BlackRock Cash Fund

Class X Accumulating GBP

ISIN: GB00BVD5YG2 1

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- ▶ The Fund aims to achieve a rate of interest on your investment (i.e. a return), consistent with maintaining capital and ensuring that its underlying assets can easily be bought or sold in the market (in normal market conditions).
- ▶ The Fund invests in cash and money-market instruments (i.e. debt securities with short term maturities) and up to 10% in units in collective investment schemes (i.e. other investment funds which may be Associated Funds and are specifically classified as Short Term Money Market Funds) denominated in Sterling.
- ▶ The money-market instruments will be issued by both UK and non-UK governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) and may be investment grade (i.e. meet a specified level of credit worthiness), non-investment grade or unrated at the time of purchase.
- ▶ The Fund is actively managed and the investment adviser has discretion to select the Fund's investments and it is not constrained by any benchmark in this process. Sterling Overnight Index Average Rate (SONIA) should be used by unitholders to compare the performance of the Fund.
- ▶ The Fund is a "Short Term Variable NAV Money Market Fund" as defined by the EU Money Market Funds Regulation.
- ▶ The investments of the Fund are valued using the mark-to-market method where possible, and if not, the mark to model method is used. The net asset value (NAV) is calculated to four decimal places and forms the dealing NAV.
- ▶ Recommendation: This Fund may not be suitable for investors who seek long-term capital growth.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £10,000,000.

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
 - ▶ The risk category shown is not guaranteed and may change over time.
 - ▶ The lowest category does not mean risk free.
 - ▶ The Fund is rated one due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
- Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
 - Short Term Money Market Funds do not generally experience extreme price variations. Changes in interest rates will impact the Fund.
- ▶ Particular risks not adequately captured by the risk indicator include:
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2024. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** (i) To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges. (ii) Holders in this unit class may be subject to additional periodic charges outside of the Fund by way of separate agreement with BlackRock.
