FUND OVERVIEW

- The Fund aims to achieve long-term capital growth on the Fund's assets.
- The Fund invests at least 80% of its total assets in a portfolio of equity securities (e.g. shares) of companies domiciled in, or exercising the predominant part of their activity in, or from, the People's Republic of China (PRC) and whose goods and services seek to address the PRC's social and environmental problems.
- The Fund invests in "impact" investments which are those made with the intention to generate positive, measurable social and/or environmental impact alongside a financial return. The Fund's total assets will be invested in accordance with the Environmental Social and Governance (ESG) Policy described in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at www.blackrock.com/baselinescreens

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The Fund may invest in China A-Shares via the Shanghai-Hong Kong Stock Connect which may expose the Fund to additional risks including quota limitations, uncertainty around the legal and regulatory framework, restrictions on selling in certain circumstances and clearing, settlement and custody risk which may expose the Fund to financial loss.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
