shares in the Fund do not meet the conditions to be classified as equity and as a result are classified as financial liabilities.

The Directors may declare distributions on the shares of the class in respect of each financial period. Distributions may be paid out of the Fund's net income.

The Directors have implemented income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the financial period. As part of the distribution payment, the average amount of this equalisation is returned to shareholders who subscribed to or redeemed from the Fund during the year. The equalisation element of the distribution is treated as a repayment of capital.

Distributions will not be made to the shareholders of the accumulating share classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these shareholders.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.10 Adjustment to align to the valuation methodology as set out in the prospectus

Establishment costs are amortised over a period of 5 years for the purpose of calculating the dealing NAV as detailed in the prospectus. However, FRS 102 requires such costs to be expensed when incurred, therefore, for the purposes of the financial statements, any unamortised establishment costs have been recognised in full in the income statement in the period in which they were incurred.

Consequently, the differences described above adjust the carrying amount of the net assets attributable to shareholders and the cumulative differences are included in the 'Adjustment to align to the valuation methodology as set out in the prospectus' line on the balance sheet.

2.11 Taxation

2.11.1 Current tax

Current tax is recognised for the amount of income tax payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Fund.

3.1 Risk management framework

The Directors review quarterly investment performance reports and receive semi-annual presentations from the Investment Manager covering the Entity's performance and risk profile during the financial year. The Directors have delegated certain duties and responsibilities to the Manager with regard to the day-to-day management of the Entity. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Manager is also responsible for ensuring that the Entity is managed within the terms of its investment guidelines and limits set out in the prospectus. The Directors reserve to themselves the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Entity. The Manager has appointed a risk manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors investment risk. The RQA Group tracks the actual risk management practices being deployed across each Fund. By breaking down the components of the process, each RQA Group has the ability to determine if the appropriate risk management processes are in place across each Fund. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

3.2 Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by currency, interest rate and price movements. It represents the potential loss each Fund may suffer through holding market positions in the face of market movements.

The Fund is exposed to market risk by virtue of their investment in equities and derivatives.

A key metric used by the RQA Group to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk

VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period each Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that each Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaR based on 99% confidence level is outlined in the table below:

	2020	2019
Fund name	%	%
BlackRock Euro Core Bond Fund	0.60	0.68
BlackRock Euro Government Bond Fund	0.71	0.87

NOTES TO THE FINANCIAL STATEMENTS (continued)

BlackRock Japan Equity 1 Fund	3.74	2.51
BlackRock Tailored Market Advantage Fund	2.23	0.88

3.2.1 Market risk arising from foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to foreign currency risk

Each Fund may invest in financial instruments denominated in currencies other than its functional currency. Consequently, each Fund is exposed, directly and/or indirectly, to risks that the exchange rate of its functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Fund's assets which are denominated in currencies other than its own currency.

The details of the open forward currency contracts in place to hedge foreign currency risk at the financial year end date are disclosed in the schedules of investments.

In addition, each Fund issued share classes denominated in currencies other than the functional currency of each Fund.

Management of foreign currency risk

Each Fund may engage in foreign currency hedging to minimise the effect of currency movements between the currencies of the investments held by the Fund and the Fund's currency hedged share classes.

The Investment Manager monitors foreign currency risk exposure against pre-determined tolerances and determines when a currency hedge should be reset and the gain or loss arising from such hedge reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency hedge.

3.2.2 Market risk arising from interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates

Exposure to interest rate risk

Each Fund is exposed to interest rate risk through its cash and cash equivalent holdings holdings including margin cash held with brokers and through its investments in interest bearing financial instruments which are disclosed in the schedules of investments.

Each Fund also has indirect exposure to interest rate risk through its investments into interest rate financial derivative instruments ("FDIs") whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Management of interest rate risk

Interest rate risk exposure is managed by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

Cash and cash collateral is invested into money market funds to generate a return to protect the Fund against unfavourable movements in interest rates.

3.2.3 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on each Fund and market prices of its investments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.2 Market risk (continued)

3.2.3 Market risk arising from price risk (continued)

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now developed into a global pandemic. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue to extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

Exposure to price risk

Each Fund is exposed to price risk arising from its investments in financial instruments. The exposure of each Fund to price risk is the fair value of the investments held as shown in the schedules of investments of each Fund.

