BlackRock Authorised Contractual Scheme I

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 30-Nov-2024. All other data as at 18-Dec-2024.

This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme (a form of investment fund constituted by contract). As a consequence of this, the Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund's prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund.
- The aim of the Fund is to provide exposure to companies within the FTSE Developed Asia ex Japan Index (Index) that is managed using the environmental, social and governance (ESG) criteria of the Investment Manager. These criteria are to 1) have no exposure or a reduced exposure (relative to the Index) to certain business activities for ESG related reasons, 2) reduce its overall carbon emission intensity over time relative to the Index, c) have a higher percentage (relative to the Index) of its revenues classified as green revenues; and d) maximise exposure to companies with higher BSI Intel scores (relative to the Index) (each as further described below). It aims to achieve these ESG related aims whilst also balancing the return and risk profile of the Fund to be similar to the Index. The Fund seeks to provide a gross return on your investment (generated through the value of the assets held by the Fund and/or income received from those assets) and maintain a risk profile (i.e. an evaluation of the risks (e.g. risk of losses) associated with the portfolio) that (in each case) is similar to that of the Index.
- Although the Fund aims to achieve its investment objective, there is no guarantee that this will be achieved. The Fund's capital is at risk, meaning that the Fund could suffer a decrease in value and the value of your investment could decrease as a result.

RISK INDICATOR

Lower Risk

Potentially Lower Rewards

Higher Risk

Potentially Higher Rewards

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
- Tax treatment of Fund: The tax treatment of this fund structure is so far untested which could lead to adverse tax consequences for the investor. Changes to the tax status of the Fund could lead to taxation being due.
