

BlackRock Solutions Fund ICAV – Coutts North America ESG Insights Equity Fund Class C Hedged British Pound BlackRock Solutions Funds ICAV

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 31-Dec-2024. All other data as at 09-Jan-2025.

This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund aims to achieve a total return on your investment, through a combination of capital growth and income on its assets, while seeking to maximise the opportunities and minimise the potential risks associated with certain environmental, social and governance (ESG) themes and considerations.
- The Fund seeks to achieve this by investing in equity securities (i.e. shares) of companies within the MSCI North America ESG Screened Select Index (Index) and instruments related thereto, including financial derivative instruments (FDIs) (i.e. investments whose prices are based on one or more underlying assets). The MSCI North America Index (Parent Index) measures the performance of large and mid-capitalisation stocks of the North America equity market. The Index aims to reflect a sub-set of equity securities within the Parent Index which remain after the index provider has excluded securities using pre-defined ESG screens. The Fund may also invest in deposits and cash.
- The Fund invests in accordance with its ESG Policy as disclosed in the prospectus.

RISK INDICATOR

Lower Risk

Potentially Lower Rewards

Higher Risk

Potentially Higher Rewards

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provide. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