Management of price risk

By diversifying the portfolio, where this is appropriate and consistent with each Fund's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of each Fund is minimised.

There is a risk that the valuation of each Fund may not fairly reflect the value of the investments held at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for each Fund. To mitigate this risk the Directors may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be determined.

3.3 Liquidity risk

Liquidity risk is the risk that each Fund will encounter difficulties in meeting obligations associated with financial liabilities.

Exposure to liquidity risk

Each Fund's principal liquidity risks arise from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Fund has invested in.

Each Fund's shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of each Fund's NAV, excluding any duties and charges where applicable. Each Fund is therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Fund may invest in collective investment scheme ("CIS") which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Fund. Each Fund is also exposed to liquidity risk associated with daily margin calls on FDIs.

All of the Funds financial liabilities based on contractual maturities, fall due within three months. The expected settlement dates can be more than three months based on the analysis of the remaining period at the reporting date to the maturity date and are outlined in the schedules of investments.

Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including trading volume and increased price volatility. As a result, each Fund may experience difficulties in disposing of assets to satisfy liquidity demands.

Each Fund's liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of shares in a Fund exceed more than 10% of the NAV of each Fund on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess numbers of shares in issue from each Fund. The shares which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter.

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.3 Liquidity risk (continued)

Management of liquidity risk (continued)

None of the assets of the Funds are subject to special liquidity arrangements.

Valuations (and consequently issues, redemptions, transfers and switches) of shares of any Fund or class may be temporarily suspended in certain circumstances including:

- (i) upon closure of or suspension or restriction of trading on any stock exchange or market on which a substantial proportion of the relevant investments are quoted or traded;
- (ii) where conditions exist which in the opinion of the Directors make it impractical or inappropriate to dispose of investments held in the Fund without seriously harming the Company or any class of its shareholders;
- (iii) if the means of communication normally used for the purpose of determining the price or value of investments held by the Fund cannot be used or for some other reason the price or value of such investments cannot be determined normally, quickly and correctly;
- (iv) if any transfer of funds necessary for dealings in the relevant investments cannot be made normally at normal exchange rates;
- (v) if notice is given of a meeting at which a resolution is to be proposed to wind-up the Company or where notice has been given or a resolution passed for the closure or merger of a Fund.

3.4 Counterparty credit risk

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Exposure to counterparty credit risk

Each Fund is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund. The carrying value of financial assets together with cash held with counterparties best represents each Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of any International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement, and netting, which would reduce the overall counterparty credit risk exposure. Each Fund only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. Cash held as security by the counterparty to FDI contracts is subject to the credit risk of the counterparty.

All transactions in listed securities are settled/paid for upon delivery of securities, using approved brokers. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty & Concentration Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

The BlackRock RQA Counterparty & Concentration Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

There were no past due or impaired balances in relation to transactions with counterparties as at 30 September 2020 or 30 September 2019.

3.4.1 FDIs

Each Fund's holdings in exchange traded, centrally cleared and OTC FDIs expose the Fund to counterparty credit risk.

3.4.1.1 Exchange traded and centrally cleared FDIs

The exposure is limited by trading contracts through a clearing house. Each Fund's exposure to credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded contracts and centrally cleared swaps (variation margin). Each Fund's exposure to credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism.

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.1 FDIs (continued)

3.4.1.1 Exchange traded and centrally cleared FDIs (continued)

A party to a cleared FDI transaction is subject to the credit risk of the clearing house through which it holds its cleared position, rather than the credit risk of its original counterparty to the FDI transaction. All funds received by a clearing broker are generally held in a clearing brokers' customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro-rata basis across all the clearing broker's customers, potentially resulting in losses to each Fund.

3.4.1.2 OTC FDIs

The risk in relation to OTC FDIs arises from the failure of the counterparty to perform according to the terms of the contract as these FDI transactions are traded bilaterally and not through a central clearing counterparty.

All OTC FDI transactions are entered into by each Fund under an ISDA Master Agreement or similar agreement. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs OTC FDI transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore, any collateral disclosures provided are in respect of all OTC FDI transactions entered into by each Fund under the ISDA Master Agreement. All cash collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, each Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment. When each Fund returns securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to each Fund. Trading in OTC FDIs which have not been collateralised give rise to counterparty exposure.

