A sub-fund of 1895 Fonds FGR

Class D Distributing EUR

ISIN: NL0014270340

Manager: BlackRock Asset Management Ireland Limited

## Objectives and Investment Policy

- ▶ The Fund seeks to provide a total return over a period of at least 5 years whilst also seeking to outperform the MSCI All Country World Index EUR (the "Index"). The Fund also seeks to invest in a manner consistent with the principles of environmental, social and governance ("ESG") investing.
- ▶ The Fund will invest at least 80% of its total assets in equity securities (i.e. shares) and equity-related investments (i.e. other investments whose value is related to equities) of companies worldwide in accordance with its ESG Policy.
- ▶ The Fund will also aim to reflect the performance characteristics of equity securities which are selected and weighted by the Investment Manager ("IM") on account of their higher aggregate exposure to certain 'style' factors. Companies are preferred based on (i) Momentum; (ii) Low Volatility; (iii) Quality; (iv) Value; and (v) Size as further disclosed in the prospectus.
- ▶ The Fund may also invest in collective investment schemes (i.e. other investment funds which may be associated with the IM), derivatives, cash and money market instruments (i.e. debt securities with short-term maturities). Through these asset classes, the Fund may obtain indirect exposure to issuers that are inconsistent with its ESG Policy.
- ▶ The IM may invest the Funds' assets in accordance with its ESG Policy as disclosed in the prospectus and the BlackRock website at: <https://www.blackrock.com/nl/particuliere-beleggers/literature/prospectus/1895-fonds-fgr-esg-policy.pdf>.
- ▶ The Fund is actively managed and the IM has discretion to select the Fund's investments.
- ▶ The IM may use derivatives to help achieve the Fund's investment objective, as well as to seek to reduce risk (relative to the investment objective) within the Fund's portfolio, reduce investment costs and generate additional income. The use of derivatives is expected to be limited.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be distributing units (i.e. dividend income will be paid semi-annually).
- ▶ Your units will be denominated in Euro, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is €50,000,000.

## Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
  - Multifactor funds employ a management approach using style factors which may have an unpredictable impact on a fund's ability to achieve its investment objective. Investors should consider this Fund as part of a broader investment strategy.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
