### Asian Multi-Asset Income Fund

A sub-fund of BlackRock Global Funds

Class A6 AUD Hedged

ISIN: LU2649132508

Management Company: BlackRock (Luxembourg) S.A.

## Objectives and Investment Policy

- ▶ The Fund aims to provide a return on your investment through a combination of capital growth and income on the Fund's assets.
- ▶ The Fund invests at least 70% of its total assets, directly and indirectly through permitted investments, in the equity securities (i.e. shares) and fixed income securities (e.g. bonds) of issuers and companies domiciled in, or exercising the predominant part of their economic activity in, Asia, excluding Japan.
- ▶ The Fund may invest in the full range of assets in which a UCITS may invest with a bias towards income-generating assets, including equity securities, fixed income securities, funds, financial derivative instruments (FDI), cash, deposits and money market instruments (i.e. debt securities with short term maturities) of issuers and companies domiciled in, or exercising the predominant part of their economic activity in, Asia, excluding Japan.
- ▶ The Fund is actively managed and the asset classes and the extent to which the Fund is invested in these may vary without limit depending on market conditions and other factors at the investment adviser's (IA) discretion. In selecting these, the IA may take into consideration a composite benchmark comprising the MSCI Asia ex Japan Index (50%), the JP Morgan Asia Credit Index (25%) and the Markit iBoxx ALBI Index (25%) (the "Index") for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Index) taken by the Fund remains appropriate given the Fund's investment objective and policy. Whilst the Index is used by the IA in constructing the portfolio of the Fund, the IA is not bound by it and the Fund's portfolio holdings may therefore deviate significantly from the Index. The components of the Index (i.e. MSCI Asia ex Japan Index (50%), the JP Morgan Asia Credit Index (25%) and the Markit iBoxx ALBI Index) may be quoted separately in marketing material related to the Fund.
- ▶ The Fund's investments may be issued by governments, government agencies, companies and supnationals (e.g. the International Bank for Reconstruction and Development). These may include securities with a relatively low credit rating or which are unrated.
- ▶ The assets held by the Fund may be denominated in a wide variety of currencies.
- ▶ The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be distributing. The amount of dividend income payable on the shares will be determined by a dedicated committee appointed by the Directors of the Fund, which will aim to pay stable dividend income monthly, although this is not guaranteed. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.
- ▶ The Fund's base currency is US Dollar. Shares for this class are bought and sold in Australian Dollar. The performance of your shares may be affected by this currency difference.
- ▶ Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$5,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

## Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 October 2024. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	1.68%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

## Past Performance

Past performance is not a guide to future performance.

The Fund was launched in 2016. The share class was launched in 2023.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

This chart has been left intentionally blank as there is less than one year's performance data.

## Practical Information

- ▶ The depositary of the Fund is The Bank of New York Mellon SA / NV, Luxembourg Branch.