Each Fund's maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency contract and any net unrealised gains as disclosed in the relevant Fund's schedules of investments.

Forward currency contracts do not require variation margins and the counterparty credit risk is monitored through the BlackRock RQA Counterparty & Concentration Risk Team who monitor the creditworthiness of the counterparty.

Securities pledged as collateral have been annotated on the schedules of investments and separately disclosed on the balance sheets.

Each Fund has the right to reinvest cash collateral received. Cash collateral pledged by each Fund is separately identified on the balance sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by each Fund is reflected on the balance sheets as cash collateral payable. Each Fund is also exposed to counterparty risk of rehypothecation of pledged collateral. The value of inbound cash collateral and cash collateral pledged is reflected on the balance sheets of each Fund. The fair value of inbound securities collateral and securities collateral pledged is reflected in the table below:

		Ple	edged collateral	Inbound collatera		
		2020	2019	2020	2019	
As at 30 September 2020	Currency	'000	'000	'000	'000	
BlackRock Tailored Market Advantage Fund	EUR	857	743	_	_	

The following tables detail the total number of OTC FDI counterparties each Fund is exposed to, the maximum exposure to any one counterparty which is calculated on a net basis and the lowest long-term credit rating of any one counterparty (or its ultimate parent, if it is unrated):

		е	Callataval	Lowest credit

BlackRock Tailored Market Advantage Fund	EUR	11	_	_	Α	

3.4.2 Depositary

The majority of the investments are held by the Depositary at the financial year end. Investments are segregated from the assets of the Depositary, with ownership rights remaining with each Fund. Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to its investments held by the Depositary to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedules of investments, plus any unsettled trades.

Substantially all of the cash of each Fund is held with the Depositary's affiliate, JP Morgan in its capacity as banker ("the Depositary's affiliate").

In respect of the cash held by the Depositary's affiliate, each Fund will be exposed to counterparty credit risk of the Depositary's affiliate. In the event of the insolvency or bankruptcy of the Depositary's affiliate, each Fund will be treated as a general creditor of the Depositary's affiliate.

To mitigate each Fund's exposure to the Depositary, the Investment Manager employs specific procedures to ensure that the Depositary is a reputable institution and that the counterparty credit risk is acceptable to each Fund. Each Fund only transacts with Depositary's that are regulated entities subject to prudential supervision, or with "high credit ratings" assigned by international credit rating agencies.

The long-term credit rating of the parent company of the Depositary as at 30 September 2020 is A+ (30 September 2019: A+) (Standard & Poor's rating).

In order to further mitigate each Fund's counterparty credit risk exposure to the Sub-Custodian or depositary banks, each Fund may enter into additional arrangements such as the placing of residual cash in a money market fund.

3.4.3 Securities lending

Each Fund's that engagement in securities lending activities expose the Fund to counterparty credit risk. The maximum exposure of each Fund is equal to the value of the securities loaned.

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

The collateral is registered and held in the name of Depositary on behalf of each Fund in any or all of the following central securities depositories; J.P. Morgan Bank (Ireland) plc or Euroclear depending on the type of collateral the counterparty has to give in order to cover the required value of exposure. The collateral provided by these counterparties consists of shares admitted to dealing on a regulated market.

The Funds outlined below engaged in securities lending activities during the financial year. The value of securities on loan and collateral held at the financial year end are shown below:

		Value of securities on	Value of collateral	Value of securities on	Value of collateral
		loan	received	loan	received
		30 Septemb	per 2020	30 Septemb	per 2019
Fund name	Currency	'000	'000	'000	'000
BlackRock Euro Core Bond Fund	EUR	1,542	1,987	-	
BlackRock Euro Government Bond Fund	EUR	12,283	13,616	4,713	4,919

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.3 Securities lending (continued)

		Value of		Value of	
		securities on	Value of collateral	securities on	Value of collateral
		loan	received	loan	received
		30 Septemb	per 2020	30 September 2019	
Fund name	Currency	'000	'000	'000	'000
BlackRock Europe Equity 1 Fund	EUR	65,962	72,866	54,799	60,254
BlackRock Global Enhanced Index Fund	EUR	11,982	13,204	8,802	9,709
BlackRock Japan Equity 1 Fund	JPY	35,269,429	39,359,273	41,426,036	45,396,347

To mitigate this risk, each Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary.

