

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Sustainable Asian Bond Fund

A sub-fund of BlackRock Global Funds

Class I2 USD

ISIN: LU2267099591

Management Company: BlackRock (Luxembourg) S.A.

## Objectives and Investment Policy

- ▶ The Fund aims to achieve an above-average income on your investment, without sacrificing long-term capital growth, over a rolling three-year period, by seeking diversified income sources across a variety of fixed income transferable securities, in a manner consistent with the principles of sustainable and environmental, social and governance (ESG) focused investing.
- ▶ The Fund invests at least 70% of its total assets in fixed income securities issued by governments, and government agencies of, and companies domiciled in, or the main business of which is in, Asia. These may include bonds, money market instruments (i.e. debt securities with short term maturities) and investments with a relatively low credit rating or which are unrated.
- ▶ The Fund's total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at <https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf>
- ▶ The Fund will seek to have a carbon emissions intensity score that is 30% lower than the J.P. Morgan Asia Credit Index.
- ▶ The Fund may obtain indirect exposure (through, including but not limited to, financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities which may not satisfy these ESG criteria.
- ▶ The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective and to reduce risk within the Fund's portfolio. The Fund may, via FDIs, generate market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ The Fund is actively managed and the IA has discretion to select the Fund's investments. In doing so the IA will refer to the J.P. Morgan ESG Asia Credit Index (the "Index") when constructing the Fund's portfolio, and also for performance comparison and risk management purposes as further described in the prospectus. The IA is not bound by the components or weighting of the Index and may also use its discretion to invest in securities not included in the Index. However the geographical scope of the investment objective and policy may limit the extent to which the portfolio holdings will deviate from the Index.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be non-distributing (i.e. dividend income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$10,000,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

## Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Changes to interest rates, credit risk and/or issuer defaults will have a significant impact on the performance of fixed income securities. Non-investment grade fixed income securities can be more sensitive to changes in these risks than higher rated fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.

- Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- Active management of currency exposure through derivatives may make the Fund more sensitive to changes in foreign exchange rates. If the currency exposures against which the Fund is hedged appreciates investors may not benefit from such appreciation.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2024. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	0.58%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

## Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in USD for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2020. The share class was launched in 2020.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†J.P. Morgan ESG Asia Credit Index (USD)

Historic performance to 31 December 2024

## Practical Information

- ▶ The depositary of the Fund is The Bank of New York Mellon SA / NV, Luxembourg Branch.
- ▶ Further information about the Fund can be obtained from the latest annual and half-yearly reports of the BlackRock Global Funds (BGF). These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as share prices, on the BlackRock website at [www.blackrock.com](http://www.blackrock.com) or by calling the International Investor Servicing team on +44 (0) 20 7743 3300.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ The Fund is a sub-fund of BGF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ BGF may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ Under Luxembourg law, BGF has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within BGF). In addition, the Fund's assets are held separately from the assets of other sub-funds.
- ▶ Investors may switch their shares in the Fund for shares in another sub-fund within BGF, subject to meeting certain conditions as set out in the prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at [www.blackrock.com/Remunerationpolicy](http://www.blackrock.com/Remunerationpolicy) or on request from the registered office of the Management Company.
