A sub-fund of iShares IV plc

USD Dist

ISIN: IE0004OXDQ6

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund aims to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the MSCI USA Leaders Select Index (“index”)
- ▶ The Share Class, via the Fund is passively managed and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index measures the performance of a sub-set of equity securities within the MSCI USA Index (“Parent Index”) which are issued by large and mid-capitalisation companies within the United States with higher ESG performance than other sector peers within the Parent Index, and excludes issuers from the Parent Index based on the index provider’s exclusionary and rating based criteria. Companies involved in certain business lines/ activities are excluded, as outlined in the Fund’s Prospectus.
- ▶ The remaining companies are rated by the index provider based on their ability to manage their ESG risks and opportunities and are given a MSCI ESG rating (“MSCI ESG Rating”) which determines their eligibility for inclusion. Companies which are identified by MSCI as being involved in controversies that have an ESG impact on their operations and/or products and services are excluded based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).
- ▶ The Index targets 50% cumulative coverage of the free float adjusted market capitalisation of each Global Industry Classification Standard (“GICS”) sector within the Parent Index (“Target Representation”). Companies are ranked for sector inclusion based on criteria such as MSCI ESG Rating, current index membership, industry-adjusted ESG scores, and market capitalisation, in that order. Selections are made from this ranked list to meet the Target Representation.
- ▶ The Index includes companies contributing positively to the environment or society, or those with carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).
- ▶ The Index rebalances on an annual basis with quarterly reweights. Companies may be removed from the Index between rebalances due to their MSCI ESG Controversy Score, or violation of United Nations Global Compact principles.
- ▶ The Fund will adopt a best-in-class approach to sustainable investing. This means that it is expected that the Fund will invest in the best issuers from an ESG perspective within each relevant sector of activities covered by the Index.
- ▶ The Fund intends to replicate the Index by holding the securities, which make up the Index, in similar proportions to it.
- ▶ The investment manager may use financial derivative instruments (“FDIs”)(i.e. investments the prices of which are based on one or more underlying assets) for direct investment purposes to produce a similar return to its Index.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Your shares will be distributing shares (i.e. income will be paid on the shares semi-annually).
- ▶ Your shares will be denominated in US Dollar, the Fund’s base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund’s investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