As at 30 September 2020 and 30 September 2019, all collateral received consists of securities admitted to or dealt on a regulated market.

Each Fund also benefits from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

3.4.4 Issuer credit risk relating to debt instruments

Issuer credit risk is the default risk of one of the issuers of any debt instruments held by each Fund. Debt instruments involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign debt and corporate debt which expose them to the default risk of the issuer with regards to interest or principal payments.

The following tables detail the credit rating profile of the debt instruments held by each Fund:

		grade	grade	Not rated	Total
		% of debt	% of debt	% of debt	% of debt
As at 30 September 2020	Currency	instruments	instruments	instruments	instruments
BlackRock Euro Core Bond Fund	EUR	98.45	1.34	0.21	100.00
BlackRock Euro Government Bond Fund	EUR	99.36	0.64	_	100.00
BlackRock Tailored Market Advantage Fund	EUR	100.00	_	_	100.00

	Investment Non-investment						
		grade % of debt	grade % of debt	Not rated % of debt	Total % of debt		
As at 30 September 2019	Currency	instruments	instruments	instruments	instruments		
BlackRock Euro Core Bond Fund	EUR	98.72	1.07	0.21	100.00		
BlackRock Euro Government Bond Fund	EUR	99.47	0.53	_	100.00		
BlackRock Tailored Market Advantage Fund	EUR	100.00			100.00		

To manage this risk, the Investment Manager, where appropriate and consistent with each Fund's objectives, invests in a wide range of debt instruments. The ratings of debt instruments are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for non-rated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to each Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and/or level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Funds;
- (iii) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (iv) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (v) for foreign currency options, option pricing models; and
- (vi) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 30 September 2020 and 30 September 2019:

30 September 2020	Level 1	Level 2	Level 3	Total
BlackRock Euro Core Bond Fund	EUR '000	EUR '000	EUR '000	EUR '000

NOTES TO THE FINANCIAL STATEMENTS (continued)

Operating expenses (continued)

Management Fee (including Investment Management Fee where applicable):

The Manager is entitled to increase the management fees up to a maximum of 2% per annum of the NAV attributable to the Class A Shares of the Funds. Shareholders will be notified in writing in advance of any proposed increase of management fees up to such maximum.

The fee is accrued daily based on the daily NAV of the Class A Shares and Class J Shares of the relevant Fund and is paid monthly in arrears.

Administration fees

An administration fee is calculated up to 0.04% per annum of the NAV of the relevant Fund which fee will be accrued daily and payable monthly in arrears, provided there is an aggregate minimum fee from the Company of USD 300,000 per annum.

Depositary fees

The Entity shall pay to the Depositary out of the net assets of each Fund an annual fee, together with all VAT payable on such fees, based on a tariff depending on the country in which the investments of the Fund are held. The tariff ranges from 0.0125% to 0.2075% of the NAV of the relevant Fund which fee will be accrued daily and payable monthly in arrears.

Credit administration fees

JPMorgan, as administrative agent to the credit agreement, together with other syndicated lenders, made a portion of a USD 200,000,000 credit facility available to the Funds. A loan commitment fee is charged at the rate of 0.10% per annum, payable by all the Funds, on the daily outstanding balance. The fee is payable quarterly in arrears. There was no credit administration fee charged during the financial year. Further details on the credit facility agreement, are set out in note 16.

8. Distributions to redeemable shareholders

The Entity may declare and pay dividends on any distributing class of shares in the Entity. In accordance with the prospectus, any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Entity to investors and become the property of the relevant Fund.

Distributions declared during the financial year were as follows:

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 102, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

NOTES TO THE FINANCIAL STATEMENTS (continued)

12. Share capital

Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of €1.00 each and 500,000,000,000 participating shares of no par value.

Subscriber shares

The 2 subscriber shares are currently in issue and are held by the Manager and nominees of the Manager at 30 September 2020 and 30 September 2019. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

NOTES TO THE FINANCIAL STATEMENTS (continued)

15. Related party transactions

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions.

