BlackRock Funds I ICAV

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 31-Dec-2024. All other data as at 13-Jan-2025.

This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund aims to achieve a total return on your investment through a combination of capital growth and income on the Fund's assets, in a manner consistent with "ESG" focused investing.
- The Fund has a flexible approach to asset allocation and will seek to gain exposure across a variety of asset classes. In order to achieve its objective the Fund will invest globally in equity securities (e.g. shares), equity-related securities, fixed income (FI) securities (e.g. bonds), FI-related securities, money market instruments (MMIs) (e.g. debt instruments with short-term maturities), asset backed securities (ABS) and mortgage-backed securities (MBS) (i.e. financial securities backed by cash flows from debt), deposits, cash and other funds (including exchange traded funds). The FI securities and MMIs may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) globally and may include investments with a relatively low credit rating or which are unrated. The Fund may take long, synthetic long and synthetic short exposures. The Fund may have exposure to both developed and emerging markets, however, no more than 20% of the Fund's assets shall be invested in securities issued by issuers established in emerging markets.
- In order to determine long and short exposures, the investment manager (IM) will use quantitative (i.e. mathematical or statistical) models to score and rank securities broadly according to three categories: fundamental information about the issuer of a security (e.g. financial reports), market sentiment towards the security and comparison of the its market price with its intrinsic value. The lowest-scoring securities are then further analysed by the IM for exclusion from the Fund's portfolio.

RISK INDICATOR

Lower Risk

Potentially Lower Rewards

Higher Risk

Potentially Higher Rewards

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Changes to interest rates, credit risk and/or issuer defaults will have a significant impact on the performance of fixed income securities. Non-investment grade fixed income securities can be more sensitive to changes in these risks than higher rated fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
- Asset backed securities and mortgage backed securities are subject to the same risks described for fixed income securities. These instruments may be subject to 'Liquidity Risk', have high levels of borrowing and may not fully reflect the value of underlying assets.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- The Fund uses quantitative models in order to make investment decisions. As market dynamics shift over time, a quantitative model may become less efficient or may even present deficiencies under certain market conditions.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.

KEY FACTS

BlackRock®

GLOSSARY

SFDR Classification: Article 8: Products that promote environmental or social characteristics and promote good governance practices.

Article 9: Products that have sustainable investments as an objective and follow good governance practices. **Other:** Products that do not meet the criteria to be classified as Article 8 or 9.

Yield to Maturity: Yield to Maturity (YTM) is the discount rate that equates the present value of bond's cash flows with its market price (including accrued interest). The fund YTM is the weighted average of fund's individual bond holding YTM's based upon Net Asset Value ('NAV'). The measure does not include fees and expenses. For callable bonds, YTM is the Yield-to-Worst.

Effective Duration: Effective duration is a measure of a fund's interest-rate sensitivity. Put simply, the longer a fund's duration, the more sensitive the fund is to shifts in interest rates. So a fund with a duration of 10 years is twice as volatile as a fund with a five-year duration.

IMPORTANT INFORMATION:

In the UK and Non-European Economic Area (EEA) countries: this is issued by BlackRock Investment Management (UK) Limited, authorised and regulated by the Financial Conduct Authority. Registered office: 12 Throgmorton Avenue, London, EC2N 2DL. Tel: + 44 (0)20 7743 3000. Registered in England and Wales No. 02020394. For your protection telephone calls are usually recorded. Please refer to the Financial Conduct Authority website for a list of authorised activities conducted by BlackRock.

BlackRock Funds I ICAV: Fund name is a sub fund of the BlackRock Funds I ICAV (the 'Fund'). The Fund is structured as a unit trust organised under the laws of Ireland and authorised by the Central Bank of Ireland as UCITS for the purposes of UCITS Regulations. Investment in the sub-fund(s) is only open to 'Qualified Holders', as defined in the relevant Fund Prospectus. In the UK any decision to invest must be based solely on the information contained in the Company's Prospectus, Key Investor Information Document (KIID) and the latest half-yearly report and unaudited accounts and/or annual report and audited accounts, and in EEA and Switzerland any decision to invest must be based solely on the information contained in the Company's Prospectus, the most recent financial reports and the Packaged Retail and Insurance-based Investment Products Key Information Document (PRIIPs KID) and the latest half-yearly report and unaudited accounts and/or annual report and audited accounts which are available in registered jurisdictions and local language where they are registered, these can be found at www.blackrock.com on the relevant product pages. Investors should understand all characteristics of the funds objective before investing, if applicable this includes sustainable disclosures and sustainable related characteristics of the fund as found in the prospectus, which can be found www.blackrock.com on the relevant product pages for where the fund is registered for sale. Prospectuses, Key Investor Information Documents, PRIIPs KID and application forms may not be available to investors in certain jurisdictions where the Fund in question has not been authorised. BlackRock may terminate marketing at any time. For information on investor rights and how to raise complaints please go to <https://www.blackrock.com/corporate/compliance/investor-right> available in local language in registered jurisdictions.
