This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund) over the long term (5 or more consecutive years beginning at the point of investment).
- The Fund invests at least 70% of its total assets in the equity securities (e.g. shares) of smaller companies incorporated, or listed on developed markets globally which the investment adviser ("IA") considers to have above average growth prospects. Smaller companies are those whose market capitalisations are similar to that of companies in the MSCI World Small Cap Index (the "Index") at the time of the Fund's investment. The market capitalisation of a company is the share price of the company multiplied by the number of shares issued.
- The Fund has the flexibility to invest outside of the asset class set out above. The Fund may continue to hold companies that grow beyond the status of a smaller company should the Investment Manager deem such holdings to be in the best interest of investors.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