The following entities were related parties to the Entity during the financial year ended 30 September 2020:

Board of Directors of the Entity	
Manager:	BlackRock Asset Management Ireland Limited
Investment Manager:	BlackRock Investment Management LLC
Principal Distributor:	BlackRock Investment Management (UK) Limited
Sub-Investment Advisers:	BlackRock Investment Management (UK) Limited
	BlackRock Financial Management, Inc.
	BlackRock Investment Management (Australia) Limited
	BlackRock Japan Co. Limited

The ultimate holding company of the Manager, the Investment Manager, the Principal Distributor and the Sub-Investment Advisers is BlackRock, Inc. a company incorporated in Delaware USA. During the year, PNC was a substantial shareholder in BlackRock, Inc. PNC did not provide any services to the Entity during the financial years ended 30 September 2020 and 30 September 2019.

The Investment Manager has sub-delegated certain portfolio management functions to the Sub-Investment Advisers presented in table below:

Fund name	Sub-Investment Advisers
BlackRock Euro Core Bond Fund BlackRock Euro Government Bond Fund BlackRock Europe Equity 1 Fund BlackRock Global Enhanced Index Fund ¹ BlackRock Japan Equity 1 Fund	BlackRock Investment Management (UK) Limited BlackRock Financial Management, Inc. BlackRock Investment Management (Australia) Limited BlackRock Japan Co. Limited
BlackRock Tailored Market Advantage Fund	BlackRock Investment Management (UK) Limited
	BlackRock Financial Management, Inc.

¹BlackRock Investment Management (UK) Limited is not a Sub-Investment Adviser to the BlackRock Global Enhanced Index Fund.

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Managers to be paid out of the Investment Manager's own fees.

Fees paid to the Manager and Investment Manager during the financial year, the nature of these transactions and the balances outstanding at the financial year end are disclosed in note 6 and in note 11 respectively.

The non-executive Directors as at 30 September 2020 are presented in the table below:

Directors	Employee of the BlackRock Group	Director of BlackRock affiliates and/or other funds managed by BlackRock
Paul McNaughton	No	Yes
Jessica Irschick	Yes	Yes
Paul McGowan	No	Yes
Barry O'Dwyer	Yes	Yes
Teresa O'Flynn	Yes	Yes
Ros O'Shea	No	Yes
Deirdre Somers	No	Yes

Directors fees are disclosed in the statutory information note to the financial statements. The aggregate emolument of the Directors relate to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

Holdings in other funds managed by BlackRock

Investments in funds managed by BlackRock, Inc. and BlackRock affiliates are listed below and marked on the relevant Funds' schedules of investments. For underlying funds which are subject to investment management or performance fees, these have been rebated back to the Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

15. Related party transactions (continued)

Holdings in other funds managed by BlackRock (continued)

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

Investments	Fee paid by Fund
Investment Company - UCITS authorised in Ireland by CBI	
BlackRock ICS Euro Liquid Environmentally Aware Fund - Agency (Acc T0) Shares	Annual expense capped at 0.03% of NAV1
BlackRock ICS Euro Liquidity Fund - Agency (Acc T0) Shares	Annual expense capped at 0.03% of NAV1
BlackRock ICS Sterling Liquidity Fund - Agency (Dis) Shares	Annual expense capped at 0.03% of NAV1

¹The Manager of these investments will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

All related party transactions were carried out at arm's length in the ordinary course of business. The terms and returns received by the related parties in making the investments were no more favourable than those received by other investors investing into the same share classes.

Significant holdings

The following investors are:

- funds managed by the BlackRock Group or are affiliates of BlackRock, Inc. ("Related BlackRock Funds") or
- b. investors (other than those listed in (a) above) who held more than 20% of the voting shares in issue in the Entity and are as a result, considered to be related parties to the Entity ("Significant Investors").

As at 30 September 2020

Fund name	Total % of shares held by Related BlackRock Funds	3	Number of Significant Investors who are not affiliates of BlackRock

BlackRock Tailored Market Advantage			
Fund	Nil	87.74	2

¹Investments which are less than 0.005% have been rounded to zero.

Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share. Income earned during the financial year by the Funds from securities lending transactions is disclosed in the income statement.

NOTES TO THE FINANCIAL STATEMENTS (continued)

15. Related party transactions (continued)

No provisions have been recognised by the Funds against amounts due from related parties at the financial year end date (30 September 2019: Nil).

No amounts have been written off during the financial year in respect of amounts due to or from related parties (30 September 2019: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial year (30 September 2019: Nil).

