EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS

Efficient portfolio management techniques

The Entity may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Entity and the Entity (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the CBI.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund's schedule of investments.

Reverse repurchase transactions

All reverse repurchase transactions are entered into by each Fund with a counterparty under a Global Master Repurchase Agreement ("GMRA") or a Master Repurchase Agreement ("MRA"). All collateral received/posted by each Fund under the GMRA or the MRA is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary.

The following table details the reverse repurchase transactions as a proportion of each Fund's NAV, as at 31 December 2024 and the income/returns earned for the period ended 31 December 2024.

Fund name	Currency	Reverse repurchase transactions	
		% of NAV	Total returns earned '000
iShares EUR Cash UCITS ETF	EUR	24.92	150

All returns and costs from reverse repurchase transactions will accrue to each Fund and are not subject to any returns or costs sharing arrangements with the Fund's Manager or any other third parties.

Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

Income earned during the period by the Funds from securities lending transactions is disclosed in the related parties section.

All revenue generated from securities lending activities during the financial period net of the Securities Lending Agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated, the Securities Lending Agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the Securities Lending Agent, the Securities Lending Agent will discharge any excess amounts out of its own assets.

Total return swaps

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by iShares Emerging Markets Equity Enhanced Active UCITS ETF, iShares Global Real Estate Environmental Tilt UCITS ETF, iShares MSCI Pacific ex-Japan ESG Enhanced UCITS ETF, iShares S&P SmallCap 600 UCITS ETF, iShares U.S. Equity High Income UCITS ETF and iShares World Equity High Income UCITS ETF under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund's Depository. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 31 December 2024 and the income/returns earned for the period ended 31 December 2024. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

Fund name	Currency	% of NAV	Total returns earned '000
iShares Emerging Markets Equity Enhanced Active UCITS ETF	USD	3.32	(95)
iShares Global Real Estate Environmental Tilt UCITS ETF	USD	0.08	2
iShares MSCI Pacific ex-Japan ESG Enhanced UCITS ETF	USD	0.25	2

iShares U.S. Equity High Income UCITS ETF	USD	8.67	85
iShares World Equity High Income UCITS ETF	USD	7.32	203

All returns and costs from total return swaps will accrue to each Fund's and are not subject to any returns or costs sharing arrangements with the Fund's Manager or any other third parties.