16. Credit facility

The Entity, on behalf of all of the Funds in operation, entered into a credit facility with JPMorgan whereby JPMorgan, together with other syndicated lenders, made a portion of a USD 200,000,000 credit facility available to the Funds. The credit facility will be allocated to the Funds based on the allocation notice for the credit facility agreement dated 24 April 2020. This credit facility will be utilised by the Fund for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the Fund. Any new Fund will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. There is no guarantee that the addition of any new Fund will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Fund and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged on a daily basis in relation to this credit facility which is included in the income statement under caption "Credit administration fee". The loan commitment fee is charged at 0.10% on the outstanding balance.

The credit facility was not used during the year.

17. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities as at 30 September 2020 and 30 September 2019.

18. Statutory information

The following fees were included within annual expenses for the financial year:

	2020	2019
	EUR '000	EUR '000
Directors' fees Audit fee (including expenses and exclusive of VAT) relating to the audit of the annual	60	22
financial statements	52	62
Non-audit fees	Nil	Nil

Directors' fees will not exceed the sum of €100,000 per annum per Director without the approval of the Board of Directors. There were no other assurance, tax, advisory or non-audit fees other than the audit fees disclosed above paid to Ernst & Young in Dublin, Ireland as the Statutory Auditor of the Entity as no other services were provided.

19. Subsequent events

On 17 December 2020, an updated prospectus was issued for the Entity to facilitate the following changes:

- Removal of references to PNC.
- The appointment of Teresa O'Flynn as a Director.
- Environmental, social and governance (ESG) integration added.
- Updated Brexit and infectious diseases information added.

Other than the above, there have been no events subsequent to the financial year end, which, in the opinion of the Directors, may have had an impact on the financial statements for the financial year ended 30 September 2020.

20. Approval date

The financial statements were approved by the Directors on 27 January 2021.

¹Security fully or partially on loan.

²Investments which are less than EUR 500 have been rounded down to zero.

³Security is perpetual without predetermined maturity date. The date shown, if applicable, is the next call date.

⁴Prior year percentage of net asset value rounds to 0.00%.

⁵Forward currency contracts held with one counterparty that have the same buy currency, sell currency and maturity date are presented on an aggregate basis where applicable. There is no netting of asset and liability positions.

TRANSACTIONS WITH CONNECTED PERSONS (UNAUDITED)

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non group company subcustodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial year complied with this obligation.

TRANSACTION COSTS (UNAUDITED)

Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the financial year ended 30 September 2020. These include all brokers' commission, settlement fees, stamp duties and broker fees charges on equities, exchange traded futures contracts and certain debt instruments.

		Value
Fund	Currency	'000
BlackRock Euro Core Bond Fund	EUR	3
BlackRock Euro Government Bond Fund	EUR	6
BlackRock Europe Equity 1 Fund	EUR	465
BlackRock Global Enhanced Index Fund	EUR	144
BlackRock Japan Equity 1 Fund	JPY	19,655
BlackRock Tailored Market Advantage Fund	EUR	12

Not all transaction costs are separately identifiable. For certain debt instruments, transaction costs will be included in the purchase and sales price of the investment and are not separately disclosed.

SOFT COMMISSIONS (UNAUDITED)

There were no soft commission arrangements entered into by the Investment Manager on behalf of each Fund during the financial year ended 30 September 2020.

CROSS INVESTMENTS (UNAUDITED)

As at 30 September 2020, there were no cross umbrella investments held by any Fund within the Entity.

GLOBAL EXPOSURE (UNAUDITED)

The Directors are required by regulation to employ a risk management process, which enables it to monitor accurately and manage the global exposure from FDIs which each Fund gains as a result of its strategy ("global exposure").

The Directors uses one of two methodologies, the "commitment approach" or the "value-at-risk approach" ("VaR"), in order to measure the global exposure of each Fund and manage the potential loss to them due to market risk.

Commitment approach

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of each Fund to FDI.

Pursuant to the relevant regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

VaR approach

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

Please refer to the financial risks note to the financial statements for further details on the measure of VaR.

The Directors use Relative VaR to monitor and manage the global exposure of some of the Funds and Absolute VaR for others as as set out below. For Relative VaR, the VaR of the respective Fund's portfolio will not exceed twice the VaR of the reference portfolio. For Absolute VaR, the monthly VaR will not exceed 20% of the Fund's NAV. Where a VaR calculation is performed using a horizon other than the one-month regulatory limit, this 20% limit shall be rescaled to reflect the appropriate risk horizon period as directed by the relevant regulatory guidelines. Utilisation refers to the level of risk taken in this context.

GLOBAL EXPOSURE (UNAUDITED) (continued)

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective Absolute or Relative VaR regulatory limit.

	Global exposure		Highest utilisation of the VaR limit	Lowest utilisation of the VaR limit	Average utilisation of the VaR limit
Fund	approach	Reference portfolio	%	%	%
		FTSE Euro Broad Investment-			
BlackRock Euro Core Bond Fund	Relative VaR	Grade Bond Index (EuroBIG)	59.82	41.72	49.26
		Bloomberg Barclays Euro			
BlackRock Euro Government Bond Fund	Relative VaR	Treasury Index	52.94	39.45	50.25
BlackRock Tailored Market Advantage Fund	Absolute VaR	N/A	82.06	15.65	41.31

LEVERAGE (UNAUDITED)

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities. Leveraged FDI positions can therefore increase a Fund's volatility.

Pursuant to its regulatory obligations, the Directors are required to express the level of leverage employed in a Fund where VaR is being used to measure global exposure. For the purposes of this disclosure, leverage is the investment exposure gained through the use of FDIs. It is calculated using the sum of the notional values of all the FDI held by the relevant Fund, without netting, and is expressed as a percentage of the NAV.

Disclosed in the table below is the level of leverage employed by each relevant Fund during the financial year ended 30 September 2020.

Fund	% Average leverage employed
BlackRock Euro Core Bond Fund	67
BlackRock Euro Government Bond Fund	45
BlackRock Tailored Market Advantage Fund	378

REPORT ON REMUNERATION (UNAUDITED)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive and will ensure compliance with the requirements of Article 14b of the Directive

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and all of its subsidiaries, including the Manager); and (b) the Manager's board of directors (the "Manager's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
 - BlackRock's executive compensation programmes;
 - BlackRock's employee benefit plans; and
 - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator.
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing and making reports and recommendations to the BlackRock, Inc. board of directors (the "BlackRock, Inc.
 Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and
 succession at the highest management levels; and
- Supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulation.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 8 meetings during 2019. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Manager's Board

The Manager's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

The Manager's Board (through independent review by the relevant control functions) remains satisfied with the implementation of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

REPORT ON REMUNERATION (UNAUDITED) (continued)

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established, and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of preincentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Manager.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance;
- discourage excessive risk-taking; andensure that client interests are not negatively impacted by remuneration awarded on a shortterm, mid-term and/or long-term basis.

REPORT ON REMUNERATION (UNAUDITED) (continued)

Link between pay and performance (continued)

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't predetermine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- · criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin¹ and Organic Revenue Growth². Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

¹As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

² Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

REPORT ON REMUNERATION (UNAUDITED) (continued)

Link between pay and performance (continued)

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- · new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- · revised regulatory direction.

Quantitative Remuneration Disclosure

The Manager is required under UCITS to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly for the Manager.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Manager to its staff which has been attributed to the Manager's UCITS-related business in respect of the Manager's financial year ending 31 December 2019 is EUR 7.7 million. This figure is comprised of fixed remuneration of EUR 3.4 million and variable remuneration of EUR 4.3 million. There was a total of 67 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager, which has been attributed to the Manager's UCITS-related business in respect of the Manager's financial year ending 31 December 2019, to its senior management was EUR 0.6 million, and to other members of its staff whose actions have a material impact on the risk profile of the Fund was EUR 7.1 million.

EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

Efficient portfolio management techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI and the prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC FDIs provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDI and at the identity of the counterparties to these FDIs at the financial year end are disclosed on the relevant Fund's schedule of investments.

Securities lending and total return swaps

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

All OTC FDIs and total return swaps are entered into by each Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and NAV and the value of total return swaps as a proportion of the Fund's NAV, as at 30 September 2020 and the income/returns earned for the year ended 30 September 2020. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

		Securities of	on Ioan	Total return	n swaps
					Total returns
		% of lendable			earned

BlackRock Japan Equity 1 Fund	JPY	36.16	36.68	_	_
BlackRock Tailored Market Advantage Fund	EUR	_	_	28.42	(4,097)

Income earned during the year by the Funds from securities lending transactions is disclosed in the Fund's notes to the financial statements.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. Each Fund receives at least 62.5% while securities lending agent receives up to 37.5% of such income with all operational costs borne out of the securities lending agent's share.

All returns and costs from total return swaps will accrue to each Fund's and are not subject to any returns or costs sharing arrangements with the Fund's Manager or any other third parties

The following table details the value of securities on loan (individually identified in the relevant Fund's schedule of investments), analysed by counterparty as at 30 September 2020.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

Safekeeping of collateral received

As at 30 September 2020, all non-cash collateral received by each Fund in respect of securities lending transactions and OTC FDIs (including total return swaps) transactions were all held by J.P. Morgan Bank (Ireland) plc (or through its delegates).

No securities collateral received from a single issuer, in relation to efficient portfolio management and OTC FDIs, has exceeded 20% of any of the respective Fund's NAV at the year end date.

None of the Funds have been fully collateralised in securities issued or guaranteed by an EU member state at the year end date.

Disclaimers

Disclaimer for Reference to Benchmark Index and Index Provider Website

In accordance with Central Bank requirements, the Entity and the BlackRock Europe Equity 1 Fund and BlackRock Japan Equity 1 Fund ("Index Funds") are required to provide details of the relevant index provider's website ("Website") to enable shareholders to obtain further details of the relevant Index Fund's Benchmark Index (including the index constituents). The Entity and the Index Funds have no responsibility for each Website and are not involved in any way in sponsoring, endorsing or otherwise involved in the establishment or maintenance of each Website or the contents thereof. Furthermore, the Entity and the Index Funds have no responsibility for the index provider's Benchmark Index nor for the quality, accuracy or completeness of data in respect of their Benchmark Indices nor that the published indices will be managed in line with their described index methodologies.

MSCI Indices ("MSCI Indices")

The BlackRock Japan Equity 1 Fund and the BlackRock Europe Equity 1 Fund (hereinafter, the "Funds") are not sponsored, endorsed, sold or promoted by Morgan Stanley Capital International Inc. ("MCSI"), any of its affiliates, any of its information providers or any other third party involved in, or related to, compiling, computing or creating any MSCI Index (collectively the "MCSI Parties"). The MCSI Indexes are the exclusive property of MSCI. MSCI and the MCSI Index names are service mark(s) of MSCI or its affiliates and have been licensed for use for certain purposes by BlackRock or its affiliates. None of the MSCI parties makes any representation or warranty, express or implied, to the issuer or owners of this Fund/account or any other person or entity regarding the advisability of investing in Funds generally or in the Funds particularly or the ability of any MCSI Index to track corresponding stock market performance. MSCI or its affiliates are the licensors of certain trademarks, service marks and trade names and of the MSCI Indexes which are determined, composed and calculated by MSCI without regard to the Funds or the issuer or owners of the Funds or any other person or entity into consideration in determining, composing or calculating the MSCI Indexes. None of the MSCI parties is responsible for or has participated in the determination of the timing of, prices at, or quantities of the Funds to be issued or in the determination or calculation of the equation by or the consideration into which the Funds are redeemable. Further, none of the MSCI parties has any obligation or liability to the issuer or owners of the Funds or any other person or entity in connection with the administration, marketing or offering of the Funds.

Although MSCI shall obtain information for inclusion in or for use in the calculation of the MSCI Indexes from sources that MSCI considers reliable, none of the MSCI Parties warrants or guarantees the originality, accuracy and/or the completeness of any MSCI Index or any data included therein. None of the MSCI parties make any warranty, express or implied, as to the results to be obtained by the issuer of the Funds, owners of the Funds, or any other person or entity, from the use of the MSCI Index or any data included therein. None of the MSCI parties shall have any liability for any errors, omissions or interruptions of or in connection with any MSCI Index or any data included therein. Further, none of the MSCI parties makes any express or implied warranties of any kind, and the MSCI parties hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to each MSCI Index and any data included therein. Without limiting any of the foregoing, in no event shall any of the MSCI parties have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

No purchaser, seller, owner or holder of this security, account, product or fund, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote this security, account product or fund without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.
